Four Children Placed Out.

The Children's Aid Society placed out four children in families on Saturday last—two boys and two girls. Three of the children have been sent out of town, and the fourth remains in Peterborough.

The Dinner

Is always the centre of attraction. Housekeepers plan to have the bill of fare extra nice; but the surest way to have it pass off right is to draw on John J. Howden's meat market for your beef and other meats. 'Phone 39.

Do it Right.

To make the polling booths all that they ought to be, the Finance Committee should order Persian rugs, perfume fountains, potted plants and cut flowers for each one and present every lady voter with a box of bon bons and a cup of hot bouillon. There is nothing like doing things up to the nines while you are about it, the Hamilton Herald thinks.

A Band Concert.

The S.O.E. band concert to be held in the Sons of England Hall, on Hunter street, Tuesday evening, Dec. 12th, promises to be one of the brightest and most entertaining events of the season. The admission is only 15 cents. At the close of concert refreshments will be served and a social hour indulged in. 2d

Appointed Appraisers.

Messrs. Wm. Langford and Thos. Rutherford have been appointed appraisers of the loss by fire on Saturday morning at the residence of Mr. James Loudon. The statement that Mr. Loudon was burned out two years ago is incorrect. It is ten years since he was visited by fire before. The insurance is carried in the Guardian and Royal Insurance Companies.

Selling Liquor on Sunday.

Martin Connors was before the Police Magistrate this morning charged with selling liquor on Sunday, Dec. 1st. Alexander Ralph swore that he obtained three glasses of beer on that date from Connors personally. Connors and his bartender, Harry Cavanaugh, both swore positively that the bar had not been open on Sunday and the charge was dismissed. Mr. W. H. Moore appeared for the defense.

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

A Cat's Paw.

There was only a fair sized audience at the Opera House Saturday night to witness the second production of Max O'Rell's sun-saturated comedy, "A Cat's Paw." Mr. Samuel Edwards and his excellent company put on the comedy in first-class style. There is little plot in the play, but what is lacking in plot is made up by the effervescent fun that bubbles out through the whole of every act. The humour is spontaneous and sparkling and so presented by the artists of the company as to seem a perfectly natural outcome of the circumstances. While Samuel Edwards was the centre of the fun he did not, by any means, monopolize the honours—every member of the company was quite up to concert pitch, and the consequence was a magnificent evening of clean, crisp fun without coarseness, and comic situations without horse play.

COUNTY COURT.

It Will Go into Session To-Morrow—Two Civil Cases Coming Up.

The County Court opens to-morrow with but two cases on the list, and both of these are classed as civil suits.

Walsh vs. The George Matthews Company (Ltd.) is a case in which John Walsh, a cattle dealer, seeks to recover $139.32 due him, he claims, as a balance on a number of deals which he has had with the company, and which he enumerates. The Matthews Company claim that only $94 is due Walsh, and have paid this amount into court.

John Burnham, Q.C., appears for pltf.; and E. B. Edwards for deft.

Blaine vs. The Peterborough Navigation Company is a case in which the plaintiff, James W. Blaine sues to recover $199.45 due him, he states, for meals furnished the crew of the steamer "City of Peterborough" when he was acting in the capacity of steward or caterer on the boat last summer.

In their statement of defence the company state that it was agreed that Blaine should pay $150.00 for the privilege of catering to the patrons of the boat during the summer, and that his claim is liquidated by this sum, together with certain amounts paid into court by the defendants on judgments obtained against the plaintiff by creditors of his.

Dennistoun & Stevenson appear for the plaintiff, and Hatton & Wood for the defendant.

COUNTY NOTES.

The joint committee of the County of Peterborough and the Counties of Northumberland and Durham met at the Court House, Peterborough, on Saturday, and adopted County Engineer Belcher's report, accepted Wallace Point Bridge and adjusted the accounts.

The joint committee of the Town and County agreed that the town should pay $20 and the county $20 to Mrs. John Pollock, Otonabee, for damage to a buggy on the Hunter street bridge, which occurred some months ago, by the wheel of the buggy dropping through at the side. Repairs have since been made to the bridge, by which a similar accident is prevented from occurring. Mr. G. M. Roger acted for Mrs. Pollock.

The Property Committee of the County Council have recommended the payment of $45 for extra work on the swing bridge at the Locks.

ELECTED OFFICERS.

Teachers and Officers of the Park Street Baptist Sunday School Meet.

On Thursday evening last the officers and teachers of the Park street Baptist Sunday school held their annual meeting.

From the reports presented, the school was shown to be in a very prosperous condition, and steadily advancing in membership and usefulness. There are now over 200 scholars on the roll. The following officers were elected:

Supt.—Miss M. Mann.
Secretary—Geo. Benton, jr.
Assist.-Secretary—Herbert Martin.
Librarian—A. L. Grover.
Assistant Librarian—Lillie Miller.

Hymeneal.

The Minden Echo makes the following comment on a wedding, an account of which appeared in last week's EXAMINER: "We have just heard that Mr. Wm. Steinkrauss, of the Township of Lutterworth, was married on Tuesday last in the township of Monaghan, in the county of Peterborough, to Miss Donaldson, daughter of one of the best farmers in that prosperous township. We most heartily congratulate the young people on the occasion, and hope their honeymoon happiness may last until old age overtakes them. As a prosperous farmer Mr. Steinkrauss ranks with the most successful of the young men of this county. He is honest, openhearted and manly, his standing among his neighbours was shown by his election to the municipal council last season at the head of the poll. In church circles he is an energetic worker and fills the position of People's Warden in St. Paul's church, Minden. The young lady is spoken of in the highest terms by those who have the pleasure of her acquaintance. We again wish them long life and happiness."

Just a Year Ago.

We started in business in Peterborough just a year ago, and when we remember the pleasant associations, the cordial support and the extreme patronage so freely bestowed upon us by the good citizens of this go-ahead town, we cannot help returning our heartfelt thanks.

The occasion calls forth our gratitude to all our numerous patrons for favours already bestowed; and as the happy season of "good-will to men" approaches, we hope to be able not only to cater to their present holiday wants, but to merit a continuance of their favours in the year to come.

In expectation of a rousing trade during the short period that intervenes between now and Christmas, we have just received a car load of new fruit. It consists of new Almerina grapes, Jamaica and Valentia oranges, Messina lemons, Hallowee dates, nectarines, apricots, new walnuts, almonds and filberts, and very fancy and choice pears and peaches. Lemons, 3 doz for 25c.

Another car load of new fruit ordered.

HOCKEY.

On Saturday afternoon when the annual parliament of the Ontario Hockey Association was convened at the Queen's Hotel nearly 50 delegates were present, representing about 20 clubs, an increase over the last yearly gathering of 30 delegates. Last season there was an appreciable decrease in the interest taken in the game in Toronto, which could be ascribed to the lack of a first-class representative city team, but legislation towards the formation of such a seven was enacted by the hockeyists on Saturday, both the local and outside delegates combining in furthering the scheme.

Many telling arguments were used by Vice-President McFadden in favour of establishing an intermediate series, which would embrace all the clubs that have proved themselves to be too strong for the junior and to weak for the senior, but it was thought by a goodly proportion of the members that the time was hardly ripe enough for so radical a change, and the matter was left in abeyance.

When President C. A. B. Brown called the meeting to order Secretary Tiffin occupied the table at his right hand, and these delegates were present—Petrolia, G. Moncrief, J. B. Noble; Limestones, Kingston, S. Storey, E. G. Gears; Trinity University, E. S. Senkler, H. Southam; Volts, Peterborough, L. Becher, R. Meredith; Granites, J. Bain, F. Somerville; Varsity, F. H. Scott, H. M. Little; London, H. C. Beecher, J. G. McDougall; Victoria, C. H. Good, A. E. Whitely; Victoria Colts, W. J. Morrison, F. A. Wilson; Toronto Athletic Club, P. C. Stevenson, R. W. P. Matthews; Guelph, E. A. Kemp, A. W. G. Langtry; Sarnia, E. Buck, H. M. Nelles; Queen's University, A. H. Beeton, A. B. Fox; Peterborough, H. R. H. Kenner, W. Phelan; Lindsay, F. Shannon, W. Rich; Victorias, Kingston, J. S. Rowland, J. E. Kerrigan; Wellingtons, Toronto, C. F. Hill, E. P. Brown; Berlin, F. Anderson; Norwood, F. W. Archer. Beaming benignantly on the common mortals were these officers of the association:—Vice-Presidents J. A. MacFadden, Stratford; W. A. Gilmour, Osgoode Hall; Treasurer, A. Creelman, Toronto; Committee—A. F. R. Martin, Osgoode Hall; A. F. Barr, Toronto University; J. D. McMurrich, Trinity University; G. J. Hopkins, Peterborough; W. B. Laidlaw, London; G. F. Macdonnell, Queen's University.

The first business transacted was the admittance of Norwood, Lindsay and the Victorias of Kingston to the full privileges of the association. The latter club takes the place vacated by the Athletics, but does not assume their liabilities, President Brown, in opening proceedings, spoke glowingly of the progress of the association, which he thought was largely due to the efforts of the energetic secretary, though all the officers were not disposed to spare themselves if anything that could conduce to the well being of the association was to be done. The large attendance spoke well for the future of the game, he thought. The sub committee's report, which was presented by A. F. R. Martin, expressed the opinion that the number of clubs in the senior series in Toronto and elsewhere was too great and the matches too many. It was pointed out that the Canadian Hockey Association is a five club league, and that a city the size of Ottawa was only allowed one team in the senior series.

The senior championship match was played in Toronto on February 21st, at the Mutual street rink, and was won by Queen's, who beat Trinity by 17 to 3.

The junior championship, the report went on, was played on February 22, at the Granite rink, the Peterborough team beating the Granite colts by a score of 8 to 7.

The new regulation as to playing colours was found very useful, and the 15-minute time rule was referred to as working very satisfactorily. The matches were, with few exceptions, started promptly on time, the referees being strictly enjoined to impose the $3 fine upon any club not ready to start within the 15-minute limit.

The matter of the Intermediate series was pretty well threshed out, but nothing definite was done, and is not likely to be until next year. If adopted the clubs would be disposed like this:—Senior series—Queen's, Varsity, T. A. C. Intermediate—Victoria, Stratford, Trinity, London, Peterborough, Limestones, Granite Colts, Ayr, Berlin, Hamilton. Junior series—Petrolea, Sarnia, Stratford II, London II, Guelph, Berlin, Wellington, Norwood, Lindsay, Victoria Colts, Volts Peterborough, T. A. C, II, Victoria, Kingston. Secretary Triffin is desirious that all clubs should forward their fees as soon as possible.

Treasurer A. R. Creelman's statement, a concise and business document, showed that the affairs of the association financially were all that could be desired, there being a balance of $191.49.

Mr. Macfadden wanted the rules altered so that a player could not play for more than one club during one season. This would shut out Bank League players from participation in the O.H.A. cup matches, and it seemed to be the general opinion that the league was the chief factor in the surfeit of hockey that Toronto had last year. After getting this expression Mr. Macfadden withdrew his motion. An endeavour will be made to get the city clubs together for the organization of a representative Toronto team fit to hold its own with Queen's or any of the other eastern clubs. An honorarium of $50 was granted Secretary Tiffin. The election of officers resulted in the return of the same except the committee, which is as follows:—A. F. R. Martin, Osgoode Hall; G. J. Hopkins, Peterborough; H. C. Becher, London; J. Bain, Granites; H. Southam, Trinity; A. H. Beeton, Queen's. A vote of thanks was passed to Mr. McGaw.

The Cobourg Hockey Club has elected these officers:

Hon. President—W. J. Crossen.
President—J. Stewart Skeaff.
Vice-President—A. Norman, B. A.
Secretary—Arthur B. Roberts.
Treasurer—Thomas Morrow.
Manager—Dr. Fairbanks.
Committee of Management—W. Delaney and Fred. M. Hawley.

THE TRIGGER.

That Peterborough can send out a first rate team of marksmen was proven on Thursday last when two loads drove out to the Cavanville turkey shoot and captured sixty-three out of the hundred and fifty birds awarded as prizes. The day was one to delight the heart of a sportsman, being clear and fine, and as the attendance at the shoot was unusually large the affair proved most successful indeed. Mr. Jack Clancy proved himself the crack shot of the day, winning no less than six birds, Alf. Jones won four. Mike Costello three, Mr. Lund two, Sid Martin two, and the rest of the party their fair share of the prizes.

After once a bird had been won its owner had to keep his eye on it as "swiping turkeys" was the order of the day. The Peterborough crowd held its own, however, and in some cases were able to do a little swiping on their own hook. On the return trip one of the sleighs upset and the majority of the sixty-three turkeys went flying in every direction, but everyone was recaptured.

THE WHEEL.

Harley Davidson and Sam Young have gone South. The trip is for the purpose of giving Davidson a chance to get the unpaced mile record, for which a Chicago firm have offered a $1,000 gold brick. The Brantford team's record-breaker feels sure that he will be able to lower the mark, which at present stands at 2.00 2-5. There is a bell attached to the front forks of Davidson's wheel which he expects will aid him a great deal. It works on the principle of a cyclometer and can be set so that it will ring when the rider is going at a two-minute clip or better. Davidson will do his work on the famous track at Louisville, Ky., where the American cracks have been riding for the records during the past couple of months.

CURLIANA.

A meeting of the skips of the Granite curling club will be held this evening in the rink at 8.30 p. m., for the purpose of selecting the members of the two tankard rinks.

Eastern Dairymen's Association.

On Jan. 8th, 9th and 10th next there will be held in Campbellford a meeting which is of deep interest to the farmers of this whole community. Some time ago at a meeting in Toronto the Eastern Dairymen's Association decided to hold their next meeting in Campbellford and accordingly it will take place on the above dates. The real importance of the meeting is not as well recognized as it should be. It is held for the purpose of discussing all subjects connected with cheesemaking, a subject of foremost importance to the farmers of this vicinity. Some of the leading authorities on cheesemaking on this continent will be there to address the convention including Prof. Robertson, Dairy Commissioner of Ottawa and one prominent dairyman, not yet decided upon, from the United States. A convention of such importance will attract many farmers and those up-to-date will avail to themselves the opportunity of attending. On the second day, the 9th, a banquet will be tendered the visitors by the town of Campbellford.

Bronchitis Can be Cured.

By aiding medication with increased nutrition. The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the gratest value.

ANNUAL TEA AND CONCERT.

A Decided Success — The House Crowded to the Doors—A Pleasing Programme.

The Auburn Sunday school held their annual tea and concert last Friday evening, Dec. 6th. It was a decided success. The church was crowded, quite a number not being able to obtain seats. The tables were set to accommodate about 50 at a time and they were filled nearly all the time from 6:30 to 8 p. m. The committee of ladies worked hard and served up in style all the good things in the way of eatibles, furnished by the friends of the school. Two of the past superintendents were present and addressed the school, Councillor Frank Mason and Mr. P. H. Green. The chair was taken at about 8 p. m. by the present superintendent, Mr. Geo. W. Powell, and the programme which lasted about one hour and a half was well rendered by the children and all who took part.

SMITH

Death of Mrs Robert Darling.

On Sunday Mrs. Robert Darling, widow of the late Robert Darling, passed away at the residence of her son-in-law, Mr. Wm. Paul, at the advanced age of 79 years. The deceased lady, whose maiden name was Bowman, was a native of England and came to reside in Smith over sixty years ago—in 1832. She has been a resident of the township since that time, with the exception of a few years passed in Peterborough. The deceased lady was twice married—the first time to the late Thomas Young, who has been dead many years, and the second time to the late Robert Darling, who died about fourteen years ago. Neither marriage was blessed with children; the deceased leaves two brothers and a sister living in western Canada. Mrs. Darling was a member of the Presbyterian church and was well respected in the community in which she lived.

The funeral takes place on Tuesday from the residence of Mr. Paul.

WEST RIDING FARMERS INSTITUTE.

Arranging for the Annual Meetings.

A meeting of the directors of the West Riding Farmers' Institute, was held at the Huffman House on Saturday afternoon. Present—Mr. J. Fred Davidson, president, in the chair, and Messrs. Jas. Davidson, Geo. E. Elliott, Dawson Kennedy, G. J. Galvin, John Stothart, G. Y. Payne and William Collins. In the absence of the secretary Mr. Payne performed his duties.

The meeting, after due deliberation, decided upon the subjects to be presented at the annual meetings to be held on Jan. 14th, at Lakefield, and on the 15th in Peterborough, and in the evening at North Monaghan.

The gentlemen who will address the meetings are Prof. J. Shuttleworth, chemist of the Ontario Agricultural College, Guelph, Mr. A. H. Pettitt, Grimsby, one of the most successful fruit growers of Ontario, and Mr. James McEwing, of Drayton, practical farmer.

The subjects will be announced in these columns later.

A $50 Dinner Set Free

Who will be the lucky person? A very handsome dinner set worth $50 will be given away free by Mr. John Armstrong, grocer, Hunter street, to the customer returning the greatest number of "Gold Dust" Soap wrappers during the sale of 500 bars of this superior soap. Another Store Enlargement.

Mr. Charles Legros, the live George St. Tobacco dealer has completed arrangements for enlarging his store to twice its usual size, which will necessitate his moving out of his present premises. And having ordered a lot of imported cigars and pipes before he had the intention, and they having come in, his stock will therefore have to be slaughtered. It is therefore necessary for him to clear out his large stock, valued at over $10,000 before moving. His goods consists of 10,000 Diaz y Garcia, 12,000 Manual Garcia, 5,000 Or Loranga, 3,000 Jose Morales, all direct imported cigars from Havanna, 100,000 Domestic cigars, besides the finest lot of B. B. B. pipes there is in Canada. Smoker's sundries too numerous to mention. Don't all come at once. The prices were never equalled in Peterborough before, or never will be again. Don't forget the number, 329 George street.

MISSIONARY SERMONS FOR PRESBYTERIANS.

REV. R. P. McKAY, HOME SECRETARY OF FOREIGN MISSIONS.

He Spoke in St. Paul's in the Morning and St. Andrew's in the Evening—The Cause of Foreign Missions Eloquently Pleaded.

Rev. R. P. McKay, of Toronto, Foreign Mission Secretary of the Presbyterian Church, preached in St. Paul's, yesterday morning, and in St. Andrews in the evening, in the interests of Foreign Missions. In the morning he took as his text the following verses of the second chapter of Luke:—

"Now his parents went to Jerusalem every year at the feast of the passover. And when he was twelve years old, they went up to Jerusalem after the custom of the feast. And when they had fulfilled the days, as they returned, the child Jesus tarried behind in Jerusalem; and Joseph and his mother knew not of it. But they, supposing him to have been in the company, went a day's journey; and they sought him among their kinsfolk and acquaintance. And when they found him not, they turned back again to Jerusalem, seeking him. And it came to pass, that after three days they found him in the temple, sitting in the midst of the doctors, both hearing them, and asking them questions. And all that heard him were astonished at his understanding and answers. And when they saw him, they were amazed; and his mother said unto him, Son, why hast thou thus dealt with us? behold, thy father and I have sought thee, sorrowing. And he said unto them, How is it that ye sought me? wist ye not that I must be about my Father's business?"

HE DWELT PARTICULARLY

on the last clause of the 49th verse, "Wist ye not that I must be about my father's business."

This, he said, is the first utterance we have from Jesus Christ. It is not the first word we have had of Christ, but it is the first word which is recorded. Here we have a solitary sentence, after a silence of 30 years. Interesting, too, for the reason that the first words of all great men are prophetic of what is to follow. "Wist ye not," said He, "that I must be about my father's business, and, continued the speaker, we all know well how he worked and gave his life to forward the projects which he came upon earth to accomplish—His father's business.

His first miracle was also prophetic of His mission—the turning of water into wine. Before His coming into the world life had lost all its

SWEETNESS AND STRENGTH,

and as with the turning of the water into wine, strength and sweetness were given it, so through His advent into the world strength and sweetness were restored to life.

In the utterance "Wist ye not that I must be about my father's business," He referred directly to His mission upon earth—His father's business.

He came into the world to seek and to save that which was lost. He came to die that we might live. His business, therefore, on earth was to save lost humanity. This, too, was the Father's business also, for did He not give up that which He loved most—His only Son, to redeem us. There has never been such a price paid before or since for anything known. As we speak of a merchant's business being merchandise, so the business of God is to save men. This is not putting it too strong. The mission

OF THE HOLY GHOST

is also to save souls, and the consecration of the spirit is most necessary. Grand work along missionary lines has been accomplished through the baptism of the Holy Ghost.

The great record of the Moravian church, achieved through this medium by the consecration of one man, was then related, and the statement made that from this small beginning of sending out one single missionary the Moravian church now led the would in missionary work, sending out a missionary to every sixty members of the church.

Those, therefore, who were not in favour of missions were not in sympathy with the business of the Son, not in sympathy with the business of the Father, and not in sympathy with the business of the Holy Ghost. "Wist ye not that I must be about my Father's business?"

Time is short, continued he, the night is coming, and if you are to be up and about your Father's business there is no time to be lost. The opportunities of service are passing very rapidly. If this thought once could take full possession of your hearts I am sure that a grand effort would take place for the reclamation of the heathen. Three thousand of these, it is estimated,

ARE PASSING AWAY

every day, passing into an eternity of darkness. The figures are easy to speak and because we cannot see it, we are not aware of the awfulness of the result, yet reflection will reveal the future which is in store for these poor souls, who have never had the Gospel preached unto them.

The opinion was very often expressed that the result of missionary effort among the heathen was unsatisfactory. This was untrue and in evidence thereof the speaker quoted numerous instances of marvellous conversions where most Christ-like souls had been created through the planting of the seed.

O brethren, said he, remember we have mere opportunities to-day for missionary work than we ever had before. We have hundreds of young people in the church fully qualified to go into the work at a moment's notice. What to do with these young people was the question. Some urged that they be not sent out until the the money to sustain them had been received. Others again said, let them go forth and trust to God for the means to keep them in foreign lands. Now, said he, you have practically the solving of the question in your own hands. Come forward nobly and raise the funds to send forth these youthful missionaries eager for work in God's vineyard.

At present the Presbyterians of Canada number about 500,000, and the contributions towards missionary work averages twenty-five cents a head; but by one effort the average he was sure could be raised far higher than this, and he appealed to the congregation to contribute as liberally as possible.

They do not despair.

An utter loss of hope is not characteristic of Consumptives, though no other form of disease is so fatal, unless its progress is arrested by use of Scott's Emulsion, which is Cod Liver Oil made as palatable as cream.

BLACKSMITH and HORSESHOER

STEPHEN MURPHY,

135 Hunter St., Heffernan's Old Stand

Horseshoer and General Blacksmith. Horse shoeing a specialty. New shoes at 25 cts. cash. All kinds of general jobbing done with neatness and despatch. Farmers and others will find me always handy and their wants will be promptly attended to. d

One reason why women are so generally troubled with some derangement of the distinctly feminine organism is that as girls they learn nothing about their own physical make up. Parents are waking up to the importance of education of this kind, and young women are becoming more and more able to take care of their health.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at once. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The "Favorite Prescription" is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs.

"I have been a sufferer from 'female weakness' for six years. I grew worse; had severe cutting pains in left ovary, also in left side and stomach. The pain in left side was constant. I would have light spasms previous to monthly period and when the spasm would cease I would suffer from severe soreness all over and could bear nothing to touch me. I also suffered from severe headaches; burning pressure on brain which almost caused me to be insane. I could not lay my head down without smothering. My face was poor; eyes looked dead; wasted in flesh. I was constipated and suffered severe pain when bowels would act. I could not eat for the fullness in region of stomach. I had tried three of the best doctors here but they only gave me temporary relief. I had given up all hope of ever getting well again. At last I concluded to give Dr. Pierce's Favorite Prescription a trial. I have taken two bottles, one of the 'Golden Medical Discovery' and one of 'Pellets.' I have not felt any signs of my old disease; headache all gone; tastes regular without ache or pain. Indeed I feel like a new person." Yours truly,

Willie M. Parris

NEAR TO DEATH'S DOOR.

This was the Condition of the Young Son of Mr. John English of Lakefield, Ont.

Extremely Nervous Debilitated. Seemingly Without Vitality or Vigor. the Highest Medical Skill was unable to Battle With His Disease.

What ever may be the cause, it is unfortunately too true that large numbers of children are afflicted with nervous troubles. These in many cases assume aggravated conditions and develop often into what is ren a feature of paralysis.

A result of severe sickness some years ago, Robert B. English, the young son of Mr. John English, who conducts a large cooperage business in Lakefield, Ont., became the the victim of what seemed like chronic nervousness. The child was taken with severe twitchings accompanied by fits that were doomed to speedily wreck the whole system. Naturally the best medical skill was brought into requisition but no relief was secured. South American Nervine was used. and with the result that after six bottles had been taken the boy was restored to perfect health and is to-day one of the most robust and healthy children in his section of country. The case of Minnie Stevens, of London, Ont , daughter of Mr. F. A. Stevens, of the Stevens Manufacturing Co., is a somewhat similar case. Twelve bottles of medicine cured a severe case of paralysis there.

The great secret of Nervine is that it cures at the nerve centres, and for this reason is a panacea sure, certain and lasting, in all cases, of nervous troubles, general debility, indigestion, sick headache, and like difficulties in old and young. It removes these troubles, for it is one of the greatest flesh-producers that the age has seen.

NEWS FROM MONTREAL.

Young Politicians Have Strange Ideas—Real Estate Transfers.

Montreal, Dec. 6.—The young politicians of Montreal are no doubt zealous, but their heads are not always level. For instance, the members of the "Club Conservateur" are booming a movement to invite Sir Charles Tupper, Bart., to deliver a political address to a mass meeting in the drill hall on his arrival from London.

It is very satisfactory to notice the amount of business in real estate for the month of November just passed, as there is a great improvement in the value of the transfers recorded, the total value for the city, West Mount, St. Henri, Ste. Cunegonde and the annex being $828,261.81, as against $378,711.86 last month and $400,775.80 in September. Thus the business in November exceeds that in both the two previous months, and, although a few large sales are recorded, it is cheering to see that the increase is pretty general.

There was a great boom in Montreal Street Railway stock to-day. Of 5725 shares sold on the local Exchange this morning over 5000 shares were purchased by Messrs. L. J. Forget & Company, the senior member of which firm is the president of the company. Within the past few days they have purchased ten thousand shares of the stock, and they state that it is all for investment. The stock opened at 220 1-2, which was half a point below yesterday's closing. From this figure it went straight up by quarters and halves to 225. The next sale was at 224 1-2, then 224 3-4, and then again 225. The last sale was 224 1-4. The total sales yesterday amounted to 3600 shares.

LORD SALISBURY'S REPLY.

Sir Julian Pauncefote Has Received it and Mr. Olney Will Have it To-Day.

Washington, Dec. 6.—Lord Salisbury's reply to Secretary Olney's despatch, which, according to the President's message, called upon the British Government for a definite answer to the question whether it would or would not submit the territorial controversy between itself and Venezuela in its entirety to impartial arbitration, was received by Ambassador Pauncefote this evening. It will be handed to Secretary Olney to-morrow.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your tooth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating, and certain pain remedy in the world.

THE COLONIAL POLICY.

Mr. Chamberlain is Very Active in Many Directions.

New York, Dec. 8.—The London special to The Times says: Mr. Chamberlin's energy in many directions continues to attract admiring attention. He dwarfs everybody else in the Cabinet and seems to be the one to whom every vexed question naturally drifts for settlement. Each day we hear of some new achievement to his credit. Now he is stirring up the Colonial Governors around the globe to systematic study of foreign imports which might be British, now he is deciding to help Canada to establish a 20-knot steamer line to England, now he is fixing up the Stokes affair with the King of the Belgians, or consolidating, by a stroke of his pen, the scattered states of the Malay peninsula. He and his wife have been visiting the Queen twice in one week, which is an unprecedented show of royal favor, but it quite matches the popularity that he is evidently earning everywhere else. It is such a novelty here to have an administrator who actually administers that it is not easy to set bounds to the reputation that he may not win if his luck continues and he does not bustle into some hornet's nest which will alter the public feeling toward him.

New York, Dec. 8.—Ballard Smith cables from London to The World: The statement reaches me on what seems to be full authority that the British Board of Agriculture has resolved upon prohibiting the importation into the British Isles of live sheep from either the United States or Canada. Mr. Long, the president of that board—in other words, the Minister of Agriculture—will make that announcement, I learn, to a deputation of English sheep-raisers which will wait upon him next Wednesday. The ostensible reason for this action is the prevalence of the scab disease among North American sheep, but the real motive is the imperative demand upon the present Conservative Government from the rural classes—to which the Government really owes its existence—for protective measures in behalf of the agricultural interests.

An exhaustive governmental inquiry was made recently regarding the scab disease, but experts refuse to certify that it is contagious or infectious. Moreover, it appears that though this disease has been prevalent in England many years, no measure has been taken by the state to extirpate it, as is done in cases of really contagious diseases among live stock.

A vigorous protest, I hear, will be made by the agents of the Dominion Government, but so far no similar action seems to be contemplated by the Government of the United States. My information is that the Salisbury Cabinet is determined to enforce the order, whatever may be the foreign opposition.

The export of live stock from the United States to Britain is, I believe, considerable.

New York, Dec. 8.—Mr. Isaac N. Ford cables from London to The Tribune: The only public man who commands attention is Mr. Chamberlain on colonial questions. His circular to the Governors of the Colonies asking how and why British exports are undersold and displaced, and what products can be advantageously disposed of in the English Imperial markets, has been discussed with much solemnity as the beginning of an imperial federation. It is hardly so important a movement as is represented. Less ambitious colonial officials have been impressed with the expediency of securing as large a share as possible of mutual trade between the United Kingdom and the colonies. The present secretary will make up a fine blue book, but so long as England has no tariff he will not be able to form a British Zollverein or bring about an imperial federation.

A more practical measure is the new British scheme for subsidizing a 20-knot mail service with Canada. Sir Charles Tupper, who is one of Mr. Chamberlain's advisers on colonial questions, goes to Canada at once to arrange this subsidy business. The free ship advocates in America should make a note of it and also of Sir John Tenniel's cartoon in Punch, which depicts a British shipbuilder in the act of locking up his yard and a workman standing idle around the corner, while indignant Britannia asks whether her fleet is to be built in Germany. Reports that the Belfast and Clyde builders were having engines made abroad have exhausted English patience, and the lock-out will probably speedily end, Lord James having become chairman of the Committee of Conference.

Friends of American shipping who have favored mail subsidies and opposed foreign-built navies and merchant fleets are not, after all, so un-English as they have been made out.

HOW TUCKER IS AFTER ROSS.

The Unseated Member for West Wellington Charges One of the Witnesses With Perjury.

Guelph, Ont., Dec. 6.—Mr. George Ross of Minto was charged by George Tucker, the recently unseated Patron member for West Wellington, with having committed wilful and corrupt perjury on January last when Ross gave evidence against Tucker in the West Wellington election trial. The preliminary investigation opened before Magistrate Saunders this morning.

A number of witnesses were examined and the case was adjourned till after the arrival of the 3 o'clock train to take the evidence through Mr. Grant, registrar of the Court of Appeal, the original notes of the stenographer who took the evidence and the registrar of the Election Court being burned in the railway accident near Brampton last winter in which both the registrar and stenographer were killed. After the evidence was all in, Magistrate Saunders reserved his decision until 11 a.m. to-morrow.

"The Common People,"

As Abraham Lincoln called them, do not care to argue about their ailments. What they want is a medicine that will cure them. The simple, honest statement, "I know that Hood's Sarsaparilla cured me," is the best argument in favor of this medicine, and this is what many thousands voluntarily say.

Hood's Pills are the best after dinner pills, assist digestion, cure headache. 25c.

Lungs Closed Up.

GENTS,—In the early part of the winter I caught a bad cold followed by a severe cough. I could not sleep as my lungs seemed closed up. I could walk only a few yards without stopping to get breath. I sent for Milburn's Cod Liver Oil Emulsion and before I had finished the third bottle the cough was gone—I could breathe freely and felt like a new man. I advise all sufferers from coughs, colds or asthma, to give your Emulsion a trial.

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 35 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

Result of a Neglected Cold.

DISEASED LUNGS

Which Doctors Failed to Help,

CURED BY TAKING

AYER'S Cherry Pectoral.

"I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it, thinking it would go away as it came; but I found, after a little while, that the slightest exertion pained me. I then

Consulted a Doctor

who found, on examining my lungs, that the upper part of the left one was badly affected. He gave me some medicine which I took as directed, but it did not seem to do any good. Fortunately, I happened to read in Ayer's Almanac, of the effect that Ayer's Cherry Pectoral had on others, and I determined to give it a trial. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured."—A. LEFLAR, watchmaker, Orangeville, Ont.

EARL AND COUNTESS

Return to Ottawa After Four Months' Absence.

SOMETHING ABOUT THEIR TRIP.

Revenue and Expenditure for November and for Five Months—Increase in the Debt—Appointments Gazetted—Applications to Parliament—General News from the Capital.

Ottawa, Dec. 6.—The Governor-General and Countess Aberdeen, with their family and suite, returned to the Capital to-day, after an absence of more than four months. For a portion of the period they remained in retirement at Lord Aberdeen's farm in British Columbia, but during the remainder of the time and on the journey each way, a large number of places have been officially visited. Their Excellencies have everywhere been received with much loyalty and heartiness.

At Victoria Lord and Lady Aberdeen gave a state ball, which was attended by Rear Admiral Stephenson and officers of the Pacific squadron and a very large assemblage. Elaborate preparations had been made for the entertainment and it was admittedly the most successful affair of the kind that has taken place in British Columbia.

The plan of devoting a good deal of time and attention to the various districts and towns, including those in the remoter parts of the country, is evidently highly appreciated by the people and cannot fail to have a useful effect in calling forth sentiments of loyalty and also in promoting a sense of unity between the different portions of the Dominion.

Their Excellencies also visited the Kootenay district, where a great development of the mining industry has recently taken place. They have also been to Vancouver, New Westminster, Donald, Cadogan, Calgary, Regina, Brandon and Winnipeg, where, among various other functions, the Governor-General took part in the Scottish celebration of St. Andrew's day.

The writ for West Huron will be out the visits paid to a large number of the Indian reservations and the Indian Industrial schools.

The writ for eWst Huron will be out in a day or two. Nomination will probably take place Jan. 2,and polling Jan. 9.

The revenue and expenditure statement for November is a continuation of the record of better times. The revenue for the month totalled $3,166,377, as against $2,775,556. For the five months the total is $14,951,142, as against $13,605,054. The surplus of revenue over expenditure for the five months is $3,336,000, as compared with $1,555,000 for the same period last year. The net debt increased $658,240 in the month.

Mr. H. O. Bennett, commercial agent for Canada for the West India Islands of Antigua, Montserrat, and Dominica, died a few weks ago. Mr. Robert Bryson of St. John, Antigua, has been appointed Canadian representative in succession to Mr. Bennett. The appointment will take effect the first of January next.

The Department of Marine is considering what steps shall be taken for the removal of the wreck of the steamer San Pedro, which is lying on Brotchie's Ledge, near the entrance to Victoria harbor. The wreck is a menace to navigation. The owners will likely be instructed to move it within a given time, and failing to do this, the work will probably be done under Government auspices, and the cost charged to the owners of the vessel.

The Canada Gazette to-morrow will contain the following announcements: John Kyffin of St. John to be a first officer in the fisheries protection service.

John Taylor to be postmaster of Belleville, vice J. H. Meacham, superannuated.

A despatch has been received from the Colonial Office stating that Mr. Chamberlain's attention has been called to a doubt expressed in a recent correspondence whether, in case of an apprehended breach of the Foreign Enlistment Act within the waters of a British colony, it is desirable that the naval officers in those waters should act at once on their own authority, or wait for a requisition from the Colonial Government. The Imperial Government's decision is that, as a rule, in cases of suspicion of an intention to commit a breach of the Act, it is necessary for the civil authorities to take action, first by moving the naval authority by written request. There may, however, be cases of extreme urgency, in which it is desirable that the naval officers should have discretion to act without waiting for the requisition of the civil authorities.

The Canadian Jockey Club, limited, will ask Parliament for an Act authorizing the club to change its name to "The Canadian Jockey Club," and to make rules for governing horse racing in Canada.

The Lindsay, Bobcaygeon and Pontypool Railway Company will ask for an extension of time, while the Pontiac Pacific Junction Railway Company will seek power to extend its railway to Pembroke and to build over the Ottawa river bridges necessary therefor, also to extend the time for construction by the company of a bridge over the river at Ottawa.

Other applications are as follows: To incorporate a company for the manufacture throughout Canada of aluminum under the name of the Canada Aluminum Power and Pulp Company, with head office at Ottawa.

To incorporate the Equitable Benefit Company of Canada, the objecte-p company being the issuing and redeeming of investment bonds.

The Huron and Erie Loan and Savings Co. will ask for an Act consolidating, defining and declaring their liabilities, obligations and powers.

Another application is for an Act to incorporate the Queenston Heights Bridge Company, for the purpose of constructing, maintaining and operating a bridge across the Niagara River at or near Queenston Heights, in the County of Lincoln.

Application has also been made to incorporate a company to construct a canal from the east branch of the Nelson River to Hudson Bay.

Mr. Fuller, Chief Architect of Public Works, has condemned the annex to the Geological Museum and instructions have been issued to remove all the mineral specimens from the floors of the building, as they cannot carry more than twenty pounds to the square foot.

An interesting point developed before County Judge Ross to-day. In drawing up the voters' list for next year, the Assessment Commissioner has left off the names of stockholders in several companies and these have appealed to be assessed individually, in order that they may have votes on property of different companies. The appellants include stockholders in the Bronson and Weston Lumber Company, W. C. Edwards Co., Chaudiere Machine Co., Citizen Printing and Publishing Co., and the the Ottawa Lumber Company. In course of the discussion Judge Ross said his view was that the Assessment Commissioner had done quite right and that the stockholders were not entitled to be put on the voters' list. He was willing, however, to hear argument upon the point.

Hon. Mr. Haggart was waited upon to day by a deputation from the City and County Council, which urged the construction of a bridge by the Government over Rideau Canal at Concession-street. The Minister promised the matter should be carefully considered.

There is some dissatisfaction in the Typographical Union over the piecework scale for composition on the Rogers Typograph, which is at present 13c per thousand ems. The difficulty is said to have been caused by changes made in the measure of a local paper. The regular meeting of the union takes place to-morrow night, when it is expected a revision of the scale will be made.

The western end of O.A. & P.S. Railway will be finished to the waters of the Georgian Bay at Parry Sound by to-morrow. A force of eighty men are at work cutting out two hundred feet of a rock at the bay. The inspection of the last portion of that end of the line between Falding and Parry Sound, a distance of eight miles, will take place next week.

Application has been made for incorporation by letters patent of the Brantford Bicycle Supply Co., limited; the Blaisdell Paned Pencil Co., and the "Promotive of Arts Association." The two latter are Montreal concerns.

The officers of the Inland Revenue Department scout the idea of granting any concessions to the promoters of the proposed gin distillery. If the establishment is started the two years' bonding system will apply to it.

An order in council has been passed for payment of the subsidy of $16,000 for the last five miles of the 55-mile section of the Parry Sound Railway sanctioned in 1893.

Andrew Easton, a brakeman on the Canada Atlantic Railway, was killed in the station yard to-night.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.

The blood must be kept perfectly pure.

That is what the kidneys are for.

They have everything to do in filtering out the poisons.

This process of filtration may be interfered with by a cold.

Usually if there is any lack of good kidney work, it is a cold, or perhaps overeating and over-drinking.

Nearly every acute ailment starts with a cold. So do the diseases that finally kill.

The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

He will take no Risks.

Shrewdness of a wellknown City Merchant.

HE KNEW WHAT WAS GOOD FOR HIM.

In winter when Canadians spend a large portion of their time indoors and cannot have the same variety of fresh food as in summer and fall, indigestion and dyspepsia afflict a majority. "If anybody will tell me that dyspepsia in its advanced stages is perfectly curable," said a Toronto merchant, "I will take his word. Personally I run no risks. As soon as I feel a sense of weight in the stomach, after a meal, I know that my blood is sluggish in circulation. In my business I cannot take much exercise, and I fight the first sign of stomach troubles with Scott's Sarsaparilla. It has never failed me, and has saved me many a doctor's bill."

Scott's Sarsaparilla possesses medicinal properties superior to all other so-called sarsaparillas made. As a remedy for indigestion, rheumatism, pimples, scrofula and all blood diseases, physicians state that its equal was never known. Sold at $1 per bottle, of all dealers.

This is the Secret OF THE SUN'S SUCCESS.

The Press is now the principal medium by which the MERITS of the various Life Assurance Companies are made known to the public.

The Sun Life Assurance Company of Canada, allots its profits to policies according to age and in proportion to premiums paid.

Mr. James W., of this agency, age 68, holds a policy (No. 28,038), for $1000 on the ALL LIFE PLAN in the SUN. On the First of April last he had been insured for 5 years and received results as follows:—

1st.—A Bonus Addition to the Sum Assured of $189
or, 2nd—A Reduction for the Next 5 years of $35.80 Yearly.
or, 3rd.—A single cash payment of $138.25.

The undersigned would like to see an example of profits approaching the above given by ANY OTHER LIFE COMPANY under similar conditions. The profit earning powers of the SUN are unexcelled.

FAIRWEATHER & CO. LEADING FURRIERS

THE GRAIN MARKETS.

The export demand for wheat this week has been a little better, the clearances from the American seaboard showing a considerable quantity taken for shipment. The wheat exports from the United States amounted to 6,087,452 bushels, valued at $3,735,800, during October, against 7,607,687 bushels, valued at $3,932,865, in October preceeding, and during the ten months ending with October 53,914,874 bushels, valued at $32,984,410, were exported, against 59,001,064 bushels, valued at $35,410,630, exported during the corresponding months ending with October preceeding. The wheat markets in the West, however, have been dull and prices show but little improvement. The receipts in the Northwest, according to some accounts, are not as large as they were recently, and if they continue to show decreases it may affect the markets. In this market the prices for wheat, oats, peas and barley are easier on larger offerings. There is little or no export enquiry for grain, and the market is depending largely on the home demand. In Montreal the demand for Ontario oats has fallen off, owing to the offerings there of Manitoba oats, and lower prices are looked for. There is still an absence of business for export in barley. Some large sales of very bright fine high grade barley have been made to Canadian brewers lately, and as the supply of this grade is limited this season the available stocks for export to the United States are being gradually reduced, so that if there should be a demand for export later on the supply will be small. Some samples of Manitoba barley have lately been shown here. It is fine, bright, heavy grain, but owing to the cost of getting it here exporters are not able to do anything with it. Barley at country points in Manitoba brings 20c. per bushel. Oats at Manitoba points are easier at 15c to 16c per bushel. The Manitoba wheat markets are quiet. As there is a large quantity of lake stuff stored away in Ontario and the east the demand for all rail grain may be dull for some time. But while the farmer's prices in Manitoba are lower eastern holders are asking rather more for wheat.—Globe of Saturday.

A TWENTY BOX CURE.

Another Case of Bright's Disease so-Called Incurable—Mr. Bond of Mount Brydges, is Paid his Insurance—But Gets Well by Using Dodd's Kidney Pills.

Mount Brydges, (Special) Dec. 9th.—The published accounts of this case, appearing in the London papers, instead of exaggerating as some persons presumed to say, came far short of the mark.

The impression made here, where the facts are well known, is that the cure has been marvellous.

Mr. Bond is a conscientious man, as is apparent from the fact that before stating his case for the public print he went to the trouble and expense of a medical examination and was pronounced quite recovered.

The story of such a man is never exaggerated.

Words must of necessity always fail to express the details of intense suffering where the patient, as in this instance, had been at the brink of the grave.

Mr. Bond says:—"My regular physician told me I was in the last stage of Bright's Disease, and that there was no hope for me."

"And I believe I owe my life to using Dodd's Kidney Pills, for which I am very grateful."

THE CHRISTMAS HORSEMAN.

To The Horseman must be granted the credit for having originated the practice, now general among turf journals, of giving to their readers and the public each Christmas a holiday edition. This season The Christmas Horseman was issued December 5, and will be a fitting companion to the long series of souvenir numbers published by that enterprising and progressive journal. Always famous for its magnificent illustrations, The Horseman's best previous efforts will be eclipsed in its coming holiday edition. Admirable portraits, the work of the best artists, who makes the delineation of the horse a specialty, of the world-famous stallions in the light-harness breed will be presented, and other full-page illustrations of celebrated campaigners will be found among the many pages of amusing, entertaining and instructive reading matter. With these features The Christmas Horseman of 1895 will be treasured in home, library, club and office; in short, from its beautifully appropriate lithographed cover in colours to its last page it will show that neither labour nor expense has been spared by its publishers to make it what every souvenir number should be—a valuable work of reference as well as an entertaining and instructive periodical. Leave your orders early at the Peterborough Bookstore.

FRASERVILLE.

(From Our Own Correspondent.)

Mr. T. Mills, teacher in the school north of here, has resigned his position and intends to pursue his profession at Cresarea.

We understand that Mr. A. Wood, who has for the past two years been teaching in a school south of this place, intends going to Denver, Colorado, after Christmas, where has secured a position.

Messrs. W. Wood, J. Roddy and T. Cowling have returned from the Northwest after a stay of three months.

Worth Looking At.

In another column E. B. Clegg quotes some prices for imported cigars. If you are a smoker his ad. is worth looking up; then look at his place of business, one door south of Stratton's bookstore.

CHURCH CHIMES.

Rev. G. H. Sneyd, of Toronto, conducted both the morning and evening service yesterday in the Park street Baptist church.

The duet "O Holy Father" was admirably taken last evening by Miss Hendren and Mr. A. L. Davis in the Charlotte street church.

Miss Hendren and Mr. J. Miller took the solo parts in the anthem "The Light at Even Tide" last evening in the Charlotte street Methodist church.

Mr. Chas. LeSimple, the noted 'cellist, who will take part in the Jarvis-LeSimple-Dunn concert here on the 13th, is the guest of Mr. C. L. Benedict, with whom he will spend the ensuing week.

The George street Methodist church will celebrate its anniversary on Sunday next. Rev. James Allen, M.A., of the Metropolitan church, Toronto, will deliver both the morning and evening sermons.

The Montreal Witness devotes a page to the jubilee celebration of the East End Methodist Church, Montreal, which was opened in 1845, and of which the late Rev. G. H. Davis, of Peterborough, and father of Mr. A. L. Davis, was first pastor.

The Charlottee street church was crowded to the doors last evening, the draw seats in the aisles having to be utilized. The pastor Rev. J. J. Rae spoke on the subject "If Christ came to the world what would he say of the New Woman." Next Sunday evening he will speak on the topic "If Christ came to the world what would he say of the man of the 19th Century."

PERSONAL.

Mr. H. J. Daubux and family have returned to town for the winter.

Miss Nellie Snelling of Islay is visiting her cousin, Mrs. Grange, in town.

The Minden Echo says: Mr. Morris of Peterborough passed through here on Tuesday last with cattle for the Howry Co's shanties.

Rev. W. C. Bradshaw has left Winnipeg for three weeks holidays in Denver in the hope that he may recover his voice, which he lost some time since.

Mr. J. J. Howden, of Peterborough, passed through Minden on Monday last with over one hundred head of cattle to be slaughtered at Dorset for the Gilmour Lumber Shanties.—Minden Echo.

GEORGE AUGUSTUS SALA DEAD.

The Brilliant Italian Literateur Passes Away at Brighton at the Age of 67 Years.

London, Dec. 8.—George Augustus Sala, the well-known journalist and author, died this morning at Brighton, where he had been ill for a long time.

George Augustus Henry Sala was the son of an Italian gentleman who married a favorite English singer of West Indian extraction. He was born in London in 1828 and was brought up with a view to following art as a profession, but quitted it for literature and became a constant contributor to Household Words. He was an extensive and regular contributor to The Welcome Guest, the founder and first editor of Temple Bar, for which he wrote the stories of "The Seven Sons of Mammon" and "Capt. Dangerous." He was also a well-known contributor of The London Illustrated News and The Cornhill Magazine. He was war correspondent for The Daily Telegraph in the United States in 1863 and saw considerable of the Franco-Prussian war. He also represented that journal at many important fetes at different European capitals. He was the author of quite a number of works, mostly descriptive. He started Sala's Journal in 1892. It has since ceased to appear.

SPRINGVILLE.

The Springville Presbyterian church intend holding a tea and entertainment in the church building on New Year's night. A good programme, including addresses by speakers from town will be presented.

The sick man knocking at the door of health gets in if he knocks the right way, and, stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure you will not get well. Rich, pure blood is the only thing that can bring you perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestives fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them, forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves in newest styles for all occasions.

A VERY STRANGE STORY.

A Peculiar Series of Misfortunes Befall the Bell Family of Portage.

Winnipeg, Dec. 8.—It is understood that W. J. Gage of Toronto has made arrangements with the Manitoba Department of Education to prepare new text-books for the Manitoba schools. The books will be ready the first of July next.

One of the strangest coincidences ever recorded is pointed out by the Neepawa Register. It is learned that on the same day that A. M. Bell of Portage La Prairie fatally shot Muir of Dakota while hunting near Riding Mountain, three weeks ago, Mr. Bell's son accidentally shot a companion under identically the same conditions near Sault Ste. Marie. Fortunately in the latter case the wound was not fatal, as it was in the first mentioned.

GREENWAY MAY CONCEDE.

The Manitoba Ministers Said to be at Work on the School Question.

Winnipeg, Dec. 8.—The provincial Ministers are all in the city and it is understood they are preparing a reply to the Ottawa Government's communication on the school question, which will be forwarded in a few days. They are very careful not to disclose in the slightest measure the nature of the document now being prepared for fear of injuring the prospects of the Liberal candidates for the Commons in the various bye-elections pending in the eastern provinces. There seems no doubt, however, that Greenway will propose some concessions.

Says Pitezel Committed Suicide.

Philadelphia, Dec. 7.—Lawyer Rotan, who defended Holmes, the recently convicted murderer of B. F. Pitezel, to-day discredited the report from Chicago that Pitezel was alive in that city. "We admitted to the jury," said Mr. Rotan, "that the corpse discovered was that of Pitezel, and that disposes of the matter. We claim that Pitezel committed suicide."

AN OLD GRUDGE SETTLED.

Thirty Years After the War, But the Memory of It Was Fresh.

"Right here," said the old Union soldier, digging his cane into the ground, "I stood on picket duty thirty-two years ago."

"And I stood on picket duty right over there," said the grizzled old Confederate warrior, pointing with his long finger at a spot a few furlongs away.

"I wonder," exclaimed the former, "if you're the Johnny Reb that gave me a plug of tobacco when I hadn't had a chaw for twenty-four hours and was half dead for one?"

"If you're the Yank that gave me a canteen nearly full of whiskey when I was dying for a drink," rejoined the Southerner, "I am."

The voice of the old veteran from the North trembled slightly when he spoke again.

"I have always thought," he said, "that if I ever met that man again this side of the fords of the River Jordan I'd tell him that that tobacco was the meanest, orniest, good-for-nothingest, doggoned stuff I ever put into my mouth."

"Yank," replied the old boy in gray with emotion, "I've always wanted to live long enough to meet the man that gave me that whiskey and tell him it was the vilest, nastiest, cheapest, infernalist booze that ever insulted the stomach of a white man, begad, sah."

Then the two old warriors shook hands and moved off arm-in-arm in the direction of a tent that had a barrel inside of it.—Chicago Tribune.

One Honest Man.

Dear Editor.—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P. O Box 55, Jarvis, Ont.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well-taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

IN NORTH ONTARIO.

A Very Large Gathering Last Night in Beaverton.

IT WAS CALLED FOR M'GILLIVRAY

But Liberals and Patrons Were Very Palpably in Evidence—Hon. Messrs. Foster and Montague Avoided the School Question—Patron and Liberal Speakers Heard

Beaverton, Dec. 9.—There never was a constituency more thoroughly "worked" than North Ontario has been, is being, and will continue to be until the poll closes. That the Government has a full realization of the significance of the contest has been made abundantly plain by the desperate effort it is putting forth to retain the seat. It has placed in the field in battle array an army of political workers, at the head af which there have been four Cabinet Ministers and two Controllers. A still more potent influence, it is said, is not lacking, for cost what it may, the Government is bound if possible to win the day.

The Liberals are conducting a vigorous campaign. Mr. Gillespie's platform, both on the trade and school questions, has met with a gratifying degree of popular favor, and the anomaly of Major McGillivray's position upon the latter is a source of strength for the Liberal candidate. The Patrons are sanguine, but they are not suffering from an over-confidence that would cause them to relax their efforts to elect Mr. Robert C. Brandon.

Hon. George E. Foster and Hon. Dr. Montague came out by the Midland Railway into the constituency. At Blackwater Junction the Ministers separated, Mr. Foster bringing up at Sunderland and Dr. Montague at Scott, at each of which places they addressed meetings. They reunited in the evning at Sunderland and came to Beaverton together.

The meeting in the afternon at Sundreland, a Conservative stronghold, was satisfactory from the point of view of the Ministerial candidate. The audience was for the most part sympathetic, though there was a restraint to its enthusiasm.

By far the most interesting meeting was that held in Beaverton to-night, when the Ministers confronted spirited opposition upon the platform and in the audience.

An incident occurred at the outset. By invitation of the promoters, Mr. Frank Pedley was present on behalf of Mr. Gillespie, and Mr. J. Sackle Wilson on behalf of Mr. Brandon. The Ministers insisted that these gentlemen should first address the meeting for half an hour. The representatives of the Opposition candidate would not consent to this, whereupon the chairman called upon Mr. Pedley to speak.

Mr. Pedley said that it was the first time he had ever been asked to open an opponent's meeting. On the platform were two of the ablest speakers in Canada, and he considered it only fair that one of them should begin by stating the policy of the Government, the other being given the privilege of winding up the meeting. This suggestion was greeted with the applaus of approval, but still the Ministers would not yield. The chairman introduced Mr. Wilson, who characterized it as the most peculiar proceeding that had been indulged in since the campaign began. He insisted that one of the Ministers should open the meeting. There was another outburst of applause, whereat the Ministers yielded with as good a grace as possible, and Mr. Foster consented to proceed.

Mr. Thomas Treleaven, Reeve of Beaverton, presided at the meeting here to-night, which was large and sufficiently well mixed to be exceedingly interesting.

After the incident which has been alluded to, and which resulted in a Ministerial defeat, Mr. Foster proceeded with his speech. He stated very frankly that he would not attempt to convert any Grits who might be present. He directed his remarks to the Conservative Patrons, whom he sought to reclaim. "As the Grit candidate is not supposed to be in it, I'll reserve my remarks for the Patron," he said. Then he went on to present the Conservative policy and to reply to the criticisms which had been leveled against it by Patron speakers. He pointed out to the Conservative Patrons that while their candidate, if elected, would not exert any appreciable influence upon legislation, there might be great danger of smashing the Conservative party and putting the Grit party in power.

Mr. Wilson was given a most hearty reception by his Patron friends, who were out in force. He said, alluding to Mr. Foster's carload of mutton fable, that the Minister must think him a whale, whereas he was only a farmer boy. But The Globe had not said that he had eaten a carload of mutton. If all Mr. Foster's statements were like this the people would have to take them with a grain of salt. Mr. Wilson repeated his assertion that Australian mutton was sent as far east as Montreal, and amid tremendous applause he held aloft a tin of this article of food, which had just arrived from that city, obedient to his order. "This is gospel truth," he cried in triumph. "This is no statement about The Globe saying that I had eaten a carload of mutton." Mr. Wilson contrasted the treatment meted out by the Government to the farmer with that accorded the manufacturer, showing that while the former is taxed up to the hilt upon the commodities that constitute his raw material, the latter is allowed free raw material, and reaps the advantage of a high tariff on his products.

Mr. Pedley, too, was most cordially received by the supporters of Mr. Gillespie, who, too, with quite numerous. He began with a criticism of the Finance Minister for failing to say a single word in explanation of the reason why the Government is asking the people of North Ontario to elect a supporter for a sixth session. The reason was that it was proposed to deal with the Manitoba school question. The one thing that was important in choosing a representative for the sixth session was to find where the candidates of the Government stands on this question. When the leader of the Government in the House of Commons asked the people of North Ontario to support Mr. McGillivray he must have some understanding whereby Mr. McGillivray should support the legislation to be proposed by the Government. Mr. Gillespie was the only candidate who had come out definitely upon the point. He had declared that if he were elected he would vote against remedial legislation. Mr. Pedley made a most effective speech in reply to the Minister of Finance, exposed the economic errors upon which the Government's policy is based, and laid bare the blemishes of its administration. He was given a rousing cheer at the conclusion.

It was wearing on toward midnight when Dr. Montague arose to speak. He set out with a defence of the Senate, saying that the safest and best form of government always had two chambers in its Parliament. The cry of the Patrons for the abolition of the Senate was simply a trap and nothing else, to catch a few farmers. He said that the man who advocated a reduction of the Governor-General's salary was simply demagogue. He had seen a good many Liberals who were ashamed of their policy, but Mr. Pedley was so ashamed of his that he had not mentioned it. If the people did not elect Mr. McGillivray they would be giving a certificate of character to the Liberal policy. Dr. Montague now turned his attention to the Patron platform, and proceeded to catechize Mr. Wilson as to the trade policy that his party proposed. Mr. Wilson defined the policy to be a tariff for revenue, so adjusted as to fall upon the luxuries of life, and not upon the necessaries of life, and yet, said the doctor, he complained of the mutoon that came into the country from Australia, and asked if he would reduce the duty on that mutton he replied: "No"; asked if he would remove the duty upon such necessaries of life as beef, pork, butter, etc., he replied, "Yes." Dr. Montague said that if this was the policy of Mr. Wilson it was not the policy of any other farmer in Canada.

BURGLARS CHASED.

Toronto Police Gave the Waterdown Officials the Tip—Nine Shots Fired During the Chase.

Hamilton, Dec. 9.—On Friday the police authorities of Toronto notified the police at Waterdown that there would be an attempt made sometime within a week to rob some town between Toronto and Hamilton. When the information came three special constables were sworn in for special night duty, but they patrolled the village in vain on Friday and Saturday nights. About 2.40 this morning as Joseph Carson, one of the officers, was patrolling his beat he saw a man in the doorway of W. H. Crooker's general store. The constable called out, and the stranger ran. Carson and the other officers, S. Harvie and H. N. Langton, pursued him, and after running a short distance the stranger turned about and fired at the officers. At the report of the pistol a second man ran from the rear of the store and joined his companion. The officers pursued the two men in toward the city, firing at them occasionally, and dodging bullets from the burglars. In all nine shots were fired.

On the road the two strangers were joined by a third, who was in waiting with a rig, and they drove off at a gallop. It is not known whether any of the bullets from the officers' weapons struck the other men.

SLAUGHTER OF ITALIANS.

Major Tosselli's Column in Abyssinia Surprised and Cut to Pieces by Native Warriors.

Rome, Dec. 9.—The Government made the announcement in the Chamber of Deputies to-day that the five companies of Italian soldiers, composing the column under the command of Major Tosselli, operating in Abyssinia, had been surprised and surrounded by a force of 25,000 natives and that only a small potion of the command has succeeded in breaking through the beleaguering lines and making their retreat to Makalle. The fate of Major Tosselli and that part of his command remaining with him, is as yet unknown. General Baratieri, commanding the Italian forces in Abyssinia, is concentrating his troops at Makalle, and is prepared to repel the forces of the enemy, which are moving in that direction.

The announcement had a deeply emotional effect upon the Chamber.

The Cabinet to-day discussed the situation of the Italian troops and decided to send reinforcements, ammunition and artillery to them by the first transport, which will probably start to-morrow.

The public is much excited over the news of the defeat. It is supposed that Ras Makonnen's recent overtures for peace were a ruse of which Major Tosselli was the victim.

NO COMPROMISE.

Greenway Will Not Grant Separate Schools.

ALL NEGOTIATIONS HAVE FAILED.

Government Circles at Ottawa Evidently Had an Idea Such a Decision Might be Reached—The Federal Remedial Bill Prepared—What the Premier Says.

Winnipeg, Dec. 9.—It is now certain that the Greenway Government have determined to reiterate their previous decision not to grant Sparate schools as a remedy to the grievance of the Roman Catholics of Manitoba. Some kind of a compromise was under way, but it has fallen through. A gentleman from Ontario, representin at least some of the Ministers at Ottawa, was here for days, and had several interviews with Mr. Greenway. The Premier of Manitoba was willing to make a number of concessions in the school law of the province, but he would not give Separate schools pure and simple. He had no objection to Catholics electing the trustees in Catholic school sections, or Catholics being appointed teachers, and he was quite willing to have the law adjusted so as to have the clergy of all denominations could have the closing hours for religious instruction. But Mr. Greenway would not concede the Separate schools. The gentleman who was the intermediary was inclined to accept such a settlement, but the powers at Ottawa and the representatives of the church insisted on the Separate schools, and so the negotiations ended.

Mr. Greenway has authorized a statement that practically admits the above, and says no Separate schools will be conceded.

The Globe's Account.

Winnipeg, Dec. 8.—(Globe special.)—Hon. Mr. Greenway said to-day to your correspondent that he was being overwhelmed with enquiries as to the probability of the Manitoba Government settling the school question by some compromise measure. The Premier remarked that the Government have had propositions under consideration at various times since the receipt of the order in council of the Dominion Government of the 27th of July last, inviting action on the part of the Legislature of Manitoba to remove the alleged grievances of the Roman Catholic minority in relation to education. It has become clear that no concession by the Legislature will be regarded as a solution of the difficulty or as removing the alleged grievances unless such concession admits the principle of and re-establishing of state-aided Separate schools. Upon the question of the re-establishment of Separate schools the Government will make no compromise.

The Government's Remedial Bill.

Ottawa, Ont., Dec. 9.—The official announcement from Winnipeg that the Manitoba Government does not purpose introducing any legislation into the Local House for the purpose of removing educational grievances of the Catholics of that province fully accords with the preconceived opinions of all those in Ottawa who have closely following the course of events, or have had an inkling of the negotiations which have been in progress for some time past. Parliament has been called and called with the specific object of passing Remedial legislation. The bill which will be presented to parliament is drafted, and when its provisions are submitted to the judgment of the House and country, it is thought they will be found of such a character that every fair-minded man in the country, who teknowledges the right of the Catholics of Manitoba, under the constitution, to Separate schools can accept them. While restoring Catholic denominational seshools, there will be every possible safeguards so as to secure efficiency. Certificated teachers must be employed, and the province will be empowered to say what text books shall be used, with the exception of that on history. With the religious teaching, of course, the province will have nothing to do. The payment of the provincial grant will be made contingent upon results of annual examinations.

Sir Mackenzie Speaks

Montreal, Dec. 9.—Sir Mackenzie Bowell being shown a despatch from Winnipeg to-day, giving an alleged interview with one of Premier Greenway's colleagues, said that such information had not yet been received by the Administration, and that the first intimation that he had received concerning its transmission at an early date was the information contained in the despatch. He denied the statement contained therein, that the Catholics of Manitoba wanted apparently nothing short of Separate schools under the control of the church, and characterized as equally false the statement that the minority had so far made no proposal to the Manitoba Legislature to accept more moderate measures. With regard to an appeal on the part of Manitoba to the highest tribunal to quash the remedial measure, if passed by the Federal Government, Sir Mackenzie stated that as the highest tribunal of the empire had already decided that the Government had the power to pass the remedial measure, it would scarcely take steps to nullify the same. Relative to the suggestion contained in the despatch that the appointment of a commission would be the best means to adopt under the circumstances, of ascertaining whether the minority in Manitoba were favorable to a compromise or not, the Premier stated that, in his opinion, the appointment of the commission was unnecessary, the minority in Manitoba having already indicated a means by which the question might have an amicable settlement.

American Enterprise in China.

Port Townsend, Wash., Dec. 9.—A concession from the Chinese Government to build a line of railway from tidewater to Pekin has been obtained by a syndicate of American capitalists. The road will be about 200 miles long and will tap a valuable coal mining district.

WHAT THE N. P. HASN'T DONE

The Globe in an article on the fruits of the N.P., gives several examples of the results of the protectionist system. It quotes Mr. Kilvert, of Hamilton, in 1879—that was the prophetic age of the N.P.—boasting that the sewing machine factories sent goods to Japan, Turkey, South America and different places in Europe, and that 'this tariff,' the N.P., would enable them to compete with our neighbours on the other side of the line in foreign markets still more successfully than at present." Mr. Kilverts remarks respecting the then condition were truer than his prophecy. The sewing machine industry had established itself pretty firmly without the help of the N.P.—before the N. P. was conceived—in the revenue-tariff days—and Guelph and Hamilton were important centres of the industry. Of course protection would increase the cost of a sewing machine, but Sir Leonard Tilley's pet expedient, a drawback on exported machines, was expected to co-operate with the boom of prosperity the N. P. would produce, and it was expected that the sewing machine business would hum. And what is the result? The N. P. has practically killed the export business in sewing machines, or at least it has been impotent to save it. In the revenue tariff days—in 1877-78 the exports of sewing machine were valued at $273,000. What do you think the exports were after sixteen years of the N. P. boom? The increase was nowhere and worse than nowhere. The annual exports, after sixteen years of protection, had become sixteen times less. In 1893-4 the value of the exports of sewing machines had dropped to $17,500. The sewing machine factories that made so greatly for Hamilton's industrial prosperity, are for the most part now abandoned. It may be said that the N. P. is not to blame for this altogether. But it was not able to save industries that were in a flourishing condition under a revenue tariff. Home purchasers of sewing machines have had to pay higher prices, while manufacturers have found that taxation of raw material has been a drawback that even a drawback could not counteract.

The same thing generally can be said about the boot and shoe trade. Our foreign exports of boots and shoes under the revenue tariff regime amounted in 1877-8 to $236,000, while for 1893-4 the total foreign imports amounted to only $97,000. In both these cases the exorbitant duty on raw material has wrought injury and hindered instead of helping these industries. And the repeal of the duty on material is the Liberal policy of giving new life to manufactures—by the abolition of the duty on raw material. This is a principle not a clap trap expedient. Manufacturers will be helped by giving free play to their enterprise, not by puerile protection from the competition, that as opposition is the life of trade, is the life of manufacturing, but by the fullest opportunities for the development of the industrial possibilities of the country. Free raw materials and the world for a market are better than hardened raw material and a restricted market, that recoils on itself.

ARBITRATION VS. LAW.

The council of Simcoe county is endeavouring to get a bylaw passed that in future all actions claiming damages for accidents occurring on the highways shall be settled by arbitration, and the Oxford county council has decided to co-operate with them. The proposal would, one would think at first mention, be a good one. We have abundant evidence of the accumulating effects of litigation in the Mason case, where costs accumulate in inverse ratio to the results, and which is establishing its claim to rank in relationship to Jarndyce vs. Jarndyce. Our exchanges furnish examples of the costly nature of the luxury of law, and pretty generally the corporations get the worst of it. But the question arises, would arbitration be much cheaper? We have the case of the Havelock arbitration in which the arbitration costs in the first round, altogether approach the value of the land alleged to have been injured by the corporation. This much can be said for arbitration that the first cost is generally the heaviest item—the making of the award is generally the end of the matter. But a suit at law is never over—or hardly ever over—till there is no money left to stimulate the lawyers in their efforts for the promotion of the interests of justice. At the best the choice between arbitration and law is the choice between two evils and the problem is to decide which is the less. The best plan of all is, if possible, to avoid both. A claimant against a corporation should be met as a ratepayer seeking rights that involve the responsibility of the corporation. If the claimant has a fair prima facie case the question should be is the corporation morally responsible, not can the corporation evade a moral responsibility by virtue of a legal quibble. Fair, square, honest dealing on both sides and the exercise of reasonable discretion will generally result in a mutually satisfactory settlement, which is the best solution of such problems; arbitration possibly the next best and law always and decidedly a contigency to be avoided.

BAD ROADS AND GOOD.

ONE would think at first sight that good or bad roads in the country chiefly concerned the people that live in the country. But the townspeople as well as farmers are concerned in having the best possible roads. With better roads farmers would come oftener to town and therefore leave more money with town business men. So the matter is of interest to both. Persons who have not considered the subject, do not know that it is demanding more attention every year. At this winter's meetings of the Farmers' Institutes in both the East and West Ridings the discussion of the good roads problem will form a prominent feature. The loss and gain to a country by having bad or good roads represents a large sum of money. "Statistics published by the Department of Agriculture at Washington make out that in the United States the cost every year of hauling loads on country roads comes to nearly one thousand million dollars. The figure, to be exact, is $946,414,000. The report of the department says that until figures, which have been asked from American consuls abroad, as to to the cost of haulage on first class roads is received, the Department cannot properly estimate how much money would be saved by really good roads in the United States; but from some information they already have, the officials conjecture that if the present average country roads in the United States were replaced by good paved roads, the saving to the country would be probably two-thirds of the present cost. In other words, they think that scientific road improvement in the United States would save over six hundred million dollars a year." Good roads pay.

MOTHERS AND CHILDREN.

To endure silently is the enforced and most bitter half of woman's suffering.

Her indoor life subjects her to a nervous strain and to telling effects of disease unknown to man.

But to bear the miseries needlessly when escape is possible is to waste and shorten life.

Think of every symptom which indicates the peculiar sufferings of your life.

The remedy—nay the prevention of the gravest of them—is Dodd's Kidney Pills.

Think of your duty to yourself and to your children.

The answer, in tones louder than any words, is "Dodd's Kidney Pills."

Conditions brought about by colds, chills, frights, shocks and worries become kidney troubles first, and affect you seriously later on.

This is because of a closer relationship of the kidneys to the uterine system than has been hitherto suspected.

Anyone can understand all this who gives it careful thought.

The inevitable conclusion then is, that Kidney Treatment is the way to mend all but five out of every one hundred forms of female trouble.

Users of Dodd's Kidney Pills carry visible proof of this fact in their elasticity of step, clearness of complexion and personal beauty.

Dodd's Kidney Pills, then, is peculiarly a woman's household remedy for herself and her children.

Quinn said Maher would need five weeks in which to train, and for this reason the fight would have to take place on the date agreed upon, Feb. 14.

The Cold Stopped Both of Them.

Toledo, O., Dec. 8.—Fred Greene of Minneapolis and George J. Johnson of Saginaw, featherweights, fought 16 rounds to a draw this afternoon in a tent pitched near the Michigan State line, north of here. Darkness and intense cold put a stop to the contest. Greene is said to have had the best of the mill and would have won out in three more rounds.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

Sick Headache and Constipation are promptly cured by Burdock Pills, easy to take, sure to cure.

NEWS FROM OTTAWA

President Cleveland on the Lake Fisheries,

HE SHOWS LACK OF KNOWLEDGE

And the Marine Record Points Out His Blunder Judgments Delivered in the Supreme Court Gen. Booth in the Antipodes The Soo Canal Traffic.

Ottawa, Dec. 9.—President Cleveland's comments upon the action of the Fisheries Department here in seizing American fishing vessels found illegally fishing in Canadian waters of the great lakes created much amusement in official circles. The President suggests the appointment of a commission to define the boundary line. The Marine Record of Cleveland is candid enough to bring the President to time. In its latest issue that paper says Grover means well, but he is on the wrong tack. His ideas for making the boundary line indicate that he needs to take a trip up the lakes. The boundary line was long ago determined, and the Canadian revenue cruisers knew their position every time a seizure was made. The Record adds that what is needed is action by Congress leading to national control of American lake fisheries, and an understanding with Canada which will lead to similar legislation on both sides of the lakes. The Dominion Government has complete control of the Canadian inland fisheries, for the present, at any rate, but the trouble in the United States is that each State has separate fishing jurisdiction.

According to the latest advices received here, Gen. Booth, who is now in Tasmania, has been telling the public that his over-sea scheme "hangs fire." He had not, he said, yet fixed upon a site, and was still looking for one. He was inclined to go back to his first love—South Africa—where he had been presented with 20,000 acres of land beautifully situated, with a fine climate, by Mr. Cecil Rhodes. It will be remembered that when the general visited Ottawa last year he talked with some of the Ministers about selecting a site in Canada for his Salvation Army colony, but Mr. Daly informed your correspondent to-day that no formal request had been received by the Government.

The Lake Carriers' Association is preparing a petition to the Government asking for new lights and changes in lights in the vicinity of Point Pelee, Lake Erie, where many strandings occurred during the past season. The Government is asked first to move the life saving station, now on Pelee Island, to a point on the mainland, as accidents in this vicinity for some time past have occurred near the point and in places where wrecks could not be seen from the life saving station as at present located, and secondly, it is proposed to remove the light now on Pelee Island to the middle ground. A third request is for the establishment of a light ship to the southward and eastward of Point Pelee, where 20 or more vessels have stranded during the past season. The Government is also asked to station a lightship or large buoy on Little Point, a dangerous spot in this vicinity. In the channel between Bois Blanc Island and Amherstburg, Detroit River, there are numerous shoals that must be removed before full advantage can be taken of any part of the 20 foot channel improvements, and the authorities are asked to put dredges at work at this point as soon as possible.

The attention of the Government has been called to the fact that large quantities of goods purchased in the United States are being sold on the northwestern coast of British Columbia, none of which supplies have paid customs duty. Hon. Mr. Wallace has under consideration the securing of a cruiser to be placed in British Columbia waters. It is thought that the expenditure in procuring and maintaining such a vessel would be fully justified by the increased revenue.

Reports have reached the Fisheries Department that parties living in the vicinity of Ste. Rose, Laval County, are using explosives in the rivers and streams for the purpose of killing fish. The names of some of these individuals are known and the department purposes prosecuting them.

Mr. Schreiber, Chief Engineer of Railways and Canals, has received full returns of the traffic through the Canadian Soo canal from the opening of navigation on Sept. 9th to Dec. 6th, inclusive, the last day on which this canal was open. The total number of vessels which passed through was 1189, of which 604 were Canadian, and 585 United States. The tonnage of the Canadian vessels was 126,534, and of United States vessels 623,092. Of the freight carried through the canal the total tonnage was 595,837, of which 362,263 tons were coal, copper, silver and iron ores, and 180,171 tons grain, flour, malt, salt, clay bricks, etc.

The Fisheries Department received an application to-day from the captain of the Edward Grover, a United States fishing vessel at Halifax, for permission to purchase a cable in order to enable it to reach home. The vessel did not possess a Canadian license, but as the cable was necessary for the safety of the vessel, she was allowed to purchase it.

The mounted police have not yet secured the Indian who shot and killed Sergt. Colebrooke near Duck Lake some weeks ago. The Indian, a young buck, about 21 years of age, is reported to be as cunning as a wolf, and goes by the high-sounding name of Almighty Voice. It is thought that he is hiding in one of the northern reserves. The police hope to capture him before many days are over.

The Supreme Court met to-day and gave judgment in the following cases:

Wright v. The Queen, an Ottawa appeal from the Exchequer Court, involving ownership to a canal reserve in this city. Five judges heard the argument and Judge Fournier, one of the five, being no longer a member of the court, and the remaining judges being equally divided in opinion, the case was ordered to be re-argued.

Law v. Hanson, a Nova Scotia appeal, dismissed with costs.

Lowenberg & Co. v. Walley, a British Columbia appeal, allowed in part, new trial ordered as to damages.

City of Vancouver v. Ball, a British Columbia appeal, dismissed with costs.

Francis v. Turner, a Manitoba appeal, dismissed with costs, Gwynne dissenting.

Province of Ontario v. Dominion of Canada, re Indian claims, appeal from award of arbitrators allowed with costs and award varied, Gwynne and King dissenting.

Dominion had secured the decision of the arbitrators requiring the Provinces to pay increased or augmented annuities paid to Indians. This decision is now reversed.

Toronto Junction v. Christie, an Ontario appeal, dismissed with costs, damages increased.

Clarkson v. McMaster, an Ontario appeal, allowed with costs, judgment of MacMahon, J., restored.

Dominion Grange Insurance Company v. Bradt, Ontario appeal, dismissed with costs, Gwynne, J., dissenting.

Ross v. The Queen, appeal from Exchequer Court, dismissed with costs, the Chief Justice dissenting.

Mercier v. Barette, Quebec appeal, allowed with costs. Judgment of Court of Review restored.

Banque Jacques Cartier v. The Queen, Quebec appeal, dismissed with costs.

North British Insurance Company v. Tourville, Quebec appeal, allowed with costs.

St. Hyacinthe Gas Company v. St. Hyacinthe Hydraulic Power Company, Quebec appeal, dismissed with costs.

Kerr v. Canada Atlantic Railway Company, Quebec appeal, dismissed with costs.

School Commissioners St. Charles v. Cordeau, Quebec appeal, dismissed with costs.

Kingston Forwarding Company v. Union Bank, Quebec appeal, dismissed with costs.

Canada Atlantic Railway Company v. Hundman, Ontario appeal, dismissed with costs.

Ste. Cunegonde v. City of Montreal, Quebec appeal, quashed with costs.

The court then rose.

The thermometer dropped to 10 below zero last night.

The Hon. Mr. Costigan left for North Ontario again to-night.

A deputation from St. Johns, P. Q., saw the Hon. Mr. Ives to-day with reference to improvements to the town's drainage scheme, necessitated by the location of the Chambly Canal.

The Hon. Mr. Daly has returned to the city.

The Hon. Mr. Wallace has returned from Montreal.

The Premier returned to the city to-night.

SIR WILLIAM VAN HORNE TO RESIGN

The President of the C.P.R. Admits that He Hopes to Drop Out

Montreal, Dec. 9.—The regular monthly meeting of the Canadian Pacific directorate took place to-day, there being in attendance Sir William Van Horne, Thomas G. Shaughnessy, Sandford Fleming, Hon. George Kirkpatrick, Ed B. Osler, W. D. Matthews, Hon. Senator Melanes, George R. Harris and R. B. Angus.

A report having been published that the president of the road was about to resign, Sir William was asked about it, and gave the following answer:

"The statement that I am to resign has so far been unauthorized, I may say, however," he continued, "that I hope to drop out of active service before long. There are several things I would like yet to do, or be instrumental in doing, if I do not have too long to wait for the opportunity."

It is understood that Sir William Van Horne will retain the position until the next annual meeting next summer, and that Mr. Shaughnessy will then become president.

One of the largest funerals ever seen in Montreal was that of Hon. Edward Murphy, which took place this morning at 9 o'clock. The Dominion Government was represented by Sir Mackenzie Bowell, Sir A. P. Caron, and Hon. J. A. Ouimet. It is said that deceased left an estate worth at least a quarter of a million.

"Let parents not live for their children, but with them." The mothers should allow no false modesty to stand in the way of her daughter, a knowledge of herself, of her possibility of her perils. For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. A woman who would understand herself should send 31 cts. to the World's Dispensary, Buffalo, N. Y., for Dr. Pierce's Medical adviser, a book of 1008 pages.

A Wide Range.

A preparation which enriches and purifies the blood and assists nature in repairing wasted tissue must have a wide range of usefulness.

Such a preparation is Scott's Emulsion of Cod-liver Oil with Hypophosphites of Lime and Soda. The uses of Scott's Emulsion are not confined to wasting diseases, like consumption, scrofula or anæmia. They embrace nearly all those minor ailments associated with *loss of flesh.*

Is always the centre of attraction. Housekeepers plan to have the bill of fare extra nice; but the surest way to have it pass off right is to draw on John J. Howden's meat market for your beef and other meats. 'Phone 39.

Now Ready.

House No. 280 Hunter street has been thoroughly renovated, papered and painted and is now ready for occupation. This is a desirable location and can be rented by applying to STRATTON & HALL, Barristers. 6d132

A Band Concert.

The S.O.E. band concert to be held in the Sons of England Hall, on Hunter street, Tuesday evening, Dec. 12th, promises to be one of the brightest and most entertaining events of the season. The admission is only 15 cents. At the close of concert refreshments will be served and a social hour indulged in. 2d

A Beautiful Property.

The Belleville Sun states that Dr. Goldsmith has purchased the residence of the late S. B. Burdette, M. P., in Belleville. The house is one of the largest and most beautifully situated in the City of the Bay and Dr. Goldsmith is to be congratulated on the acquirement of so desirable a property, Dr. Goldsmith has considerable interest in Belleville real estate.

The Jarvis LeSimple-Dunn Concert.

The following numbers will be sung by Mr. Harold Jarvis at the concert on Friday evening:

I Recitative, "Deeper and Deeper"
Aria, "Waft her angels through the skies"
"Jeptha;" *Handel*
II (a) "MacGregor's Gathering"
(b) "Scots Wha Hae"
III Duet, "After the Fray" *Bonheur*
Mr. Jarvis and Mr. Dunn.

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

Natural History Association.

In accordance with the arrangement made at their last meeting, the Natural History Association will assemble at Mr. Mark's home, on Murray street, at 8 o'clock this evening. After routine business, and the delivery of the President's address, the society will spend an hour at Mr. Elcome's residence, examining his collection of wild animals and birds. As Mr. Elcome's collection is one of the finest and most extensive in Ontario, it is to be hoped that the members will profit by the opportunity of viewing it, so kindly afforded through that gentleman's courtesy.

A Peterborough Boy Appreciated.

The following paragraph is taken from the Trout Creek correspondence of the Sundridge Echo, and refers particularly to a former resident, son of Mr. Edward Phelan. Rev. Father Kelly was also at one time one of the Cathedral clergy: "Our newly-appointed curate, Rev. C. J. Phelan, preached his first sermon here on Sunday, Dec. 1st, in the R. C. church to a large congregation, and created a favourable impression among his hearers. His appointment here will be a great support to Rev. Father A. F. Kelly, P. P., and will enable him to visit the different parts of the mission more frequently, and also be a source of company for him at home."

A PETERBOROUGH BOY IN TROUBLE.

Brydon Weese Arrested in Toronto on a Serious Charge.

A youth named Brydon Weese, a Peterborough boy who now resides at 21 Nelson street, says the Toronto News, has been seen several times in the throng in and about the T. Eaton Co.'s store, and it is alleged that a week ago Friday he was observed attempting to pick the pocket of a woman who was looking in the window. He has been seen there repeatedly since then and Detective Harrison was on each occasion summoned to arrest him. Before the officer could arrive Weese had always vanished, but on Saturday Harrison met him and seized him. He was remanded until Friday. Weese is known to the Peterborough police force as a wild lad and was before the Magistrate in the case when the boy Walsh was arrested, charged with throwing stones at the cars near Fraserville. The charge was not proven but he was fined $10 for trespassing on the railway company's premises.

PROGRESS ON THE BRIDGE.

Twenty-Five Carloads of Stone Arriving for the Work.

Of the twenty-five carloads of stone required for the construction of the new George street bridge fourteen have arrived from the Longford Quarries and seven are unloaded.

The masonry for the abutment on the north side is now above the level of the water and the coffer dam on the south side is being constructed in order that the foundation for the other pier may be laid immediately. Street Inspector Clinkscale mentioned to the councillors, last evening, that by the plans and specifications the abutments were to be "stepped," but that the building of a perpendicular end was preferable. No action was taken and as the first of the steps is now under course of construction the plans will hardly be altered.

CRUELTY TO ANIMALS.

An Otonabee Farmer Summoned to Appear on this Charge.

A summons was issued in Otonabee today in a case of cruelty to animals. It will be heard before County Magistrate Edmison to-morrow.

The charge was laid on account of a complaint lodged to the effect that a certain Otonabee farmer abused a horse to such an extent as to leave it without food or shelter.

Our Vast Dominion.

It is difficult to convey an adequate conception of the vastness of Canada. England, Scotland and Wales together form an area of about 128,800 square miles. Forty such areas could be cut out of Canada. New South Wales contains 309,175 square miles, and is larger by 102 square miles than France, Italy or Sicily. Canada would make eleven countries the size of New South Wales. In extent there are three British Indies in Canada, and still enough left over to make a Queensland and a Victoria. The German empire could be carved out of Canada and fifteen more countries of about the same size, with still room enough to fill in corners with Belgium, Denmark, Greece, Servia and Switzerland. Ireland could then be accommodated, and yet a patch large enough for Delaware and Connecticut. Canada is the largest of all British possessions, being over 38 per cent. of the British area, which is officially stated to be 9,040,497 square miles, exclusive of protectorates. The continent of Australia, with Tasmania and New Zealand added, is the next largest, being about 294,800 square miles less than Canada. The combined areas of Canada and Australia, including British New Guiana, comprise nearly 75 per cent. of the British Empire. Mr. E. G. Ravenstein estimates the world's area at 51,250,800 square miles, and the population of the world at 1,457,920,000. Canada covers one-fifteenth part of the area, and contains under 1-3000th part of the population.

November's Weather.

The weather map for November of the Meteorological service of Canada has just been issued. It deals very largely with the storms which have occurred during the month, and traces their origin and course. Over the greater portion of the Dominion the mean temperature during the month did not differ much from the average. The greatest departures below, 1 to 3 degrees, occurred in western Manitoba and the more eastern portion of the Territories, and the greatest departures above, 2 to 4 degrees, in the province of Manitoba. The most marked feature of the precipitation was the excessive rainfall over Nova Scotia and southern New Brunswick, where in most districts it was about double the average. In northern New Brunswick and Quebec it was also above the average, but to a much lesser extent. In nearly all parts of Ontario the total precipitation was slightly in excess, but in Muskoka, and in some districts of the northeastern counties near the shores of Lake Huron, there was a small deficiency. Along the north shores of Lake Huron and Superior, and westward to the mountains, the snowfall did not differ much from the average. At the close of the month there was a covering of from 2 to 10 inches of snow over the Northwest territories and somewhat less in Manitoba. A depth of from 2 to 10 inches was reported from most districts in Quebec and northern Ontario, and from 1 to 2 inches from the higher lands of the more central counties of Ontario. Two severe storms occurred during the month, the first of which was felt most severely in the eastern Canada and the second on the lakes.

The committee also recommend that the reporters also receive the amount provided for them in the estimates.

Adopted on motion of Councillors Cahill and Best.

The Joint Committe, through its chairman, Councillor Phelan, reported as follows:

1. Your committee in conjunction with the representatives of the County settled the claim of John Pollock for an accident on the Hunter street bridge for $20 and recommend that a corporation cheque for $10, the town's share, be issued to the County Treasurer.

2. Your committee recommend that a cheque be issued to the County Treasurer for $75, the town's share of the expense in painting the lock's bridge.

Adopted on motion of Councillors Phelan and Mills.

Councillor Phelan was congratulated by the Council for the satisfactory way in which he had succeeded in settling the matter of the accident.

The Court of Revision, through its chairman, Councillor Stone, recommended that the taxes imposed for the expenses incurred in connection with the Sherbrooke street drain be remitted and that any of the said taxes which may have been paid be refunded to the ratepayers who have paid them, and that corporation cheques for that purpose be issued upon receiving a statement from the Tax Collector of the taxes paid and the persons by whom they have been paid.

Adopted on motion of Councillors Denne and Cahill.

SOME RESOLUTIONS.

It was moved by Councillors Brady and Mason "that we settle with the Ashburnham council for fire protection for $750.00 in full to Dec. 31st, 1895, and that they be notified that the sum must be paid on or before December 20th, 1895."—Carried.

On motion of Councillors Denne and Mills, Peter Corbett was granted a rebate of $16.00 on his pedlars license.

On motion of Councillor Best, the matter of the appeal from the award of the arbitrator in the outfall sewer matter, was referred to the Sewerage Committee in order that the Town Solicitor might receive instructions from them how to act in the matter.

The council then adjourned.

DAILY MOTTO.

Tuesday, Dec. 10th.

Enough to know that God is good and what He does is right. This known and then we know that the Love of God is working to issues good and glorious. All is good, all is well, is right and all shall be ever.

I see the wrong that round me lies,
I feel the guilt within;
I hear the groan and travail cries,
The world confess its sin.

Yet in the maddening maze of things,
And tossed by storm and flood,
To one fixed state my spirit clings;
I know that God is good.

With us, quality always come first—then price. The one is no good without the other. The dollar for fifty cents absurdity may catch the very credulous, but it is doubtful if they get the fifty cents worth. Diphtheria Outbreak.

Word has reached the Provincial Board of Health that an outbreak of diphtheria has occurred in a lumbering camp in Hardy township, on the French River. The managers of the lumber company sent the sick men to the municipality of Powassan, where the local board has charge of them. A quantity of anti-toxine has been sent to Powassan, and instructions have been given to prevent the men leaving the place, as there would [illegible] a great danger of contagion.

Caught in a Cog Wheel.

Mr. Roger Davidson met with a most unfortunate accident, yesterday afternoon, in Davidson & Munro's flour mill, in Ashburnham, when the fingers of his left hand were caught in a cog wheel and were badly crushed before they were withdrawn. The second and third fingers were particularly badly lacerated, so badly so, in fact, as to make it impossible to ascertain definitely, as yet, whether any of the bones are broken, though it is though that they escaped such injury. The accident will probably lay "Davie" off for the hockey season.

Wants the Slate Banished.

The New York Herald notes the passing of the school slate and the slate pencil. The Board of Health has risen up against them, declaring that they help to spread contagious diseases. As paper pads are now very cheap they are likely soon to dispossess the slate, for they are more cleanly in every way. Yet the little ones who are not brought up to the use of the slate will lose one of the most interesting implements of their early life. On no paper pad can fox and goose be so easily played as on the slate; on nothing but a slate can a vigorous sham battle be fought, and what young artist will in the early days of his budding genius be able to draw a ship on a paper pad with the skill with which he could do the work with a pencil on a slate?

Have Nothing to Live for.

Sometimes men and women feel this way. A wave of despondency creeps up and up till it reaches the heart. They become languid and listless. Life appears grey and desolate. What some people want is not merely a tonic. They want to be built up. They want a stimulus, which will give them courage and put new hope in them. Such a stimulus is found in Wilson's Invalids' Port Wine. This is incomparably the best tonic at present offered to the public. A rich, generous wine, with a glow, a body, a fruitiness which are calculated to build up the wasted system. A bottle of this bracing tonic makes a poor debilitated creature a new citizen. Sold by all dealers at $7.50 per case of 12 quart bottles, half case $4.00 or 75 cts per bottle. Address—Bordeaux Claret Co., 30 Hospital street, Montreal.

OBITUARY.

The Late Mrs. John O'Toole, Jr.

From Our Own Correspondent.

It is with pained regret we chronicle the death of Mrs. John O'Toole, jr., which occurred at Douro on Sunday, Dec. 8th. She had been ill scarcely two weeks, and although towards the end her life was being despaired of, still the announcement of her death shocked her many friends. During Saturday and Sunday morning life was evident only from the patient's quiet breathing, and her sorrowing friends knew that her bright young life was ended only when this quiet breathing ceased. Scarce a year ago the deceased was a happy bride; scarce three weeks ago a hopeful mother, and now the sorely afflicted husband mourns her as lost to him on earth. May God strengthen him to bear with his sad loss.

PERSONAL.

Mr. John Holmes of Burleigh, was in town to-day.

Mr. E. F. Clarry of Millbrook, was in town yesterday.

Mr. George Pope is in Peterborough on business in connection with the Trent Valley Canal.—Belleville Sun.

Miss Jennie McAllister, who has been the guest of her brother, Mr. C. B. McAllister, in town for some months, has returned to her home in Pembroke, accompanied by Mrs. McAllister.

The Sundridge Echo contains a report in its Trout Creek correspondence of the death of Mrs. D. A. McDonald, wife of a former resident of Peterborough. Rev. Father Kelly, once attached to the Cathedral, conducted the funeral ceremonies, and Rev. C. J. Phelan, an old Peterborough boy, ably assisted the choir on the occasion.

Mr. Geo. E. Dies, manager for the local branch piano warerooms of the R. S. Williams Co., left on Monday on a business trip to the head office in Toronto. After transacting his business there Mr. Dies goes to Rochester, N.Y., for a few days, to take over the legacy lately bequeathed to him by a relative. Mrs. Dies accompanied him to Toronto and proceeded to the home of her parents in Owen Sound, where she will be joined by Mr. Dies on his return from Rochester.

Terrible Experience of a Port Hoper.

The second mate, R. A. Crocker, of the ill-fated ship Parthia, 2,400 tons register, which was burned in the Pacific Ocean on Sept. 27th last, near the Island of Juan Fernandez, was born and grew up in Port Hope. Before taking to the salt sea Mr. Crocker had sailed on every lake vessel hailing from Port Hope. He was about three years ago mate aboard the schooner Maria Annette, sailing from Toronto, and was well know in that city. Mate Crocker and those with him after the Parthia was abandoned in Pacific Ocean suffered terribly before they were picked up by a vessel and landed at Valparaiso, Peru. The other boats of the ship landed at Juan Fernandez.

"It is all the Talk Hereabout."

"What shall I take to break up this bad cold?" Answer—Pinemalt. "But it has gone down to my lungs and hangs on!" Then get a bottle of Pinemalt and Hypophosphites instead. I advise this from personal and family experience. Pinemalt acts like a charm, allaying cough, curing hoarseness and other symptoms with surprising quickness. It is a great family medicine, safe and pleasant. My faith in Pinemalt is unbounded. The new medicine is all the talk hereabout. J. G. CALDER, pastor Alvinston and Brooke Baptist chs.—Jan. 30, 1895. Another Store Enlargement.

Mr. Charles Legros, the live George St. Tobacco dealer has completed arrangements for enlarging his store to twice its usual size, which will necessitate his moving out of his present premises. And having ordered a lot of imported cigars and pipes before he had the intention, and they having come in, his stock will therefore have to be slaughtered. It is therefore necessary for him to clear out his large stock, valued at over $10,000 before moving. His goods consists of 10,000 Diaz y Garcia, 12,000 Manual Garcia, 5,000 Or Loranga, 3,000 Jose Morales, all direct imported cigars from Havanna, 100,000 Domestic cigars, besides the finest lot of B. B. B. pipes there is in Canada. Smoker's sundries too numerous to mention. Don't all come at once. The prices were never equalled in Peterborough before, or never will be again. Don't forget the number, 329 George street.

THE CATHOLIC ASSOCIATION.

The Regular Fortnightly Entertainment—Rev. Father Fitzpatrick's Lecture—An Excellent Programme.

The usual fortnightly meeting in connection with the Catholic Association was held last night in their rooms. The chair was occupied by Mr. L. R. Keogh. A very interesting and well rendered programme was presented as follows:

Instrumental solo	Miss M Begley
Violin solo	Mr M Talbot
Vocal solo	Mr Squire
Lecture, "Our Literature"	Rev. Father M. F. Fitzpatrick
Violin solo	Miss Louisa Sullivan
Comic song	Mr J Begley
Violin solo	Mr. D. Talbot
Song	Mr D Gordon

The Rev. Father Fitzpatrick gave a very interesting and eloquent lecture on "Our Literature."

After reference to the educational influence of the Literary Society, in speaking of the history of Canada, he referred to the general ignorance of the history of our own country. Too much attention was given in our schools and colleges to the histories of ancient and foreign countries to the neglect of that of our own. After a brief sketch of Canada, when the Indians alone roamed its trackless forests, the speaker referred to the discovery of the country by a Catholic captain, and contrasted its primitive condition with that of to-day, when peace and prosperity reigned supreme. Neglect of the history of Canada in the schools accounted for a low estimate of the country and a low form of patriotism. The poets of England, Ireland and Scotland took a higher place than those of the United States because they were older. In Canadian Literature a prominent place was given the poet, Charles G. D. Roberts, a sweet singer, and the equal of Swinburne and Longfellow. We had no prose writer to compare with him. Charles Heavysege was instanced as a great Canadian dramatic poet, and Charles Sangster, a poet noted for his simplicity, and Wilfred Campbell, known as the poet of the lakes. Our native writers were not sufficiently appreciated and encouraged. Canada had within it the elements of one of the most literary nations of the world. A few apt words were spoken as to reading and the fact was pointed out that among our most brilliant writers the style and the story captivated whilst unconscious of the deadly moral poison lurking between the lines. Such books as those of May Agnes Flemming were denounced as bringing moral degradation to the readers. What people read must influence them. No one could read a bad book without feeling the effect. Therefore there was a necessity of good writers coming to the front and producing that which would elevate and instruct.

At the conclusion of the reverend gentleman's address he was accorded a hearty vote of thanks, moved by Mr. L. M. Hayes, seconded by Mr. A. J. Gough.

The evening spent was a delightful and profitable one and furnished another evidence of the important nature of the work the Catholic Literary Association is doing.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating, and certain pain remedy in the world.

ADDRESS AND PRESENTATION.

Mr. A. Devett of the Woollen Mills Cased on Friday Evening.

At the Peterborough Woollen Mills on Friday evening, Dec. 6th, the employees of the mill presented Mr. A. Devett with a gold-headed cane, he being about to depart for Brantford, where he has accepted a position as manager.

A complimentary address was read by Mr. D. J. Roche, at the conclusion of which Miss K. Finherty presented Mr. Devett with the cane.

In replying Mr. Devett spoke as follows:

"To say that I am surprised would not convey to you any idea of what my feelings are at the present moment. In fact I am so much surprised that I hardly know how to reply to the kind words contained in your address.

"During the five years we have worked together it has been my constant aim to promote the interest of the firm and to make my services as valuable as possible to them.

"I have striven to be just to all and have always found you willing to comply with my requests and although at times you may have thought me strict or stern, I assure you that I have always had your interests at heart and shall always feel a kindly interest in your welfare.

"I feel highly gratified to know that I have won the esteem of all those who have contributed to this handsome cane and in accepting it allow me to thank you very much for it. I shall prize it, not for its intrinsic value, but because it will always remind me of the many kind friends left behind me in the Peterborough Woollen Mills.

"I sincerely thank you for this handsome gift and take this opportunity of bespeaking for my successor, whoever he may be, the same kindness and courtesy you have always shown towards myself."

DID YOU PAY YOUR TAXES?

This was the Last Day of Grace and the Merchants Were Hustling.

Peterborough's tax collector has been very busy for the last few days—so busy in fact that last evening when office hours were over the fatigue incurred during the day quite overcome her and she had to be conveyed to her residence in a cab. This morning, however, she was back at her post bright and early and the big drawer heaped high with bills and cheques are proof of the amount of work necessary to record all the payments made to avoid the additional percentage which will be contracted after four o'clock this afternoon. Miss Cummings has two assistants behind the railings engaged in stowing away the money as fast as it comes in, yet it is impossible to keep track of just how much has been taken in on this the last day of grace. Up to four o'clock the rush to the tax collector's office was a sight to see.

CURLIANA.

The curling season opened in Peterborough yesterday, at the rink, and if appearances count for anything the enthusiasm will be even greater this year than ever before. In the afternoon T. P. Attrill and Sam Ray played a few ends with rinks composed as follows:—

W C McGill,	F W Taylor,
W L Allen,	W H Manson,
Geo A Schofield,	Judge Weller,
T P Attrill, sk—9.	S Ray, sk—12.

In the evening the rink was swarming with curlers, and the boom of the stones could be heard until a late hour. Three rinks were running all evening, with the following results:—

C Kerr,	H R H Kenner,
C LeBrun,	C N Brown,
R S Davidson,	D Davidson,
C McGill, sk—8.	W. G. Ferguson, sk—8.
E H D Hall,	Dr Carmichael,

At a meeting of the Granite Club Messrs. T. P. Attrill and Harry Allen were chosen to skip the two Tankard rinks this year.

The Thistle Club meets to-night to select rinks for the season.

THE WHEEL.

It does look as if the racing teams might be abolished altogether next year, as the firms employing racing men across the border have come out flat-footed against it. Over 36 firms answered the query whether they would employ teams next year in the negative, and 24 were in favour of the doing away of class B, and the establishing of an amateur and professional class.

HARRY B. LEADS.

Statistics of the trotting turf are not kept with the same systematic attention as the affairs of the gallopers receive, and it is not surprising that the published list, which credited Bryson with leading the Canadian harness horses is incorrect. The showing of Harry B., formerly owned by Mr. Harry LeBrun, of Peterborough, is very much better. Starting the season without a mark he finished with a record of 2.17¼, campaigned by the clever Toronto horseman, Mr. John J. Burns. Harry B. started in 17 races and won 13 of them, was twice second, once third and once fourth, never falling during the whole of his races to get some of the money, his earnings amounting to $3,640. It is a record that even his clever owner, with all his ability to pick out green ones and develop them to the first rank, will find it hard to equal.

PULLMAN HOUSE

FRANK FAIREN, Proprietor | 329 George Street, Peterborough.

Fresh air and exercise are all right, Boy's, but you want a little something occasionally for the stomach's sake. You can always count on getting it good at the Pullman. But be temperate, Boy's, and let your motto be "moderation." First-class Billiard Room in connection

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. You can impose on it to a wonderful degree. It is really astonishing how much abuse it will stand before it breaks down. "The last straw" doesn't break it down, but it makes it stop work. Continually put the wrong things into your stomach, and digestion will get weaker and weaker. Before long, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Let it continue, and there is nothing bad that it will not lead to. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sallowness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. You can take them just as freely as you take your food. There is no danger that you will become a slave to their use. They will cure you and then you can stop taking them. Send for free sample package of from 4 to 7 doses. NEAR TO DEATH'S DOOR.

This was the Condition of the Young Son of Mr. John English of Lakefield, Ont.

Extremely Nervous Debilitated, Seemingly Without Vitality or Vigor, the Highest Medical Skill was unable to Battle With His Disease.

What ever may be the cause, it is unfortunately too true that large numbers of children are afflicted with nervous troubles. These in many cases assume aggravated conditions and develop often into what is really a feature of paralysis.

A result of severe sickness some years ago, Robert B. English, the young son of Mr. John English, who conducts a large cooperage business in Lakefield, Ont., became the the victim of what seemed like chronic nervousness. The child was taken with severe twitchings accompanied by fits that were doomed to speedily wreck the whole system. Naturally the best medical skill was brought into requisition but no relief was secured. South American Nervine was used, and with the result that after six bottles had been taken the boy was restored to perfect health and is to-day one of the most robust and healthy children in his section of country. The case of Minnie Stevens, of London, Ont., daughter of Mr. F. A. Stevens, of the Stevens Manufacturing Co., is a somewhat similar case. Twelve bottles of medicine cured a severe case of paralysis there.

The great secret of Nervine is that it cures at the nerve centres, and for this reason is a panacea sure, certain and lasting, in all cases, of nervous troubles, general debility, indigestion, sick headache, and like difficulties in old and young. It removes these troubles, for it is one of the greatest flesh-producers that the age has seen. Sold by H. S. Macdonald.

Prudence, Justice, Fortitude and Temperance.

"Be thou vigilant, labor in all things, do the work of an evangelist, fulfill thy ministry. Be sober." II. Tim. iv., 5. These cardinal virtues of Christianity are the characteristics of the true faith, and the source of all other virtue. The epistles of St. Paul are full of warning against the evils that surround us, as well as of admonition to practise justice, not only in dealing with our neighbors, but towards God and even toward ourselves, likewise they are teeming with words of *encouragement* to combat bravely all trials for the love of God, as also to be temperate in all things. By aquiring the virtue of prudence we are enabled to discern the evils of the world, to know God, and to practise the duties of a Christian life. Justice enables us to "render unto Cæsar the things which are Cæsar's," to act conscientiously towards our neighbors in all things, and "to God the things that belong to God," doing His will and in all things seeking His glory. Fortitude strengthens and encourages us in the path of Christian virtue, besides giving us strength to resist temptation, and to bear bravely all trials for the love of God. Temperance is an essential virtue, and by faithfully preserving it we are strengthened in life and blessed with many spiritual graces. "He that is abstinent, saith the wise man, shall increase in life." A practical Christian will not be satisfied with merely fulfilling the law of God, by discharging the duties required of him, but he will likewise endeavor to strengthen his faith by the practice of such virtues as will increase his sanctity and promote God's glory, in fact, it is as much a duty to emulate all true virtue as to profess our faith, inasmuch as "Faith without good works availeth nothing." Besides, it is eminently meritorious, for by so doing we not only draw down great blessings on ourselves in this life, but we thereby store up rich treasures in Heaven, which will greatly increase our inheritance, towards which we are ever looking forward.—Francis S. Mitchell.

One Honest Man.

Dear Editor.—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P. O. Box 55, Jarvis, Ont.

KENTUCKY PERMITS TO MARRY.

A Few Excerpts From a Blue Grass County Clerk's Book of Marriage Licenses.

It is the custom in some of the counties of Kentucky for the County Clerk to append to his book of marriage license blanks the written consent of parents or guardians to the marriage of minors. From the pages of the book in the Bell County Court Clerk's office the following extracts are made:

This one is in a bold hand and is correctly spelled:

To whom it may concern: I certify that Miss —— is of age and has the full control of her person.

Signed,——

The next is a little lame in capitalization, but it is of full legal strength:

Mr. N.——: I give the opportunity to my girl to marry.

This one is rather weak in all points save the law:

Cleark sir pleas isue marriage license to ——— and my dawter ——— her age is fifteen years old. It will be A favor to me and all.

Here is one somewhat epistolary in form:

To the clerk of the Bell C. Court—These few line is to let you know That I have concented for my son to marry.

This one is somewhat formal:

I give leaf under my hand that I have no objections of the Clerk of Bell county marrage lisens between —— and ——.

Here is one from a woman to the girl in the case, which was taken at its face value:

Sariah J—I am not acquainted with the Boy you want to marry. Mr. E. Hirst will isue licents when this letter is presented.

This one differs from the ordinary:

As my daughter is under age I hereby grant you the right to use her name in granting license to get married. Her name is———.

This one evidently wanted to make sure:

Please let —— have a certificate of the right to matrimony, for Miss ———.

A Catholic priest, who, by the way, is a jolly good fellow, sent in this one from Middlesboro:

ST. JULIAN'S CHURCH.

Mr. Bingham—Kind Friend: The bearer, ——, wants license to marry Miss ——, a member of my congregation. They are worthy your kind consideration and capable subjects for the matrimonial arena. Thanking you for the many favors bestowed heretofore, I remain yours, P. M. JONES.

This one is signed by both parents:

Mr. —— has our consent to wed our daughter Maggie; also to obtain authority for a consummation of the same.

An unorthographic father sent in this:

Please Clurk give —— his lisons in ful my girl is free but I wanted you to know that I am willan.

This one shows the worst spelling of the lot:

Pleas ishsew lisons for —— and —— to marry i hav giv her up to him and oblige your friend.

This one from the girl's mother to the young man is full of doubt and hope:

CRAB ORCHARD, KY.

Mr. W.: Dear Sir I received your note yesterday eve stating what you and Jinnie had decided upon I don't much like to give my girl to a man I never saw but howsoever if that is what you and her has decided upon I guess I will give my consent in favor of it saying yes I hope you will make her a good and true husband also she will make you a good wife and that your days may be long and happy is my sincere wish.

Stuck up in a public place in Wolf county was this notice by the treasurer of the Board of Trustees for the school district:

Nodes to all voters in School district No —— Wolf county, Ky. yu will please cawl at my residentes and pay your school tax between now and the first of November if yu fail to do so yu will be subject to pay five per sent damedges please call at once this November the 7 1895. E—— B—— tresuremond.

The Impossible American.

They are telling the story in London that the impossible American in Paris alighted at a hotel to find it absolutely full. "I have nothing," expostulated the host, almost tearfully, "nothing. The first floor is taken by the King of the Ostenders; the Queen of Montegurla occupies the second; the Duke of Cottonopolis is sharing the third floor with the Caliph of Port Said, and the Crown Prince of Nova Esperanza is sleeping on the billiard table. As for myself, I have to make up a bed in the office, and there only remains the chamber of my daughter. Of course—" "Is that your daughter?" interrupted the American, pointing to the young lady at the desk. "Yes, sir." "All right; I'll marry her after lunch." And giving his valise to the speechless Boniface, he added, "Now, you can take my baggage up to our room."

Mecca is a large city and a principal one of the east. The Temple of Mecca, to which so many pilgrims annually travel, forms a spacious square about a quarter of a mile in each direction, with a quadruple row of columns. Mother of Pearl.

Mother of pearl is the hard, silvery, brilliant substance which forms the internal layers of several kinds of shells. The interior of our common oyster shells is of this nature, but the mother of pearl used in the arts is much more variegated with a play of colors. The large shells of the Indian seas alone have this pearly substance of sufficient thickness to be of use.

"As a general cough and lung syrup Pyny-Pectoral is a most invaluable preparation. It has given the utmost satisfaction to all who have tried it, many having spoken to me of the benefits derived from its use in their families. It is suitable for old or young, being pleasant to the taste. Its sale with me has been wonderful, and I can always recommend it as a safe and reliable cough medicine."

A Common Affliction

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

Ayer's The only Sarsaparilla

Admitted at the World's Fair.

"THOUGHTFUL JIM."

His Part in a Gold Mine Boom of an Earlier Day.

For a week or more "Thoughtful Jim" of Strawberry Hill, had been unusually thoughtful. He was a quiet, thoughtful man when he came to us. Even when working the hardest he had a far-away look in his eyes and his mind seemed to be somewhere else. A dozen or more of us had a talk about him one night, and after an hour's discussion Elder Watkins arose and said—:

"While I'd ruther hev a feller around who breaks out and cusses and cracks his heels together occasionally, I hain't again a thortful man. If Jim wants to set and think instead of talkin' let him think and no hanged to him."

That was the general feeling for some months, but when it came to pass that "Thoughtful Jim" spent nine-tenths of his time sitting around on the rocks with his chin on his hands, while his partner was doing all the work, that partner felt he had a right to complain. He did complain, and as a result a committee waited on the delinquent and the chairman said:

"Jim Bailey, this aint' no country fur a thortful man."

"No?" queries Jim, looking off down the valley in a dreamy way.

"When a feller has so many thinks to think of that he has to sit down and let his partner do all the work it looks bad."

"Yes?" says Jim, never raising his eyes to look around him.

"The boys is apt to suspect that he killed his mother, burned an orphan asylum or tore down a meetin' house back in the States. Mebbe he's stole hosses or robbed banks, or went around murderin' innercent babies, and his mind can't rest"

"Mebbe so," whispers Jim, though he didn't appear to realize he was speaking.

"And them same boys," continued the chairman," is also apt to remark that the aforesaid thortful critter, who has did all these crimes, had better stop his thinks and go to work to pack his duds and dig out! There ar' *thorts* and *thorts*. We don't know what your thorts ar,' but I've tried to make it plain that we don't like the situashun."

If Jim heard the words he did not reply to them. He sat there for an hour or more, never turning his gaze away from the valley leading down to San Francisco At length he rose up, walked over to his shanty and packed his stuff, and presently he started off without a word to any of us, and without stopping to ask for his share of the dust under the stones of the fire place. He went off down the valley, head and eyes down and looking neither to the right nor the left, and after watching him for a while Elder Watkins shook his head in a solemn way and solemnly observed:

"Boys, I'm glad on it! When a critter jumps up and down and yells and hollers and cusses, it's plain English and ye kin understand it, but when he sets down and looks way off and thinks and thinks and keeps his thorts to hisself how on airth ar' ye goin' to size him up?"

We were in touch with 'Frisco. We knew all about mining stock and had more or less dealings in them. One day, a month after "Thoughtful Jim" left us, shares in the "Golconda" appeared in the market. It was reported to be a mountain of gold. 'Frisco went wild over it. Shares of the face value of $25 jumped to $70, $80, $90 and $100 inside of a week. Men fought to buy them at any price, and out at Strawberry Hill we raked and scraped and gathered up our last dollar to buy at $120. We could have sold at $138; but we wanted more. One day we were offered $150 a share by a chap who said he wanted to get a controlling interest, but Elder Watkins solemnly shook his head and replied:

"Stranger, it would be flyin' in the face of Providence to take less than $300 a sheer, and I hope you won't offer that."

Next day those shares couldn't have been sold for a cent a piece. "Golconda" had busted It was only a mine on paper. We sent a man down to 'Frisco to investigate. Everybody had *been* bitten, for the thing had been beautifully worked. The man at the head of it was our "Thoughtful Jim," and the day before the crash came he took passage for New York and carried half a million dollars with him. When our man returned and reported a public meeting was called. It was attended by "many tax payers," every one of whom was dead broke and hungry. Nobody knew just what ought to be said or done on such a sorrowful occasion. Some wanted to "Whereas" and some wanted to "Resolve," but Elder Watkins got up on the head of a barrel and waved his hands for silence and said:

"It don't seem necessary to string out this funeral purceshun more'n half a mile, nor to stand around the grave more'n half an hour! We hev been did up and busted. We hev bin cut down as a flower. We had a thortful man in this camp, which his name was 'Thortful Jim.' We driv him out because we argued that a thortful man was no good. While we was workin' with our hands he was workin' with his head. While we was a-thinkin' he had killed his mother he was a-thinkin' how to make a scoop. We orter knowed better, but we didn't. We orter knowed that when a critter sets down and thinks and thinks and thorts sunthin' has to bust, but we took the wrong trail. We ar' busted. We ar' reduced. We ar' flat-broke. Thar' hain't nuthin' more to be said. Let's adjourn the meetin' and hunt fur mushrooms and roots!"—Detroit Free Press.

How Statues are Made.

Charles Caverley, N. A., the sculptor, stood in his studio the other day. Before him was a skeleton, a gruesome-looking object but one faithfully produced.

"What's that?" asked a visitor, pointing to the clay.

"That," said Mr. Caverley, "is to be a statue of Burns."

"But why don't you make the poet?" inquired the visitor. "What's the use of making skeletons?" Mr. Calverley said, "all statues are built up that way. First the skeleton is modelled then the muscles are put on, and lastly the clothes?"

The visitor apologized for his ignorance, and incidentally remarked that he'd bet that nine men out of ten would think as he did.

And perhaps he was right.

SOME NEW TRICK ELEPHANTS.

They Understand English and Weep When Reprimanded.

Some trained elephants are now being exhibited in New York by a Scotch traveler named Lockhart, who has educated them himself, and unlike many trainers, says that affection and confidence are the secrets of controlling this most interesting of beasts. Lockhart is a dapper little man; has large and kindly black eyes and dresses in the plainest manner possible. He does not carry a gold-headed cane, nor does he wear a diamond cross. But as an elephant trainer he is a genius of the first water.

"The secret of my success, I believe," said Mr. Lockhart, "lies in constant attention, kindness, and when necessary, absolute firmness. On arriving at a new town I invariably see my elephants comfortably stowed away and fed before I go to my own hotel. Except for the early breakfast I am always present at their meals. I bring them sweetmeats, buns, knots of sugar, and when they are sick I attend to them carefully. Then they look to me for everything. They know every word I say, and do everything I wish, so far as they can. I treat them just as I would children. Indeed, I am much more careful of them than I am of my own children, because while I have to support my children, the elephants in point of fact support me."

"What is your mode of punishment?"

"Well, really, the animals are so fond of me and so tractable, that beyond a stern look and an occasional harsh word, little is needed. Of course, I can always cut off supplies—that is, reduce their food, and this they feel very strongly. A few nights ago Molly was somewhat slow at her tricks on the stage, and as I passed her one time I gave her a fierce scowl, and growled between my teeth, 'This is very bad. I shall not be friends with you.' Molly is the most tender hearted of the three, and was very much cut up. When the curtain fell she followed me to the stable with great tears rolling down her cheeks, and it was not until I had made friends, and told her that she was forgiven, that she became herself again."

"How long does it take to teach them a 'trick,' or a point in the performance, whatever you may term it?"

"Well, that all depends. Of course, Boney is the cleverest, and picks up things quicker than the others, and, in fact, she helps to teach them. Some trifling movements which you have seen on the stage have cost me two years' assiduous labor. A single movement I have made them repeat from 50 to 100 times a day. But, once they have it, I can rely upon them. I have only to give the sign and they are there. One of the most difficult things was to get Boney to understand that she must keep time, regular time, in playing the organ. But, now she understands it, her time-keeping is that of a born musician. As for the tricycle, it was more difficult to design a machine than to teach Boney to ride. She took to it without any great difficulty, and, in spite of some accidents, she has always shown wonderful intelligence in steering."

"What were the accidents?"

"Well, on one occasion, on a somewhat small and sloping stage when we were in France, Boney could not make the turn in time, and ran into the orchestra. The players fortunately foresaw the avalanche and got out of the way, but the machine was ruined. On another occasion, on a small stage at Buda-Pesth, Molly overbalanced herself while standing on her head on a barrel, and toppled over on the big drum, doing damage which cost me $30 to repair. As a rule, however, they are wonderful. The manner in which their business is carried on on the stage proves how thoroughly they are in touch with me. I have only to give them the word and the thing is done."—Springfield Republican.

The Important Part.

A young typewriter had just been hired by a prominent lawyer. She had never done regular work before, and was somewhat nervous.

The lawyer settled himself back in his chair and began dictating from mind a brief. He had pegged away for about five minutes, when the girl stopped, with a horrified look on her face.

"What's the matter?" asked the lawyer.

"Would you mind saying that all over again?" the girl asked, with eyes full of tears.

"Why?"

"I forgot to put any paper on the machine!"—Syracuse Post.

Laid Low by Indigestion.

I was so run down I had to give up work. Scott's Sarsaparilla the kind that cures.

Indigestion or dyspepsia is the bane of thousands, and is one of the most depressing of afflictions. It arises from an impure or impoverished condition of the blood, which weakens the digestive and assimilative organs, rendering them incapable of performing their natural functions, and if neglected, the sufferer loses flesh, complains of exhaustion after slight exertion, and becomes rapidly debilitated.

Mr. Wm. W. Thompson, a prominent resident of Zephyr, Ont., in a letter dated Aug 12th, 1895, says: "It gives me great pleasure to testify to the fact that Scott's Sarsaparilla has caused a most remarkable change in my condition. I was so much run down I had to give up work and felt as if life were not worth living. Mr. Dafoe induced me to try Scott's Sarsaparilla, and after taking four bottles I am now feeling as I formerly did years ago, and I want to say for the benefit of those suffering from indigestion and feeling, to use slang phrase, 'completely knocked out,' don't despair until you give Scott's Sarsaparilla a fair trial."

Scott's Sarsaparilla is a blood food, it stimulates all vital organs to healthy normal action, enabling them to throw off all poisonous and debilitating humors. Sold by druggists at $1, but there is only one Scott's. The kind that cures.

Sold by J. D. Tully, Peterborough.

CANADIAN SEALERS' CLAIMS.

Senator Morgan Addresses His Colleagues on the Subject

Washington, Dec. 9.—In the Senate to-day Mr. Morgan, according to notice given, proceeded to address the Senate in support of the resolution offered by him referring that part of the President's message relating to the payment of the British Behring Sea claims to the Committee on Foreign Relations with instructions to examine into the question of liability to Great Britain and report to the Senate by bill or otherwise.

Mr. Morgan said that recent events imposed upon him the duty as a senator, a member of the Tribunal of Arbitration, which sat in Paris in 1893, and as chairman of the Senate Committee on Foreign Relations, to reply to certain criticisms sent out through the American press by the British Government, touching the attitude of Congress toward what is called the Behring Sea controversy. He asserted that the question whether a motion repealing the liability of the United States to Great Britain for the seizure of sealing vessels in Behring Sea under the orders of Mr. Cleveland's first administration should take place under the treaty of Feb. 28, 1892, was still an open question, and had not been closed by the award of the Tribunal of Arbitration. On the contrary, that tribunal expressly refused to make any decision of the question of such liability or to declare that the seizure of the vessels under Mr. Cleveland's order was illegal. Great Britain, however, contended that the Tribunal of Arbitration considered and decided this question of liability.

"The Tribunal of Arbitration," he said, "by agreement of the treaty powers, was discharged from the duty of considering the question of damages sustained by either. The only question before it was whether the right to protect the Alaskan seals belonged to the United States exclusively or whether it was necessary that the protection of the seals should be accomplished under regulations in which the two Governments would concur. It was the contention of the United States that the separate and exclusive power to protect and preserve the seals of the Alaskan herd existed in that Government, unaided and unobstructed by the subjects or the Government of Great Britain."

"This claim of the United States was formulated in five points, involving questions historical and geographical, and mixed questions of law and fact.

"Four of these questions were decided adversely to the United States by a majority vote."

Commenting with much severity upon Sir Julian Pauncefote's statement to Earl Kimberley that "strong party feeling" alone accounted for the rejection by Congress of the lump sum arrangement, the vote thereon being made up of Republican, Populists and 48 Democrats, Mr. Morgan proceeded to claim once more that the facts presented in the American counter case that ten of the vessels for which damages were claimed were actually owned, either in whole or in part, by citizens of the United States, and that therefore no damages could be due to them from this Government.

He spoke of Mr. Cleveland's action in his first term in ordering the seizure of vessels found violating United States laws in Behring Sea as "rightful, courageous and patriotic." He stated that the cruelty of pelagic sealing as pursued by Canadians and their "brokers of the criminal class in the United States" defied description, and that if that question had been passed upon by the Paris tribunal the response would have been one that the Canadian Government would scarcely have quoted.

Mr. Morgan read a document showing that the actual amount due, excluding the claims of American citizens, was only $96,102, instead of $425,000, as stated by Mr. Gresham. He renewed his contention that the further negotiations in regard to these damages provided by the treaty could only be entered upon by and with the consent of the Senate, and gravely suggested that the Senate should not be deprived of its constitutional power because it may suit the present views of the President. He closed by asking a vote on his resolution.

At the close of Senator Morgan's speech, which occupied two hours in delivery, his amendment was agreed to.

The Senate then proceeded to executive business, and at 3.55 p.m. adjourned until to-morrow.

Bronchitis Can be Cured.

By aiding medication with increased nutrition. The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the gratest value.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves in newest styles for all occasions.

Havana.—A party consisting of 60 soldiers of the Barcelona Regiment, 45 Hussars from the Rodas Regiment, and 200 volunteers had an engagement yesterday at Palma Ray with a band of 800 rebels belonging to the command of the insurgent leader Ricardo Perez. The fight lasted an hour and a half. The Spaniards had five men killed and five wounded. The loss of the rebels was very heavy.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.

The blood must be kept perfectly pure.

That is what the kidneys are for.

They have everything to do in filtering out the poisons.

This process of filtration may be interfered with by a cold.

Usually if there is any lack of good kidney work, it is a cold, or perhaps overeating and over-drinking.

Nearly every acute ailment starts with a cold. So do the diseases that finally kill.

The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

A TELEPHONE IN THE STOMACH.

Peculiar Phenomena of Human Nature

In an age when that subtle force electricity is presenting wonders to the world almost daily, and the Wizzard of Menlo Park has become the hero of the hour, there seems to be nothing that we may not expect in this direction. But it was not left to an Edison to establish a telephone in the stomach of human beings. The Great Maker of man in the economy of human nature provided such an instrument centuries ago. It is a fact that within the stomach of every man and woman there is a little instrument that telephones to the nerve centres in the brain as quickly as any food reaches that part. When for any reason this communication is stopped the food is undigested and physical trouble ensues. With word promptly sent from stomach to nerve centres, these supply the necessary juice that aids digestion, and nature successfully does her part, good health is enjoyed and man is able to perform with energy and pleasure his everyday duties. It will happen at times that these nerve centres will become deranged and lose their forces; then it is that a remedy must be supplied, just as the skill of the electrician is necessary when something goes wrong with the office telephone. South American Nervine is the electrician, so far as the human body is concerned. It is a medicine unique and exceptional in this particular that it works directly upon the nerve centres, and when these are out of order it quickly places them in proper repair and completeness. Nearly all diseases, especially indigestion, dyspepsia, nervousness, general debility, sick headache and disodrered liver arise through trouble at the nerve centres. You can just as readily count on South American Nervine effecting a proper cure in all such cases as you can depend upon the electrician of the Bell Telephone Co., removing any derangements that has taken place in your telephone. Sold by H. S. McDonald.

TWENTY-SEVEN DROWNED.

British Steamer Lost at Sea and Most of Her Crew Went Down.

London, Dec. 9.—A report has been received here that the British steamer Principia, Capt. Stannard, from Shields, via Dundee, Nov. 16, for New York, has been lost at sea, and 27 of her crew drowned. The Principia was a three-masted topsail schooner rigged steamer of 2749 tons gross and 1790 tons net burthen. She was built in Newcastle in 1881, and was owned by the Arrow Shipping Co. of that place.

or BLANKETS?

One dollar is'nt much to put in a blanket, but it will buy a $1.50 Blanket at Miss Rudkins'.

You can buy them cheaper still—as low as 80c, or as high as $7.00, with various good values in between.

We've a stock that these snappy mornings and evenings are making a hole in. But its a lucky thing that we could repeat our Blanket orders at the old price before wool went up.

Broken Lots of Underwear.

We are passing these along to our customers at the reduced price because the lines have been broken—the goods are as perfect as the day they left the mill, but the prices! Almost broken in two.

Don't ask the laundry to wash those poor shrunken undergarments any more—new Flannels are cheap enough here, goodness knows!

Large Gathering at Bracebridge Last Night.

ALL THE CANDIDATES CONFIDENT

Hon. Messrs Foster and Montague Complete Their Tour—Mr. Frank Pedley Makes Capital Points Against the Ministers—Liberal Meeting at Orangeville.

Bracebridge, Dec. 10.—The election excitement here is intense and the friends of the candidates are working to their utmost. The Government candidate is figuring on his majority, the Patron says nothing but the corruption fund can defeat him, and the Liberal representative is calmly and confidently awaiting the result of the poling.

There was a large audience in the Town Hall here to-night. There was much enthusiasm, but all the people did not cheer at the same time. The meeting was called by the Conservatives, but many Liberals were present, who were quick to appreciate the weak points in the Ministerial arguments and to applaud the sound doctrines enunciated by Mr. Pedley, who represented Mr. Gillespie, the Liberal candidate.

The chairman was Mr. Arthur Mahaffy, barister, of Bracebridge. On the platform with him were Messrs. A. F. Campbell, ex-M.PP.; W. F. Parkhill, ex-M.P.P.; ex-Mayor Armstrong, Mayor Hunt; James Boyer, Town Clerk; George E. Langford, M.PP.; H. S. May, Huntsville; Dr. Geo. Potts, W. J. Sheppard; Rev. Mr. Allman, Utterton; John Thompson, Rev. Father Maguire, D. E. Bastedo, Rev. Mr. Moore and others.

The chairman invited Mr. Frank Pedley, who was present in the interests of Mr. Gillespie, to a place on the platform and intimated that he would be allowed half an hour to present his views.

Mr. A. F. Campbell, ex-M.PP., was the first of the speakers. By puting this gentleman up for 10 minutes Mr. Pedley was forced to speak before the Ministers were called upon. Mr. Campbell, in a strong speech, proclaimed that the Government stood by the old policy and prophesied that the people in 1896 would repeat the verdict of 1878. When Mr. Campbell declared that the Conservatives were the national upbuilders, and that the Liberals were the national wreckers, there were mingled cheers and hisses. Again becoming prophetic, Mr. Campbell said that the opponents of the Government would be buried so deep on Thursday that Gabriel's trumpet in the morning would not resurrect them.

Mr. Pedley's oportunity now came, and he made the most of it. He remarked the singular reticence of the Ministers upon the Manitoba school question, and he added that if this audience heard from the supporters of Mr. McGillivray on the subject it would be the first since the advent of the Ministers. If they did speak it would only be that they had come to the conclusion that the silence which had been golden should at last be broken. Mr. Foster had stated more than once, and in this he had been corroborated by Mr. Haggart, that they were calling the special session of Parliament not to make any new tariff arrangement, but to settle the Manitoba school question, and yet the very man whom they hoped to elect by their eloquence had so little faith in the promises that Mr. Foster made that he had said that he believed that the Government hardly know where they stood upon the question. The audience was entitled to know where the Ministers stood and where their candidate stood upon the question. The only man who had had the courage of his convictions was Mr. Gillespie, who had said that he would vote against the remedial legislation to be proposed by the Government next session. Mr. Pedley exposed the twistings and turnings of the Conservative party from annexation in 1849 to protection in 1878, to reciprocity in 1892, to protection in 1895. He showed how the promises of the National Policy had been falsified by the census returns. "We say," he declared, "that there is nothing wrong with the country; that the country has great resources."

A voice—Thanks to the Conservatives.

Mr. Pedley—Did the Conservative party make the country?

The voice—Yes.

Mr. Pedley—Did the Conservative party create the water? Did the Conservative party do all this? These were here long before the Conservative party existed. There is nothing wrong with the country; there is nothing wrong with the men of Canada. Why is it that with these potent factors in our favor we are not able to retain the people that we bring here as immigrants, not to the extent even of our natural increase? Mr. Pedley presented a strong argument in favor of the extension of the Canadian market to Great Britain and the United States.

Dr. Montague, who had catechized Mr. Lockie Wilson with some success at Beaverton on Monday night, began interruping the speaker, but Mr. Pedley refused to be questioned, and, turning sharply upon the Secretary of State, told him that he would not allow him to bullyrag him to-night.

"You are not like Mr. Wilson," remarked Mr. Foster.

"No, I am not like Mr. Wilson," replied Mr. Pedley.

The speaker, who had been subjected to continuous interruption during his address, was complimented by Mr. Foster upon his pluck and ability, although the Minister said there was not much in his speech.

Mr. Foster, proceeding, said that the Government that dared not put its policy before the people ought not to exist, and its policy ought not to be supported.

Mr. Pedley, while demonstrating the Government's erratic course on the trade question, had alluded to the fact that Mr. McCarthy had said that if Mr. Mackenzie had adopted portection the Conservatives would have adopted free trade.

Mr. Foster said Mr. McCarthy had no more principle than to make the unblushing assertion that he was such a man that if his opponents had taken one side of a great political and tariff question he would have taken the other. He was like the man who founded his life on simple opposition. If his neighbor was a thief he would be an honest man; if his neighbor was an honest man he would be a thief. Mr. Foster, after construing Mr. Pedley's words into a declaration in favor of free trade as it is in England, said that The Globe had declared in a two-column, double-leaded editorial that none but faddists and theorists held such a view. Since its adoption in 1878 there had been no shadow of variableness or turning in the Government's policy so far as its principles were concerned. The Government had no new policy, but the old policy of protection to Canadian interests. There was no twisting, and the Government was still in favor of reciprocity if it could be got on fair terms. The Minister of Finance turned to Mr. Pedley and told him that he would give him the nicest $100 he had ever seen if he would show one single article in the tariff in which the Government discriminated against Great Britain. The tariff read fairly and squarely upon every article, no matter what country it came from.

The Minister defended the Government against the charges of extravagance and corruption, after which he replied to the criticisms of the Patron campaigners.

Dr. Montague, before proceeding to discuss the general issue, paid his respects to the enemy, the third party leader. The doctor said that he was glad Mr. McCarthy was coming to Bracebridge, because he would just show how little there was in what he had to say. As to whether Mr. McCarthy would form a party in the Dominion or not there was no question and there never was a question. He had no more chance of forming a great party than he (the doctor) had of going to the moon via the C.P.R. to-night. "He is a political impossibility, and he known it just as well as I do," cried Dr. Montague. Mr. McCarthy, he said, had made a number of statements in regard to Sir John Macdonald's opinions and convictions that considering his relations with Sir John Macdonald he had beter have left unsaid. It was beyond the power of Mr. Pedley or Mr. McCarthy to blacken the old chieftain. Sir John, the doctor said, had been a protectionist since 1815 and his speeches showed it. Mr. McCarthy had no more show of being elected in North Simcoe than he had of forming a great party in Canada. "He is here to suport the Patron candidate," the doctor went on. "I am glad he is comig for the Patron candidate wil have a poor show of election when he comes. What brings him here? Is it love of the Patrons? Why does he come? Because he hates with a venemous hatred the men who are trying to carry on the work that Sir John Macdonald began. He said, 'I will bide my time.' He thinks this time has come. He thought it had come in Haldimand, but he was mistaken. He will be mistaken in North Ontario as well. Mr. McCarthy is not here because he loves you, but because he thinks he has an oportunity of knifing men who did him many kindnesses and with whom he was associated in the days past." It was 12.30 a.m. when Dr. Montague concluded his speech.

This concludes the Ministerial tour in North Ontario. They left after the meeting for the capital. Mr. Foster and Dr. Montague will be in Cardwell after Dec. 16.

LIBERAL MEETING AT ORANGEVILLE.

Mr. Henry Declares Himself Clearly Against Coercion

Orangeville, Dec. 10.—The part of Cardwell which adjoins the town of Orangeville is a strongly Conservative corner of the riding, and the 700 men who filled the Town Hall here to-night to listen to Mr. R. B. Henry, the Liberal candidate for the constituency, and to Dr. Landerkin, M.P., and Mr. McMullen, M.P., was by no means a Liberal audience. In point of fact, Conservatives and McCarthyites largely predominated, and that made the undoubted victory which the Liberal speakers won all the more significant. It was a distinctly antagonistic audience which they faced, but Dr. Landerkin presented an indictment against the Conservative Government of crusing force, and Mr. McMullen folowed this up with one of his telling speeches, bringing the mismanagement of the country home to the individual members of the audience, and he sat down with the audience won over. Mr. Henry made a clear-cut and straightforward declaration of his position on the school question, declaring himself against coercion, and saying that if elected he would vote against the remedial order.

The hall was decorated with two or three mottoes: "Farmers of Cardwell, Are You as Prosperous as You Ought To Be?" confronted the audience. "Vote for Honest and Economical Government," was another, while last, but not least, "Has the National Policy Made You Rich?" was to be seen.

Mr. R. J. Potter, the Treasurer of the Reform Association of Cardwell, was the chairman and on the platform were a couple of score of ladies, who evidently took a deep interest in the proceedings.

HAYWARD HAS CONFESSED.

Admits That He is One of the Guiltiest Wretches of the Century.

Minneapolis, Minn., Dec. 10.—Harry Hayward has confessed. Every shadow of doubt as to his guilt in connection with the murder of Katherine Girg has been swept away.

Hayward admitted to County Physician Burton that the gallows was about to receive one of the guiltiest wretches of the nineteenth century. He confessed that he alone was the instigator of the murderous plot, and that Claus Blixt was but his tool. Hayward said he intended to kill Blixt, but he could not, as Blixt was too cunning for him.

Hayward is making a gigantic effort to cover up his shattered nerves today, but with poor success. Father Timothy visited the condemned man in his cell, but Hayward refused to embrace the comfort offered by the priest. He will die, as he has lived, with no profession of religion.

Sheriff Holmbeg visited the cell and asked Hayward if there was anything he wished:

"Yes," was the reply; "I want to give the boys a big spread here to-night, late."

"All right," answered the sheriff; "you can have anything you want."

Hayward at once set to work and prepared a bill of fare. He has already dressed himself in the black suit which he will wear at his execution. He has purchased a white silk tie and insists upon wearing it.

Hayward's Last Moments.

Minneapolis, Dec. 11.—At 12.30 Hayward ate his last meal, consisting of all the delicacies of the season. He ate heartily incompany with several deputies and the county physician and his death watch. Hayward has made his peace with all the world and says he forgives Adry nad all others with the exception of three men. These are Detective Mike Quinlan, Attorney Steven and Mike Kierce.

1.20 a.m.—Father Twohey and Rev. Mr. Wilkinson have just left Hayward's cell. He refuses to the last to embrace religion.

2.30 a.m.—The execution has just taken place. There was no hitch in the proceedings.

Kicked to Death by His Horse.

Brampton, Dec. 10.—Yesterday afternoon Mr. John S. Leary of Britannia was kicked in the abdomen by a horse, from the effects of which he died this afternoon. Mr. Leary was a highly respected and wealthy farmer, and his sudden death has shocked the whole countryside. Several years ago his son was killed by falling off a load of hay, in almost the same spot that he received the fatal kick.

DIED FROM DIPHTHERIA.

Dr. Rockwell Declined to Use the Anti Toxine Treatment

Chicago, Dec. 10.—The deaths of Dr. G. C. Rockwell and Miss Hubbard, his 17-year-old patient, both of Hyde Park, were reported to the Health Department. Miss Hubbard was taken ill with diphtheria on Nov. 23. Dr. Rockwell persistently declined to use anti-toxine treatment and she died the fifth day. A nurse employed in the Hubbard family also contracted the disease and died, and was soon followed by Dr. Rockwell.

According to the Health Department not a case of diphtheria which has received the anti-toxine treatment within the first 24 hours, has been lost, and 98 per cent. of the patients inoculated with it 48 hours after the attack have recovered.

Winnipeg Civic Nominations

Winnipeg, Dec. 10—The civic nominations took place to-day. R. N. Jamieson, barrister, D. W. Bole, merchant, and C. R. Wilkes, gentleman, were nominated for Mayor. Aldermen Kennedy in Ward 1 and Ald. Andrews in Ward 2 were elected by acclamation. There will be contests in the other four wards.

Lieut. Col. Boswell of the Ninetieth has resigned. It is probable that Major Ruttan will succeed him.

Hawaiian Political Prisoners Released.

Victoria, B.C., Dec. 10.—The Miowera from Honolulu to-day brings advices that the Hawaiian Government celebrated Thanksgiving by releasing W. H. Rickard and Thomas Walker and five natives, leaving only eight political prisoners in jail. The released men admitted complicity and prayed for clemency. So have Gullick Bowler and Major Seward, but unsuccessfully at present.

A Retired Farmer Shoots Himself

Niagara, Ont., Dec. 10.—Hugh Hutchison, aged 63, retired farmer of means, who has boarded at Long's Hotel here for the past 15 years, committed suicide in the hotel stable this afternoon by shooting himself. No cause can be assigned.

Have Nothing to Live for.

Sometimes men and women feel this way. A wave of despondency creeps up and up till it reaches the heart. They become languid and listless. Life appears grey and desolate. What some people want is not merely a tonic. They want to be built up. They want a stimulus, which will give them courage and put new hope in them. Such a stimulus is found in Wilson's Invalids' Port Wine. This is incomparably the best tonic at present offered to the public. A rich, generous wine, with a glow, a body, a fruitiness which are calculated to build up the wasted system. A bottle of this bracing tonic makes a poor debilitated creature a new citizen. Sold by all dealers at $7.50 per case of 12 quart bottles, half case $4.00 or 75 cts per bottle. Address—Bordeaux Claret Co., 30 Hospital street, Montreal.

Purified Blood

Saved an operation in the following case. Hood's Sarsaparilla cures when all others fail. It makes pure blood.

"A year ago my father, William Thompson, was taken suddenly ill with inflammation of the bladder. He suffered a great deal and was very low for some time. At last the doctor said he would not get well unless an operation was performed. At this time we read about Hood's Sarsaparilla and decided to try it. Before he used *half a bottle* his appetite had come back to him, whereas before he could eat but little. When he had taken three bottles of the medicine he was as well as ever." FRANCIS J. Daily Examiner.

WEDNESDAY, DECEMBER 11, 1895.

GRAVENHURST has been infected pretty strongly with the protection heresy engendered during the North Ontario election campaign—she has voted $10,000 to a consumption hospital, to be located in the town. Yet this is better than the policy the government subsidizing steamships to bring in Antipodean mutton to "buck" against Ontario sheep.

HON. Mr. Foster stated in North Ontario that not the Manitoba School question but the tariff was the issue in the North Ontario election. In view of the fact that a special session of parliament is to be called especially to settle the Manitoba School question and that the bye-elections are held so that the vacant constituencies will not be unrepresented at the extra session, Mr. Foster's assertion seems to be absurd. The fact was Mr. Foster and the Government feared a pronunciation by the electors on the question.

NORTH ONTARIO CAMPAIGN HUMOUR.

Patron Haycock Gets Sheep Shearer McGillivray on the Hip.

It will be remembered that when Mr. J. Lockie Wilson stated at the nomination meeting in North Ontario that Australian canned mutton was being brought into the country by a steamship line heavily subsidized with the taxes which the farmers of Canada pay, Mr. McGillivray denied the truth of the statement, and defied Mr. Wilson to prove it. Mr. Wilson promised to do so, and immediately telegraphed to the agents at Montreal, Messrs. Fraser, Viger & Co., and received three cans of mutton by express, along with the following letter:

"FRASER, VIGER & CO.,
"Family Grocers
and Wine Merchants,
"207, 209 and 211 St. James street.
"Italian warehouse,
"Alex D. Fraser, Montreal, Dec. 6, 1895.

J. Lockie Wilson, Esq., Cannington, Ont:

"DEAR SIR,—Your order received to-day for consignment of cans of Australian mutton, which I beg to advise will go by to-night's express to your address as above. Please take notice that we are prepared to fill unlimited orders for roast, boiled and corned Australian mutton; also Australian rabbit, excellently put up, and *hardly distinguishable from chicken.*

Yours truly,
FRASER, VIGER & CO.

The Telegram's correspondent relates that at a recent meeting Mr. Haycock, Patron leader, made the statement with regard to the importations of Australian mutton, and a farmer in the rear of the hall called out that it was not true. The Telegram's report continues:

"It's not true, eh!" snorted the Patron leader, as he dived into his capacious grip and drew forth a package of the mutton in question. 'It's not true, eh! Well, sir, here is a can of the meat itself, and now you will have either to eat your words or elese come up here and eat this mutton.'"

The laugh was, as it generally is, on the interrupter.

SIR OLIVER RIGHT AGAIN.

A Supreme Court Decision Worth Half a Million and $5,000 a Year to Ontario.

The Supreme Court on Monday, says a special despatch to the Globe, rendered a decision involving a financial advantage of nearly half a million dollars to the Province of Ontario. The Robinson treaties, made by the Indians north of Lakes Huron and Superior in 1851, provided for the surrender to the old Province of Canada of extensive tracts of Indian lands, and for the payment by the Crown of perpetual annuities to the Indians, to be augmented if the lands yielded a sufficient amount of money. At Confederation these lands went to Ontario, and the Indians applied for the augmentation of the annuities. The Dominion Government claimed that the Province of Ontario was responsible; that the Province had taken the lands subject to a trust in favour of these annuities and the augmentations. The case was argued before three arbitrators, Chancellor Boyd of Ontario, Sir Napoleon Casault of Quebec and Judge Burbridge, of the Exchequer Court of the Dominion, who decided unanimously in favour of the view that the annuties were a charge upon the Ontario lands. This award is now reversed by the Supreme Court, and it is held that Ontario is the absolute owner of the lands, free of all lien or charge. The amount involved consists of two items of $95,200 and $389,106, in all $484,306, representing the amount due up to 1893, and an annual payment afterwards of about $5,000. The judgment just rendered is in accordance with an opinion given by Sir Oliver Mowat about twelve years ago.

WESTWOOD.

From Our Own Correspondent.

The missionary meeting in the Methodist church, here, on Tuesday night, Dec. 3rd, was a success. Mr. Thos. Blezard, M.P.P., presided. The programme was as follows:—

1. Chairman's address.

Mr. Blezard made a neat little speech along the line of missionary work, saying he was pleased in being honoured as their chairman and in taking part in a meeting for the good of the people. He said we are here to-night to fulfil God's command to his people, "Go ye into all the world and preach the gospel to every creature;" not so much by going ourselves but by contributing liberally to support those who are already there and those willing to take their lives in their hands to spread the gospel. He fully described the grand province we live in, the benefits, privileges and blessings we enjoy, and said it was our duty to give well, but at the same time not to neglect home work.

2. Music by the choir.
3. Missionary report by the Rev. Mr. Peake, pastor of the Methodist church here. The report was too lengthy to give in full, suffice it to say it was very satisfactory and encouraging.
4. Music by the choir.
5. Address—Rev. Mr. Liddy, of Keene.

The Rev. Mr. Liddy, who is a fluent and forcible speaker, gave an excellent address. For a beginning he told some pleasant stories in connection with church work, and then his reasons for being here. We can scarcely be just to Mr. Liddy without reporting him verbatim, but space and ability will scarcely allow, so we will only attempt a general outline of his address. To begin with, we might say his whole address was teeming with information, good points, and excellent advice. He took us away back to ancient times, described the church then, and gradually brought us up to the present time. He said there is a head faith and a heart faith; they both make a grand combination, but the former without the latter is latent and inactive. The infidel would give the world, if at his disposal, to get rid of that lingering faith or doubt, "The Bible may be true." In the dark ages it would take a labouring man fifteen years to earn enough to buy a Bible. The 16th century was not much better; the 17th a reign of infidels; the 18th Christianity took a start, and in the 19th century—the one we live in—the best of all, gradually getting to universal salvation. He spoke of the work in Japan and China. In Japan it was flourishing, but in China, the Celestial empire, it is dark. It was no credit to the British empire to force opium on the poor Chinese. The Rev. Mr. Liddy concluded a most excellent address by a grand peroration on the benefits and blessings of the land and times we live in and encouraged all to give, reminding his audience that God is never going to be in debt to anyone.

6. Music by the choir.
7. Address—Rev. Mr. McQuade, of Havelock. The reverend gentleman gave a very humourous address, a continuation of jokes from beginning to end. He vividly and humourously compared the missionary meetings of early days with those of the present, and scored point after point along the line of missionary work. He spoke of the rivalry of the different branches of the church in missionary work in the back townships which are sparsely settled and denounced the present system. He said when any branch of the church of God had a foothold and were willing and able to climb to the summit, it was folly for any of the others to go in and divide the work and starve with the people and themselves, or else draw money from the mission fund to support them, money which should have gone elsewhere, and elsewhere would have done greater good. We are all working for one glorious end. Then let us join hands and help each other to achieve success.
8. Collection—A good one.
9. Miss Lottie Blezard and Miss Maggie Cardwell were appointed collectors.
10. The usuaul votes of thanks were rendered.
11. Doxology.
12. Benediction.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

Railroad Sold for $60,000,000

Topeka, Kas., Dec. 10.—At 3 o'clock this afternoon the property of the Atchison, Topeka & Sante Fee Railroad Company was sold at auction by Judge J. D. Johnson, special Master in Chancery. The only bid was one of $60,000,000, made by Edward King of New York, representing the re-organized company, and the property was declared sold to him. The sale was afterwards confirmed by Judge Caldwell.

JOHN MOFFATT, Manager.

70,000 Abyssinians.

London, Dec. 10.—A despatch from Rome says that Gen. Baratieri, Governor of Erythrea, and commander of the Italian troops, telegraphed this evening that fully 70,000 Abysinians have invaded the Tigre country and are besieging the Makalle and Anatal. Forty thousand of the enemy are in the vicinity of Adowa. Consequently he has ordered the Italian force at Adowa to fall back to Adigrat, where he has only 6000 men.

Upon receipt of the foregoing despatch the Government ordered that the preparation for sending reinforcements to Gen. Baratieri be pushed forward with the greatest possible despatch. Work in making ready the sending of additional men to Africa will be carried on night and day. It has been decided that 3000 troops and two batteries shall depart immediately. Every available transport at the dockyards has been ordered to be put in readiness to convey troops. Some warships will accompany the reinforcements to Massowah, the capital of the Italian colony.

The Government decided this afternoon to postpone until next Saturday its request that the Chamber of Deputies vote a credit of 5,000,000 lire, to be expended in carrying on war operations in Abyssinia.

FAURE'S FAMILY HISTORY.

The French President's Relations Raked Up Against Him.

Paris, Dec. 10.—Concerning the rumors in circulation of an alleged campaign to compel the resignation of President Faure, The Figaro discloses the secret with the publicity of which the President has been threatened by his enemies.

It appears that President Faure's father-in-law, M. Belluet, left home four months after his marriage, having dissipated all his fortune, including his wife's dowry, which made him guilty of breach of trust. Belduet's daughter, born after his disappearance, was brought up by an uncle, M. Guignot. When M. Faure wanted to marry the daughter of Belluet, the lady's relatives informed him of what had occurred, whereupon M. Faure declared that he would not allow an innocent person to suffer what had occurred before her birth and married her. The Figaro says the story furnishes a further motive for respecting and loving the person who has been attacked.

RICHTER'S VIOLENT HARANGUE.

He Denounces Germany's Colonial and Protective Policies.

Berlin, Dec. 10.—Herr Richter, Radical, made a violent attack upon the Budget in the Richstag to-day and was especially severe in his criticisms of the demands of the Government for colonial purposes and the frequency with which expeditions for colonial aggrandizement, costing large sums of money, were organized. He then called attention to the new sugar law, which, he said, meant 5,000,000 marks increased burden to the German nation. He felt convinced that the Government sugar measures were not directed against America, and expressed his approval of the statement made by Baron Marschall Von Bieberstein, Minister of Foreign Affairs, yesterday concerning the tariff situation between Germany and the United States.

"But," he said, "if Germany should increase the bounty on sugar America may increase the surtax. Therefore, abolish the bounty, avoid the surtax and give the nation cheap sugar."

In regard to the insurance question, he declared that German companies were beginning to complain of the new ordinances. It would be better, in his judgment, to make the administration of insurance affairs, an Imperial and not a Prussian concern, and at the same time reform the system.

He was not satisfied, he said, that the twenty-fifth anniversary saw the empire better and greater than it was at its foundation. "It is the empire," he declared, "that is improverishing the people."

PROVINCIAL FAT STOCK SHOW.

The Twelfth Annual Exhibition in Progress at Guelph

Guelph, Ont., Dec. 10.—The twelfth annual provincial fat stock show opened here to-day. Three thousand dollars in cash is to be distributed in prizes, besides various trophies. A new feature this year is the poultry show.

The whole rink and the new addition of about 15,000 square feet are all filled with fat sheep, swine, cattle, live and dressed poultry.

Prominent cattle men from various points are conspicuous exhibitors again this year, one exhibition coming from as far east as Compton, Que.

In dairy cattle not many are shown, this being the first attempt in this class, but some notable cows are present, the most prominent being Lady Bright, which won distinction for Canada in the shorthorn class at the World's Fair.

In the evening a mass meeting was held in the city hall, the Hon. John Dryden being chairman. An address of welcome was made by James Innes, M.P., which was responded to by Mr. Andrew Patullo of Woodstock.

Prof. James Robertson made a stirring speech, his text being "The British Trade as it affects Canada."

A very interesting part of the program was a demonstration of economical cooking of meat, by Miss Livingston, superintendent of the Ottawa School of Cooking.

A STAR RUMOR.

Mr. E. E. Sheppard and Associates Said to Contemplate Its Purchase.

Toronto, Dec. 11—There is a well authenticated rumor that The Evening Star, one of the brightest afternoon journals of Canada, will shortly pass from the possession of The Star Printing and Publishing Company, into the hands of a newspaper syndicate, headed by Mr. Edmund E. Sheppard, the brilliant editor of Toronto Saturday Night, one of the best-known of Ontario's thought moulders. It was not possible to verify the rumor last night, Mr. W. J. Gage, the reported principal shareholder of the company, being out of the city, while other interested parties were not disposed to discuss the matter for publication.

Mr. Edmund E. Sheppard was seen at his residence last night by a World reporter, but would neither deny nor affirm the report that he would shortly become the proprietor of The Star. He said that he had not, so far, bought The Star, nor was any deal of the kind "off." As to what he contemplated doing he remarked that he would buy or trade anything there was money in, for that was his business. Further than that he would not go.

"If you printed the report you speak of to-morrow morning I would be as much surprised as would your readers," he continued. "If I had money enough I might buy The World, but there is as much truth in the one story as the other."

"Will you say that there is not the slightest likelihood of such a deal being consummated?"

"I cannot say, nor can I imagine where you got the information."

"Can you give a more definite denial?"

"No."

Notwithstanding the failure of Mr. Sheppard to verify the rumor that he is about to branch out as the leading spirit of a daily newspaper, The World feels reasonably assured that the transfer of The Star is not only in contemplation, but will be completed in a very short time.

MANN A BONANZA KING.

The Montreal Railway Contractor Said to Have Struck It Rich

Montreal, Dec. 10.—Mr. Dan Mann, already well known as a leading railway contractor, is destined to become the John W. Mackay of British Columbia. Mr. F. P. Armstrong, manager of the Upper Columbia Navigation Company, who arrived in the city to-day, told your correspondent that the North Star mine, which was purchased by Mr. Mann not long ago for $40,000, has developed into a regular bonanza, and that nearly 10,000 tons of ore will be shipped next season. Mr. Armstrong then compared the North Star to the great Slocan Star of West Kootenay, for which $1,250,000 have been refused because the owner says he will make no less than $50,000 per month, as soon as all the works are completed in January next. He describes Mr. Mann's property thus: "The vein in its croppings is from 15 to 63 feet wide, of solid ore or carbonates. The drift now being worked is 12 feet high by 12 feet wide and of this not more than ten per cent. is of too poor a quality for shipment."

Mr. Armstrong says that this is just as promising as the Slocan Star, although it has not reached the same state of development.

Mrs. Isabel Garrison Smith of The Chicago Tribune, has undertaken a big job, and she has started out in the city of Montreal. Some time ago this clever lady journalist from the Windy City was a member of the May-brick Liberation Committee, but this was a failure, and Mrs. Garrison Smith has turned her active mind in another direction. She is determined that a monument shall be erected in the city of Quebec in honor of the ill-fated General Montgomery, of the American army. The matter was agitated not long ago and Canadians generally thought the last had been heard of the scheme, but the other day Mrs. Isabel Garrison Smith arrived at the Windsor with determination stamped in every feature. She has secured the services of a lady here who has the entree of Rideau Hall, and will also interview Sir Mackenzie Bowell on the subject dear to her heart. It is said, in fact, that Mrs. Isabel Garrison Smith will not quit Canadian soil until Lord Aberdeen and the Prime Minister have been conquered, and Mrs. Clarke Murray of this city will not accompany the petitioner to the capital.

WEISMILLER FOR WEST HURON.

Nominated on the First Ballot at a Convention of Conservatives Yesterday Afternoon.

Goderich, Dec. 10.—The West Huron Conservative Association met at Smith's Hill this afternoon to nominate a candidate to represent the riding at the coming election.

The meeting was attended by a large delegation from all parts of the riding. The following gentlemen were nominated as possible candidates:

Dr. Holmes of Goderich, Mayor Butler, Goderich; Joseph Beck of Saltford; Robert McLean of Goderich, Ernest Heaton of Goderich, J. M. Roberts and Dr. Care of Dungannon, D. Weismiller of Hensall and Dr. Freeborn, Clinton.

Stirring speeches were made by the various nominees and delegates.

Mr. Weismiller received the unanimous vote of the convention on the first ballot. Mr. Weismiller is very popular and will make a strong fight for the forthcoming election.

MINISTERS AT BRACEBRIDGE.

The Largest Meeting of the North Ontario Campaign Addressed by Messrs Foster and Montague.

Bracebridge, Dec. 10.—The largest meeting held in this town since the opening of the North Ontario campaign greeted the Hon. George E. Foster and Hon. Dr. Montague this evening. The Ministers were escorted to the hall by the town band and a torch-light procession. Upon the platform were A. F. Campbell, ex-M.L.A.; W. J. Parkhill, ex-M.L.A.; G. E. Langford, M.L.A. and many prominent men from the town and surrounding country, including many ladies.

The meeting was opened by A. F. Campbell, who made a short speech in favor of the Government.

Mr. Frank Pedley, Toronto, occupied the time allotted to him in condemning the Government on the remedial order and the trade policy.

The Hon. G. E. Foster followed, upholding the trade policy, and the meeting was closed by the Hon. Dr. Montague, who spoke in his usual vigorous style and elicited rounds of applause.

The campaign will be closed to-morrow by Mr. D'Alton McCarthy, M.P., who will speak on behalf of Mr. Brandon, the Patron candidate.

A Terrible Slaughter.

London, Dec. 9.—A despatch from Rome to the Central News says that the force that went to the relief of Major Tosselli repulsed successive bodies of Abyssinians, but could not reach Major Tosselli. The latter's troops had exhausted their ammunition. As soon as the enemy learned this they charged upon the Italians, nearly all of whom were massacred. It is known that 14 Italian officers and 700 men were killed, while 300 are missing. Gen. Baratiori is hastening to engage the enemy.

Accidentally Shot Himself.

Brigden, Ont., Dec. 9.—George Arn, son of Cornelius Arn, living two miles east of here, was found dead about 4 o'clock this afternoon in the woods on their farm. He left the house after dinner to do some chopping, taking his gun along. It is supposed the gun accidentally went off when Arn was getting over a fence.

COUNTY COURT.

The Grand Jury Brings in its Presentment—The Case of Walsh vs. The Matthews Co'y. Decided.

At this morning's sitting of the County Court, the Grand Jury, composed of Messrs. Jos. H. Cobb, (foreman), Louis Croly, Robert Fair, F. B. Knowles, Charles Dawson, Frank Mercer, Chas. Miller, Wm. Thistlewaite Miles Froats and John Kindred, brought in the following presentment:

Your Grand Jurors are pleased to have the opportunity of congratulating your Honour upon the fact that there are no criminal cases upon the docket, indicating, as it does, that so far as the jurisdiction of this court extends, the County is free from crime. And although other courts in the County have the power to deal with such cases, as already pointed out by your Honour, and may have done so within the term covered by this session, still we consider the absence of criminal cases from the docket of this court a matter of gratification.

Your Grand Jurors visited the County Gaol, and have to report that they found everything in good order, and the prisoners properly cared for.

Your Grand Jurors also visited the Nicholls Hospital, the Protestant Home, and the St. Joseph's Hospital, and have to report that they found each in an excellent state of order and efficiency, and in that condition which is calculated to best serve the purposes for which they exist. The various appointments of the two Hospitals are good, contributing in a high degree to the curing, the comfort and the safety of the patients. In this connection your Grand Jurors have to report the addition of three new fire escapes to the St. Joseph's hospital, at an expenditure of some $200. All such improvements for the good, convenience and safety of the public are of the utmost importance and worthy of commendation.

Your Grand Jury also decided to point out, as a result of their visit to the County Gaol, where a number of poor are at present lodged—and the same matter has been referred to in like manner by preceding grand juries—the necessity there is for a proper home or refuge for the indigent and poor of the county, who are not criminals in the accepted sense of the term, but who are at present compelled to be confined with that class. Your Grand Jurors would urge the procuring of proper premises for the same at an early day believing, as we do, that the expense of maintaining such an institution would add but little to the present cost of supporting the poor in gaol.

A verdict in favour of the plaintiff for $100 and the $24 already paid into Court was found in the case of Walsh vs. The Geo. Matthews Co. (Limited.)

IN THE BAR ON SUNDAY

But They Were Engaged in Dressing It and Were Paid for So Doing.

Mrs. Margaret O'Shea, in whose name the liquor license is taken out for the Commercial Hotel, was charged this morning before Magistrate Dumble with a violation of the Liquor License Act, in allowing others than her servants in the bar-room during prohibited hours.

On Sunday morning the Chief of Police, it seems, was passing the hotel and hearing someone talking in the bar-room, went in and found Mr. O'Shea and three others there.

This morning it was shown in the Police Court that the four were in the bar for the purpose of dressing it, a work which can be done at no other time without great inconvenience. It was also shown that the men were paid specially to do this work, one of them being apparently an expert in the art and the others being engaged as his assistants, and paid as such. Judgement was reserved for a week. Mr. W.A. Stratton appeared for the defence.

Another Store Enlargement.

Mr. Charles Legrps, the live George St. Tobacco dealer has completed arrangements for enlarging his store to twice its usual size, which will necessitate his moving out of his present premises. And having ordered a lot of imported cigars and pipes before he had the intention, and they having come in, his stock will therefore have to be slaughtered. It is therefore necessary for him to clear out his large stock, valued at over $10.000 before moving. His goods consists of 10,000 Diaz y Garcia, 12,000 Manual Garcia, 5,000 Or Loranga, 3,000 Jose Morales, all direct imported cigars from Havanna, 100.000 Domestic cigars, besides the finest lot of B. B. B. pipes there is in Canada. Smoker's sundries too numerous to mention. Don't all come at once. The prices were never equalled in Peterborough before, or never will be again. Don't forget the number, 329 George street.

WEDDING BELLS TO-DAY.

THEY RING OUT MERRILY AT ST. JOHN'S CHURCH.

Celebration of the Nuptials of Rev. Basil Carl Hudson Andrews and Miss Annie Maud Rackham, Second Daughter of Mr. W. H. Rackham, Downie Street

The bells of St. John's church rang out their merriest chimes, this afternoon, in celebration of the nuptials of Rev. B. C. H. Andrews, curate of Holy Trinity church, Toronto, and Miss Annie Maud Rackham, second daughter of Mr. W. H. Rackham, Downie street.

The church was filled to the doors with the many friends of the young couple, and long before the hour set for the wedding even the aisles were crowded.

The ceremony was performed by His Lordship Bishop Sweatman of the Diocese of Toronto, a near relative of the groom. He was assisted by Rev. J. C. Davidson, rector of St. John's, of which church Rev. Mr. Andrews was, until recently, a curate.

The bride, who was given away by her father, has always been acknowledged one of Peterborough's most charming belles, and this afternoon looked enchanting in a gown of cadet blue cloth, trimmed with velvet a shade darker in hue. Her large hat was also of caded blue, and looked most picturesque. It was trimmed with velvet and ostrich plumes of blue. She was assisted by her sister, Miss Mamie Rackham, who was charmingly attired in pearl gray tweed trimmed with ribbons and passementrie and with a large hat of the same colours.

The groomsman was Rev. E. V. Stevenson, one of the present curates of St. John's.

A large portion of the seats in the front of the church had been reserved for the invited guests and as Rev. Mr. Andrews and his winsome young bride passed out at the conclusion of the ceremony, they were the recipients of many hearty congratulations and sincere wishes for future happiness.

The function was the most noteworthy which has occurred in Peterborough's social world for some time and in consequence was attended with more than the usual eclat.

Upon leaving the church the bridal party, composed of a number of friends, as well as the members of the family, repaired to the residence of the bride's father, where a most recherche dejeuner was served.

A great many of the young friends of the bride assembled at the station later on in the afternoon to wish Miss "Dovle," as she was known amongst them, a last good-bye and extend to both their heartiest good wishes. Mr. and Mrs. Andrews will go to Niagara Falls and points west before taking up their residence in Toronto.

CRUELTY TO ANIMALS.

Charles McDonald Before the County Magistrate this Morning.

A charge of cruelty to animals was preferred against Charles McDonald, of Otonabee, before County Magistrate Edmison this morning.

The case was one in which McDonald was accused of turning one of his horses loose without providing food or shelter for it. The magistrate in summing up the evidence stated that in his opinion the horse had been turned out on the road to pick up a living for the winter if it could. If it could not, the owner would not care a great deal. He apostrophized the act as one of gross negligence in omitting to care for the animal, but did not think he would be justified in imposing a substantial fine, as the animal was stated by McDonald to have strayed away from the other horses which were kept on the premises. The fine and costs amounted to about $3 25. Mr. John Burnham, Q. C., appeared for the defense.

A SERIOUS CHARGE.

The Case Enlarged in the Police Court Until To-morrow Morning.

William Lunn was summoned to appear before the magistrate, this morning, on a charge of endeavouring to entice a witness to absent himself from court.

The case was enlarged until to-morrow, as Lunn is absent in Millbrook, but the circumstances connected with the serious charge arose out of the fact that it was known that Alexander Ralph had been subpœnaed to appear as a witness against Martin Connors in the Liquor Act violation case which was heard, yesterday, and Lunn, it is alleged, endeavoured to bribe Ralph to leave the town, as his evidence was considered the strongest of that brought by the prosecution. Mr. W. H. Moore appeared for the defence.

They do not despair.

An utter loss of hope is not characteristic of Consumptives, though no other form of disease is so fatal, unless its progress is arrested by use of Scott's Emulsion, which is Cod Liver Oil made as palatable as cream.

NORTH SMITH.

(From Our Own Correspondent.)

At the annual meeting of Wesley L.O.L. No. 419, held in the Orange Hall, North Smith, on Monday evening, Dec. 9th, there was a large attendance of members besides the following visiting brethren from Lakefield Brothers Waram, Dunsford and Northcott

After a very satisfactory review of the business of the year, it was found to have been a very successful one, there being a handsome balance on hand. The following officers for 1896 were elected, there having been competition for every office.

A A Graham.....4th "
Levi Harris.....5th "
S A Northey, W N Blowers.....Auditors

The officers were installed by Bro. Robt. Waram, P.C.M., No. 122 Lakefield.

At the conclusion of the election of officers a general discussion on the interests of the Orange Association took place, a large number taking part in it. Addresses were also made by Brothers Dunsford and Waram. Refreshments were served and then followed several selections by the North Smith brass band, which had enlivened the proceedings of the evening with their excellent music. This band, though only organized a short time, is making very satisfactory progress under the leadership of Mr. Fred Graham, Mr. Williams being the capable instructor.

THE RICHMOND SENSATION.

His Harness Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills and is Cured.

Richmond (Special), Dec. 11.—No event has ever occurred in this quiet village which has made a more profound impression than the re-opening here of his harness shop by Mr. J. McCarthy, harness maker.

The closing was the result of a disease said to be incurable, and his neighbours saw the end coming as surely as the victim himself could feel the overpowering effects of Bright's disease of the kidneys.

So unexpectedly, however, did Mr. McCarthy make his re-appearance and resume his work, in seemingly full vigor and health, that the surprise amounted to a local sensation, and is still the talk of everyone hereabouts. The doctors in this village and at Ottawa had told him to put his affairs in order for that he could not live.

Such was his condition and hopes when he commenced to use Dodd's Kidney Pills. He says :—

"A man who had been cured of diabetes advised me to use Dodd's Kidney Pills, and I commenced at once.

"After using two boxes all distress left me, and I began to recover my lost weight which had run down 36 pounds. I was laughed at as a dupe, but I relied upon Dodd's Kidney Pills, and after using twelve boxes have re-opened my shop.

"I am perfectly cured, and I eat, sleep and work as well as I ever did in my life.

"Thanks to Dodd's Kidney Pills."

Prices 25, 50 and 75 cents. Seats now on sale. 1d

Y.P.S.C.E. NOTES.

WORLD'S C. E. PRAYER CHAIN.

Subject of Prayer for December.—"For young people's societies of every name and in every denomination, that their members may exemplify the life of Christ, and that they may be especially prepared for the coming week of prayer."

"TRIUMPHS OF CHRISTIAN MISSIONS."

This topic has been taken up this week in thousands upon thousands of Christian Endeavour meetings, and will certainly encourage the members to more active missionary work. When we think upon the marvelous success in some of the mission fields in the past, we have a right to expect that God's power will be made manifest by the complete success of His work. Let us all pray and work for the extension of His kingdom to the uttermost parts of the earth and the winning of souls to Christ in our own land.

ST. PAUL'S.

The Missionary Committee had charge of this week's meeting, taking as their topic the "Triumphs of Christian Missions." Rev. Dr. Torrance gave a short address on the work of the Canada Presbyterian Church in the Island of Formosa, off the coast of China. The remarkable success of Rev. Dr. McKay in that Island is one of the marvels of mission success in this century. In 1872 he landed on Formosa alone, and unacquainted with the language of the people. As soon as he could make himself understood he began preaching. At first there were many attempts on his life, but he persevered, facing difficulty and danger. In two or three years he had preached the gospel throughout Northern Formosa.

At a meeting held last March to commemorate the landing of Dr. Mackay in Formosa, there were 1273 converts assembled. There are now 2 ordained and 6 unordained native preachers, 24 Bible women, 1,738 communicants, 1 hospital, 1 college, 9 schools, with two Canadian missionaries as overseers. Who can say there is no good in foreign missions.

Miss L. Best read a paper on the marvellous revival in Hawaii in 1837 38, under 3 missionaries and their wives. As the result, 5,244 were received into the church. On one Sabbath 1,705 were baptized and 2,400 sat down together at the Lord's table. After 35 years mission work they formed an independent church, with 60 self-supporting churches, a membership of 15,000, and a yearly contribution of $30,000.

Other papers were read showing like success in other fields.

GEORGE STREET SOCIETY.

Our meeting last Monday evening was especially profitable. We are sure it would prove a spiritual blessing to many present and that its influence will be felt for time to come. An unusually large number of our young people took part in the meeting by leading in short prayers.

Our pastor, Rev. W. R. Young, spoke very earnestly upon the topic, "Danger of being hardened by sin."

Throughout the whole meeting we felt the presence of the Master in our midst.

Next Monday evening we intend spending "An evening with Tennyson." Members are requested to bring their copies of his poems. An instructive and enjoyable evening is anticipated.

Some night next week the Social Committee of this league will visit the Protestant Home, providing music and refreshments for the old folks.

CHARLOTTE STREET SOCIETY.

Our society had a very good meeting on Monday evening last. Mr. H. Frowde occupied the chair during the entire meeting. The topic, "God's Triumphs in the Mission Field," was then taken up by the president of our society, Rev. J. J. Rae, and followed by Messrs. Richardson and Taylor. The meeting was then thrown into a prayer and song service. The attendance was good, and the interest is still increasing in our society.

NORTH SMITH.

The following are the officers and committees of the North Smith Presbyterian Christian Endeavour.

None of the long distance records against time over five miles were clipped this year by any Canadian rider. Harley Davidson holds all the A records for 6 to 22 miles inclusive, as well as 2 competition, 12 against time, B, and 15 against time A records, rather a large compilation for one rider. The nine-mile Class A record against time is 21.43 2 5, while the competition mark, held by John Wills, is 3 4 5 under that time.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline ; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself *ought to condemn it. Therefore cling to* the old ; suffer pain ; avoid the use of Nerviline, the most powerful, penetrating, and certain pain remedy in the world.

THE sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousand of ways of getting sick. There is only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. A large part of all the diseases that afflict mankind are traceable directly to impurities in the blood, and can be cured by eliminating these impurities. That most dreadful of all diseases, consumption, is a disease of the blood. The disease shows in the lungs because of some inherited or acquired weakness there. If the blood were always pure and without germs, the disease would never develop and in time weakness itself would be overcome. Germs and impurities in the blood float along through the body until they find a weak spot for lodgement. They stick there and develop and people call the disease by the name of the organ afflicted. As a matter of fact, the disease is always a disease of the blood, and if the blood be purified, the disease will be cured. That is a perfectly natural, rational conclusion, endorsed both by common sense and the highest medical authority. It is in accordance with these facts that Dr. Pierce's Golden Medical Discovery works. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites the copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.

If you care to know more about it, and more about your own body, send 21 one-cent stamps to cover cost of customs and mailing *only*, and you will receive *absolutely free* a copy of Dr. Pierce's 1008 page book, Common Sense Medical Adviser Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

NEAR TO DEATH'S DOOR.

This was the Condition of the Young Son of Mr. John English of Lakefield, Ont.

Extremely Nervous Debilitated, Seemingly Without Vitality or Vigor, the Highest Medical Skill was unable to Battle With His Disease.

What ever may be the cause, it is unfortunately too true that large numbers of children are afflicted with nervous troubles. These in many cases assume aggravated conditions and develop often into what is really a feature of paralysis.

A result of severe sickness some years ago, Robert B. English, the young son of Mr. John English, who conducts a large cooperage business in Lakefield, Ont., became the victim of what seemed like chronic nervousness. The child was taken with severe twitchings accompanied by fits that were doomed to speedily wreck the whole system. Naturally the best medical skill was brought into requisition but no relief was secured. South American Nervine was used, and with the result that after six bottles had been taken the boy was restored to perfect health and is to-day one of the most robust and healthy children in his section of country. The case of Minnie Stevens, of London, Ont, daughter of Mr. F. A. Stevens, of the Stevens Manufacturing Co,, is a somewhat similar case. Twelve bottles of medicine cured a severe case of paralysis there.

The great secret of Nervine is that it cures at the nerve centres, and for this reason is a panacea sure, certain and lasting, in all cases, of nervous troubles, general debility, indigestion, sick headache, and like difficulties in old and young. It removes these troubles, for it is one of the greatest flesh-producers that the age has seen. Sold by H. S. Macdonald.

A Young Girl's Library.

Thomas Wentworth Higginson in an article in November Ladies' Home Journal, prints a list of one hundred books, by American authors, which he regards as the best works for young girls of fifteen. He considers the attractive and interesting features of books in making up his list, as he holds that literary instruction should be presented in its most palatable and inviting form to youth. In naming the best ten books for young girls Mr. Higginson says: At the head of all available books for American girls—whether to create the love of reading or to gratify it—must be placed, of course, Miss Alcott's "Little Women." The young girls themselves will place it there, if we do not; and there is really no objection to be made to this prominence, beyond some occasional instances of slang or slovenly expression. With it may be classed, though perhaps written for somewhat younger readers, Miss Jane Andrews' immortal "The Seven Little Sisters Who Live on the Round Ball that Floats in the Air," a book which has for the first time brought it home to multitudes of young people that they are the citizens not merely of a nation but of a planet. We may then pass to four classic works, by classic American authors, Hawthorne's "Wonder Book." Longfellow's "Evangeline," Lowell's "Vision of Sir Launfal" and Whittier's "Snow-Bound." With a little less sense of perfect security we may add Irving's "Sketch Book," Cooper's "Last of the Mohicans," and Mrs. Stowe's "Uncle Tom's Cabin:" the last two having this especial value, that they introduced two new races into literature and won at once an international fame. This makes nine of the first ten, and Dr. Hale's "Ten Times One is Ten" seems almost providential as to the fitness of its title, and may rightfully find its way in.

One Honest Man.

Dear Editor :—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp :—Mr. Edward Lambert. P. O Box 55, Jarvis, Ont.

Constantinople, Dec. 10.—The Sultan has issued an irade permitting the extra guardships demanded by the powers to come to Constantinople, and thus, after many delays and much diplomacy, the vexatious question is, it is hoped, finally settled.

It is stated that the losses sustained by the missionaries at Marash by the destruction of their property during the rioting there amount to 2400 Turkish pounds.

Reports continue to arrive showing that the pillaging and burning of Armenian villages in Anatolia, especially in the Vilayet of Van, is going on as though the Sultan had issued no orders to the authorities to stop it, and despite the official declarations that order has been restored everywhere excepting in Zeitoun.

The peasants are suffering terribly and their misery is increased by the bitter cold that is now prevailing in that part of the country. Large numbers of them are wandering without food and with scanty clothing on the mountains seeking to escape from the Kurds, who hunt them as though they were wild beasts.

Another Cabinet Crisis.

London, Dec. 10.—The Daily News will to-morrow print a despatch from Vienna saying that advices received there from Constantinople state that a new Cabinet crisis has arisen.

The despatch adds that several of the European Foreign Ministers, including Count Goluchowski, the Austrian Minister of Foreign Affairs, expressed their sympathy with Said Pasha through the Embassies in Constantinople. The despatch further says that Said Pasha took with him to the British Embassy important papers compromising members of the Sultan's suite.

Russia Threatens the Sultan.

Constantinople, Dec. 10.—M. Nelidoff, Russian Ambassador to Turkey, has sent a communication to the Sultan, informing His Majesty that his diplomatic colleagues had resolved to insist upon the admission of additional guardships through the Dardanelles. He also appealed to the Sultan in the name of the Czar to take the matter into most serious consideration. He believed, he said, that should the Sultan refuse to grant the necessary papers the additional ships would be ordered to enter the Hellespont without them.

Said Pasha's Condition.

London, Dec. 10.—The correspondent of the United Press in Constantinople telegraphs, under the date of Dec. 9, that a report is being circulated by palace officials that Said Pasha is crazy, and it is also asserted upon the same authority that his brother died insane.

THE SLAUGHTER WAS AWFUL.

Italy Will Carry on the War in Abyssinia With Vigor.

Rome, Dec. 10.—The Government will ask in the Chamber of Deputies today for a vote of credit of 5,000,000 lire for the purpose of carrying on the war in Abyssinia. A draft of 1000 troops will embark for Abyssinia today and 10,0000 more will be despatched within a few days.

The Government is in receipt of further advices from General Baratieri, commanding the Italian forces in Abyssinia, giving additional details of the surrounding of Major Toselli and his command by a large body of Abyssinians, resulting in the loss of about 700 of Toselli's men. The Abyssinians, who were directed in part by Chiefs Ras Mangascia, Mikael and Ras Makonnen, fought with great vigor and skill for six hours. It is reported that the entire force of the enemy was commanded by a Russian major. The hemmed-in Italians fought with extreme desperation. Fortunately before the fight was over General Aromondi arrived upon the field with his command and drove the Abyssinians back, enabling the 300 beleaguered Italians who remained alive, to make their escape. Three Abyssinian chiefs and three thousand of their followers were killed or wounded.

General Baratieri has arrived at Adigrat and assumed command of the Italian forces. He reports that the reverses sustained by the Italians through the disaster to Major Toselli's command has not produced any evil effect upon the native soldiers in the Italian army or the natives previously favorable to Italian colonial authority. Up to Sunday, the advices say, the enemy had not advanced.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.
The blood must be kept perfectly pure.
That is what the kidneys are for.
They have everything to do in filtering out the poisons.
This process of filtration may be interfered with by a cold.
Usually if there is any lack of good kidney work, it is a cold, or perhaps overeating and over-drinking.
Nearly every acute ailment starts with a cold. So do the diseases that finally kill.
The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

SUICIDE AT ORILLIA.

Out of Employment and Despondent Robert Marshall Shoots Himself.

Orillia, Dec. 9.—Robert Marshall of this town, formerly bartender at the Grand Central Hotel, committed suicide by shooting himself through the head. It is supposed to have happened Saturday evening, as that was the last time he was seen alive. He has been out of employment for some time and became despondent. His wife was visiting her parents in Mara for a few days, and on her return home this afternoon she found the house closed up. She forced open a door and was horrified to find her husband dead sitting in a chair with his head lying on the table in a pool of blood and a revolver beside him. Dr. A. H. Beaton, coroner, was notified, and after viewing the body, considered an inquest unnecessary. Marshall leaves a wife and baby a few months old.

Lungs Closed Up.

GENTS,—In the early part of the winter I caught a bad cold followed by a severe cough. I could not sleep as my lungs seemed closed up. I could walk only a few yards without stopping to get breath. I sent for Milburn's Cod Liver Oil Emulsion and before I had finished the third bottle the cough was gone—I could breathe freely and felt like a new man. I advise all sufferers from coughs, colds or asthma, to give your Emulsion a trial.

DEAR SIR:—I have suffered from Eczema for two years; tried different kinds of medicine. I was at the hospital for some time, and was told there that all had been done for me that could be done. I ceased treatment at Christmas. After leaving the hospital I was under the care of a Hamilton physician, but got no relief. I have taken four bottles of Kootenay Cure, and I am now well and free from Eczema. Yours very truly,

A Common Affliction

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

MERRY CHRISTMAS.

The Festival That Charles Dickens Loved so Well.

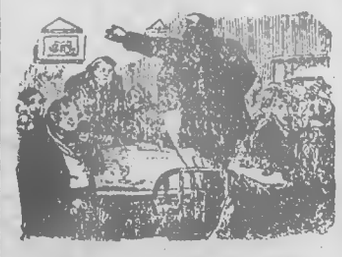
HIS IMMORTAL PEN PICTURES

Of Pure, Unaffected Happiness — The Christmas Dinners of the Great Author—Reminiscences of Trotty Veck, Pickwick Tiny Tim and a Host of Other Loveable Characters.

CHRISTMAS time! That man must be a misanthrope, indeed, in whose breast something like a jovial feeling is not roused—in whose mind some pleasant associations are not awakened—by the recurrence of Christmas. There are people who will tell you that Christmas is not to them what it used to be; that each succeeding Christmas has found some cherished hope or happy prospect of the year before dimmed or passed away; that the present only serves to remind them of reduced circumstances and straitened incomes—of the feasts they once bestowed on hollow friends, and of the cold looks that meet them now, in adversity and misfortune. Never heed such dismal reminiscences. There are few men who have lived long enough in the world who cannot call up such thoughts any day in the year. Then do not select the merriest of the three hundred and sixty-five for your doleful recollections, but draw your chair nearer the blazing fire—fill the glass and send round the *song*—and if your room be smaller than it was a dozen years ago, or if your glass be filled with reeking punch instead of sparkling wine, put a good face on the matter and empty it offhand, and fill another, and troll off the old ditty you used to sing, and thank God it's no worse. Look on the merry faces of your children (if you have any) as they sit round the fire. One little seat may be empty; one slight form that gladdened the father's heart and roused the mother's pride to look upon may not be there. Dwell not upon the past; think not that one short year ago the fair child now resolving into dust sat before you with the bloom of health upon its cheek and the gayety of infancy in its joyous eye. Reflect upon your present blessings—of which every man has many—not on your past misfortunes, of which all men have some. Fill your glass again, with a merry face and contented heart. Our life on it, but your Christmas shall be merry and your new year a happy one!

These were the words of Charles Dickens, who more than any other man has warmed the human heart toward this most beautiful festival of the year.

Those of us who belong to an older generation remember with what eagerness and impatience we awaited the annual Christmas story from the pen of the master. "The Christmas Carol," "The Chimes," "The Cricket on the Hearth," the three immortals, were first published before some of us had learned to read, but "Mugby Junction," "Mrs. Lirriper's Lodgings," "Mrs. Lirriper's Legacy," "Somebody's Luggage," and all that came after the sixties were hailed by you and me as the others had been hailed by our parents. A Dickens Christmas story was as much a part of our Christmas celebration as the turkey and cranberry sauce. What, then, more fitting than to serve some of those never-to-be-equalled dinners to a new generation of readers?



CHARLES DICKENS.

Christmas Day was to Dickens, says Edwin P. Whipple, both a holiday and a holy day; a day given over to festivity and at the same time consecrated to beneficence; a day in which joy was associated with the diffusion and multiplication of joy, so that the pleasure of each person was increased in proportion to the number of persons that participated in it; a day, in short, in which the jollities of life joined hands with the charities, and universal good cheer stood forth as an expression of the spirit of universal love. There is a great deal of eating and drinking in these stories, but then, as has been said, Dickens "Christianizes eating and drinking and contrives to make the stomach in some odd way an organ of the soul." There is a savor and flavor about a Dickens Christmas dinner that no white capped chef can give. Delmonico could not have cooked Bob Cratchit's goose or Toby Veck's tripe.

All of Dickens' Christmas dinners are not in his Christmas stories. Shall you ever forget the Christmas dinner in 'Great Expectations?" There was dear Joe Gargery and "Mrs. Joe," just holding back a "rampage;" that fat old hypocrite, Uncle Pumblechook; Wopsle and the Hubbles, to say nothing of Pip, all waiting for the pork pie that never came, and for reasons best known to the latter. And the Christmas in "Pickwick!" Do you remember that inimitable chapter and how it opens:

"We write these words now, many miles distant from the spot at which, year after year, we met on that day, a merry and joyous circle. Many of the hearts that throbbed so gayly then have ceased to beat; many of the looks that shone so brightly then have ceased to glow; the hands we grasped have grown cold; the eyes we sought have hid their lustre in the grave; and yet the old house, the room, the merry voices and smiling faces, the jest, the laugh, the most minute and trivial circumstances connected with those happy meetings crowd upon our mind at each recurrence of the season, as if the last assemblage had been but yesterday! Happy, happy Christmas, that can win us back to the delusions of our childish days; that can recall to the old man the pleasures of his youth; that can transport the sailor and the traveller, thousands of miles away, back to his own fireside and his quiet home."

Then he shakes the tears from his pen and describes the jolly Christmas at Moor Farm. They began on Christmas Eve, and, according to custom, in the big kitchen of the farm house.

"From the centre of the ceiling of this kitchen old Wardle had just suspended, with his own hands, a huge branch of mistletoe, and this same branch of mistletoe instantaneously gave rise to a scene of general and most delightful struggling and confusion, in the midst of which Mr. Pickwick, with a gallantry that would have done honor to a descendant of Lady Dullimglower herself, took the old lady by the hand, led her beneath the mystic branch, and saluted her in all courtesy and decorum. The old lady submitted to this piece of practical politeness with all the dignity which befitted so important and serious a solemnity, but the younger ladies, not being so thoroughly imbued with a superstitious veneration for the custom, or imagining that the value of a salute is very much enhanced if it cost a little trouble to obtain it, screamed and struggled and ran into corners, and threatened and remonstrated, and did everything but leave the room, until some of the less adventurous gentlemen were on the point of desisting, when they all at once found it useless to resist any longer and submitted to be kissed with good grace. Mr. Winkle kissed the young

SESSION AT THE PICKWICK CLUB.

lady with the black eyes and Mr. Snodgrass kissed Emily, and Mr. Weller, not being particular about the form of being under the mistletoe, kissed Emma and the other female servants just as he caught them. As to the poor relations, they kissed everybody, not even excepting the plainer portions of the young lady visitors, who in their excessive confusion ran right under the mistletoe as soon as it was hung up without knowing it! Wardle stood with his back to the fire surveying the whole scene with the utmost satisfaction, and the fat boy took the opportunity of appropriating to his own use and summarily devouring a particularly fine mince pie that had been carefully put by for somebody else.

Now the screaming had subsided and faces were in a glow and curls in a tangle, and Mr. Pickwick, after kissing the old lady as before mentioned, was standing under the mistletoe, looking with a very pleased countenance on all that was passing around him, when the young lady with the black eyes, after a little whispering with the other young ladies, made a sudden dart forward and, putting her arm round Mr. Pickwick's neck, saluted him affectionately on the left cheek, and before Mr. Pickwick distinctly knew what was the matter eh was surrounded by the whole body and kissed by every one of them.

THE FLOWING BOWL.

Then, after the dancing and the fun, 'fill up," cried Mr. Wardle; "it will be two hours good before you see the bottom of the bowl through the deep rich color of the wassail; fill up all round, and now for the song." Thus saying, the merry old gentleman, in a good, round, sturdy voice, sang his Christmas song.

I care not for spring; on his dickie wing
Let the blossoms and buds be borne;
He wears them away with his scatterings gay
And he scatters them ere the morn.
An incessant elf, he knows not himself,
Nor his own changing mind an hour.
He'll smile in your face, and, with wry grimace,
He'll wither your youngest flower.
Let the summer sun to his bright home return,
He shall never be sought by me;
When he's dimmed by a cloud I can laugh aloud,
And care not how sulky he be!
For his darling child is the madness wild
That sports in fierce fever's train;
And when love is too strong, it don't last long,
As many have found to their pain.

A mild harvest night, by the tranquil light
Of the meekest and gentle moon,
Has a far sweeter sheen, for me, I ween,
Than the broad and unblushing noon,
But every leaf awakens my grief,
As it lieth beneath the tree;
So let autumn air be never so fair,
It by no means agrees with me.

But my song I troll out, for Christmas stout;
The hearty, the true, and the bold;
A bumper I drain, and with might and main
Give three cheers for this Christmas old!
We'll usher him in with merry din
That shall gladden his joyous heart,
And we'll keep him up, while there's bite or sup,
And ia fellowship good we'll part.

In his fine honest pride he scorns to hide
One jot of his hard-weathered scars;
They're no disgrace, for there's much the same trace
On the cheeks of our bravest tars.
Then again I sing 'till the roof doth ring,
And it echoes from wall to wall—
To the stout old wight, fair welcome tonight,
As the King of the Seasons all!

A CAPITAL AUDIENCE.

No wonder the song was tumultuously applauded, for I'm sure it was well sung, and then, as Dickens pertinently remarks, "for friends and dependents make a capital audience."

To be Continued.

A HEAVY MORTGAGE.

How a prominent farmer quickly lifted it.

A mortgage has been described as an incentive to industry, a heavy mortgage, as a sure sign of ruin. The last is particularly true, for if a mortgage is allowed to run it will eat up the farm. In this connection Mr. Henry Fowler, of Huron writes: "From my boyhood scrofula had marked me for a victim and it seemed as if it had a life mortgage on my blood. I suffered fearfully with sores, and knowing my condition I have remained a single man. Doctor after doctor prescribed for me, and finally a Toronto specialist told me bluntly that my complaint was a deep-seated, incurable, blood disease Sarsaparilla I knew was a good blood medicine, and I sent for a bottle of the best. Mr. Todd, the druggist, sent me Scott's Sarsaparilla, and I have stuck to it. It has lifted my mortgage, for to-day I am free from those horrible sores, my eyesight is not blurred, my tongue is not furry, and I have no irritation. I look upon Scott's Sarsaparilla as a marvellous medicine when it will cure a life long disease in so short a time."

Scrofula, pimples, running sores, rheumatism and all diseases generated by poisonous humors in the blood are cured by Scott's Sarsaparilla. The kind that cures. Sold only in concentrated form at $1 per bottle by your druggist. Dose from half to one teaspoonful.

HON. N. C. WALLACE

And the Peculiar Position He is Placed in.

GOSSIPS ARE BUSY AT THE CAPITAL

The Controller Left Suddenly for the West on Monday Night The Canadian Lobster Industry—Poultry Raising as a Profitable Branch of Farming—Ottawa News.

Ottawa, Dec. 10.—Considerable speculation was indulged in to-day relative to Hon. Clarke Wallace's action now that the decision of the Manitoba Government on the school question is announced. Mr Wallace left suddenly for the west last night and is understood to be at his home at Woodbridge to-night. The Premier was asked this evening if there had been any changes with reference to Mr. Wallace's position in the Government and said there was nothing new.

The statement is again made by newspapers, who know not of what they speak, that Sir Charles Tupper is coming to Canada for the purpose of accepting the Premiership. Several days ago your correspondent intimated, on the highest authority, that there was no political significance to be attached to the High Commissioner's visit. He is coming out at Sir Mackenzie Bowell's request to consult the Government in reference to the Pacific cable and the fast Atlantic service.

When the Premier was spoken to this afternoon he simply confirmed his previous statements.

"I have already told you," said Sir Mackenzie, "why Sir Charles is coming here, and my reasons for asking him to come, and I have no intention of saying anything further on the matter, or correcting any idle newspaper reports that may be circulated in connection with his visit."

The Minister of Marine received a telegram to-day from the Collector of Customs at Charlottetown, asking if he might clear the steamer Colla for Barbadoes. The vessel had secured a certificated engineer, but no assistant engineer was procurable at that port.

The vessel is a British steamer and does not come under the Canadian act, consequently the department does not assume any responsibility.

According to reports which have been received at the Fisheries Department no discoloration of lobsters has been noticed in this year's pack. This year many complaints were received from England of the blackened appearance of Canadian lobsters. One of the fishery inspectors says that the packers and dealers attribute the improvement this year to use of the very best class of tin for the cans. The Commissioner of Fisheries, however, inclines to the belief that the discoloration is largely due to packing of the fish during the hatching season. Some months ago the department gave permission to use gelatine in the cans for the purpose of preventing this discoloration, which is due to excessive phosphorus. The experiment has been a total failure, the sanitary authorities of London having condemned lobsters, treated in this way, as being unfit for food and deleterious to health.

Late last evening a telegram was received here from Messrs. Earle & Prior, the members for Victoria, asking for the Government steamer Quadra to be sent in search of the China steamer Strathnevis, which is drifting about in the Pacific with 200 souls on board. Mr. Costigan promptly gave order for the vessel to be sent out.

Judge Malhiot gave judgment to-day in appeal of Charles Skipworth, secretary of Tennison Lodge (Hull) of the Sons of England, against a fine by the magistrate at the instance of C. Bowker, an insurance detective, for alleged transacting of insurance business without a license, contrary to the Dominion law regarding insurance societies. Judge Malhiot sustained Skipworth's appeal, holding that the insurance operations of Sons of England do not come under the Dominion [illegible]

Meetings of the North Lanark Farmers' Institute will be held in Almonte and Packenham to-morrow and Friday.

The Central Experimental Farm will be represented by A. J. Gilbert, who will deliver addresses on poultry as a rapidly developing and important branch of agriculture. Mr. Gilbert has been invited to address a series of meetings in New Brunswick and Nova Scotia during January and February next. Farmers in this section are giving much more attention to their poultry as revenue producers.

BEATS CATS FOR KILLING RATS.

How a Town Merchant Kills Off his Rodents.

"Come in and see Brown kill rats," said a sportive citizen to a newspaper man yesterday.

"What kind of dog?" queried the reporter.

"Don't use a dog," was the answer.

"Club?"

"No."

"Chloroform?"

"Guess again."

The reporter said he would give it up, and would not be surprised at any explanations that might be made as to the way the George street merchant got rid of his rodents, for Brown, he knew, was a man of striking originality and wonderful resource.

"It's electrocution," finally stated the sportive citizen, "but I don't know exactly on what system or by what method the job is to be done. Still I guess we can trust Brown to give us a good show, come on!"

Cold chills played tag up and down the spinal column of at least one of the visitors, as an unspeakable dread of the coming horror took possession of his fevered brain.

The curtain rung up at last. A man with two rats in a trap appeared upon the stage, and chuckled to himself as he watched the futile efforts of the long-tailed denizens of darkness to get away. There was a hunted look on the face of each rat. The knowledge of its doom was fixed on each bewhiskered visage.

Next the executioner came on the scene, wearing a cold, calm scientific smile. He held a box about eight inches square in his hand.

"My friends," he began, as he toyed absently with the box, "I've successfully killed mice by means of this electric current. I am now going to try it on a larger type of the same species. These rats here we propose to electrocute—in a primitive sort of style, I'll admit,—but still it will be electrocution. Now watch the process!"

Readers of this item, who fancy they are about to hear all about the condemned criminal being strapped to the death-chair, the button being pressed that sent the shock through every nerve and fibre of the quivering frame; the doctors at hand with their watches and stethescopes and things will be somewhat disappointed.

All that Brown did was to tell the jailor to drop his prisoners into the box. The jailor was sensible enough not to handle the condemned without gloves. In went one, and the glass top was closed down on it.

The rat stood with its hind feet on a piece of copper, and its fore-feet on another piece of the same metal, the pieces being half an inch apart. To one section of the copper was fastened an insulated wire, the other end of which was connected with the incandescent electric wire overhead. From the other a piece of wire protruded through the box. To this was to be placed the end of another wire connected with the current above.

When all was ready, and the poor rat was looking up with its beseeching beady eyes at its destroyers, the loose end of the second wire was touched to the protruding piece in the box, the circuit was completed and with one shrill squeak the rat died. It was perfectly limp at first, but very soon rigor mortis set in, and the defunct rodent was stiff enough to set up in a case.

Rat No. 2 met its fate with equal neatness and despatch. In fact the whole process of electrocution, as invented by Brown, was a complete and gratifying success.

The merchant who has thus embarked in the electrocution business is bashful and promises no more treats of a like nature if his name is published, therefore it is withheld.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

ELDRIDGE STANTON.

BELMONT.

From Our Own Correspondent.

Mr. Ernest Delcour, who has resided in Norwood during the past three years, intends stopping at his home in Rockdale during the winter. He intends to accept a situation as a tailor in Peterborough in the spring. His many friends in Norwood will miss his smiling countenance. We join his friends in Belmont as well as Norwood in hoping that Mr. Delcour will have a successful career.

Miss M. Scott of Preneveau is visiting at Mr. John Brown's of Rockdale.

Mrs. Young of Adolphustown is visiting at Mr. Wm. Young's, of Rockdale.

Mrs. H. Sexsmith, a sister of our esteemed councillor, Mr. John Sexsmith of Preneveau, has returned home from Chicago, where she has been during the past three years. Her many friends are pleased to see her back again.

Mr. Frank Hooper of Preneveau has returned from Manitoba, where he has been during the summer, and intends to stop with Mr. Garrison during the winter.

Miss Anderson of Seymour, the teacher of Preneveau school, has been engaged for next year. Miss Anderson has been at Preneveau only a short time, but during that time she has shown herself well qualified for her work.

Mr. Mark Scott, of Preneveau, is engaged in building a stone wall for Mr. Robert Buchanan, of McGill settlement. Mr. Scott is one of our best mechanics and has been successful in his work in Belmont and Havelock.

Information was received of the marriage of Mr. Cromar, a former resident of Preneveau, but when the matter was investigated, it was found that he was not guilty of such an act. We offer congratulations to Mr. Cromar and hope the next time he gets married that he will make his friends aware of his intentions, and not leave them under such doubt concerning the matter.

Mr. Harold Scott, of Preneveau, intends to engage in canvassing for the Graham Nursery Company, of Toronto. We wish him success in his undertaking.

A number of the people of Blairton attended the revival services at Rockdale last week. Also a number came from Preneveau.

Miss J. Cartier, of Norwood, the efficient teacher of Rockdale school, will probably attend the Normal School at Ottawa after Christmas. She will be much missed by the people of Rockdale.

The Rockdale revival is progressing very favourably. Rev. Mr. Anderson, of Blairton has delivered some eloquent sermons which apparently have taken effect in the hearts of some of the young people of the surrounding country. Mr. Anderson deserves credit for the zeal he has shown since he has come on this circuit.

Mr. Chas. Wilde, of Victoria, has gone on a business trip to Belleville.

A very enjoyable evening was spent at the residence of Mr. Wilson, of Rockdale, by a number of our young people last week.

Mr. Fred Preston, of Rockdale, has accepted a position as agent for a Toronto Seed Company, and intends canvassing in a couple of weeks. We have no doubt Fred shall be successful.

The annual meeting of the Victoria Joint Stock Cheese Co., will probably take place soon, but at present we are not informed of the exact date.

The municipal council will meet on the 16th inst. as according to law. This will be the last meeting of the year and it will probably be a busy day, and the ratepayers will then see what our municipal fathers have been doing during the past year.

As Parliament will meet on the 2nd of January, when the Manitoba school question will be before the House, and as the Dominion elections will probably be in the near future, now is the time for the people of Belmont to read the papers thoroughly, so that when the elections take place we shall know how to cast our votes. Especially the young men who are about to cast their first vote should realize the great responsibility which is upon them by the right of franchise. We should all pay especial attention to the public questions of the day, for if we are not well informed we will be liable to be imposed upon by untruthful politicians. As an example take, for instance, the last provincial elections. At that time a person would think that the great Conservative party were extremely bigoted in religion—but consider them now in reference to the school question. We trust every ratepayer in Belmont will get down to some solid reading during the next three months, and when polling day comes they will go forth to vote on the side of right and for the benefit of this constituency as well as the whole of our fair land.

Death visited the home of Mr. Daniel Ellis, of Rockdale, on the 10th of December and took from their home an infant daughter. Mr. and Mrs. Ellis have the sympathy of the community in their bereavement.

Bronchitis Can be Cured.

By aiding medication with increased nutrition, The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the greatest value.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves in newest styles for all occasions.

Remember no house buys better, and no store sells cheaper than

Robt. Fair.

DIRECT IMPORTER,

Sign of the GOLDEN LION.

Which do you Prefer

PNEUMONIA

or BLANKETS?

One dollar is'nt much to put in a blanket, but it will buy a $1.50 Blanket at Miss Rudkins'.

You can buy them cheaper still—as low as 80c, or as high as $7.00, with various good values in between.

We've a stock that these snappy mornings and evenings are making a hole in. But its a lucky thing that we could repeat our Blanket orders at the old price before wool went up.

Broken Lots of Underwear.

We are passing these along to our customers at the reduced price because the lines have been broken—the goods are as perfect as the day they left the mill, but the prices! Almost broken in two.

Don't ask the laundry to wash those poor shrunken undergarments any more—new Flannels are cheap enough here, goodness knows!

WALLACE DROPS OUT

Cannot Follow the Government on the School Question.

GREAT SENSATION IN TORONTO.

The Capital Also Agitated Over the Resignation — Little Comment Caused in Montreal—What Hon. Mr. Foster Said About It—Col. Tisdale Mentioned as Successor.

Toronto, Dec. 12.—The Hon. N. C. Wallace, Controller of Customs in the Conservative Government at Ottawa, wired the Premier, Sir Mackenzie Bowell, yesterday afternoon about 2 o'clock to this effect: "My resignation goes by to-night's mail."

Mr. Wallace had come into Toronto in the morning from Woodbridge, and had put up at the Walker House, where he was joined by some of his friends, among them Mr. E. F. Clarke, ex-M.L.A., and late Mayor of Toronto and editor and proprietor of The Orange Sentinel. Mr. Robert White, late M.P. for Cardwell, was also with Mr. Wallace. Mr. Wallace then indited his letter to the Premier, giving his reasons for his resignation. Mr. Wallace left for Ottawa last night by the C.P.R. in the Ottawa car, at the rear of which was atached the Government car containing Hon. G. E. Foster and Hon. Dr. Montague, returning from the contest in North Ontario. It was at the last moment that Mr. Wallace determined to go to Ottawa, his intention being to wind up his affairs there and leave for Toronto Thursday night. He will be here Friday morning. In the interview with Mr. Wallace, published below, will be found the reasons for his action of yesterday.

Mr. Wallace's Position.

"Yes," said Mr. Wallace, "it is true that I have forwarded my resignation to the Premier. I have been moved to take this course by recent developments in the Manitoba case. In my 12th of July speech at Ottawa I indicated my views on the question. I said: Now, for my part, and I speak under a full sense of the responsibilities of my utterances, I have to say frankly, but firmly, that I favor the maintenance of a non-sectarian school system in Manitoba—(cheers)—and that if our constitution permitted it I would advocate with the same fervor a similar system throughout the Dominion. (Renewed cheers.) More than that, I have to say that if occasion should arise to require a declaration to this effect on my part, or my voice and vote in Parliament, I will not hesitate for one moment to give effect to the view which I have just announced.

Having given expression to my opinion in these terms, I had to consider whether in view of the declaration made by the Government in Parliament I would continue in my official capacity or not.

"But," said the reporter, "you were a member of the Government which pledged itself at the last session of Parliament to introduce remedial legislation in the event of the provincial authorities not finding a solution?"

"No, you are mistaken," Mr. Wallace replied. "I was a member of the Government, but not of the Cabinet. I had not, therefore, the privilege of sitting at the Council Board, and of determining the policy that should govern the Ministry on the question. So I was not responsible, as the members of the Government were, and thus had no responsibility for the course that was announced last July. At that time, however, I was assured that the representations about to be made to Manitoba would remove the question from the Federal arena. Being satisfied now that the Manitoba Government will take no action, and Parliament having been called to meet on the 2nd of January, I have thought it proper to give effect by my resignation to the opinions which I have always held and to which I have given utterance on several occasions. It had been my hope that the Provincial Government of Manitoba would deal with this question in a way to remove it from the arena of Federal politics, to which it does not at all belong. But that hope having been disappointed, no other course consistent with my opinions, and what I conceive to be my duty was open to me. I am bound to accept the statements of the Premier and of the leader of the House of Commons that under the circumstances which now present themselves their pledge will be carried out, and for that reason you can readily understand why as a life-long Conservative, and as one who intends to remain of the same party, it is an obligation resting upon me to let the Government of the day know precisely the course I intend to pursue rather than to seem by longer retaining the Controllership of Customs to be in sympathy with their policy on this question. I am, you will see, as a result of my resignation, free to vote on this question when it arises in accordance with what I believe to be the sentiments of the Province of Ontario upon it, and as I conceive it, of a majority of the people of Canada. I shall, however, be found in the future as I have been in the past, a firm supporter of the general policy of the Conservative party. I recognize fully the seriousness of the step which I have taken. It certainly could be charged against me that it is a selfish one. But I have felt so strongly the undesirability of interfering with the Province of Manitoba in the control of its educational affairs, and so strongly against imposing the separate school system on that Province against the will of its people, as to convince me of the propriety of the step I have taken, and I look for the confidence and good-will of my friends in that step."

"Will not your course be damaging to the Conservative party?" the reporter asked.

"No; quite the contrary, as I look at it. My opinion is that the best interests of the Conservative party are to be promoted by permitting the provinces to control their educational affairs."

Mr. Wallace's Successor.

Of course no one is in a position to say who will succeed the late Controller. A member of Parliament said last night that he wouldn't be surprised if Col. Tisdale, the member for South Norfolk, would be offered the vacant Controllership by the Premier. Col. Tisdale, he said, was thoroughly in accord with the Government's policy with reference to remedial legislation, and he represents a riding where he would have little difficulty in being re-elected should he consent to take office.

The Orange Sentinel's Opinion.

In connection with the resignation of Mr. Wallace. The Orange Sentinel of to-day will have the following to say:

"The position of M. W. Bro. Wallace, the honored Grand Master of our noble Order, has lately been a matter of considerable comment among the brethren. Many have thought the distinguished brother should have resigned his position in the Dominion Government as soon as the remedial order was issued; others believed he ought to have dropped out when the promise of remedial legislation was made in Parliament, while others again feared he would not resign at all.

"For our part, however, we have never had any fears whatever regarding the matter. We have all along held that the moment an attempt to coerce Manitoba was finally decided upon by the Ottawa authorities the Grand Master would be found standing by the position taken by him at Grand Lodge and at the Ottawa 12th of July demonstration. That moment did not arrive until within the last few days. Up to that time negotiations were still pending for a peaceful settlement of the controversy. But these negotiations are now off; all hope of settlement is at an end; it is now open war between the Dominion Government, which is seeking to force separate schools on Manitoba, and the Province, which is resisting re-establishment; and the Grand Master has, we understand, in accordance with his public announcement, determined to resign his office as Controller of Customs and to join the forces of those who are fighting Manitoba's battle.

"We congratulate the M.W. Grand Master on his determination, and pledge him the utmost support of The Sentinel in the position he has taken—a position that involves a great sacrifice on his part, but means certain victory for the Prairie Province in the struggle to maintain the little red school house.

"Bro. Wallace's resignation was mailed to the Premier on Wednesday."

The Globe's Comments:

In its leading editorial this morning The Globe said:

The matter for surprise is not that Mr. Clarke Wallace has resigned, but that he retained his post of Controller of Customs so long. The Government of which he was a member had declared again and again, in explicit and emphatic language, its determination to restore the separate school system of Manitoba unless that step were rendered unnecessary by some concession on the part of the Manitoba Government or Legislature. The Controller had declared that he would not be a party to such a step. He is the Grand Master of the Orangemen of British North America, who not only entered a strong protest against future interference with Manitoba, but censured the Government for what it had already done, namely, for the issue of the remedial order. The retention of his office by Mr. Wallace was flagrantly inconsistent with his own declaration and with the declaration of the order over which he presides. An attempt was made to justify his course on the ground that Manitoba might obey the remedial order or "do something" that would obviate the necessity for the passage of a Federal law. But his public career and his public utterances were such as to lead his friends to expect that he would be found encouraging Manitoba to resist the order, not lending his countenance to the attempt to coerce the province. For he was not merely opposed to interfering with the domestic concerns of Manitoba; he was opposed to Separate Schools, wanted to see them banished everywhere, did his best to restrict their privileges in Ontario, threw his whole weight into an anti-Catholic campaign in Ontario. By remaining in the Government he was aiding in forcing upon another province a system of which he strongly disapproved.

It must be admitted, however, that the difficulty was aggravated by the bye-elections, in which the school-question is distinctly an issue. Those elections are for the purpose of the sixth session only, the sixth session is called for the express purpose of enacting the Manitoba school law, and the election of Government candidates is desired for the purpose of furthering its enactment. As the elections and the session approached, and as it became clear that Manitoba would not yield to Federal pressure, Mr. Wallace has found his position utterly untenable, and he has taken the only course open to him.

Mr. Wallace believes that his action will improve, not impair, the fortunes of the Conservativet party, but this is upon the assumption that the attempt at coercion shall be abandoned. Whether this condition will be fulfilled we cannot say. Party pride and the pressure of one section of the party will mitigate against it. But whatever might be its effect upon the fortunes of one party or the other, the abandonment of that attempt would go far to remove the question from Federal politics. Its presence in Federal politics would be less undesirable if there were any prospect of the question being discussed on its merits. But if we may judge by the by-elections, the merits of the question will be avoided with marvelous care and ingenuity, and any man who talks about the educational interests of Manitoba, of majority or minority, will probably be laughed at as a theorist. Far better, therefore, to let the question be confined to the province to which it properly belongs. The province itself has pointed to a means by which it could be effectually eliminated from Federal politics in the ensuing elections at least, and probably for all time to come. This is the appointment of a Commission of Inquiry. Mr. Laurier has made a similar recommendation, and if the Dominion Government were to accept it there would be no excuse for retaining the issue in the party politics of the Dominion.

IN NORTH ONTARIO.

Mr. D'Alton McCarthy Exultantly Announces the Resignation

Bracebridge, Dec. 11.—Mr. D'Alton McCarthy, M.P., appeared before a large audience in the Town Hall here to-night in support of the candidature of Mr. Brandon, the standard-bearer of the Patrons of Industry. His utterances were largely devoted to the discussion of the Manitoba school question, upon which he made a powerful arraignment of the Government. To the Orangemen he made a strong appeal, telling them that if they were prepared to fasten separate schools upon Manitoba they might as well disband, shut up their lodges and cease floating their colors and insulting their Roman Catholic fellow-citizens on the 12th of July. He made the statement that if North Ontario and Cardwell go right on this question Manitoba is saved. There was a tone of triumph in his voice when he announced the resignation of the Controller of Customs from the Government. The news was received with a wild demonstration of delight. Mr. McCarthy regarded the withdrawal of Mr. Wallace as a complete justification of the course which he had pursued since the school question was introduced in the arena of Federal politics, and he said that from this time out he would be found fighting on the same platform with the Grand Master in defence of Manitoba's rights and against the oppressor, Sir Mackenzie Bowell, who was seeking to fasten separate schools on that province.

Speaking particularly in reference to Mr. Wallace, Mr. McCarthy said:

I am bound to do Mr. Clarke Wallace some justice. Last night I spoke in rather harsh terms of this gentleman, because I had come to despair of this good act. He told us on the 12th of July last, and every Orange lodge endorsed his words, that he would oppose any attempt to fasten Separate Schools on Manitoba or anywhere else. But we could not get him to resign. He was in the Government and the Government was pledged to restore Separate Schools. All Mr. Wallace would say was, "I am not going to be trapped; I am going to await events." I thought events had come; I thought when the Government announced that they would interfere to re-establish Separate Schools was the time for the Grand Master to step down and out and not allow the Government to go on with it. But his duty to his party kept him in office until every chance of getting Manitoba to surrender was gone. On Monday last the news came from Mr. Greenway that there would be no compromise, and this has been followed by the resignation of Mr. Clarke Wallace. (Applause.) The air is gradually clearing up; the crisis is approaching; the first desertion, and an important desertion it is, has taken place. If I wanted any justification for my course from the first day the Manitoba school question was brought up on the floor of parliament until this moment, I have got it in this telegram here to-night. He referred to Sir Mackenzie Bowell as carrying out the behests of the Roman Catholic hierarchy of Quebec and trying to fasten upon Manitoba the Separate schools against which as the Grand Master he had been declaiming. He could not imagine anything over which the angels should weep more than the sight of these two Grand Masters carving out the behests of the hierarchy. This, in conclusion, I am glad to say, even at the eleventh hour, when we are called to assemble at Ottawa, that Grand Master Wallace has stepped down and out, and that he and I will be from this time out found fighting on one platform for the defence of Manitoba's rights and against the oppressors who would seek to fasten Separate schools on Manitoba.

At the Capital

Ottawa, Dec. 11.—The capital shares with the rest of the Dominion in the excitement over Mr. Wallace's resignation. 'Tis the one theme of conversation in public resorts here to-night. The wonder, however, is that the resignation was not handed in months ago. The Premier went to Belleville this afternoon on private business, but before his departure he was questioned again respecting the prevailing rumors about Mr. Wallace, and while stating that he had not received a formal document from him the inference was easily drawn that the Premier was expecting it. Indeed, it is said that during the day Sir Mackenzie Bowell had received a telegram from Mr. Wallace, stating that his resignation was on the way to Ottawa.

That the Controller should have stepped out just now is regarded by some as unfortunate in view of the polling in North Ontario to-morrow, but the majority of those with whom your correspondent has conversed incline to the belief that it will not materially affect the result of the election.

THURSDAY. DECEMBER 12, 1895.

SIR CHARLES TUPPER AS PREMIER.

The Dominion Government is in such a ricketty condition that almost any rumour relating to its reconstruction is accepted as a probability. Ever since Sir John Macdonald laid down the reins of power there has been trouble in the ranks. The strong restraining hand, tempered with perfect diplomacy—the suaviter in modo, fortiter in re—has been greatly missed. And now that the government seems to be in extremities, the rumour that Sir Charles Tupper is about to cross the ocean to take the position of Premier receives considerable credence. Of course it is denied at headquarters that there is anything in the rumour, but we are much accustomed to official denials at Ottawa of events which time has proven to be mere denials, unfounded in fact. The probabilities, however, seem to be against Sir Charles taking such a step. A year ago, when Sir John Thompson's body was being sent to Canada, Sir Charles excused his attendance on the ground that his age was too far advanced to permit of such a proceeding on his part, and he certainly has grown no younger since that time. Sir Charles Tupper would have to make great sacrifices if he came to Canada to be premier. He would have to sacrifice a position, comparatively safe and worth between $10,000 to $15,000 a year—a position of comparative ease—to take the leadership at a salary of $8,000, and with plenty of hard work before him. He would have to take in hand a party very badly disorganised, with discipline deranged by incapable leadership, which would entail an amount of work to which the High Commissioner at his advanced years could not be expected to be equal. He would have to make sacrifices; and making sacrifices for the country's good is hardly in Sir Charles Tupper's line—it would be much easier for him to sacrifice his country for his own personal aggrandisement. He has a very snug position now and is doubtless reasonably well satisfied with the emoluments it affords, and it would be asking too much of his patriotism to sacrifice all this for the sake of pulling the party out of the hole into which weak, reckless leadership has plunged it. He may, however, come over to Canada and give his party a hand through the general elections. He would have a personal interest in doing that much; for the safety of the tenure of his present office depends very largely on his party winning in the next elections. Should the Liberals be returned to power it is not to say that Sir Charles would be recalled, but there is no doubt that the royal state he is keeping in London at the expense of the people of Canada would be considerably modified and his emoluments, now reaching the amount of the cost of two Canadian Prime Ministers, would be also proportionately reduced. Sir Charles may take the stump but he is not likely to take the Premier's chair.

THE Dominion Government has decided to disfranchise West Huron and Charlevoix in the coming special session of Parliament. The writs for the latter have not yet been issued and the election in North Huron will not take place till Parliament has been two weeks in session. Very probably the Government has made up its mind that both ridings will return Liberals, which they doubtless will do, and it will gain two votes in the House. A Government which will resort to such cowardly tactics is utterly without principle.

THE Conservatives in West Huron have found, says the Ottawa Free Press, a victim willing to be sacrificed at the approaching bye-election. He must be a very docile lamb and evidently likes the idea of being electorally butchered. He has doubtless made a careful study of the last election returns, which read as follows:—Hon. J. C. Patterson 2,179, M. C. Cameron 2,163—majority 16. Mr. Patterson was a man with "all the resources of the government" at his back, and there were at the time some other conditions existing, now happily removed, which to some extent weakened Mr. Cameron's position. The situation to-day is completely changed, and all to be said is that Mr. Weismiller, in presenting himself as the Conservative candidate, is a reckless, as well as an exceedingly obliging party man.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

GALWAY.

(From Our Own Correspondent.)

Last Wednesday was the date of a pleasant event. Mr. Duncan Molyneux and Miss Emma Dudman, both of the township, drove to Bobcaygeon and were married. They returned the same evening and proceeded at once to their home upon a farm. We wish them a happy and prosperous wedded life.

The once flourishing little settlement which consisted of three or four families, and situated on the southern shores of Swamp Lake, is almost entirely deserted. The first to leave was Mr. Damon Peters, who lived upon an island in the lake, where the sportsmen and hunters always made their home and were always made welcome by the genial Mr. Peters, who would entertain and accommodate them as long as they wished to remain. Mr. Mountenay has also forsaken the quiet settlement, where he spent the greater part of his time in hunting, fishing and trapping, and has removed a distance north to Dorset, which is headquarters for lumbermen, where the forest abounds with deer and where fish are also plentiful, nature furnishing all that is necessary for Mr. Mountaney to pursue the same calling in life as that which he led on the shores of Swamp Lake.

Mr. H. Beckett, who, during the summer months, resided on his place, south of the Lake, has removed to the opposite side, and is living on his farm there. Mr. H. Thompson, who is a bachelor, is the only person at present to remain in that once flourishing neighborhood.

Mr. and Mrs. J. Creager, of Harvey, are visiting friends here for a few days, and are at present the guests of Mr. Eveline.

Miss Lizzie McGee, who has been in Peterborough for a few months, has returned home and is staying with her sister, Mrs. J. Reid.

Mr. C. Coben has purchased the pure-bred short horn bull, Percy Ireland, No. 18,681, which will be kept for service the coming season.

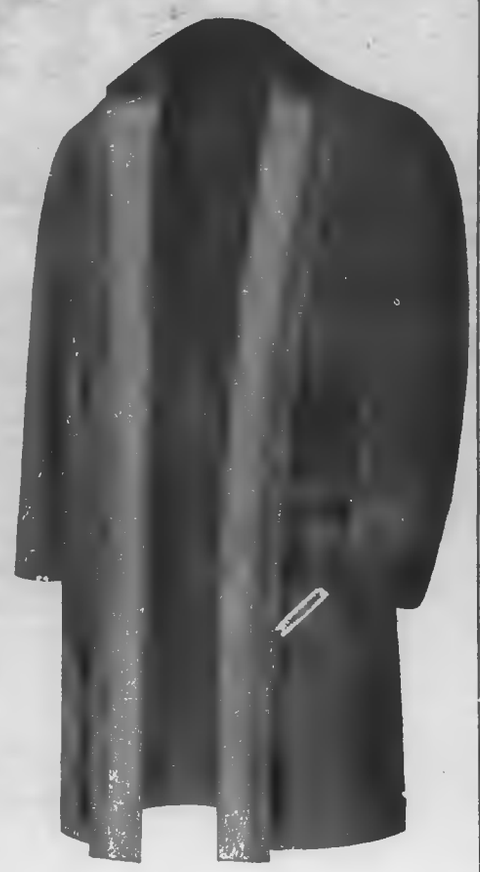
Stand Every Kind Of Criticism.



Some men think that Ready-to-wear Clothing cannot be as well and carefully made as suits that are made to order. That may be true in some cases—perhaps in many. But then, it is well to remember that a house with a reputation is jealous of it, and cannot afford to turn out goods that won't STAND EVERY KIND OF CRITICISM. Give any of our goods the severest kind of criticism either as to quality or price and they will stand the test.

HAYWARD'S HANGING

His Remarkable Nerve on the Scaffold.

CAREFUL TO HAVE THE ROPE RIGHT

Forgave Everybody, and Just to Please Some of His Friends Offered a Prayer for Mercy—"Let Her Go," He Said, and Was Swung Into Eternity.

Minneapolis, Dec. 11.—"Keep up your courage boys; go pull her tight. I stand pat; good-bye."

With these words upon his lips and a malicious sneer upon his face, Harry Hayward was launched into eternity at 2.09 o'clock this morning. Hayward spent the time until midnight with Edward Goodsell, his brother Adry and a stenographer. Supper was served at midnight, and the visitors departed. Hayward ate a most hearty supper, and appeared to greatly enjoy this, his last meal.

At 1 o'clock Father Timothy and the Rev. William Wilkinson visited Hayward. Upon returning from the cell they reported that there was practically nothing of a religious nature discussed by them, although Hayward said that he forgave all his enemies and thanked them for coming.

The ministers did not pray with him, nor did he seem to want them to.

At 1.25 Deputy Sheriff Phil Megardon entered the corridor and read the death warrant. Hayward proceeded to make his toilet. Deputy Sheriffs Bright and Anderson acted as valets.

Hayward calmly adjusted his standing collar and a small white tie, which Deputy Sheriff Bright tied for him. Then he changed his coat and vest, and appeared in a neat cut-away coat, high-cut vest and dark trousers. The only trace of nervousness was shown by Hayward's repeated rubbing of his hands with a silk handkerchief.

All this time Deputy Sheriff Megardon was reading the authority of the Governor for the execution. When he had concluded, Hayward calmly brushed his clothes with a small whisk broom. Then he turned to Megardon and said: "You didn't read all of that, did you? Looks as if there was more there."

Megardon replied that he had finished the document and took his departure about 1.30. After Megardon had left Hayward paced up and down the corridor a few times and then called out to Dr. Burton: "Well, doctor, its getting pretty close, but if you think you will forget your lines I will try and coach you. This is the last hanging that I will have anything to do with. This is apparently my last day on earth."

"When Harry Hayward is hung his ghosts will turn around and say that it is ashamed of his body," yelled Hayward to a group on the lower floor.

"Say, if there are any newspaper men down there, put that in or you will feel cold, clammy hands down the back of your neck, and you'll know what that means. It means that Harry Hayward's ghost has returned to haunt you."

The death march began at 1.55 a.m. The procession slowly wended its way to the cage door and passed out into the short corridor connecting the north and south cell rooms.

"Three cheers for Harry Hayward," yelled Hayward, and some one responded with three faint cheers. With his head erect and walking with his firm step, he walked along the short corridor and into the cell room.

"Good evening, gentlemen," said the criminal, as he walked up the almost perpendicular stairway and stood upon the drop.

"Have you any statement to make, Mr. Hayward?" asked Sheriff Homberg.

Hayward replied that he had, and then he began: "These people think that I am a kind of a devil and if they knew my past life they would be well aware of that fact. I have made a short-hand confession of some of my deeds to Messrs. Mannix, Goodsell & Mabry, which is true to the best of my recollections."

This was said in a slow, hesitating manner, as if the speaker had been rehearsing his part, but feared lest he should forget his lines.

"Say, Doyle," he said, "Do Doyle, where are you; stick up your hand; I can't see. Doyle, how do you do."

All this was with an air of bravado, which showed that the man had his nerves under a most wonderful control.

"Say, Clemens," called Hayward to his ex-barber, "did you get those tickets? You did; well, al right."

"Well, have I said anything about Mannix? I meant to say something about him," he declared. "But I am afraid that I have forgotten. I have the most kindly feeling for Mr. Mannix, and he has been a good friend of mine. He has been with me for several days and we have been preparing a statement of which I spoke before. Well, what shall I say about Mannix."

"Harry," spoke up Mr. Mannix, who was present. "Harry, you have said enough. You have nothing more to say. Act in the same dignified manner as has characterized your conduct for the past 48 hours, and die like a man. Think of your mother and father, who are now in tears, and forgive all who have ever testified against you or sought to do aught against you."

"I have freely forgiven them all and do now forgive all who have in any way done or attempted to do me any wrong. Those priests were here and felt sorry that I did not have the same views as they have in regard to the hereafter. I respect Fathers Christi, Cleary and Timothy, but I must say that I am not interested in religion as they would have me be. I promised my attorney, John Day Smith, that I would say this short prayer on the scaffold: 'Oh, Lord, for Christ's sake, forgive me my sins.' Megardon go ahead."

With those words he turned to Deputy Megardon and indicated that he was ready to die. While Deputies Bright and Anderson steadied him on either side, Deputy Megardon advanced and wound a strap round his ankles, another above his knees and a third around his arms. "That hurts," said Hayward, as the strap was drawn tight around his arms. As Deputy Megardon was putting the noose around his neck, Hayward showed evidence that he was somewhat fastidious in the manner of execution.

"Say, doesn't the knot want to go under the right ear? put it under the right ear," but Deputy Megardon paid no attention, but began to draw it taut.

"Pull it tight, I die pat. Goodbye, Dr. Burton."

The cap was pulled down over his eyes and the deputies' hands had hardly left his shoulders when Sheriff Homberg pushed the lever and the trap fell, and Harry Hayward dropped a good six feet straight down, bringing [illegible] that shook the entire building.

[illegible] and groaned and the rope stretched somewhat under the heavy strain, it did not give way, but held Hayward clear of the floor.

Doctors Burton and Holme with watches in hand and fingers on the pulse, counted the pulsations that indicated that the life of the murderer was fast passing away.

The drop fell at 2.08 and for 23 minutes the straps were left about the body. They were then removed and at 2.45 the doctors pronounced Hayward dead. Death was instantaneous.

A post-mortem commenced at 3 o'clock this morning. Well-known specialists have charge. The remains will be buried in Lakewood Cemetery.

History of the Crime.

The crime for which Harry Hayward paid the extreme penalty was a peculiarly cunning one; he, himself, did not commit the murder, but was the prime mover in the dastardly scheme which robbed a promising young woman of her life.

It was on the evening of the 3rd of December, 1894, that Hayward induced Catharine Ging, a Minneapolis dressmaker, who was related to him in his alleged business ventures only and who had been a victim of his cunning and deceit, to drive with Claus A. Blixt, employed by Hayward as an engineer at the Ozark flats at Minneapolis, to a spot on the Excelsior Road, three miles from the city, where he was to join her with a man with whom the two were to engage in a business venture that would be mutually beneficial. The girl, trusting Hayward, drove off with Blixt and when nearing the appointed spot in the road, the latter drew a revolver and shot the defenceless girl behind the right ear, killing her instantly. The inhuman Blixt dragged the body out of the buggy and laying it by the side of the road, drove hurriedly back to the city.

The discovery of the remains caused tremendous excitement in Minneapolis and suspicion pointing to Hayward and his brother Adry. They were, at once arrested. After an investigation, which lasted two days, the men were released, but less than a week sufficed for the authorities to gather additional evidence and Harry and Adry were again locked up and charged with the murder, Blixt being likewise taken into custody as a promising witness against the prisoners. It was but a few days later that Blixt was induced by his wife to make a full confession and this testimony, aided by that of Adry and a relative known as "Elder" Stewart, that Harry had endeavored to induce his brother to assist in the murder, brought about the conviction. Blixt was brought to trial at the close of the proceedings against Harry, in March last, and, pleading guilty, was sentenced to life imprisonment at Stillwater.

Harry, who was an inveterate gambler and "crook," had expected to prosper by the death of Miss Ging to the tune of $10,000, having induced her to insure her life in his favor as the result of their business transactions.

The executed man was the son of a wealthy and prominent gentleman of Minneapolis, and it is believed that the latter expended fully $100,000 in a futile effort to save his son from a felon's death.

Children Shrink

from taking medicine. They don't like its taste. But they are eager to take what they like—Scott's Emulsion, for instance. Children almost always like Scott's Emulsion.

And it does them good.

Scott's Emulsion is the easiest, most palatable form of Cod-liver Oil, with the Hypophosphites of Lime and Soda added to nourish the bones and tone up the nervous system. The way children gain flesh and strength on Scott's Emulsion is surprising even to physicians.

All delicate children need it.

CANADIAN FAST LINE.

The Naval Construction Co. Said to be Again Negotiating for the Contract.

London, Dec. 11.—It is stattd here with some semblance of authority that the Naval Construction Company which built the Canadian Pacific Empress steamers and which, but for the death of the manager, would have carried through the fast mail service in 1890, is again negotiating with the Canadian Government in view of the tenders for the fast service which have been asked for. The Duke of Devonshire and Lord Brassey are associated with this company, and the Rothschilds are always ready to assist it when required. The company, however, urges that the Canadian railways, especially the C.P.R., should share in the venture. They have put this view strongly before the Government and it is suggested that this is one of the immediate causes of Sir Charles Tupper's visit to Canada. Seeing, however, that the Canadian Pacific is paying no ordinary dividend, it is not expected to indulge in any ventures of this kind.

NON-COMS OUT FOR FUN.

Twenty of Them Drive to Lakefield and Have a Jolly Time.

The members of the non-commissioned officers mess of the 57th Battalion drove to Lakefield last evening to the number of 20 and registering at Mr. Bob. Munro's, spent several hours very pleasantly indeed.

The party went out in two large busses and having sent word of their intended trip, Mr. Munro was fully prepared and had such a supper ready for the non-coms that they seemingly cannot say enough in its praise.

At the conclusion of the meal the following toast list was carried out with Sergt.-Major Peters presiding, and Sergt. Connal, president of the mess, officiating as toastmaster:

1. "The Queen."
2. "Our First Officer"—Sergt.-Major Peters.
3. "Our President"—Sergt. Connal.
4. "The Non-Coms. Mess"—Sergt's Baker and Roberts.
5. "The Baby of the Mess"—Corp. Gemmel.
6. "Our Comrades in Arms"—Sergt. Hutchinson and Corp. King, of the Durham Field Battery.
7. "Our Senior Officers"—Sergt.-Major Peters.
8. "The Ladies"—Sergt's Bridgewater and LeBar.
9. "The Host and Hostess"—Mr. Robt. Munro.

Songs were sung between each number on the toast list, and altogether the evening was one of the most pleasant ever spent by the members of the Non-Coms. Mess.

A FREIGHT BLOCKADE.

The Local Yards Full of Cars of all Descriptions.

Station Agent Hayden is greatly hampered at present through the fact that the local yard is blocked with freight cars. In some way all the flat cars on the division suddenly were centralized in Peterborough, and, as there were a large number of loaded freight cars waiting to be taken away and a still greater number brought in to be unloaded, a blockade has been occasioned and just how to clear it up is a puzzler.

The Chemong branch is not used now and the flats might be run out on this siding, but in this case the trouble would be that they would have to be taken away out beyond the Hilliard property, as this switch is being constantly used. Beyond this point the grade is such that it would be dangerous to leave the cars, as if they were meddled with and the brakes loosened the results might be a big railroad wreck. Strange to say the grade runs up to a certain point and then runs down into Chemong, so if the cars were taken over the up grade the danger would consist in having them plunged into the lake, if the brakes were tampered with.

The local yard is not one of sufficient size for the storage of cars and this fact is so well known that precautions are always used to keep this point comparatively free of "empties," but the agent is caught this time and there will have to be some great calculating before the Peterborough yard will be free again.

NATURAL HISTORY ASSOCIATION

Mr. Elcome's Collection Viewed and Discussed—A Profitable Evening.

The second regular meeting of the Natural Science Association was held at the home of Mr. Marks, Murray street, last night.

After important business had been transacted, the President, Mr. J. A. Fife, delivered a very interesting address, outlining:

1st—the object of the Association,
2nd—The benefit and pleasure to be derived from a study of Natural history.
3rd—The reasons for forming a society to prosecute the study of natural phenomena.

The society then adjourned to the home of Mr. Elcome, taxidermist, for the purpose of viewing his fine collection of birds, etc. Mr. Elcome gave the society a very cordial welcome and in a very interesting manner explained his large collection of birds, noting the peculiarities of each class. In all a very pleasant and profitable evening was spent.

The next meeting of the society will be held on Jan. 14th.

THEIR TERMS EXPIRE.

The following members of the Board of Education are on the retiring list this year,—Messrs. J. J. Hartley, James Stevenson, W. H. Hill, W. H. Law, R. P. Boucher, Jno. McKee and L. M. Hayes. Of these Messrs. Hartley, Hill, McKee and Hayes will probably be candidates for the coming year. Mr. Law and Dr. Boucher have decided to retire as they find that the meetings of the Board encroach seriously on their business affairs. Mr. Stevenson has not as yet been seen, but will not likely be a candidate next year.

The Bottle Broke.

Mr. Wm. Crane, manager of H. Calcutt's bottling house, Ashburnham, met with severe accident Tuesday night. While engaged in pulling a cork from a bottle which had just been washed, the wires of the puller being rather thick and the neck of the bottle being small, the neck broke in Mr. Crane's hands; the fingers and palm of his left hand coming in contact with the broken glass were severely gashed. The cuts are clean to the bone in the fingers, while the one in the palm is not so deep. Consequently Mr. Crane will be laid up for a considerable time before he can resume his duties.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your teeth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating, and certain pain remedy in the world.

Resolution of Condolence.

The following resolution was passed at the last meeting of Court Little John, C.O.F., No. 92, held on Wednesday, Dec. 4th, 1895:

Resolved, that the members of Court Little John desire to place on record their deep sorrow for our esteemed brother, William Reynolds, who has been so suddenly called upon to lose his wife under very trying circumstances.

In so sad and painful an affliction as this we cannot do more than tender our sympathy to the bereaved husband and children, fully realising that the loss of a fond and loving wife and a tender and affectionate mother is an irreparable calamity, which only the Great Consoler can minister to.

We therefore affectionately pray that the Divine Healer of all such sorrows may be pleased to extend in special measure the consolations of His grace to our bereaved brother and his family, and that during their life they may be blessed with the assuring hope that the chords that are broken on earth will vibrate again in Heaven.

Resolved, that a copy of this resolution be sent to Bro. Reynolds.

ONTARIO FRUIT GROWERS.

Annual Meeting of the Association at Woodstock.

Woodstock, Ont., Dec. 11.—The Ontario Fruit Growers Association opened its annual winter convention in the town hall this morning, President M. Petit presiding. About thirty delegates have arrived, comprising the members of the Board of Directors and Control, who met last night. At this meeting favourable reports were received. The total paid-up membership this year is 2,472, as against 2,104 last year. The gross receipts from membership fees were $2,447.47. At this morning's session committees were appointed and papers read by E. Hersee, Woodstock, on "Apple Culture." "Growth and Character of Some of our Leading Varieties of Apples," by Harold Jones, of Maitland, and W. Boulton described his experience in shipping apples to British Columbia.

HOCKEY.

The Peterborough hockey club enjoyed its first practice on the rink last night. Messrs. Phelan, King, Wasson, Belleghem, MacGachan and Hull were on the ice and had a lively time for an hour. Wasson was between the flags and of course came in for a special share of attention, as it is assumed that he will occupy that position during the coming season. The critics were well satisfied with his work. It is too bad that more members of the team were not out as there is not a great deal of time left for practice and other clubs have been at it for a week or more.

The rink is being; provided with a large number of incandescent lights to be used in connection with the arc lights at present utilized. The improvement will be a grand one and will make the rink as light as day. Mr. E. Rutherford is looking after the work.

Diphtheria Outbreak.

Word has been received at the Provincial Board of Health office from Dr. Porter, Medical Health Officer at Powassan, Hardy Township, stating that it was difficult to get information from the lumber camps, but as far as he could learn no other cases of diphtheria had occurred. He had instructed the managers of the lumber camps to thoroughly disinfect their camps and isolate all subsequent cases. Mr. Cavanaugh states that although there are plenty of men from this district up on the French River limits none of them are located as far back as Powassan.

WESTWOOD.

From Our Own Correspondent.

The missionary meeting in the Methodist church, here, on Tuesday night, Dec. 3rd, was a success. Mr. Thos. Blezard, M.P.P., presided. The programme was as follows:—

1. Chairman's address.

Mr. Blezard made a neat little speech along the line of missionary work, saying he was pleased in being honoured as their chairman and in taking part in a meeting for the good of the people. He said we are here to-night to fulfil God's command to his people, "Go ye into all the world and preach the gospel to every creature;" not so much by going ourselves but by contributing liberally to support those who are already there and those willing to take their lives in their hands to spread the gospel. He fully described the grand province we live in, the benefits, privileges and blessings we enjoy, and said it was our duty to give well, but at the same time not to neglect home work.

2. Music by the choir.

3. Missionary report by the Rev. Mr. Peake, pastor of the Methodist church here. The report was too lengthy to give in full, suffice it to say it was very satisfactory and encouraging.

4. Music by the choir.

5. Address—Rev. Mr. Liddy, of Keene. The Rev. Mr. Liddy, who is a fluent and forcible speaker, gave an excellent address. For a beginning he told some pleasant stories in connection with church work, and then his reasons for being here. We can scarcely be just to Mr. Liddy without reporting him verbatim, but space and ability will scarcely allow, so we will only attempt a general outline of his address. To begin with, we might say his whole address was teeming with information, good points, and excellent advice. He took us away back to ancient times, described the church then, and gradually brought us up to the present time. He said there is a head faith and a heart faith; they both make a grand combination, but the former without the latter is latent and inactive. The infidel would give the world, if at his disposal, to get rid of that lingering faith or doubt, "The Bible may be true." In the dark ages it would take a labouring man fifteen years to earn enough to buy a Bible. The 16th century was not much better; the 17th a reign of infidels; the 18th Christianity took a start, and in the 19th century—the one we live in—the best of all, gradually getting to universal salvation. He spoke of the work in Japan and China. In Japan it was flourishing, but in China, the Celestial empire, it is dark. It was no credit to the British empire to force opium on the poor Chinese. The Rev. Mr. Liddy concluded a most excellent address by a grand peroration on the benefits and blessings of the land and times we live in and encouraged all to give, reminding his audience that God is never going to be in debt to anyone.

6. Music by the choir.

7. Address—Rev. Mr. McQuade, of Havelock. The reverend gentleman gave a very humourous address, a continuation of jokes from beginning to end. He vividly and humourously compared the missionary meetings of early days with those of the present, and scored point after point along the line of missionary work. He spoke of the rivalry of the different branches of the church in missionary work in the back townships which are sparsely settled and denounced the present system. He said when any branch of the church of God had a foothold and were willing and able to climb to the summit, it was folly for any of the others to go in and divide the work and starve with the people and themselves, or else draw money from the mission fund to support them, money which should have gone elsewhere, and elsewhere would have done greater good. We are all working for one glorious end. Then let us join hands and help each other to achieve success.

8. Collection—A good one.

9. Miss Lottie Blezard and Miss Maggie Cardwell were appointed collectors.

10. The usuaul votes of thanks were rendered.

11. Doxology.

12. Benediction.

The football concert in the Town Hall, here, on Friday night, Dec. 20th, promises to be a grand success. The amusements will be songs, readings, recitations, music, sword exercise, pantomime and dialogues. Don't fail to attend.

Mr. Mulligan, of Peterborough, started his class in vocal music here last Friday night. He has a large class.

A large gang of destitute and depraved vagrants passed through our village last week en route for Peterborough. They had several covered wagons, old horses, bears, etc., etc., etc.

Bronchitis Can be Cured.

By aiding medication with increased nutrition. The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the gratest value.

IN MEMORY

OF THE LATE MARGARET ANN, WIFE OF JOHN O'TOOLE, WHO DIED DECEMBER THE 8TH, 1895:

"Lava di quod bene fertur onus."

The bright young flower so pure and fair,
It fades in its bloom:
The ear bly form that held the soul,
Now rests within the tomb.

From early youth with zealous care
She served her God aright;
And at whose call her spirit fair
Has winged its early flight.

Then loving husband dry those tears;
Let peace reign in your heart;
God's holy peace that man can't give,
And God-like act your part.

'Tis hard to part, to see no more
On earth, the one you love;
Yet well you know she goes before
To welcome you above.

For scarce a year she cheered your home,
A beam of sunshine bright;
In Heaven then hope, eternal years
To share your heart's delight.

Your troubled heart will cease to mourn,
With faith your rising sun;
But with submission meek you'll say,
"Oh God thy will be done."

Another Store Enlargement.

Mr. Charles Legros, the live George St. Tobacco dealer has completed arrangements for enlarging his store to twice its usual size, which will necessitate his moving out of his present premises. And having ordered a lot of imported cigars and pipes before he had the intention, and they having come in, his stock will therefore have to be slaughtered. It is therefore necessary for him to clear out his large stock, valued at over $10.000 before moving. His goods consists of 10,000 Diaz y Garcia, 12,000 Manual Garcia, 5,000 Or Loranga, 3,000 Jose Morales, all direct imported cigars from Havanna, 100.000 Domestic cigars, besides the finest lot of B. Froebel, the great promotor of the kindergarten system of teaching children said: "Let parents not live *for* their children, but *with* them." The mother who understands this sentiment lives with, even her unborn child. She studies to be wise about herself and the little life she is fostering. She does all she can to give her child a fair start in life, by giving it a strong well developed body. All through babyhood, childhood and youth she lives *with* her son or her daughter. Especially her daughter she will keep near her. She will allow no false modesty to stand in the way of that daughter's knowledge of herself, of her possibilities, of her perils. She will teach her that happy, healthful motherhood is an honor, a blessing. That sickness is a mistake, a breaking of nature's law. But there are times of unavoidable overdoing when the system becomes run-down.

For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots; and builds them up. It is beneficial in any state of the system. A woman who would understand herself will find an able assistant by sending 31 cents to the World's Dispensary Medical Association, Buffalo, N. Y., for Dr. Pierce's Common Sense Medical Adviser. It is a book that has reached its 680th thousand. It contains in its 1008 pages an immense store of information in plain words that any person will readily understand.

MR. O. G. SPEAR, of *Sand Bank, Oswego Co., New York*, testifies in this wise: "Our first child was born before my wife was sixteen years old. Afterward her health was very poor. She tried Dr. Pierce's Favorite Prescription. She gained flesh and strength by using two bottles. During the last few weeks of her second pregnancy she again used the "Prescription." Her confinement was a rapid and easy one, and she got up strong and well."

NEWS FROM OTTAWA.

Silk May Come in Free Under Certain Conditions -Lord Dougias' Training School Scheme.

Ottawa, Dec. 11.—An order-in-council has been passed permitting free admission of "silk in the gum or spun," when imported by manufacturers of silk underwear to be used in their factories in the manufacture of such goods and for no other purpose. In making entries under this ruling, importers will have to subscribe to the usual affidavits.

A proclamation will appear in The Canada Gazette of Saturday declaring the present value of foreign currencies for customs purposes.

According to reports which have reached the Fisheries Department only three American sealers are at present off the Nova Scotia coast. The Kingfisher is the only cruiser now out and she will go into winter quarters on the 15th. The weather on the Atlantic coasts lately has ben very bad, and consequently fishing has been poor.

Rev. Lord Douglass and Rev. Father St. John returned to the city from Manitoba last evening. The rev. gentlemen were out to the prairie province prospecting for a desirable tract of land on which to erect a training school to teach the boys out from their orphanage in England, agricultural methods, and to train them for honorable lives in this country. The smaller lads will be placed in receiving homes such as it is proposed to establish in Ottawa, and on reaching a certain age they will be sent to the training farm. A site was selected in the Lake Dauphin district and application will be made to the Governor-in-Council for the privileges extended by the Dominion land act. The rev. fathers had an interview with Minister of Interior this morning.

The annual meeting of the Tulameen Mining Company was held to-day. A dividend of 10 per cent. was declared. The company consists almost wholly of Ottawa capitalists and is engaged in placer mining in British Columbia.

Urlin Case Again Postponed.

Dutton, Ont., Dec. 11.—A. D. Urlin and George Urlin, father and son, who are being tried preliminarily before a magistrate's court here for having on the 7th of November last destroyed the store of Urlin Bros. by fire, and who on the 4th inst. were remanded for eight days on bail of $3,000 each, came up to-day before A. J. Leitch, Reeve of the village, and were further remanded until Tuesday, the 17th inst., at 10 o'clock a.m., at the Opera Hall.

A large number of people from the surrounding country were in the village to-day expecting the case to be proceeded with.

Fell Nine Stories to Death.

Buffalo, Dec. 11.—John Esford, an iron worker, employed on the Ellicott-square building, fell from the ninth story of the building to the ground floor, and led almost immediately. Esford had resided here for some years, but was a native of the Province of Ontario, his family belonging in the vicinity of Kingston, Ont.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.

The blood must be kept perfectly pure.

That is what the kidneys are for.

They have everything to do in filtering out the poisons.

This process of filtration may be interfered with by a cold.

Usually if there is any lack of good kidney work, it is a cold, or perhaps over-eating and over-drinking.

Nearly every acute ailment starts with a cold. So do the diseases that finally kill.

The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

Sick Headache and Constipation are promptly cured by Burdock Pills, easy to take, sure to cure.

Lungs Closed Up.

GENTS,—In the early part of the winter I caught a bad cold followed by a severe cough. I could not sleep as my lungs seemed closed up. I could walk only a few yards without stopping to get breath. I sent for Milburn's Cod Liver Oil Emulsion and before I had finished the third bottle the cough was gone —I could breathe freely and felt like a new man. I advise all sufferers from coughs, colds or asthma, to give your Emulsion a trial.

TOWN OF COOMASSIE UNDERMINED

Deputations Wait Upon Lord Salisbury and Other Officials in Regard to Agricultural Grievances - Shipbuilders' Strike Amicably Settled—General News by Cable.

London, Dec. 11.—A despatch from Cape Coast Castle, under to-day's date, says that Col. Sir Francis Scott, commanding the British Ashantee expedition, has cabled to Sir W. B. Griffiths, Governor of the Gold Coast Colony, requesting him to send all available seven-pounders, machine guns and rockets to Prahsue immediately. Col. Bernard is forwarding to Col. Scott 1000 loads of ammunition.

A messenger has brought news to the British camp that the town of Coomassie, the Ashantee capital, is undermined. The messenger was in possession of all the details of the mining of the town, which he furnished to the British officers.

SALISBURY SCENTED PROTECTION.

A Deputation Seeking Encouragement to Hop and Barley Growers.

London, Dec. 11.—A deputation headed by the Earl of Winchelsea waited upon Lord Salisbury to-day and urged that the Government readjust the duty on beer so as to encourage the growth of English hops and barley. Lord Salisbury, intimating that the proposal submitted by the delegation meant protection, said he believed that public opinion was not at all changed upon that subject. Protection, he said, would not return at any period to which the present generation could look.

Want Them All Slaughtered.

A large deputation composed of members of the leading English and Scotch agricultural societies waited upon the Rt. Hon. Walter Long, president of the Board of Agriculture, to-day and appealed to him to cause all imported cattle, sheep and swine to be slaughtered at their port of landing.

Mr. Long said, without pledging himself to measures which the Government might introduce in Parliament, that he recognized the importance of the subject and failed to see how hardship to any one could result from the adoption of the proposal made by the deputation. He further said he did not believe that the compulsory slaughter of imported stock would either diminish the supply or increase the cost of food.

Cotton Men Want Duties Removed.

Lord George Hamilton, Secretary of State for India, received a deputation of Lancashire cotton manufacturers to-day. He informed them that the condition of India's finances had been very much improved and that when the equilbrium had been attained the Government would remove the Indian cotton duties.

SHIPBUILDERS' TROUBLES OVER.

The Conference Conducted by Lord James Proved Successful.

Glasgow, Dec. 11.—The conference of representatives of the Belfast and Clyde shipbuilders and their striking and locked-out engineers, presided over by Lord James, has succeeded in reaching an amicable settlement of the differences between the masters and the employes. By the terms of the settlement the Clyde engineers will derive an advance of a shilling a week to go into effect immediately, and another shilling increase beginning in February, and it is agreed that thereafter their rate of compensation shall not be changed for a period of six months.

Dutch Victory in Java.

Batavia, Java, Dec. 11.—News has been received here that the Dutch troops on the Island of Madura have dispersed a band of 150 rebels, killing 29 of them and capturing their chief.

New Steamship Crippled.

Liverpool, Dec. 11.—The British steamer Brunswick bound for Liverpool for Brazilian ports, came into collision with the new Cunard Line steamer Sylvania, from Boston, in the Mersey last evening. The latter was seriously damaged.

A TELEPHONE IN THE STOMACH

Peculiar Phenomena of Human Nature

In an age when that subtle force electricity is presenting wonders to the world almost daily, and the Wizzard of Menlo Park has become the hero of the hour, there seems to be nothing that we may not expect in this direction. But it was not left to an Edison to establish a telephone in the stomach of human beings. The Great Maker of man in the economy of human nature provided such an instrument centuries ago. It is a fact that within the stomach of of every man and woman there is a little instrument that telephones to the nerve centres in the brain as quickly as any food reaches that part. When for any reason this communication is stopped the food is undigested and physical trouble ensues. With word promptly sent from stomach to nerve centres, these supply the necessary juice that aids digestion, and nature successfully does her part, good health is enjoyed and man is able to perform with energy and pleasure his everyday duties. It will happen at times that these nerve centres will become deranged and lose their forces; then it is that a remedy must be supplied, just as the skill of the electrician is necessary when something goes wrong with the office telephone. South American Nervine is the electrician, so far as the human body is concerned. It is a medicine unique and exceptional in this particular that it works directly upon the nerve centres, and when these are out of order it quickly places them in proper repair and completeness. Nearly all diseases, especially indigestion, dyspepsia, nervousness, general debility, sick headache and disordered liver arise through trouble at the nerve centres. You can just as readily count on South American Nervine effecting a proper cure in all such cases as you can depend upon the electrician of the Bell Telephone Co., removing any derangements that has taken place in your telephone. A Common Affliction

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

HIS IMMORTAL PEN PICTURES

Of Pure, Unaffected Happiness — The Christmas Dinners of the Great Author—Reminiscences of Trotty Veck, Pickwick Tiny Tim and a Host of Other Loveable Characters.

[CONTINUED FROM YESTERDAY.]

And then the ball at Manor Farm: Ah, what a time!

The best sitting room at Manor Farm was a good, long, dark panelled room, with a high chimney piece and a capacious chimney, up which you could have driven one of the new patent cabs, wheels and all. At the upper end of the room, seated in a shady bower of holly and evergreens, were the two best fiddlers and the only harp in all Muggleton. In all sorts of recesses, and on all kinds of brackets, stood massive old silver candlesticks with four branches each. The carpet was up, the candles burnt bright, the fire blazed and crackled on the hearth, and merry voices and light hearted laughter rang through the room. If any of the old English yeomen had turned into fairies when they died, it was just the place in which they would have held their revels.

If anything could have added to the interest of this agreeable scene it would have been the remarkable fact of Mr. Pickwick's appearing without his gaiters for the first time within the memory of his oldest friends.

"You mean to dance?" said Wardle.

"Of course I do," replied Mr. Pickwick. "Don't you see I am dressed for the purpose?" Mr. Pickwick called attention to his speckled silk stockings and smartly tied pumps.

"You in silk stockings!" exclaimed Mr. Tupman jocosely.

"And why not, sir—why not?" said Mr. Pickwick turning warmly upon him.

"Oh, of course, there is no reason why you shouldn't wear them," responded Mr. Tupman.

"I imagine not, sir; I imagine not," said Mr. Pickwick, in a very peremptory tone.

Mr. Tupman had contemplated a laugh, but he found it was a serious matter, so he looked grave and said they were a pretty pattern.

"I hope they are," said Mr. Pickwick, fixing his eyes upon his friend. "You see nothing extraordinary in the stockings as stockings, I trust, sir?"

"Certainly not, Oh, certainly not," replied Mr. Tupman. He walked away and Mr. Pickwick's countenance resumed its benign expression.

"We are all ready, I believe," said Mr. Pickwick, who was stationed with the old lady at the top of the dance and had already made four false starts in his anxiety to commence.

"Then begin at once," said Mr. Wardle. "Now!"

Up struck the two fiddles and the one harp, and off went Mr. Pickwick into hands across, when there was a general clapping of hands and a cry of "Stop, stop!"

"What's the matter?" said Mr. Pickwick, who was only brought to by the fiddles and harp desisting and could have been stopped by no other earthly power if the house had been on fire.

"Where's Arabella Allen?" cried a dozen voices.

"And Winkle?" added Mr. Tupman.

"Here we are!" exclaimed that gentleman, emerging with his pretty companion from the corner; as he did so it would have been hard to tell which was the redder in the face—he or the young lady with the black eyes.

"What an extraordinary thing it is, Winkle," said Mr. Pickwick, rather pettishly, "that you couldn't have been in your place before."

"Not at all extraordinary," said Mr. Winkle.

"Well," said Mr. Pickwick, with a very expressive smile, as his eyes rested on Arabella, "well, I don't know that it was extraordinary, either, after all."

However, there was no time to think more about the matter, for the fiddles and harp began in real earnest. Away went Mr. Pickwick—hands across—down the middle to the very end of the room, and half way up the chimney, back again to the door—poussette everywhere—loud stamp on the ground—ready for the next couple—off again—all the figure over once more—another stamp to beat out the time—next couple, and the next, and the next again—never was such going! At last, after they had reached the bottom of the dance and full fourteen couple after the old lady had retired in an exhausted state, and the clergyman's wife had been substituted in her stead, did that gentleman, when there was no demand whatever on his exertions, keep perpetually dancing in his place, to keep time to the music, smiling on his partner all the while with a blandness of demeanor that baffles all description.

Long before Mr. Pickwick was weary of dancing the newly married couple had retired from the scene. There was a glorious supper down stairs, notwithstanding, and a good long sitting after it; and when Mr. Pickwick awoke late the next morning he had a confused recollection of having, severally and confidentially invited somewhere about five and forty people to dine with him at the George and Vulture the very first time they came to London, which Mr. Pickwick rightly considered a pretty certain indication of his having taken something besides exercise on the previous night.

Do you remember the dinner in "The Cricket on the Hearth?"

Tackleton had brought his leg of mut-

ton, and, wonderful to relate, a tart besides—but we don't mind a little dissipation when our brides are in the case; we don't get married every day—and in addition to these dainties there were *the veal and ham pie* and "things," as Mrs. Peerybingle called them; which were chiefly nuts and oranges and cakes and such small beer. When the repast was set forth on the board, flanked by Caleb's contribution, which was a great wooden bowl of smoking potatoes (he was prohibited by solemn compact from producing any other viands) Tackleton led his intended mother-in-law to the post of honor. For the better gracing of this place at the high festival, the majestic old round adorned herself with a cap calculated to inspire the thoughtless with sentiments of awe. She also wore gloves. But let us be genteel or die.

Caleb sat next his daughter. Dot and her old schoolfellow were side by side, the good Carrier took care of the bottom of the table. Miss Slowboy was isolated, for the time being, from every article of furniture but the chair she sat on, that she might have nothing else to knock the baby's head against.

Who can forget poor Toby Veck and his tripe? Poor Toby could not be at home and needs must eat his dinner of tripe that Meg had brought him on a doorstep along the street. I say needs must eat it, for that was his intention if he had not been cheated out of part of his feast by the disagreeable Alderman. No New York Alderman would be as mean as that, to cheat a poor bell-ringer out of his dinner by gobbling it all himself.

Toby took the shortest possible sniff at the edge of the basket, and cried out in a rapture:

"Why, it's hot!"

"It's burning hot!" cried Meg. "Ha, ha, ha! It's scalding hot!"

"Ha, ha, ha!" roared Toby, with a sort of kick. It's scalding hot!"

"But what is it, father?" said Meg. "Come. You haven't guessed what it is. And you must guess what it is. I can't think of taking it out, till you guess what it is. Don't be in such a hurry! Wait a minute! A little bit more of the cover. Now guess!"

Meg was in a perfect fright lest he should guess right too soon; shrinking away, as she held the basket toward him; curling up her pretty shoulders; stopping her ear with her hand, as if by so doing she could keep the right word out of Toby's lips, and laughing softly the whole time.

Meanwhile Toby, putting a hand on each knee, bent down his nose to the basket and took a long inspiration at the lid, the grin upon his withered face expanding in the process, as if he were inhaling laughing gas.

"Ah, it's very nice!" said Toby. "It ain't—I suppose it ain't polonies?"

"No, no, no!" cried Meg, delighted. "Nothing like polonies!"

"No," said Toby, after another sniff. "It's—it's mellower than polonies. It's very nice. It improves every moment. It's too decided for trotters. Ain't it?"

Meg was in an ecstacy. He could not have gone wider of the mark than trotters—except polonies.

Rheumatism Runs Riot

When there is lactic acid in the blood, liniments and lotions will be of no permanent benefit. Weak, Nervous Women.

One to whom a night's rest was unknown.

Strength and good health restored.

I was subject to frequent attacks of nervousness that seemed to sap all my vitality and left me in a state of weakness and misery. I could not relish food and such a thing as a good night's rest was unknown. Incapable of any exertion and with an ever present tired and despondent feeling. Medicines that I took did not do any good; it was a case of gradually becoming weaker and weaker. Hearing of Scott's Sarsaparilla and its success with similar cases to mine, I used it, and from the first few doses began to get better, appetite returned, got natural and refreshing sleep. I grew stronger, in fact life seemed to be fanned into activity.—Lottie Graham, 174 Crawford Street, Toronto.

For any weakness of the nerves, pale and sallow complexion, loss of appetite use the best blood and nerve remedy extant, Scott's Sarsaparilla. Insist on getting Scott's—imitations do not cure.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

IT PAYS TO ADVERTISE IN THE EXAMINER

AN EIGHTEEN BOX CURE.

A Strange and Puzzling Kidney Disease.

"Floating Kidney"—Fourteen Months Unable to Work—Five Doctors—And Then Dodd's Kidney Pills Set Him on His Feet.

To the Editor of the Examiner:

Kinmount, Dec. 12th.—The recent publication of a letter from Mr. Samuel Kernahan, of the village of Gelert, has greatly impressed the settlers of this country of bad roads and long distances. His case was widely recognized as one of great hardship.

Our representative saw him and he talked.

"I was taken sick two years ago this month and was unable to do any kind of work for fourteen months.

"I had five different doctors during that time. Three of them decided my trouble was "Floating Kidney," but all agreed that I could not survive.

"After I had run down to a mere skeleton, suffering night and day, I commenced using Dodd's Kidney Pills.

"When I had taken three boxes I was able to sit up and walk a few steps.

"But I kept on taking the pills until I had taken eighteen boxes, and could work as well as usual.

"Have had no return of the old trouble and have been perfectly cured by using Dodd's Kidney Pills."

or BLANKETS?

One dollar is'nt much to put in a blanket, but it will buy a $1.50 Blanket at Miss Rudkins'.

You can buy them cheaper still—as low as 80c, or as high as $7.00, with various good values in between.

We've a stock that these snappy mornings and evenings are ...ing a hole in. But its a ...y thing that we could repeat our Blanket orders at the old price before wool went up.

Broken Lots of Underwear.

We are passing these along to our customers at the reduced price because the lines have been broken—the goods are as perfect as the day they left the mill, but the prices! Almost broken in two.

Don't ask the laundry to wash those poor shrunken undergarments any more—new Flannels are cheap enough here, goodness knows!

Totals		2140	1124	1389

The above figures are unofficial. Oakley with about 50 votes is yet to be heard from. The late Mr. Madill's majority in 1891 was 254; total vote polled 4158.

Cannington, Dec. 12.—This town is wild with excitement to-night over the victory achieved by Major John A. McGillivray and the Conservative party in North Ontario. The first return to come in was Cannington, which showed a majority of 45 for Major McGillivray. This is the largest Conservative majority ever given in the history of this town, and credit is claimed by the Young Men's Conservative Association. The reports from the surrounding municipalities began to come in about 6 o'clock, and as each report succeeded the other it soon became evident that the Conservative candidate was elected by a big majority. When the figures showed 500 of a majority for Major McGillivray the enthusiasm of his suporters knew no bounds. A torchlight procession was formed, and headed by the Citizens' Band paraded the principal streets, the member-elect, who is in town to-night, and Dr. Gillespie being drawn in a cutter by about 40 men. Never in the history of Cannington has such an interest been taken in a political contest, and the Conservatives are heartily celebrating the victory which has been achieved in the riding. Bonfires are blazing, and hundreds are parading the streets.

The Globe's Comments.

The Globe, in commenting on the result says:

That the combined Liberal and Patron vote in North Ontario was larger by several hundreds than that polled for Mr. McGillivray is a fact that we refer to by way of warning rather than of consolation, inasmuch as the same conjunction of circumstances would elect Conservative candidates in other constituencies where a majority of the electors are opposed to the policy of the Government. All the votes polled for Mr. Gillespie and Mr. Brandon represent condemnation of the Government's tariff policy, condemnation of the corruption and extravagance of the Conservative regime, condemnation of the policy of coercion of Manitoba, yet in the face of this popular disapproval the Government candidate slips in, and the Government will be able to boast of a victory. It will matter little to them that the principles they represent are condemned so long as they have secured the election of a flexible supporter who will follow wherever they lead.

Principles were thrown to the winds in the election. Mr. McGillivray wriggled out of a declaration on the school question, and this enabled his canvassers to say in one place that he would support the Government policy of coercion and in another that he would oppose it. This deception was practised until the last hour of the election. Mr. McGillivray's friends even had the effrontery to deny the report of Mr. Clarke Wallace's resignation, and it is probable that a large number of Conservative votes were cast in ignorance of the fact that the Controller of Customs had severed his connection with the Government, on account of their school policy.

It is difficult to see how this double game can be played in the coming bye-elections, but it must be borne in mind that the Government and their friends are playing for enormous stakes, and will leave no stone unturned to save themselves from defeat in any of the remaining constituencies. Whatever may be the effect of the bye-elections upon the parties, we hope that we shall soon hear the last of the Manitoba school question in Federal affairs. North Ontario has pronounced against it in the most emphatic way: that is as clear as is the fact that Mr. McGillivray is elected.

OTTAWA GENERAL NEWS.

Four Drafts Returned After Twenty Years Fishing Operations. Personal and General Notes.

Ottawa, Dec 12.—Four bank drafts of $20 each, sent by the Marine Department to the United States Government 20 years ago, were returned to-day. They were intended as rewards to four American seamen for heroism in saving the lives of Canadians at sea, but it has been impossible to discover the parties for whom they were intended. The drafts were handed over to the British Embassy at Washington and presumedly stowed away in some pigeon hole, as they have only now been resurrected.

Mr. W. T. Jennings, the well-known Toronto engineer, was in the city to-day on business with the Railway Department. The Erie and Huron Railway Company is renewing the draw bridge over the Sydenham River with steel and Mr. Jennings was depositing plans with the Department.

Owing to the unusual lowness of water in the Detroit River a good many parent white fish secured for the hatching pond at Sandwich have been lost, but despite this accident the number of eggs taken is phenomenal, being more than sufficient to stock the hatchery, and numbering in the vicinity of one hundred millions.

It is likely that the investigation into the charges against Noble Bros. by Judge Johnston will take place at Collingwood early in January. Counsel for the Nobles having asked for time in which to prepare their case. The judge has granted their request.

Mr. W. L. Magee of the Marine Department has received an inquiry from one of the leading canners of British Columbia relative to the prospect of carrying on successful salmon canning operations in James' Bay or Hurson Bay. Particulars have been obtained from Dr. Bell of the geological survey and sent out to the Pacific coast.

Father Lacombe, the Northwest missionary, had an interview to-day with Mr Daly in reference to his half-breed reserve scheme in the Northwest.

THE IRON TRADE.

More Cheering News for the Furnaces—Market Picking Up

Cleveland, O., Dec. 12.—The Iron Trade Review to-day says the Central West furnishes the most cheering news of the week. Four more big freighters have been placed at lake ship yards in the past three days, making 14 for the week, involving a demand upon the mills for about 35,000 tons of plates and shapes. As was to be expected, this business brought out some close competition and recent quotations were cut, but the important fact is that deliveries are to begin at once, and the mills taking the bulk of the material will ithus be better able to maintain prices in a time always marked by weakness. There is little change in the pig iron situation. All irons are weaker, bessemer going a trifle below the $12 mark for valley furnaces, in a few speculative trades.

Thus far no soles are reported by furnaces at less than $12.25 in the valley for the first quarter of 1896. While actual sales of billets are limited to 1000 tons, 500 tons lots, on which $17 Pittsburg and somewhat less had been done, inquiries are out which indicate that a few important consumers, notably in Cleveland,, are convinced that the buying time is now on.

FAT STOCK SHOW OVER.

And It Has Been One of the Best Ever Held in the Royal City.

Guelph, Dec. 12.—The Fat Stock Show closed this afternoon. It was one of the best ever held here. The additional attraction of having poultry shown with the stock helped to greaty swell the paid admissions.

A good many sales of thoroughbred stock were made, and most of the fat animals will grace the Christmas display of meats in various cities of the Dominion. In shorthorn cattle the redoubtable Oke & Son take three firsts and one second, though they were beaten by John Bolton of Guelph in the special for best registered short horn steer, any age; also for the best fat animal any breed and sex. A silver medal, given by the Agricultural and Arts Association, was won by James Rennie, Guelph. In sheep and swine some new men appear on the prize list; also most of the prominent stockmen who have shown here before.

On Behalf of Shortis.

Ottawa, Dec. 12—Mr. G.G. Foster, counsel for Shortis, the Valleyfield murderer, has gone home, but Mrs. Shortis, the criminal's mother, is still here anxiously waiting for news respecting her son's fate. I am authorized to give an official denial to the statement that she had an interview with the Governor-General to-day.

MR. WALLACE'S CASE

Various Opinions as to His Resignation.

THE FEELING AT THE CAPITAL.

Politicians of Both Shades Think a Purely Protestant Party Out of the Question—Expressions of Montreal Papers—The Feeling in Winnipeg.

Ottawa, Dec. 12.—The resignation of Controller Wallace still continues to excite public interest. He returned to the Capital from Toronto this morning and has been busily engaged all day at the Department packing up his private papers previous to his departure for Woodbridge to-night.

On being seen by your corerspondent before his departure Mr. Wallace said the statement of his position telegraphed from Toronto was sufficiently explanatory of the situation. He highly desired to say that his resignation could not be interpreted as a breaking away from the Conservative party, because, he added, "I consider that I am true to the traditions of the party in my present course."

As to what foundation there was for the report of an alliance between himself and Mr. McCarthy, the ex-Controller merely observed, as if to mark the distinction between them, "I have distinctly stated my position as being in accord with the policy of the Conservative party; and the policy of the Conservative party in the Province of Ontario has always been against an extension of the separate school system here, much more, I take it, against the imposition of a separate school policy upon the people of a province which has expressed an overwhelming preference for a system of non-sectarian education."

Representative men of both parties are agreed that a purely Protestant party in Canada can never succeed, and that if Mr. Wallace expects to form a party on these lines he will utterly fail.

E. F. CLARKE

Not Going to Run in Cardwell, Says the Stalwart Orangeman.

From the Toronto Star.

"I am not going to run in Cardwell," said Mr. E. F. Clarke this morning. "I did not advise Hon. N. Clarke Wallace to retire. I haven't seen Mr. McCarthy for about two weeks and never spoke to him about a McCarthyite-Wallace-Clarke union. I see no possibility of it, and I am in no way getting Mr. McCarthy and Mr. Wallace together.

"Mr. Wallace called into my office on Tuesday night and I drove down to the station with him. He told me he had decided to resign. I told him to consider the matter carefully and said that I would hold open the forms of The Sentinel if he wished to make an official statement. I saw him again yesterday and then he had resigned.

"I did not rush away and telegraph to Mr. McCarthy, but he telegraphed to me asking if I could confirm the report. I wired back the fact that Mr. Wallace would oppose the Government candidate in Cardwell.

"Regarding the resignation, I believe that it would have been better for Mr. Wallace if he had retired months ago. He is now placed in a contradictory position. He stumped for two days in Ontario for the Government and then left.

"I was anxious to see Mr. Willoughby nominated and elected in Cardwell until he began shifting about on the school question. I will not be a candidate.

"You can see from what I have said," continued Mr. Clarke, "that I had nothing to do with Mr. Wallace's action and am not trying to get him and Mr. McCarthy together.

"It is quite absurd to think of me succeeding Mr. Wallace, for I decided long ago and in no uncertain terms to oppose the Government if remedial legislation were granted."

Expressions in Montreal

Montreal, Dec. 12.—The Witness, referring to the Bowell Government, says: "The question is, Will they gain what they expect? They will if they take the old course. If the Government embody in legislation the order in council restoring the Separate school system, lock, stock and barrel, they will gain the enthusiastic sport of the ecclesiastics, but not otherwise. The Roman Catholic authorities, as Archbishop Langevin shows, want no quarter, or even half measures, no compromise of them; the satisfction of their full claims is what they insist upon. Will the Bowell Government go the 'whole hog,' as an organ expressed it, or will they compromise, and by doing too little to gain the good-will of the ecclesiastics and too much to retain the support of the Orangemen, fail, like the man in the fable, to please everyboly and lose its ass into the bargain? This is likely, The Government is not of the high temper of a prominent supporter, who the other day cried, as the Government watchword in this province of the majority, 'Justice, though the heavens fall.' From a Government which has steadily implored Manitoba to do something, however little, to enable it to plead its action as an excuse for non-interference, such a bold course is not to be expected."

Le Monde says: "Mr Angers resigned because he was of opinion that the Government was not going far enough. Mr. Wallace resigned because he thought the Government was going too far. If we may judge by the two opinions the Government will satisfy no one. It must be remembered that there it no middle course to take in a question of strict constitutional law. Either the Catholics or Manitoba have rights guaranteed by the constitution and established to the satisfaction of all, or they have not. In the first case the Government is bound to recognize these rights in all their plentitude. In the second case it must abandon Ca-Catholics to their fate. It will do neither teh one nor the other. Such is the conclusion which we must draw from the conduct of Messrs. Angers and Wallace, two members of the Government fully informed of its intention. The country therefore can expect nothing but a half measure which will indefinitely postpone the final settlement, because it cannot be effectually applied and would shake the whole Confederation by holding on one side the

FRIDAY, DECEMBER 13, 1895.

THE NORTH ONTARIO ELECTION.

As was to be expected, the Government candidate, Mr. Gillivray, was elected yesterday in North Ontario—by a majority of over 500. The whole weight of the Government, material, moral and immoral, especially immoral, was thrown in his favour. The opposing vote was hopelessly split by the Liberal and Patron candidates, whose platforms on the two great questions at issue—the Government policy of coercion on the Manitoba school question and the trade question — were identical. It is idle folly for the Government to claim that the trade question and not the school matter was the issue. As a matter of fact the school question was the only issue as applied to Mr. McGillivray. He is elected solely for the purpose of considering the school matter; for the special session is called expressly to enact legislation to enforce the remedial order requiring Manitoba to establish Separate Schools. After the session is over Mr. McGillivray will practically cease to be a member of parliament for, in the nature of things dissolution will follow the special session. That the success of the government candidate is largely due to the opposing vote being divided, is shown by the fact that the combined vote of the two candidates, if polled for one would have left the Government candidate in a minority of over 400. Mr. McGillivray polled 2,146 votes, and the Liberal and Patron candidates together, 2,513. The shameful gerrymander of the constituency was another condition in favour of the Government candidate—he wins by a blow below the belt.

Mr. Brandon, the Patron candidate, was opposed, in toto to the Separate school idea as involved in the Government's programme, and Mr. Gillespie, the Liberal candidate, who is a Roman Catholic, was also opposed to the Government's policy of coercion, and in favour of the investigation the Manitoba Government says should be made before decisive action is taken. But the means adopted to arouse religious rancour, bigotry and prejudice doubtless had their effect on impressionable electors and hundreds of votes that would otherwise have gone to the Liberal candidate were given to the Patron candidate With all things in his favour in the manner indicated, it is not a surprise that Mr. McGillivray should have received the large vote he did receive.

THE late Collector of Customs is ambitious. Not satisfied with that position he suddenly aims at being controller of the destinies of the Third Party.

APROPOS of Sir Charles Tupper's coming visit to Canada, people are wondering what particular crookedness is afoot that the present Government is not capable of putting through.

LE PATRIE, Montreal, gives currency to the statement that Sir Mackenzie Bowell has promised the vacancy in the Senate caused by the death of Senator Murphy to James O'Brien, the Montreal millionaire. There are eleven vacant Senate seats and all promised—eleven politicians in duty bound to help the government through the next elections. The Government is prepared to exploit every public position in the interests of its party. Sir Adolf Carnon, will, doubtless, be employed to "work" the millionare promise in the direction of corruption funds.

ARE we to expect that any other members of the cabinet will "blend with Wallace?" Mr. G. R. R. Cockburn, M.P., a staunch government supporter, seems to be inclined to follow Mr. Wallace's lead. In an interview with the Globe, in reference to Mr. Wallace's retirement, Mr. Cockburn says:—"My position is plain. I stand precisely as I did when my views were put on record in the House. If the ministry attempts to coerce Manitoba and force the province to go back to the Separate School system in its integrity, as contained in clauses A, B and C of the remedial order, I will oppose the measure in the House and withdraw my confidence from the government."

AT Orangeville Mr. Foster charged the Liberals with being prepared to discriminate against the Mother Country. The Liberals are all on record, says the Guelph Mercury, in Hansard in support of the following resolution:—"Inasmuch as Great Britain admits the products of Canada into her ports free of duty, this House is of opinion that the present scale of duties exacted on goods mainly imported from Great Britain should be reduced." Mr. Foster and all his followers voted down the resolution. Votes speak louder than words, and Government claims to loyalty are all in the lip, which is suspiciously close to cheek.

IT is quite common to see in Conservative journals, the statement that Mr. Laurier in Quebec advocates coercion of Manitoba in the Separate schools, while in Ontario he depreciates it. The assertion that the Liberal leader adopts different tones in dealing with the question in different localities is, says the Brantford Expositor, absolutely untrue. In parliament and out of it, in Ontario and in Quebec, in Manitoba and the Northwest territory, on the Atlantic coast and on the Pacific slope, Mr. Laurier has for years adopted precisely the same tone and advocated precisely the same course, namely, an investigation of the facts of the case, before any attempt is made to legislate for Manitoba in the Dominion parliament. This is the rational course to take, and it is the course that must eventually be taken. A coercion bill may be introduced when parliament meets, but it will never be passed, and if it were passed it could not, as Mr. Tarte has pointed out, be enforced. We are only at the beginning of a struggle, the conclusion of which will be a persona triumph for Mr. Laurier as a peace-maker.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

An Agricultural Party Forming for Parliament.

ANOTHER APPEAL OF ARMENIANS

The Work of Extermination Goes On—Italian Troops in Abyssinia Said to Have Thrown Away Their Arms—The Germanic Pretty Badly Damaged

London, Dec. 12.—The Conservative newspapers are grumbling a great deal at the declaration against protection made by Lord Salisbury yesterday.

The Right Hon. James Lowther, M.P., Conservative, will preside at a public conference to be held in London to-morrow with the object of urging the adoption of a system of protection "in view of the critical condition of agriculture and other national industries."

An Agricultural Party in Parliament.

London, Dec. 12.—The annual Congress of the National Agricultural Union met to-day under the presidency of the Earl of Winchelsea. A large number of Conservative peers and members of parliament were present. It was unanimously resolved to form an agricultural party in parliament, the purposes of which are to urge the Government to relieve land of its existing unfair share of the public burdens, to re-adjust the beer duty in favor of British grown barley and hops, and to introduce legislation for the effectual protection of home products against all forms of fraudulent competition.

ARMENIA'S APPEAL.

Pitiful Cry From Starving, Homeless Thousands.

London, Dec. 12.—The following telegram from Constantinople, dated Dec. 6, and signed by a number of Armenians in that city, has reached London: "Armenia is in her last gasp. The work of extermination continues. The massacred people number 10,000. Half a million survivors have taken refuge in the forests and mountains where they are feeding upon herbs and roots. Hunger and cold have begun to ravage greatly. In the name of humanity and Christianity, save us."

Kurds Disposing of Their Plunder.

London, Dec. 12.—A despatch from the United Press correspondent at Constantinople, yesterday's date, says: "Kurds and other Armenian marauders and pillagers are coming into Constantinople in large numbers for the purpose of disposing of their plunder. It is expected that out-breaks will continue throughout Asia Minor, but on a smaller scale than hitherto.'

Fighting in Crete.

Athens, Dec. 12.—A strong detachment of Turkish troops on Tuesday attacked the positions occupied by the Christians at Vryse on the Island of Crete. The troops lost 35 killed and wounded, while the loss of the Christians was six killed, Outside of Veryse the island is quiet.

THREW THEIR GUNS AWAY.

The Italian Troops in Abyssinia Were Afraid the Enemy Would Get Them

Rome, Dec. 12.—General Baratieri's account of the battle with the Abyssinians at Ambalisim resulting in the partial annihilation of the Major Toselli's force of Italian troops, shows that the Italians threw their cannons, mules, ammunition, etc., into an abyss in order to prevent the enemy from capturing them.

Reinforcements to Go Forward.

Rome, Dec. 12.—The Government has asked the Budget Committee of the Chamber of Deputies that the sum of 4,000,000 lire in excess of the 3,000,000 lire already provided for in the budget for that purpose, be assigned to the expenses of carrying out Italy's military campaign in Africa. Three thousand troops will embark from Naples on Saturday to reinforce the Italian army in Abyssinia.

Tribute to the Dead Officer

The Chamber of Deputies this afternoon paid a tribute to the memory of Major Tosselli, the commander of the Italian column in Abyssinia, which was declimated by a surrounding force of Abyssinians and who was himself among the killed. After a number of eulogistic speeches, the President of the Chamber invited the orators of all parties to salute the glorious dead and the members of the body stood up in perfect patriotic accord. The scene was a touching one.

Receives an added glory if it encircles teeth of pearly whiteness. Care of the teeth, how important, yet neglected often to the marring of their beauty or destruction by the use of enamel eating dentifrices. Ivorine, delightful, refreshing, imparts pearly whiteness to the teeth, prevents decay, gives firmness to the gums and a delightful fragrance to the breath.

THE FRUIT GROWERS.

Woodstock Showed Them Every Attention—Interesting and Instructive Business Transacted.

Woodstock, Ont., Dec. 12.—At the evening session yesterday of the Fruit Growers' Association convention Hon. John Dryden, Minister of Agriculture, occupied the chair. He expressed hearty sympathy with the work in which the association is engaged.

Mayor Cole extended a welcome to the delegates to the convention and offered them the freedom of the town and hoped they would return again in the near future. T. H. Parker, president of the local Horticultural Society, also gave an address of welcome.

Careful study of the subject was evident in the paper read by D. W. Karn on "Private Conservatories." When houses were lighted with gas it was, he said, almost impossible to succeed in the cultivation of flowers, gas being a deadly element to al plant life. Hot water was recommended as a means of heating the conservatory.

Dr. Mills, president of the Agricultural College, followed with a short talk.

Prof. Saunders, director of the Dominion Government Experimental Farms, was then introduced by Hon. John Dryden and made a capital address on "Progress of Horticultural Work at the Experimental Farms."

This morning the Woodstock Horticultural Society provided conveyances and on their invitation the directors and members of the association visited the Anderson furniture factory and Mr. D. W. Karn's organ and piano factory.

On invitation from Principal Bates the party visited Woodstock College. The manual training department first occupied their attention, where the students were being taught the use of carpenters and machinists tools and machinery. After visiting the class rooms, laboratory and library, the whole party was entertained at lunch and some speaking followed by Principal Bates, Mr. G. R. Pattullo, the Hon. John Dryden, President M. Pettit, Vice-President W. E. Wellington and Director William Saunders.

At this afternoon's meeting spraying and cultivation of orchards was treated by Mr. J. C. Harris, Ingersoll. He gave his testimony to the excellent results obtained. He was succeeded by Mr. A. H. Pettit, who gave some account of his summer's work in conducting experiments in thirty different points in Ontario under the Department of Agriculture. Results were sufficient to establish the necessity of spraying to produce the best fruits.

Director William Saunders showed a pressed specimen of amplopsis which was perfectly hard at Ottawa. It has the same characteristics as the Japan ivy in attaching itself to a brick or a stone wall.

The Hon. John Dryden gave a most interesting address encouraging the Fruit Growers' Association in their excellent efforts for the benefit of Canada's fruit growers.

The secretary, Mr. L. Woolverton, introduced an important subject, viz., The grading and packing of apples for the English market. In this paper he advocated an amendment to the act which should define grades one and two.

This was followed by a lively discussion, in which Mr. A. H. Pettit and Mr. John Craig took a prominent part.

A special resolution was passed thanking the Dominion Government for their exertions to introduce tender fruits into the British market.

FOUR TOUGH CUSTOMERS

Convicted in Hamilton Yesterday for Assault and Robbery.

Hamilton, Dec. 12.—On Nov. 28 Samuel Luscombe, a butcher, was held up and robbed of $69 in Wilson-street by four men who, after taking his money, brutally kicked and otherwise assaulted the old man. Detective Inspector McMahon and his staff went on the case, made arrests, and to-day the trial came off before Judge Snider. The four defendants were Jeremiah McCarthy, William Wade, Thomas Duffy and Harry Findlay.

George Smith was the principal witness to the assault and robbery, having seen both Luscombe and the gang of men pass his place, heard the former cry murder and saw the men run away. He identified McCarthy as one of them, and he was seen in the crowd a few minutes previously.

Miss Emily Beckett of the Star Hotel saw the prisoners in the hotel that night, and saw McCarthy distributing money among his pals. Sentence will be given on Saturday.

All have police records; McCarthy has served terms in the Central Prison and Kingston Penitentiary, and this is his 21st charge. Duffy has been in the Police Court 18 times and has served a term in the Central Prison. Wade has answered 15 charges and Findlay has served terms for burglary and numerous other charges.

ANOTHER GRAND WEDDING.

Miss Emma Rockfeller Was the Bride on This Occasion.

New York, Dec. 12.—Standing beneath a georgous floral canopy and environed by a scene of horticultural splendor, in the music room of her father's country palace, Rockwood Hall, Tarrytown-on-the-Hudson, Miss Emma Rockefeller, daughter of Mr. and Mrs. William Rockefeller, was wedded at noon to-day to Dr. D. Hunter McAlpin, jr., son of Dr. Hunter McAlpin of New York city.

It was the third nuptical celebration in the Rockefeller family within a month, and in point of brilliancy surpassed the two previous events.

Rebels Evading a Fight.

Havana, Dec. 12.—The rebel leaders Gomez and Maceo are still evading an engagement with the Spanish troops. They were encamped upon the Gonzales coffee plantation in the district of Cienfuegos, but left there this morning when they heard of the arrival of the Spanish forces in the vicinity.

Mr. Everett to Resign

Detroit, Dec. 12.—Manager Everrett of the Detroit Railway, says he will resign the vice-presidency of the Toronto Street Railway in order to devote more time to his Detroit and Cleveland railways.

Stable Burned.

Brantford, Dec. 12.—Last night fire destroyed M. D. Baldwin's stable, about a mile south of this place. Mr. Baldwin was in the loft throwing down hay. In coming down the ladder he fell to the floor, the lamp exploded and set fire to the hay he had just thrown down. The fire spread rapidly. Mr. Baldwin had hard work to save two horses and a cow. Loss about $1200, covered by insurance,

Captain Barr Married.

Southampton, Dec. 12.—Captain Charles Barr, who commanded Mr. George Gould's yacht Vigilant in er races with the Prince of Wales' Britannia, was married on Monday to the daughter of a Mr. Smith, a maker of nautical instruments, of this place.

Mr. H. Wettstein, of Marengo, Ill., found that Ayer's Pills, taken when the first symptoms of la grippe appear, prevent further progress of the disease, and he has yet to find the first case where these pills did not cure the malady. Every dose was effective.

Scrofulous Symptoms

Are tumors, abscesses, sore eyes, eruptions and obstinate skin diseases, Burdock Blood Bitters cures all blood diseases, from a common pimple to the worst scrofulous sore. In all cases of this nature where the skin is broken and sores or ulcers exist, the outward application of B. B. Another Steam Launch.

J. R. Robertson, of Riverside, Mass., has been engaged by Mr. J. R. Donell to build him a steam launch 25 feet long and with a 6 ft. beam. The launch is being built in Mr. Donell's planing mill and will be used on Stony Lake.

Pretty Art Calendars.

Everyone who has seen our Art Calendars and Books for the Holiday Season, are of one opinion, and that is—that they are the prettiest ever shown. The price is so low that they are easily within the reach of all. Call early and examine them—now is the time before the rush. A. H. STRATTON & Co., Peterborough Bookstore.

The Ground Besprinkled With Milk.

While Mr. W. G. Milburn's milkman was supplying a customer early this morning on Charlotte street, his horse took fright and started up at a rapid rate to the corner of Charlotte and Water streets. It ran across the market square and up Water street to the Croft House, where it came in contact with a telegraph pole and upset the cart and milk cans with their contents in the middle of the street. Little damage was done other than the spilling of the milk.

Tenders for Assets.

The tenders for the book debts and all claims and assets due, or accruing due, the Peterborough Carbon and Porcelain Company, insolvent, were opened this afternoon by the inspectors, and the tender of Messrs. J. R. Stratton and A. L. Davis was accepted, it being the highest. The purchase of all the assets of the company by Messrs. Stratton and Davis places them in a position to collect all indebtedness due the company. The amount realized for the book accounts was about fifty cents on the dollar.

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

The Christmas Examiner.

The EXAMINER, with all its handsome holiday editions, has never issued a finer than that of 1895, now being distributed throughout the town and flying through the mails to every household in the county. It comes as a reminder of good cheer, and is the EXAMINER'S free gift to the people. With all reverence, it is the gospel of trade, "good tidings" to holiday buyers. It tells where to buy the best goods at the lowest prices. It is brightly illustrated and fitted with seasonable reading matter that will make it treasured in the household. Its takingly displayed advertisements are sure to be read, and will bring a rich harvest to the merchants who were wise enough to advertise.

SONS OF ENGLAND BENEVOLENT SOCIETY.

The Majority of the Order Celebrated.

A highly successful concert was given at the above society's hall last night to a crowded audience in celebration of the coming of age of the society.

The programme was arranged by the band of the society, and the proceeds were devoted to the funds of the band. Most striking testimony was borne all through the entertainment to the great improvement which has been made by the band under the careful and painstaking leadership of Mr. John Miller, and the town is certainly to be congratulated on the musical reputation which it is gaining as a band town.

The chair was most ably filled by Mr. George K. Martin, and on the completion of the musical parts of the programme a large number of those present took part in a social dance for an hour or two.

Following is the programme of the concert:

STOLEN FROM THE TRAIN.

A Commercial Traveller Loses his Over-Coat at the Peterborough Station.

Mr. W. A. Taprell, who travels out of Toronto for photographic supplies, is registered at the Grand Central Hotel, waiting for the police to find his overcoat.

As he was coming into Peterborough on the C.P.R. on Wednesday evening he went forward into the smoking car and left his big Irish frieze coat in his seat in the first-class coach. As the train drew into the station he came back but his coat was gone. A hurried search through the train did not result in its discovery, so he got off and made inquiries on the platform, where he learned that a man had been seen to jump off the car as soon as it was stopped and make off up town, also that he wore an overcoat ridiculously large for him.

As Mr. Taprell stands six feet nine inches, it can be seen that any ordinary sized man would, to say the least, look very odd in his overcoat and would have considerable difficulty in wearing it without detection.

The case has been placed in the hands of the local police, who have a strong clue upon which to work. The man is supposed to be working somewhere along the Trent Valley Canal and to-day Mr. Taprell and the police are trying to identify him.

—Mr. W. J. Pigott, formerly of the dispatcher's staff Lindsay, but now G.T.R. relieving agent, is at present in charge of the station at Kinmount, owing to the illness of Agent W. J. Harper.

—"Jack Harkaway," which appears at Bradburn's opera House, Monday, Dec. 16th, will undoubtedly be one of the most noteworthy productions of the coming season. The scenery, costumes and effects are said to be of the most realistic nature. Prices 25, 50 and 75c. Seats now on sale.

—One of the features in Morrison's production of Faust is the music. There is a quartette of singers that will render some beautiful selections during the action of the play. At Bradburn's opera house next Tuesday night, Dec. 17th. Prices 35, 50 and 75c. Box seats, $1. Seats now on sale.

PERSONAL.

Mr. George Stenton, Park street, leaves this evening for Lindsay, where he will attend the funeral of his late mother-in-law, Mrs. James Kinmouth, which will take place at 2 o'clock to-morrow afternoon.

Mr. J. B. Pearce, warden, reeve of Norwood, is in town to-day engaged in the selection of Jurors. He says that the statement attributed to him that he is a candidate for the reeveship at the coming election is premature.

Piano Tuner.

Mr. George Gumpricht, as a first class piano tuner, is highly recommended by Messrs. Heintzman & Co., and all leading piano dealers. Orders may be left at Mr. H. S. Macdonald's drug store.

THE DESTROYING ELEMENT IN FULL BLAST.

No Less Than Four Fires in Twelve Hours—The Brigade Kept Busy.

The Fire Brigade were kept busy during the twelve hours elapsing between 7:45 o'clock, last night, and the same hour this morning, as during that time there were no less than four fires.

The first alarm was sounded at about a quarter to eight o'clock in the evening, and the fire teams were both driven to the Commercial Hotel, on the corner of George and Brock streets, where a chimney was discovered to be in a blaze. All danger, however, was over by the time the brigade arrived, and it was then discovered that the fire to which they had been called was on Aylmer street, just below Hunter, to which point the brigade at once hastened with all speed, to find Frank Anthony's rough-cast cottage enveloped in flames. The fire had obtained such a hold on the building that the place was in ruins before the destroying element was finally gotten under control. Nothing was saved of the contents except a single chair and two trunks belonging to boarders. Frank estimates the value of the building at about $600 and the contents at about as much as much more. Both building and contents were insured in the Lancashire Assurance Company, through Cox & Davis, for $500. At about three o'clock in the morning the flames again broke out in the ruins and as there was danger of the fire spreading the brigade was again called out. The origin of the fire was not known but probably resulted from a defective chimney. There was no one in the house at the time as all had just finished their tea and gone over to the Hunter street grocery. Consequently the flames obtained great headway before they were discovered and this morning there is not an upright of the house standing.

The fourth fire occurred shortly before eight o'clock this morning, when the chimney took fire on Mr. Wm. Fowler's residence on Rubidge street. There was little or no damage.

ANNUAL MEETING OF THE MURRAY STREET BAPTIST SUNDAY SCHOOL.

A Most Comprehensive Report of the Progress of the Sunday School Submitted.

The annual business meeting of the Murray street Baptist Sunday School was held last evening, with a full attendance of officers and teachers. The reports submitted concerning the different branches of the work connected with the school were most satisfactory.

Miss M. L. Stratton, Secretary-Treasurer, submitted her report, showing the ordinary Sunday collections during the year to amount to $99 08. Missionary collections, $41.44. Revenue from other sources brought the total receipts up to $272 46. The expenditures amounted to $211.07, leaving a balance of $61.39. Out of the Nicholls' fund an organ for the School was purchased, at $85 and fifty volumes of books at $16.45.

The number of scholars on the roll is 194; teachers and officers, 22. The report concludes with the clause:—"It was with feelings of regret that we parted with our excellent superintendent, Mr. A. L. Grover, who felt called to more concentrated work in the Park street school, but we were fortunate in securing a successor in Mr. Stanley, who is now our superintendent, and, as the years roll round and we stand in restrospection, this year's work will doubtless testify to the wisdom of the choice of our superintendent for 1896. Another year is before us with its hopes, opportunities and possibilities. Let us not be discouraged. If we do not see all the spiritual results we long for, yet we must not weary in well doing, for we have the promise, sure and steadfast, "that in due season we shall reap if we faint not."

The report was received and adopted.

The officers were all re-elected, as follows, for the ensuing year:

Superintendent—Mr. E. A. Stanley.
Secretary-Treas.—Miss M. L. Stratton.
Asst.-Sec.-Treas.—Miss Lottie Wallace.
Librarian—Mr. Louis Croly.
Asst. Librarian—Miss Hughes.

At the conclusion of the business meeting a short time was spent in social intercourse, during which refreshments were served. The chair was occupied during the evening by Mr. E. A. Stanley.

E. B. A. OFFICERS ELECTED.

The Local Branch Held its Annual Meeting Last Evening.

At a largely attended and most enthusiastic meeting of the local branch of the Emerald Beneficial Association last evening, the annual election of officers took place. Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your tooth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating, and certain pain remedy in the world.

A line of pictures very cheap, not much more than half the regular price, and the balance of his stock of window shades in plain, fringed, lace and insertion will be cleared out at cost. Our stock of general furniture is now complete and is one of the largest in Canada; prices lower than ever.—A. CLEGG 427 George street.

Run Over by a Sleigh.

A small boy was quite badly hurt at noon through falling off the front of a farmer's sleigh and having his foot run over by the rear runner. The sleigh was heavily loaded with grain and although no bones were broken the little fellow suffered a good deal. The accident took place on the corner of Dalhousie and Aylmer streets.

Not Married After All,

One of our town school teachers has been receiving congratulations all day on her marriage, which, popular report had it, took place yesterday afternoon. As the event did not take place, the embarassment caused is considerable. The rumour arose through the fact that several sleigh loads of young people drove in from the country and spent a few hours in visiting the young school mistress.

Disputes the Claim.

Mr. Marks, the commercial traveller who went through the locks bridge on the G. T. R. train some months ago, is again in town. He states that the Company disputes his claim of $1,000 for damages and that the case will go into the courts. Mr. Marks complains that since the accident his nerves are so unstrung that he cannot obtain his sleep. He intends spending the balance of the winter in the South where he will endeavour to recover his health.

The Prospects Poor.

In conversation with a gentleman from the north this morning he said the prospects for timber were so bad that Howry & Co. would undoubtedly curtail operations, as the Gilmour's are doing, but for the fact that many of the settlers have obtained deeds of the lands they are cutting over and they are bound to give possession within a short period. It was also stated that owing to the distance the Gilmours have to float their logs they cut nothing but the best pine, but the Howry firm are stripping their limits of everything that comes, be it pine, basswood, hardwood, cedar or tamarac, and as they have but a short distance to run their logs they save enough on the driving to pay for holding if the price happens to be low at selling time.—Lindsay Post.

Bronchitis Can be Cured.

By aiding medication with increased nutrition, The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the gratest value.

FARMERS' INSTITUTE.

Organization in Cavan and Manvers—A Large and Representative Meeting.

Quite a good turnout of farmers from Cavan and Manvers, as well as a number of villagers who felt interested in the movement met in the Millbrook town hall on Wednesday afternoon last to take steps towards the instituting of a Farmers' Institute for the riding. Reeve Thorndyke, of Cavan Township, was appointed chairman, pro tem, and W. S. Given, secretary. Mr. Rayner, of Prince Edward County, a graduate of the Agricultural College, Guelph, and a frequent visitor to various Institutes throughout the Province, on behalf of the Inspector of Institutes, was called upon to address the meeting upon the aims, advantages, and workings of Farmers' Institutes. Mr. Rayner is a very lucid speaker and at once entered into his subject, after first explaining the absence of Mr. Hobson, who was to have been present, but who was prevented on account of death in his family. He was pleased to see so many out and more pleased to see such a good list of names as had already been secured.

After Mr. Rayner had concluded his address, it was moved by Robt. Vance and W. T. Donaldson, that the election of officers for a Farmers' Institute be proceeded with, which was carried. The following officers were then elected:

President—Robert Vance.
Vice-Pres.—C. H. Winslow.
Sec-Treas.—Wm. Vance.

DIRECTORS.

Manvers—Isaac Preston, Wm. Hannah.
Cavan—John Lowes, Thos. McCamus.
Millbrook—W. O'Brien, W. S. Pickup.
Hope—W. H. McCallum, James Colwell.
Port Hope—Col. McLean, Samuel Purser.
Auditors—W. H. Lough, Chas. McNeil.

THE NEWCOMBE PIANO.

Why it Always Meets With Such Ready Sale.

Mr. W. A. Shaw, representative of the Newcombe piano in Peterborough, has just returned from another very successful trip in the Bay of Quinte district. Within three days he sold and delivered three Newcombes. Mr. Shaw does not take much of the credit to himself for these sales—the Newcombe piano sells itself. Its unapproachable quality of tone, touch, finish and durability have won so large a reputation for these pianos that persons who really desire to become possessors of a really first-class instrument do not have to be urged much to become purchasers. Nothing can be more appropriate for a Holiday gift than a Newcombe piano. Think the matter over, talk it over with the wife and call at 300 Rubidge street, on Mr. Shaw, who will be happy to meet your wish and sell you a piano that, with care, will serve for the use of your grandchildren. 1dlw

HOCKEY.

The Victorias, of Kingston, are anxious to come to Peterborough for a game on New Years Day, and it is to be hoped that arrangements to this end can be perfected. The Victorias are in reality last year's Athletics reorganized and strengthened, and as the Athletics were in the senior league, a splendid match could be expected. The only trouble is that the management of the rink may object to giving the boys a share of the receipts, as the New Year's Day patronage is always very large. Still, if the match was put on from 7:30 until 8:30, it would not interfere with the skaters to any extent and would draw fully six hundred hockey enthusiasts to the rink who would not otherwise be there. The receipts would be, therefore, sufficient to enable the management to give $100 to the hockey club to pay the expenses incurred and at the same time reap a fair profit themselves. The first hockey match of the season will assuredly draw an immense crowd.

Another Store Enlargement.

Mr. Charles Legros, the live George St. Tobacco dealer has completed arrangements for enlarging his store to twice its usual size, which will necessitate his moving out of his present premises. And having ordered a lot of imported cigars and pipes before he had the intention, and they having come in, his stock will therefore have to be slaughtered. It is therefore necessary for him to clear out his large stock, valued at over $10,000 before moving. His goods consists of 10,000 Diaz y Garcia, 12,000 Manual Garcia, 5,000 Or Loranga, 3,000 Jose Morales, all direct imported cigars from Havanna, 100,000 Domestic cigars, besides the finest lot of B. B. B. pipes there is in Canada. Smoker's sundries too numerous to mention. Don't all come at once. The prices were never equalled in Peterborough before, or never will be again. Don't forget the number, 359 George street.

ADDRESS ON JAPAN BY T. H. TAKAHASHI.

IT PROVES MOST INTERESTING TO A LARGE AUDIENCE.

The Love of the Natives for the Cherry Blossom Amounts to Adoration—There are 23,000 Common Schools in the Country and Over 3 500,000 Children Attending Them.

The second of the Star Course of Entertainments was given, last evening, in the Opera House, and consisted of a most interesting lecture on Japan by K. T. Takahashi, who proved himself to be gifted with extraordinary fluency and oratorical ability for a foreigner. The English which he used was classic and delighted the educationalists present by its purity and freedom from colloquialisms.

The lecture was illustrated by stereopticon views and the audience was first taken to the city of Tokio, the capital of Japan. The peculiar style of architecture was explained by the speaker to result from the fact that earthquakes were of so frequent occurrence as to undermine and destroy a structure of any great size, consequently the buildings were

NEARLY ALL LOW.

Instead therefore of planning boldness of design in their residence the Japanese devoted themselves to detail and as a result their homes were most beautiful and costly in this respect.

The Imperial buildings at Tokio and the fine grounds surrounding them were greatly admired as were the pictures of the court beauties, as well as the Mikado and his staff of generals and naval officers.

When speaking of the recent war with China Takahashi dwelt on the apparent disparity between the two counties, illustrated by the map and attributed Japan's success to the excellence of her standing army and the heroism of her officers, who were well versed in military tactics, having taken courses in the military schools of either England or France.

The universities of the country are numerous, and a fine picture was shown of the engineering department of one of them, in which four faculties were taught, viz:—Law, Medicine, Science and Literature. Some of the universities are set aside for the sons of nobles, who are compelled to attend and take a course. The sons of the rich

ARE ALSO ADMITTED,

and the university is not reserved or exclusive in the general use of the term, but only so far as that it is to this particular institution of learning that the nobility are expected to send their sons. There are 25,000 public schools in Japan, and the pupils number over three million and a half.

The beauty of the cherry blossoms in the month of March gave the speaker a theme upon which to dilate and it is evident that the admiration and love borne by the Japanese for this blossom amounts, in reality, to adoration. Day after day is spent by them in admiring the trees and their fragrant burdens, the rich colouring of which was dwelt upon by the speaker to considerable extent, shaded, as it was, from a delicate pink to a rich crimson. The wisteria is another flower which claims much attention from the natives. It is admired by moonlight and during the month of May, night after night, is spent on the water in enjoyment of the scenery.

The pagodas and shrines formed

AN INTERESTING TOPIC

for discussion and their number was explained by the fact that they are built with the same object in view as have other nations when they erect statutes in memory of great men or great events.

Takahashi's account of the feudal system and how it was finally abolished in the land of his maturity was interesting in the extreme. When Feudalism flourished in Japan it seems that the power of the nobility in all matters pertaining to those residing in their estates was omnipotent and there was no appeal from their mandate. The prerogative was not abused to any great extent until one in whom great power had been vested took advantage of it and ground down his subjects by levying tax after tax until the farms were neglected and famine and starvation threatened the people. One great-hearted peasant appealed to the Supreme Court in the matter. Such a thing had never been heard of in Japan before, and his audacity in even endeavouring to see the August High Justice was considered unequalled in the annals of history. He was sent back to his lord loaded in chains, and, as a penalty, was publicly crucified, as was his wife. Two of their little children were beheaded before their eyes, as they hung upon the cross. The third child was snatched up and carried off into the crowd before a like fate overtook it. These were Japan's greatest martyrs, and every day natives journeyed to the shrine erected in their memory to offer prayer. The incident had its effect in causing a rigid investigation which finally resulted in the abolition of feudalism. The recital of this episode was given in a most affecting way by the lecturer, who evidently spoke from the heart in his condemnation of the cruel sacrifice of this family.

In conclusion a number of types of beauty of the Japanese girls were shown and greatly admired for their quaintness, although European costumes are being adapted to a great extent in the larger towns and cities. As "Japan" is one of the school subjects this year a large number of pupils were in attendance and derived no inconsiderable benefit from the instructive address.

Hood's Sarsaparilla, taken at this season will make you feel strong and vigorous and keep you from sickness later on.

OAK HALL,
Corner George and Hunter streets.

A LIVELY RUNAWAY.

A Horse Belonging to R. H. Leary Jumps Into the Bank of Toronto Window.

A livery horse belonging to R. H. Leary was driven up George street, this afternoon, attached to a cutter, and tied to a tree outside the residence of Mr. J. S. Knapman, on London street, by whom it was ordered. The loop of the tie reign around the tree slipped down to the ground, when the horse had his head lowered and when the animal raised its head the bridle broke, leaving it free.

It started off on a gallop and turning down George street ran for its stable, but in making the turn at the corner of Hunter street was coming too quickly to keep to the road and ran up on the sidewalk in front of the Bank of Toronto, where it lost its feet, and in falling one of its iron-shod hoofs struck the window plate and smashed it into a thousand pieces.

The horse was quickly caught and held by the crowd which gathered instantaneously. Strange to say the animal was not cut in the least and the cutter was not damaged to any extent either.

A GOOD TEMPLAR'S RESOLUTION

Passed by City Lodge, No. 404, I. O. G. T.

To the Editor of the Examiner:

DEAR SIR,—Will you kindly insert the following copy of a resolution passed by City Lodge, last night,

And oblige,

COM.

Whereas we have learned that it is the intention of Thomas Cahill, Esq., to offer himself for the position of Mayor of Peterborough, and

Whereas we believe that, while in the Council, his voice has ever been raised in favour of the liquor interests, and against the moral improvement of the town to such an extent as to render him, in spite of his other good qualities, unworthy of the position to which he is said to aspire; and

Whereas we believe there are men who could fill the position just as well and with honour to the town,

Therefore be it resolved,—That we, the members of City Lodge, No. 404, I. O. G. T., are most emphatically opposed to Mr. Cahill's candidature, and we urge upon every moral person in the town the duty of striving their utmost to have a man elected to the Chief Magistrate's chair, who will not only serve the town faithfully and well, but would also seek to maintain the highest standard of morality.

NORWOOD BREACH OF PROMISE CASE.

The Defendant's Positive Denial of any Promise.

Mr. John Finlay, of Norwood, was in town to-day. He was seen by a representative of the EXAMINER in reference to the breach of promise case, mention of which appeared in the EXAMINER last Saturday. Mr. Finlay denies in the most decided manner that there ever was any reason for the plaintiff assuming that he had any intention of marrying her, and he most positively denies that he ever made any promise of marriage or anything that could be so construed.

DOURO.

From Our Own Correspondent.

The whole township turned out on Wednesday to be present at the funeral of the late Mrs. John O'Toole, jr. Her maiden name was Leahy and she had been always a great favorite with everybody. The funeral mass began at 9.30 a.m., and was right solemnly celebrated by the parish priest, Rev. Father Kelly. Everybody sympathizes with the poor young husband, so suddenly called upon to carry so heavy a cross. But fortunately his motto was always. "God's Will be Done." They were married January 15th, 1895. May she rest in peace!

Christmas Cards and Booklets.

The biggest kind of enthusiasm has started up already in our Christmas Card Department. It's well we made larger preparations and stopped at no expense to get these attractive Cards. Our stock represents the latest results of the most refined artistic taste. No end to the variety—styles to suit all tastes and all purses. Better pick now in order to have the cream of the stock, and, also, to be in time if you are sending far away.

Dolls, Games and Toys.

Enormous stock to choose from, and nothing put there haphazard. We don't buy that way. Keen appreciation of your needs tells us what to get and what not to get. Goods are arranged for easy seeing and buying, but we could use another big store if we had it to spare.

Children's Sleighs.

Young Canada monopolizes a good deal of our store. A large livery of dashing Sleighs, Coasters, Baby Cutters, Rocking Horses, and adjustable runners for Baby Carriages—just the thing for a boy or girl, at all prices.

A Common Affliction

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

HIS IMMORTAL PEN PICTURES

Of Pure, Unaffected Happiness — The Christmas Dinners of the Great Author—, Reminiscences of Trotty Veck, Pickwick Tiny Tim and a Host of Other Loveable Characters.

[CONTINUED FROM YESTERDAY.]

"Liver?" said Toby communing with himself. "No. There's a mildness about it that don't answer to liver. Pettitoes? No. It ain't faint enough for pettitoes. It wants the stringiness of cock's heads. And I know it ain't sausages. I'll tell you what it is. It's chitterlings."

"No, it ain't!" cried Meg, in a burst of delight. "No, it aint!"

"Why, what am I a-thinking of?" said Toby, suddenly recovering a position as nearly the perpendicular as it was possible for him to assume, "I

THE DANCE AT TROTTY VECK'S.

shall forget my own name next. It's tripe!"

Tripe it was; and Meg, in high joy, protested he should say in half a minute more it was the best tripe ever stewed.

"And so," said Meg, busying herself exultingly with the basket, "I'll lay the cloth at once, father, for I have brought the tripe in a basin, and tied the basin up in a pocket handkerchief; and if I like to be proud for once, and spread that for a cloth, and call it a cloth, there's no law to prevent me, is there, father?"

"Not that I know of, my dear," said Toby. "But they're always a-bringing up some new law or other."

"And according to what I was reading you in the paper the other day, father, what the judge said, you know; we poor people are supposed to know them all. Ha, ha! What a mistake! My goodness me, how clever they think us."

"Yes, my dear," cried Trotty, "and they'd be very fond of any one of us that did know 'em all. He'd grow fat upon the work he'd get, that man, and be popular with the gentle folks in his neighborhood. Very much so."

"He'd eat his dinner with an appetite, whoever he was, if it smelt like this," said Meg cheerfully. "Make haste, for there's a hot potato besides and half a pint of fresh drawn beer in a bottle. Where will you dine, father? On the post or on the steps? Dear, dear, how grand we are! Two places to choose from."

"The steps to-day, my pet," said Trotty. "Steps in dry weather, post in wet. There's a greater convenience in the steps at all times because of the sitting down, but they're rheumatic in the damp."

"Then here," said Meg, clapping her hands, after a moment's bustle, "here it is all ready! And beautiful it looks! Come, father, come!"

Since his discovery of the contents of the basket, Trotty had been standing looking at her, and had been speaking, too, in an abstracted manner, which showed that though she was the object of his thoughts and eyes, to the exclusion even of tripe, he neither saw nor thought about her as she was at that moment, but had before him some imaginary rough sketch or drama of her future life. Roused now by her cheerful summons, he shook off a melancholy shake of the head which was just coming upon him and trotted to her side. As he was stooping to sit down the chimes rang.

"Amen!" said Trotty, pulling off his hat and looking up toward them.

"Amen to the bells, father?" cried Meg.

"They broke in like a grace, my dear," said Trotty, taking his seat. "They'd say a good one, I am sure, if they could. Many's the kind thing they say to me."

"The bells do, father," laughed Meg, as she set the basin and a knife and fork before him. "Well!"

"Seem to my pet," said Trotty, falling to with great vigor. "And where's the difference? If I hear 'em what does it matter whether they speak it or not? Why, bless, you, my dear," said Toby, pointing at the tower with his fork and becoming more animated under the influence of dinner, "how often have I heard them bells say, 'Toby Veck, Toby Veck, keep a good heart, Toby! Veck, Toby Veck, job coming soon, heart, Toby!' A million times? More."

"Well, I never," cried Meg.

She had, though—over and over again. For it was Toby's constant topic.

"When things is very bad," said Trotty; "very bad indeed, I mean; almost at the worst; then its 'Toby Veck, Toby Veck, job coming soon, Toby! Toby Veck, Toby Veck, job coming soon, Toby!' That way."

"And it comes—at last, father," said Meg, with a touch of sadness in her pleasant voice.

"Always," answered the unconscious Toby. "Never fails."

While this discourse was holding Trotty made no pause in his attack upon the savory meat before him, but cut and eat, and cut and drank, and cut and chewed, and dodged about from tripe to hot potato, and from hot potato back again to tripe, with an unctuous and unflagging relish. But happening now to look all round the street—in case anybody should be beckoning from any door or window for a porter—his eyes, in coming back again, encountered Meg sitting opposite to him, with her arms folded, and only busy in watching his progress with a smile of happiness.

"Why, Lord forgive me!" said Trotty, dropping his knife and fork. "My dove! Meg, why didn't you tell me what a beast I was?"

"Father!"

"Sitting here," said Trotty, in penitent explanation "cramming and stuffing and gorging myself, and you before me there, never so much as breaking your precious fast, nor wanting to, when"——

"But I have broken it, father," interposed his daughter, laughing, "all to bits. I have had my dinner."

It took some arguing on the part of Meg to convince her father that she had dined, but she succeeded. Then Alderman Cute came out of his house, and seeing Toby eating began his investigation. Filer was with him. Cute took the tripe on the fork while his friend delivered a homily on the subject.

"This is a description of animal food, Alderman," said Filer, making little punches in it with a pencil case," commonly known to the laboring population of the country by the name of tripe."

The Alderman laughed and winked, for he was a merry fellow, Alderman Cute. Oh, and a sly fellow, too. A knowing fellow. Up to everything. Not to be imposed upon. Deep in the people's hearts. He knew them, Cute did. I believe you.

"But who eats tripe?" said Mr. Filer, looking round. "Tripe is, without exception, the least economical and the most wasteful article of consumption that the markets of this country can by possibility produce. The loss upon a pound of tripe has been found to be, in the boiling, seven-eighths of a fifth more than the loss upon a pound of any other animal substance whatever. Tripe is more expensive, properly understood, than the hothouse pineapple. Taking into account the number of animals slaughtered yearly within the bills of mortality alone, and forming a low estimate of the quantity of tripe which the carcasses of those animals, reasonably well butchered, would yield, I find that the waste on that amount of tripe, if boiled, would victual a garrison of 500 men for five months of 31 days each and a February over. The waste, the waste!"

Trotty stood aghast, and his legs shook under him. He seemed to have starved a garrison of 500 men with his own hand.

"Who eats tripe?" said Mr. Filer, warmly. "Who eats tripe?"

Trotty made a miserable bow.

"You do, do you?" said Mr. Filer. "Then I'll tell you something. You snatch your tripe, my friend, out of the mouths of widows and orphans."

"I hope not, sir," said Trotty, faintly. "I'd sooner die of want!"

"Divide the amount of tripe before mentioned, Alderman," said Mr. Filer, "by the estimated number of existing widows and orphans and the result will be one pennyweight of tripe to each. Not a grain is left for that man. Consequently he's a robber."

Trotty was so shocked that it gave him no concern to see the Alderman finish the tripe himself. It was a relief to get rid of it, anyhow.

I am saving the best for the last—the Christmas dinner at Bob Cratchits, with Tiny Tim and all the rest of the little Cratchits. What a picture it is! I smell the savory goose, I see the steam rising from the plum pudding and yes, ah, yes, I hear the voice of Tiny Tim with its blessing for all.

Then up rose Mrs. Cratchit. Cratchit's wife, dressed out but poorly in a twice turned gown, but brave in ribbons, which are cheap and make a goodly show for sixpence; and she laid the cloth, assisted by Belinda Cratchit, second of her daughters, also brave in ribbons; while Master Peter Cratchit plunged a fork into the saucepan of potatoes, and getting the corners of his monstrous shirt collar

(Bob's private property, conferred upon his son and heir in honor of the day) into his mouth, rejoiced to find himself so gallantly attired, and yearned to show his linen in the fashionable parks. And now two smaller Cratchits, boy and girl, came tearing in, screaming that outside the baker's they had smelt the goose and known it for their own; and basking in luxurious thoughts of sage and onion, these young Cratchits danced about the table and exalted Master Peter Cratchit to the skies, while he (not proud, although his collars nearly choked him) blew the fire, until the slow potatoes bubbling

Scott's Sarsaparilla his Salvation.

Nothing blights existence like the knowledge that our appearance is repellant to those with whom we come in contact, nor is there any relief like that of feeling that the disfiguring causes have been removed. Says Mr. William Alger: My face on one side was a mass of blotches, some of which were constantly full of matter. I run a bake shop doing my own work, but my face got so bad that customers drifted away. Then I hired a man and went to a doctor. He said my blood was in a horrible condition. I sold my business and moved to the city where Scott's Sarsaparilla was recommended to me. The first bottle did me much good, and after taking five bottles my skin is as clear as possible, and not a sign of my previous disfigurement. I say Scott's Sarsaparilla is the best blood medicine going and am speaking from experience.

Pimples, blotches, boils, ulcers and all diseases arising from vital exhaustion and impure blood are radically cured by Scott's Sarsaparilla, a concentrated compound of the finest medicines ever known. Your druggist has it at $1. But get Scott's. The kind that cures.

NEAT JOB PRINTING AND BOOKBINDING DONE CHEAP AT THE EXAMINER OFFICE

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, pervish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. He isn't capable of continuous and vigorous effort. His bodily discomfort affects his mind. Even when he knows just what is the matter, he neglects the simplest precautions and the simple treatment that would cure him. Most of dyspepsia starts with constipation, and constipation can be cured. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are quick, but not violent in their action. There is nothing about them that will give the system any shock. They not only relieve immediately, but if taken according to directions, they will absolutely cure. "You do not become a slave to their use." They are different and better than any other pill or preparation offered for the same purpose. Almost all druggists understand this, and are conscientious enough to tell you so. The druggist who tries to sell you a substitute is not a safe man from whom to buy medicine. If you will send your address, we will send you a sample package, containing from 4 to 7 doses, and you can see exactly what the "Pellets" will do for you.

If you will send 21 one-cent stamps to cover cost of customs and mailing *only*, we will send you FREE the most useful medical book ever presented to the public. This is Dr Pierce's Common Sense Medical Adviser, in Plain Language: a book of 1008 pages, profusely illustrated, the great expense of preparing which has been covered by a sale of 680,000 copies at the regular price, $1.50 per copy. Address, World's Dispensary Medical Association, Buffalo, N Y

MERRY CHRISTMAS.

Continued from Sixth Page.

up, knocked loudly at the saucepan lid to be led out and peeled.

* * * * * *

Such a bustle ensued that you might have thought a goose the rarest of all birds; a feathered phenomenon to which a black swan was a matter of course—and, in truth, it was something very like it in that house. Mrs. Cratchit made the gravy (ready beforehand in a little saucepan) hissing hot; Master Peter mashed the potatoes with incredible vigor; Miss Belinda sweetened up the apple sauce; Martha dusted the hot plates; Bob took Tiny Tim beside him in a tiny corner at the table; the two young Cratchits set chairs for everybody, not forgetting themselves, and mounting guard upon their posts, crammed spoons into their mouths, lest they should shriek for goose before their turn came to be helped. At last the dishes were set on and grace was said. It was succeeded by a breathless pause, as Mrs. Cratchit, looking slowly along the carving knife prepared to plunge it in the breast; but when she did and when the long expected gush of stuffing issued forth, one murmur of delight arose all round the board, and even Tiny Tim, excited by the two young Cratchits, beat on the table with the handle of his knife and feebly cried "Hurrah!"

There never was such a goose. Bob said he didn't believe there ever was such a goose cooked. Its tenderness and flavor, size and cheapness were the themes of universal admiration.

Eked out by apple sauce and mashed potatoes it was a sufficient dinner for the whole family, indeed as Mrs. Cratchit said with great delight (surveying one small atom of a bone upon the dish) they hadn't ate it all at last! Yet every one had had enough and the youngest Cratchits in particular were steeped in sage and onion to the eyebrows! But now, the plates being changed by Miss Belinda, Mrs. Cratchit left the room alone—too nervous to bear witnesses—to take the pudding up and bring it in.

Suppose it should not be done enough! Suppose it should break in turning out! Suppose somebody should have got over the wall of the back yard and stolen it while they were merry with the goose—a supposition at which the two young Cratchits became livid! All sorts of horrors were supposed.

Hallo! A great deal of steam! The pudding was out of the copper. A smell like a washing day! That was the cloth. A smell like an eating house and a pastry cook's next door to each other, with a laundress' next door to that! That was the pudding! In half a minute Mrs. Cratchit entered—flushed but smiling proudly—with the pudding, like a speckled cannon ball, so hard and firm, blazing in half of half a quartern of ignited brandy, and bedight with Christmas holly stuck into the top.

Oh, a wonderful pudding! Bob Cratchit said, and calmly, too, that he regarded it as the greatest success achieved by Mrs. Cratchit since their marriage. Mrs. Cratchit said that now the weight was off her mind she would confess she had had her doubts about the quantity of flour. Everybody had something to say about it, but nobody said or thought it was at all a small pudding for a large family. It would have been flat heresy to do so. Any Cratchit would have blushed to hint at such a thing.

At last the dinner was all done, the cloth was cleared, the hearth swept and the fire made up. The compound in the jug being tasted and considered perfect, apples and oranges were put upon the table and a shovelful of chestnuts on the fire. Then all the Cratchit family drew round the hearth, in what Bob Cratchit called a circle, meaning half a one, and at Bob Cratchit's elbow stood the family display of glass—two tumblers and a custard cup without a handle.

These held the hot stuff from the jug, however, as well as golden goblets would have done, and Bob served it out with beaming looks, while the chestnuts on the fire sputtered and cracked noisily. Then Bob proposed:

"A merry Christmas to us all, my dears. God bless us!"

Which all the family re-echoed.

"God bless us every one!" said Tiny Tim, the last of all.

WHITEWAY COMING TO CANADA.

A Belief That His Object is to Reopen Negotiations With a View to Confederation.

St. John, Nfld., Dec. 11.—Premier Whiteway's departure yesterday for Canada excited considerable comment. The prevailing opinion is that he will attempt to re-open confederation negotiations and seek to effect an arrangement by which the whole question can be revived after the coming Dominion election.

It is reported in well-informed circles that Gov. Murray's plan for an economical administration, reform in the public service and the removal of a number of useless officials, are very unpalatable to the Whiteway Government, and are largely the reason why the Premier goes on his present expedition, the party suporters believing that confederation is preferable to honest retrenchment, which the Governor intends to introduce. It is not known when Premier Whiteway will return.

Two Women Burned to Death.

Troy, N.Y., Dec. 11.—A fancy goods store in Lansinburg was burned this morning. Mrs. H. E. Slifer, the invalid proprietor, who lived alone, and her nurse, Mary Harris, were burned to death. It is thought a lamp set fire to the bed clothes.

A TELEPHONE IN THE STOMACH

Peculiar Phenomena of Human Nature

In an age when that subtle force electricity is presenting wonders to the world almost daily, and the Wizzard of Menlo Park has become the hero of the hour, there seems to be nothing that we may not expect in this direction. But it was not left to an Edison to establish a telephone in the stomach of human beings. The Great Maker of man in the economy of human nature provided such an instrument centuries ago. It is a fact that within the stomach of every man and woman there is a little instrument that telephones to the nerve centres in the brain as quickly as any food reaches that part. When for any reason this communication is stopped the food is undigested and physical trouble ensues. With word promptly sent from stomach to nerve centres, these supply the necessary juice that aids digestion, and nature successfully does her part, good health is enjoyed and man is able to perform with energy and pleasure his everyday duties. It will happen at times that these nerve centres will become deranged and lose their forces; then it is that a remedy must be supplied, just as the skill of the electrician is necessary when something goes wrong with the office telephone. South American Nervine is the electrician, so far as the human body is concerned. It is a medicine unique and exceptional in this particular that it works directly upon the nerve centres, and when these are out of order it quickly places them in proper repair and completeness. Nearly all diseases, especially indigestion, dyspepsia, nervousness, general debility, sick headache and disordered liver arise through trouble at the nerve centres. You can just as readily count on South American Nervine effecting a proper cure in all such cases as you can depend upon the electrician of the Bell Telephone Co., removing any derangements that has taken place in your telephone. Sold by H. S. McDonald.

Krahn Remanded for Trial.

London, Dec. 12.—Herbert Krahn, alias Charles Russell, who was arrested in New York in the early part of October last while trying to dispose of certain Canadian Pacific bonds, said to have been stolen from Mrs. Winifred Gordon of this city, and who was recently returned to this country under extradition, was arraigned to-day and remanded for trial.

Crisis Imminent in Spain.

Madrid, Dec. 12.—A Ministerial crisis is imminent. It is now believed that Finanace Minister, Senor Navartere will follow the example of Senors Romero Y. Robledo, Minister of Justice, and Bosch, Minister of Public Works, and resign his portfolio, in which event, it is said, he will be succeeded by Senor Castellanos, the present Minister of the Colonies.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.

The blood must be kept perfectly pure.

That is what the kidneys are for.

They have everything to do in filtering out the poisons.

This process of filtration may be interfered with by a cold.

Usually if there is any lack of good kidney work, it is a cold, or perhaps overeating and over-drinking.

Nearly every acute ailment starts with a cold. So do the diseases that finally kill.

The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

GERMANIC IN COLLISION.

The Big White Star Liner Runs Down and Sinks Another Steamer.

Liverpool, Dec. 11.—The steamer Germanic came into collision shortly after leaving the Mersey this evening, near Crosby Lightship, with the steamer Cumberae, inward bound for Liverpool. The Cumbrae was sunk and the Germanic's bows were damaged. The Germanic returned to Liverpool.

A dense fog prevailed at the time of the collision.

The Cumbrae was from Glasgow. The Germanic took off her passengers and crew. There was no loss of life. The Germanic's baws were stove in.

McCARTHY FEELS ENCOURAGED.

How He Talked at Bracebridge.

Mr. D'Alton McCarthy is evidently glad to be relieved of the distinction of solitary grandeur as head and front as well as body and terminus of the third party, is evidently overjoyed by the enlistment of that promising recruit, Hon. Clarke Wallace. With the telegram announcing Mr. Wallace's resignation in his hand, Mr. McCarthy thus showed his elation of spirit and new confidence in an address at Bracebridge on Wednesday night:—

But what of Mr. McGillivray, the Government candidate? You Conservatives, and you Orangemen, you men who have been standing against the encroachments of the Papacy, against the encroachments of Sir Oliver Mowat and Separate Schools in Ontario, you who have made the wilds of Muskoka ring with your denunciations, because Sir Oliver Mowat passed one or two amendments to the Roman Catholic Separate Schools Act—where do you stand to-night? Are you prepared to swallow McGillivray? What are Mr. McGillivray's views on this subject? He has the effrontery to come to this intelligent community and ask you not to bind him, but to give him a free hand. Did any man ever hear of a more insulting statement offered to an intelligent community? Further on he said: Are you prepared to support a man who will not give a strong statement of his position on the Manitoba School Question? You had much better disband, shut up your lodges, don't go flaunting your banners and insulting your Roman Catholic fellow-citizens on the 12th of July if at a time when action comes you are prepared to inflict Separate Schools on Manitoba. If North Ontario and Cardwell go right on this question Manitoba is saved. Mr. McCarthy impressed upon the electors the great responsibilities of the situation, and alluded to the possible consequence of the passage of a school law. He now unfolded a telegram, which he held in his hand, and said:—"I have to make an announcement which will send terror into the ranks of Mr. McGillivray's party. I am able to announce upon the authority of Mr. E. F. Clarke, editor of the Orange Sentinel, that Mr. Clarke Wallace has resigned his position in the Government because of the Manitoba school question, and purposes opposing the Government candidate in Cardwell, and that his resignation is in the The Toronto Evening Telegram of this date." This was greeted with tremendous cheers. Continuing Mr. McCarthy said:—"Now Mr. Clarke Wallace has withdrawn his support from the Government and you Orangemen are going to send Mr. McGillivray in. You will be excommunicated by the Grand Master for sending Mr. McGillivray in." (Laughter.)

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address *with stamp*:—Mr. Edward Lambert. P. O Box 55, Jarvis, Ont.

Lungs Closed Up.

GENTS,—In the early part of the winter I caught a bad cold followed by a severe cough. I could not sleep as my lungs seemed closed up. I could walk only a few yards without stopping to get breath. I sent for Milburn's Cod Liver Oil Emulsion and before I had finished the third bottle the cough was gone —I could breathe freely and felt like a new man. I advise all sufferers from coughs, colds or asthma, to give your Emulsion a trial.

NORWOOD NEWS NOTES.

(From Our Own Correspondent.)

The contract of carrying the mail between Norwood, Stony Lake, Warsaw and Hall's Glen has been awarded to Dennis Mahony, of Norwood. The new arrangement goes into effect on the first of January, 1896.

The brickwork is now finished on W. E. Roxburgh's new block.

Owing to the illness of Rev. J. Gibson there was no service at Christ's church last Sunday morning. The Rev. Mr. McGinnis, of Hastings, conducted the evening services.

The members of the Methodist Church Sabbath school are rehearsing a cantata for their annual Christmas entertainment.

The village council will meet on Monday, December 16th, when a statement of the affairs of the municipality will be prepared and afterwards printed and distributed amongst the ratepayers.

Miss Lily Armstrong, of Smith, is visiting at John Knox's.

Rev. Dr. Hannon, of St. Thomas, has accepted the invitation to be present at the jubilee services which will be held in the Methodist church here early in the new year.

D. Kirby, of Picton, is renewing old acquaintances in Norwood and vicinity.

H. G. Buck commenced the erection of a large skating and curling rink on the west side of the river, between the Metcalfe block and the foundry, last Wednesday. The skating rink will be 75 x 185 and two curling rinks, 15 x 180. Mr. Buck has a large gang of men at work and is rushing the job. The rink will be run by L. D. Kirkpatrick. The opening is to be about the twentieth.

Dr. Moffat will remove to more commodious quarters on the opposite side of the street in a few days.

The valedictory has been awarded to Miss L. Fitzgerald, she having obtained the highest percentage in teaching.

Dr. Oliver, our young dentist, has sold out to Dr. Hall and removed to Madoc.

The members of the Presbyterian Sunday School have begun practising for their annual Christmas entertainment.

Miss M. Kennedy, of Peterborough, is visiting at G. Taylor's this week.

Miss L. Fowlds, of Hastings, was in town Tuesday, the guest of Miss V. Butterfield.

The Norwood hockeyists met to be reorganized last Thursday evening. Last year's reports were received and adopted and this year's officers elected as follows:

Pres.—J. C. Moffat, M. D.
Vice-Pres.—A. R. Anderson, Esq.
Sec-Treas.—L. D. Kirpatrick.
Capt.—F. W. Ash.
Executive Committee—F Code, S. Hendren, L. McGregor.

A junior team will also be run in affiliation with the seniors, captain, C. Pearce. It was decided that the club should enter the junior league this year and F. W. Ash went to Toronto on Saturday to represent the club at the league meeting. The uniform will be dark cardinal sweaters with a white N. on the breast.

P. G. Cromar, of Havelock, was in town on Sunday.

A bachelors club has been organized in our town. They have rooms in the Ackerman block.

The members of the Baptist Sunday school intend holding a Christmas entertainment on Christmas eve.

W. A. F. Campbell has opened a branch office in Dr. Jeffs' Block, Havelock, and will be there every Tuesday and Thursday.

The programme of Mrs. Perney's recital last Friday evening was exceedingly well rendered. The items were all executed in the best of style. Perhaps the most pleasing were the solos by Mr. Code, and the quartette entitled "Rock-a-bye" by Miss Pearce, and Mesdames Rutherford, Fraser and Perney.

The model concert is to be held in the town Friday, Dec. 13th.

At the meeting of the school board on Monday, Dec. 9th, it was decided to pay the teacher's salaries every month. The Christmas holidays will begin Friday, Dec. 20th, and extend until the 6th of January.

The model school closed last Friday. The pupils are writing on their exams this week.

L. D. Kirkpatrick was in Peterborough this week.

ECHOES OF A FAMOUS CASE.

The Remarkable Recovery of Mrs. T. H. McKee, After Suffering Ten Years From a Kidney Trouble.

Neepawa, Man. (Special), Dec. 13th.—The topic on the street here, indoors and everywhere, is not a whit less absorbing than it was two months ago when the news first appeared in print. We refer to the remarkable recovery of Mrs. T. H. McKee of this place from a hopeless condition of Bright's disease of the kidneys of ten years' standing.

Instead of the interest abating there is more talk about the case than ever. Such a recovery from such a disease, after being so long endured, is worthy of the interest taken in it.

It gives hope to many a one who suffers, and, it may be, despairs of any help.

And it is to make public the means used by Mrs. McKee to save herself from death that this is written.

Therefore, be it known that after enduring misery for ten years Mrs. McKee was cured in a few weeks by using four and one-half boxes of Dodd's Kidney Pills.

This, in a nutshell, is the main fact of one of the most marvellous cures ever published in Canada.

MR. WALLACE'S CASE.

(Continued from First Page.)

Catholics in hope and by encouraging on the other hand their adversaries to a more obstinate resistance.'"

Opinions in Winnipeg.

Winnipeg, Dec. 12.—There is the greatest interest in Winnipeg over Mr. Clarke Wallace's resignation and the Dominion Government crisis. The news was expected here, but, nevertheless, there were those who did not expect the climax in Mr. Wallace's case till after the North Ontario election.

Hon. Robert Watson, Minister of Public Works in the Greenway Government, interviewed to-day, said: Considering the position of Hon. Clarke Wallace as leader of the Orange Order in Canada, the only thing that surprises me is that he did not resign months ago, when the Dominion Government made its announcement on the school question. If I understand anything about the Orange principles, this was the only course. I don't think his action now is very commendable, to desert his party on the eve of an election after remaining with the Government so long after it had placed itself on record.

Major Stwart Mulvey, Past Grand Master of the Orange Oorder in Manitoba, says: The resignation of Hon. Clarke Wallace wil lhave the effect of uniting the Orange party throughout Canada in opposition to the Government on the question of remedial legislation. I think that at the time the French members resigned from the Cabinet, Mr. Clarke Wallace should have done the same, when he found the Government pledged to remedial legislation. He might have thought, however, that Manitoba would settle the question; now he appears to be quite satisfied that they will not yield up the Public schools, which have been in operation for the past five years and have proved so satisfactory to the province. Had Mr. Wallace tendered his resignation at the time spoken of, my opinion is that the bye-elections, or most of them, would have been lost to the Government. Messrs. Clarke Wallace, D'Alton McCarthy, Major Sam Hughes and Ed. Clarke, with their following, will, in my opinion, form a very great patriotic party in Canada. I also believe that remedial legislation will not be introduced in the House, and I fully expect inside of a few days to hear of several other resignations.

THE STAR CHANGES HANDS.

Mr. E. E. Sheppard Becomes Proprietor of a Toronto Evening Paper.

Toronto, Dec. 13.—The negotiations of Mr. E. E. Sheppard for the purchase of The Evening Star, as announced in The World of Wednesday, were yesterday consummated and to-day's issue of The Star will have him as its ruling intelligence. Mr. Sheppard will still retain the management of the social weekly which he now controls. Saturday Night is soon to move into a new domicile in Adelaide-street recently erected, which contains within its walls ample accommodation for two papers. For the present The Star will publish from its Yonge-street quarters.

It was eight years ago last October that Mr. Sheppard left The Evening News. He was at the head of that paper for nearly four years and as a free lance in journalism became a prominent figure in this city.

Some months ago Mr. Sheppard joined an Orange Order after remaining an outsider for many years. His ante-French opinions paved the way for this step. They brought about in a measure, being also intensified by the libel suit of the 65th Battalion (French Canadian). Mr. Sheppard's subsequent retirement from the management of The News. For ten years Mr. Sheppard has waged war on the Quebec influence in Canadian politics and in the last issue of Saturday Night he published a lengthy confession of political faith under the title "Thirty Pieces of Silver." It was the most purely Orange declaration that he has yet made and it is no surprise to learn that he proposes to publish The Evening Star as a daily organ of the present interests of the Orange Order.

The price that Mr. Sheppard paid is not made known. The Star people were asking $25,000 a short while back.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

LEGENDRE'S

MARKET DRY GOODS STORE,

Opposite Market Building, near Cor. George and Charlotte Sts.

I was spending one day in a Drug Store, a short time back fitting glasses, examining eyes and writing prescriptions, when a prominent business man Brown telephoned me, asking me to call at his store to fit him with a pair of glasses. He said he was fitted with a pair at that drug store and he did not like to come to see me there as the druggist imagined the glasses I got of him were perfection. He had went so far as to tell his neighbors that he had fitted Mr. Brown with glasses. I answered that my outfit required a horse and carriage to move it and that he would have to see me in my private rooms in the rear of the drug store. My examination of the eyes is always private in the rear rooms of the drug store, only one patient admitted at a time.

Mr. McCarthy's Appeal to Cardwell Liberals.

REQUESTS MR. HENRY TO RETIRE

And Allow a Straight Fight Between Mr. Stubbs and Mr. Willoughby Speeches by the Third Party Leader and the Candidate at Bolton.

Bolton, Dec. 13.—The McCarthyite meeting in furtherance of the candidature of Mr. William Stubbs, which was held here to-night was altogether successful. There was a manifestation of opposition now and again, but the great body of the people who listened to the speech of Mr. D'Alton McCarthy M.P., appeared to be in sympathy with the movement of which he is the head. Mr. McCarthy renewed his appeal to the Liberals of Cardwell to withdraw their candidate, Mr. Henry, claiming that his continuance in the field would result in the victory of the Government candidates by dividing the forces of the opposition, just as the presence of a third party in North Ontario had.

When the train from Toronto arrived there was at the station to welcome Mr. McCarthy, a delegation of well-known citizens. The Third party leader was conducted into the village by a torchlight procession, at the head of which was the Bolton Band. The Town Hall was filled to overflowing some time before the meeting was announced to open, and many were turned away from the doors.

Mr. Donaghy, in his introduction, said that Mr. McCarthy would fire hot shot and sharpnel into the enemy, and the echo would resound from the Atlantic to the Pacific. In presenting candidate Stubbs, Mr. Donaghy said that he would not be a wobbler anyhow. He would define his position.

Mr. Stubbs.

Mr. Stubbs was given a cheer when he advanced to the front of the platform to begin his speech. Although Mr. Stubbs does not agree with the fiscal policy of the Government he confined himself to the discussion of the Manitoba school question, which, he said, would be the prime issue of the campaign in Cardwell. He noted that when the Ministers and the representatives of the Opposition were here a few days ago they very carefuly avoided the school question unless forced to speak upon it by an interrogation from the audience. If the people voted for Mr. Willoughby, who had declared his adherence to the Government's policy on the question, they would give expression to their approval of the coercion of Manitoba. Mr. Clarke Wallace, speaking in the Sixth Ward of Toronto had said that the course to be pursued by the Government would largely depend upon the result of the bye-elections. If Cardwell, in conjunction with the other five open counties in the Dominion, took a position in favor of the policy of the Government, it would take it for granted that the country was in favor of the coercion of Manitoba. Mr. Henry had not acknowledged his position upon the question. True, his party had demanded a commission, but Mr. Laurier had not demanded a commission until the last session of Parliament closed. If Mr. Henry was honest in his claim to be the friend of Manitoba he would withdraw from the field and not help the Government candidate to win by remaining in the fight. The McCarthy party was in the field long before Mr. Henry had come out. There were many conscientious Reformers in the riding who did not approve of the action of Mr. Henry in becoming a candidate. He expressed himself as being opposed to a dual system of education. He expressed the hope that on Dec. 24 Cardwell would send Manitoba a Christmas present in the form of a verdict in favor of Provincial rights and public education

Mr. McCarthy.

Mr McCarthy was very cordially received by the audience, which gave him a thoughtful and attentive hearing. He set out by reminding the people that 19 years ago Cardwell had done him the honor of sending him to Parliament to represent it. To him personally, he said, the result of the election was a matter of importance, as he would like an additional supporter in the House during the coming session. He was now supported only by Col. O'Brien, and he was unable from want of numbers to force a division if either of the other parties did not regard it as good tactics to allow a division to be had. He went on: "I come from North Ontario, and I see there are some gentlemen down there who could tell me what Mr. McGillvray's majority is, which I had learned even before they had. I am here, as I announced when I was interviewed to-day, notwithstanding the defeat in a certain sense my friends sustained there, because it was not my candidate that ran there, though I supported the Patron. I announced I would fight here notwithstanding that defeat, and I am glad to see the people of Cardwell are not affected any more by the defeat in North Ontario than I was myself when I got the news last night. I can see evidence of this in the faces of those here this evening. This contest will not be decided by what has happened in North Ontario, but what the honest electorate of this riding think ought to be done here. Although the Government has secured another supporter in Mr. McGillvray, it is a fact that in the three-cornered fight which terminated yesterday the Government are in the minority. A majority distinctly opposed to interference with Manitoba was recorded at the polls in favor of Mr. Brandon, the Patron, and Mr. Gillespie, the Liberal candidate, on that occasion. While the former member, Mr. Madill, polled a majority of 255 in the riding, the two opponents in the same riding have a majority of something in the neighborhood of 300. It cannot therefore be looked upon as a defeat, but it is a warning to this riding."

Mr. McCarthy appealed to the Liberals as follows:

"I therefore make publicly again an appeal to the Liberals of the riding. I ask them to withdraw Mr. Henry, and to leave the field to the men who were in the field before Mr. Henry was thrust upon it. I ask that this constituency shall be allowed a fair opportunity of determining what is the view in respect to that important question that the members of the House of Commons have to deal with at the coming session. I hope that appeal will not be made in vain."

Mr. McCarthy said that Mr. Wallace ought properly to have tendered his resignation when the Government pledged itself to introduce a bill to give effect to the remedial order. The Controller had since justified himself by sending in his resignation. Among party men there would be forgiveness for him. Sir Mackenzie Bowell had accepted the resignation, and Mr. Wallace was to-day a humble member of Parliament and no longer a member of the Government. "All honor to him, I say," Mr. McCarthy said. "Late though it be, all honor to the man who has not hesitated to throw up his office because the possession of his office could not be retained compatibly with what he believed to be right and in the interest of his country. And, sir, I hope and believe that that significant resignation—not by any means a trifling matter—of Mr. Wallace will bring home to the people of the constituency and to every man, and more especially to every member of the order of which Mr. Wallace is the Grand Master, the duty which they owe to their country in this campaign. Orangemen are not, if I understand it, a mere political band; Orangemen have taken an oath, Orangemen have grouped themselves together and have arrayed themselves for the purpose of defending the civil and religious principles of the people of this country, and more especially to protect the people against the encroachments of the enemy of mankind. If I may venture so to speak of it. But when we find the Orange Order as an order breaking its pledges and obligations that the party to which most of the members belong may remain in power, I say that all respect for the body will be gone. If I thought that was their feeling I should be almost ashamed that I am the son of a Grand Master of the order."

Mr. McCarthy went on to say that he had every faith in the Orangemen of Cardwell and believed that they would have a full sense of their responsibility. He declared that he was the first man since Confederation who had opposed French aggression, and he stood here a political outcast. The Liberals would not trust him, and Mr. Henry had been brought out, so that Mr. Laurier could say in Quebec, "See what I am doing with that man McCarthy." The Tories hated him with the bitterness born of a family disagreement. He said that it had cost the country eight million dollars to subdue 700 or 800 half-breeds in the Northwest, and he asked how much it would cost the country if 200,000 Protestants refused to obey the laws of the Dominion Parliament? If Cardwell wanted to save Manitoba from a separate school system it would elect Mr. Stubbs; if it wanted to reimpose separate schools it would elect Mr. Willoughby, and if it wanted to hang the thing up for another generation it would return Mr. Henry. He advised that Manitoba be left alone, and the way to do it was to return Mr. Stubb

THEY STAND BY THE PREMIER.

Peterborough County Orangemen Pass a Resolution of Congratulation on the North Ontario Victory.

Peterboro, Dec. 13.—A largely attended meeting of Sir Mackenzie Bowell's Orange friends in Peterboro was held last night after the returns from North Ontario had been received showing the success of the Conservative candidate. The chair was occupied by W. Bro. Dr. John Clarke, P.M., and W. Bro. Capt. J. W. Miler, P.M., acted as secretary for the meeting. The following resolution was moved and carried amidst great applause:

Moved by W. Bro. Lieut.-Col. Edwin Poole, P.C.M., and seconded by W. Bro. Joseph Batten, D.C.M., and resolved:

(1) That this meeting, composed of Orangemen of the County of Peterboro, desire to give public expression to their gratification at the election of Bro. Bowell's candidate, Bro. McGillivray, in North Ontario, and it expresses the hope that his candidate in Cardwell, Mr. Willoughby, may also be elected.

(2) That while the Hon. Mr. Laurier thanks God there are no Orangemen in his (Liberal) ranks, we thank God there are many thousand Orangemen in Canada who will give their support to their veteran brother, Sir Mackenzie Bowell, and his candidates.

(3) That long may he live to rule the destinies of Canada; and

(4) Resolved, that copies of this resolution be sent to Bro. Sir Mackenzie Bowell and to The Sentinel, World and Review for publication.

Carried unanimously.

The meeting closed with cheers for the Queen and Sir Mackenzie Bowell.

Brassin Will Resign

Brussels, Dec. 13.—Gen. Brassin, Minister of War, will resign his office owing to the fact that his colleagues refuse to discuss at the present session of Parliament a bill to re-organize the army.

War Against Socialists to Continue.

Berlin, Dec. 13.—The Cabinet Council, which was held last evening, all of the Ministers concurring, decided to continue the campaign against Socialists upon the basis of the commerce law. The Council sat five hours.

Another Collision in the Mersey.

London, Dec. 13.—The British ship Main, from Trinidad, was in collision in the Mersey to-day with the Dutch bark Columbus, from Kaibost, Java. Both vessels were damaged.

A Guilty Woman

Edinburgh, Dec. 13.—C. M. Hardie, the artist, has obtained a divorce from his wife, Mary Hardie, an American, who confessed having been guilty of adultery with the operatic tenor singer, Courtico Pounds.

British Steamers Floated.

London, Dec. 13.—The British steamer Angerton, previously reported ashore near Gibraltar, has been floated.

The British steamer Sydenham, from Fernandina and Brunswick, previously reported ashore in the Weser River, has been floated. She is aparently not

MISS FINDLAY'S TRIAL.

Doctors Think the Boy Greene Died From Violence and Debility Due to Filth and Neglect.

Owen Sound, Dec. 13.—In the case of the Crown v. Helen R. Findlay to-day, Alex. Gilchrist, jr., gave evidence as to the ill-treatment of the boy.

Mary Brown, a girl of 12 years of age, was the only living person on the farm with Miss Findlay the last three months of the boy's life. She gave evidence that Miss Findlay had beaten him severely at different times, having used axe handles and broom handles.

C. C. Pearce, provincial constable, who had gone to Big Bay with the coroner to summon jurors for the inquest, gave evidence as to the filthy condition of the bed-room in which he died; also as to the filthy condition of the bed in which he slept, this bed if straw giving no evidence of ever having been made up, and the boy had evidently lain in his own excrement, part of it being apparently ten days old.

Doctors Dow, Scott and Cameron also gave evidence, Dr. Cameron being the coroner, and Drs. Dow and Scott having performed the post-mortem examination on Nov. 11. All gave similar testimony as to the bed-rooms as Pearce.

The doctors testified that death was not due to disease, but to external violence and debility of condition resulting from improper food and filthy surroundings, also to the gangrenous condition of his fingers and toes. One or two fingers were laid bare to the bone.

The Crown's case is practically closed.

The defence undoubtedly will be that the boy died as a result of a scrofulous condition, coupled with tuberculosis.

Will They Restrict Coal Production?

New York, Dec. 13.—It is understood that the Delaware & Hudson Co. has not agreed to restrict production of coal to three days' working time in January. Pressure is being brought to bear, however, on the company, with a fair prospect of success. If the Delaware & Hudson signs the agreement the output for January will be reduced one-half.

New York Housesmith's Strike Off.

New York, Dec. 13.—The Housesmiths who have been out on strike for nearly four weeks against the iron firms of J. B. & J. M. Cornell and Milliken Bros., have agreed to go back to work at noon to-day.

The men returned to their jobs under the same conditions as existed before the strike was called with the understanding, however, that the employers are to meet a committee of their workmen to agree upon a scale of wages which shall be uniform among the members of the Iron League.

COLEBROOKE'S MURDERER.

He Has Been Located and Police Have Gone to Capture Him

Prince Albert, N.W.T., Dec. 13.—The Indian who murdered Sergt. Colebrooke has been located in the Birch Hills. Capt. Allan and a detachment of police have gone to capture him.

Heavy Loss at St Paul.

St. Paul, Minn., Dec. 13.—Fire broke out on the top floor of the workshops of Guilerman Bros., clothiers, this morning, and communicated to the two large establishments adjoining. The roof was entirely burned off the clothing building. Loss $100,000; insured.

Do Not Believe It.

Do not believe that Nerviline will cure neuralgia almost instantly. If your tooth ache console yourself with the reflection that pain can't last forever. Don't use Nerviline; it might stop the pain. Rheumatism is often difficult to cure. Keep on rubbing the old fashioned liniments as a matter of respect to your grandfather's aunt. Nerviline is a new discovery that in itself ought to condemn it. Therefore cling to the old; suffer pain; avoid the use of Nerviline, the most powerful, penetrating and certain pain remedy in the world.

Nervous Prostration

It is now a well established fact in medical science that nervousness is due to impure blood. Therefore the true way to cure nervousness is by purifying and enriching the blood. The great blood purifier is Hood's Sarsaparilla. Read this letter:

"For the last two years I have been a great sufferer with nervous prostration and palpitation of the heart. I was weak in my limbs and had smothered sensations. At last my physician advised me to try Hood's Sarsaparilla which I did, and I am happy to say that I am now strong and well. I am still using Hood's Sarsaparilla and would not be without it. I recommend it to all who are suffering with nervous prostration and palpitation of the heart." MRS. DALTON, 56 Alice St., Toronto, Ontario. Get Hood's, because

Daily Examiner.

SATURDAY, DECEMBER 14, 1895.

"DON" BECOMES A "STAR."

MR. E. E. SHEPPARD, the wide-awake and deep-cutting "Don," of Saturday Night, has purchased the plant and goodwill of The Toronto Evening Star, an evening daily; and, though the Star is one of the most readable of our evening publications, it will, no doubt, under the stimulus of Mr. Sheppard's newspaper genius, become a still more creditable exponent of live, up-to-date journalism. Mr. Sheppard was at one time connected with The St. Thomas Journal and The Toronto Evening News, both of which, like Saturday Night, were very highly successful under his direction. He is graceful and polished, and at the same time incisively vigorous; withal his views are broad and broadly expressed. Daily journalism will furnish the field Mr. Shepherd needs for the fullest development of his journalistic ability, and the press will be a gainer from his accession to his ranks, and the EXAMINER wishes him a very liberal measure of success.

IMPEACHING TRUTH.

It seems to be a high crime and misdemeanor for an American ambassador to tell the truth. Mr. Bayard has been impeached by the House at Washington, and may lose his head officially if not physically over the head of some rash truths he has been telling in England. He dared to lift up his voice against protection; and the monopolists in the house could not restrain their wrath and passed a resolution with several whereas clauses, among them the following:

Whereas, said Bayard is further reported by the press of this country to have said in a public speech delivered in Edinburgh, Scotland, on the seventh day of November, 1895: "In my own country I have witnessed the insatiable growth of a form of socialism, styled protection, which has done more to corrupt public life, to banish men of independent mind from public councils and to lower the tone of national representation than any other single cause. Protection, now controlling the sovereign power of taxation, has been perverted from its proper function of creating revenue to support the government, into an engine for selfish profit allied with combinations called trusts. It has thus sapped the popular conscience by giving corrupting largess to special classes and it throws legislation into the political market, where jobbers and choppers take the place of statesmen, and

Whereas, it is not one of the functions of an ambassador to insult in the country to which he is credited the people he is supposed to represent, and it is consistent neither with the character of the office nor with the dignity and independence of the people of the United States that their ambassadors abroad should take violent part in speeches relating to our domestic policy upon foreign soil; therefore, be it resolved, etc.

The deep cutting truth about the effects of "protection" was the sting. Its demoralizing tendencies are not unfelt in this favoured land.

REPORTS from the field of battle in North Ontario suggest an orthographical revision, something like b-u-y election, for instance.

NORTH ONTARIO didn't endorse the Government very strongly on Thursday after all. The candidates, opposed to the Government at all points, polled nearly 300 votes more than Mr. McGillivray.

THE Orange brethren of North Ontario who so enthusiastically denounced Separate schools for Manitoba last 12th of July, evidently didn't vote as they felt then, when they voted for the Government policy of co-ercion on Thursday.

THE Government is again threatening to do great things for the farmer and the farmers are really afraid the Government intends coming to their rescue. The Globe points out that ever since the Hon. Mr. Haggart, on behalf of the Government promised to raise the price of wheat the price has steadily fallen. Let the Government promise to bring down the price of wheat and the farmer will have some reason to feel encouraged.

THE Hamilton Herald says:—"Ever since Sir John Macdonald died the Conservative party has been riding over the rocks in a buckboard."

THE SHIPMAN CASE.

Another Sufferer Rescued from the Deadly Diabetes.

Mr. J. E. Shipman, of the Seldon House, Owen Sound, Cured by a few Boxes of Dodd's Kidney Pills

Special to the Examiner:

Owen Sound, Dec. 14.—Publication of the facts of a great cure serve two good purposes; the recovered man makes his "thank offering," and the public benefit by his experience.

Mr. J. E. Shipman, proprietor of the popular "Seldon House," here, was interviewed by your correspondent. He said:

"Yes, I am willing to talk of my very fortunate escape from a deadly form of kidney disease by using Dodd's Kidney Pills.

"As the result of a tumble which severely injured my back, I have been more or less troubled with weak kidneys ever since I was a boy.

Especially for the past seven years I have been a great sufferer. In spite of doctoring and medicines, I had been growing worse and worse until about a year ago I was advised by a friend to use Dodd' Kidney Pills.

"Before commencing I had my urine tested which disclosed the presence of diabetes and I realized the danger I had to face.

"In all I have used about one dozen bottles, and from time to time while taking the pills I had further tests of the urine made, until one day about two months ago, I was assured by the analyst that I was perfectly cured.

"I had found it difficult at all times, and when tired utterly impossible to stand erect. There was a dull ache across the loins, and occasional sharp pains that would awaken me from sleep.

"I was also much broken of my rest by frequent necessity to get up.

"I am now perfectly healthy and strong. I eat, sleep and rest like a boy. Have taken no other medicine or treatment than Dodd's Kidney Pills, and I say it truly and thankfully, my recovery is entirely due to their use."

DOURO.

On last Sunday, Dec. 8th, the second Sunday of Advent, the festival, and of the Immaculate Conception, Rev Father Keilty parish priest of Douro, took for his text: "Because He hath regarded the humility of his handmaid: for, behold, from henceforth all generations shall call me blessed." —Luke i., 48. The teaching of the Catholic Church, he said, concerning the blessed Virgin, was crystalized in the catechism, which says:—"We honour our blessed lady more than all the other saints, because she is the mother of God, but we never give her Divine or supreme honour which is due to God alone." The catechism is equally specific, he said, concerning the Immaculate Conception. It says:—"The blessed Virgin Mary, by a singular privilege of grace, bestowed on her through the merits of her Divine Son, was preserved free from original sin, and this privilege is called the Immaculate Conception." The reverend gentleman then quoted from Longfellow in his "Golden Legend:"

'This is indeed blessed Mary's land,
Virgin and mother of our dear Redeemer;
All hearts are touched and softened at her name,
And if our faith has given us nothing more
Than the example of all womanhood,
So mild, so merciful, so strong, so good,
So patient, peaceful, loyal, loving, pure,
This were enough to prove it higher and truer
Than all the creeds the world had known before.'

He also quoted from Edgar Poe:

"At morn, at noon, at twilight dim,
Maria! thou hast heard my hymn,
In joy and woe, in good and ill,
Mother of God be with me still.
When the hours flew brightly by,
And not a cloud obscured the sky,
My soul, less thankful than it be,
Thy grace did guide to Thine and Thee;
Now when storms of fate o'ercast
Darkly my present and my past,
Let Thy future radiant shine
With sweet hopes of Thee and Thine."

Petitions From Influential Bodies and Individuals in Ireland Will be Presented at Ottawa.

Montreal, Dec. 13.—Mr. George G. Foster, advocate of this city, will be in Ottawa to-morrow making a last effort to save Valentine Shortis from the gallows. Amongst the petitions for presentation to the Governor-General in council praying that the condemned murderer's life be saved on the ground of insanity, will be the following:

Petition from over 1000 citizens of Waterford. The Corporation of Waterford; the Waterford Harbor Board; the Chamber of Commerce; the Poor Law Guardians, the Governors of the Waterford District Lunatic Asylum, the joint commission of the grand jury of Waterford, the Catholic and Protestant bishops of Waterford and Lismore, the Protestant bishops of Cashel, Emby, Waterford and Lismore, the Roman Catholic clergy and various religious orders in Waterford. The clergy of al lthe Protestant dissenting congregations in Waterford. Sir Robert Powell, bart, the High Sheriff and Mayor, justices of the peace, the Waterford bankers, the Crown solicitors and other barristers residing in Waterford, together, with 18 members of the medical profession.

The Demers murder case drags its slow length along, yet no developments have been brought out.

Some men think that Ready-to-wear Clothin cannot be as well and carefully made as suits that are made to order. That may be true in some cases—perhaps in many. But then, it is well to remember that a house with a reputation is jealous of it, and cannot afford to turn out goods that won't STAND EVERY KIND OF CRITICISM. Give any of our goods the severest kind of criticism either as to quality or price and they will stand the test.

A FARMER'S WEALTH

Does Not Simply Consist of Broad Acres and Ready Cash.

Health is His Fortune.

PAINE'S CELERY COMPOUND RESTORES IT WHEN LOST.

Broad acres and a good bank account do not constitute a farmer's true wealth. There are hundreds of farmers around us who possess wealth in lands and gold, but who lack that true fortune and coveted possession known as good health. True manhood, vigorous health and strong nerves, are Heaven's best gifts for all classes and conditions of men.

It is a melancholy fact that men and women in the country, breathing the purest air, drinking from God's bubbling fountains and springs uncontaminated by germs of disease, are liable to the same dread diseases that come thick and fast to city people.

Nature's grand laws are continually violated everywhere, and as a consequence the penalties come swift and sure. The penalties consist of diseases varying in form and character. We find debility, nervousness, rheumatism, neuralgia, kidney and liver troubles, heart disease, dyspepsia and indigestion and a variety of terrible blood diseases.

When the arrows of affliction pierce with venomed sting, the farmer and his family must seek the same healing agent that city folks use with such success. Paine's Celery Compound is to-day the farmer's great health restorer and true life-giver. Its record in the rural districts of our Dominion is as bright and lustrous as it is in the thickly populated towns and cities. To so high, an eminence has its credit and worth been advanced, that the majority of country and city families now regularly keep one or more bottles for any emergency that may arise.

Paine's Celery Compound has done more life-saving work than all other medicines combined. It has saved life after the doctor failed; it has given health and vigour after years of failures with common medicines. Mr. Samuel Hanna, an esteemed and well known farmer of Manvers, Ont., gives his wonderful experience with Paine's Celery Compound as follows:

After severe sickness and suffering for a length of time, I am happy to state that I was made well by Paine's Celery Compound. To be raised up from a low and weak state, inside of two weeks, is a marvellous work, which nothing else but Paine's Celery Compound could have accomplished.

"After using half the first bottle of the Compound, I was able to dig the holes for a forty rod fence, and help to build it. Before using Paine's Celery Compound I could not sleep, and had no appetite; now I enjoy good sleep and a healthful appetite. Paine's Celery Compound is worth its weight in gold to any sufferer; it is the best medicine in the world."

Another Murder Case at the Criminal Assize Court.

SMITH AND BROOME BROUGHT UP

Charged With Having Slain Mary Atkin—Dicks Rearrested on a Charge of Arson—The Outlook in the Samson, Kennedy Failure—Other Queen City Items.

Toronto, Dec. 14.

At the Criminal Assize Court yesterday morning, before Mr. Justice Rose, Frank Smith and William Broome were put upon their trial for the murder of Mary Atkins. Smith is a man of about 35 years of age and his companion appears to be somewhat younger. It is charged by the Crown that early in the morning of May 29 last the prisoners met Mrs. Atkins, an old woman, on Chestnut-street and, representing to her that they were policemen, took her in charge. Instead of taking her to a police station, they brought her to Queen's Park, where they, or one of them, at least, assaulted her, inflicting such injuries that she died in the jail from the effects a few days afterwards.

Mrs. Atkins was a woman who gave her age as 57, but who looked to be much older. She was described by the assistant matron as a modest woman of retiring disposition.

Mr. Barron has charge of the case for the Crown; Mr. T. C. Robinette is defending Broome and Mr. B. E. Swayzie is looking after the interests of Smith.

P. C. Umbach and Patrol Sergeant Robinson gave the story of the arrest. Smith was arrested at first, and Broome presented himself at the Police Court next day as a witness. Mrs. Atkins was at the Police Court on this occasion and made a statement, which was put in as evidence. In this statement Broome is exonerated from any complicity in the actual assault.

The other evidence presented by the Crown was that of Drs. Primrose, Pickering and Waddy, who officiated or assisted at the post-mortem examination. A number of bruises were found on different parts of the body and some of the organs were found to be in a diseased condition, but all four doctors agreed that the conditions were not sufficient to account for death. They all agreed further that death was probably the result of shock and two of them (Pickering and Waddy) could think of no other cause.

On the conclusion of the case for the Crown, Mr. Robinette submitted that there was no evidence to go to the jury as against Broome.

His Lordship decided not to take the case from the jury, and the defence was entered upon.

The only witness called before adjournment was John Baker, who testified to having seen Smith about midnight on the night of the alleged assault. This was on Chestnut-street and the prisoner was then in company with a woman.

The case will likely be finished to-day. The evidence for the defence is principally medical.

At the same court this morning the man Kramer who made the plates which figured in the recent forgery case, was formally acquitted.

Arthur Dicks, who was acquitted on Thursday of the murder of his wife, was yesterday morning formally acquitted of the charge of having set fire to the house in which the woman met her death. He enjoyed but a brief spell of freedom, however. He was at once rearrested on a charge of having set fire to another house near Mimico about two years and a half ago.

Thomas Rush, alias William Smith, the young man who was arrested here on Thursday by Detectives Burrows and Duncan, appeared in the Police Court yesterday morning. Rush was arrested at the request of the Windsor authorities, who charged him with having on Nov. 19 last burglarized the premises of Mr. Sol White of Windsor and stealing $32 in cash and a number of other articles. Chief Constable Willis of Windsor took him back to that city.

On a charge of having a revolver in his possession when arrested, Rush pleaded guilty and was remanded for sentence. The revolver was confiscated. Rush is said to be mixed up in a number of recent burglaries.

The affairs of the embarrassed firm, Samson, Kennedy & Co., have at last reached a stage when a definite idea of what the creditors will realize may be formed.

Mr. E. R. C. Clarkson, the assignee, returned yesterday from a meeting of the principal Canadian creditors in Montreal. Late in the afternoon he gave out the following approximate statement:

Direct liabilities	$126,000
Indirect liabilities	300,000
Total liabilities	$726,000
Total assets	$325,000
Deficit	401,000

Mr. Clarkson further said: "The probability is that the stock will be offered for sale in bulk." It will thus be seen that even if the stock realized its estimated value and the expenses of winding up the estate were nil there would not be quite 45 cents on the dollar. Such a stock sold in bulk, however, would suffer such a depreciation as added to the assignee's fees would probably give the creditors 25 cents on the dollar, at the very utmost.

Four of the firm's travelers were engaged yesterday by a Montreal firm.

Miss Ella Badgerow of Howie-avenue, an attractive and well-dressed girl of about 17 or 18, had a cold plunge in the Don River about 9 p.m. on Thursday while skating with a party of friends near the works of Gooderham & Worts. The ice at the spot is weak by reason of the hot fluids constantly trickling upon it and under the weight of an excessive number of skaters suddenly gave way. Miss Badgerow was completely immersed and as the ice cracked in all directions was with difficulty rescued. It was quickly effected by throwing her the end of a coat, but when landed her clothing was weghted with ice.

CONTINUOUS SUFFERING UNNECESSARY.

One or Two Doses of South American Kidney Cure Will Give Relief in the Most Distressing Cases of Kidney Trouble.

It is a fallacy to argue one's self into the belief that suffering when it comes upon us must be patiently endured. Usually suffering can be removed, if one knows the means and way. Much suffering is borne by those who are troubled with kidney disease. The distress at times is keen. But in South American Kidney Cure, medicine that is a kidney specific and nothing more though nothing less, a cure, safe and speedy remedy is to be found. Relief is sure in less than six hours. Sold by H. S. Macdonald.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 389 George Street.

Scrofulous Symptoms

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

Obituary.

The people of Belmont will hear with deep regret of the death of David Vansickle, of Stanwood, Mich. Mr. Vansickle was a brother of the esteemed ex-councillor, John Vansickle, of Methuen. The deceased had been suffering with a cancer for the past three months, and endured great pain until death finally came to his relief. It is a great consolation to his friends to know that it was well with his soul, for his end was peace. Mr. Vansickle formerly lived in the township of Methuen and also resided in Belmont and the township of Marmora. He had been living in Stanwood, Mich., for the last three years. His many friends and relatives have the sympathy of the entire community in their bereavement, as Mr. Vansickle was well known in Belmont.

An Evening With the Foresters.

The first of a series of monthly entertainments to be given by Courts Peterborough and Langton was held last evening in the Foresters' Hall, Simcoe street, and proved a most gratifying success. The chair was taken by Mr. H. Nesbitt and a varied and excellent programme rendered, consisting of vocal and instrumental selections, as well as readings and recitations. At the conclusion of the musical and literary portion of the programme, the piano was moved into the ball room and those so inclined spent several hours in dancing, whilst others again enjoyed themselves playing pedro, checkers, dominoes or similar games. These social evenings of the Foresters promise to provide many pleasing entertainments during the winter months.

CHILDREN'S AID SOCIETY CONCERT.

A Great Success in Every Way—A Fine Audience and a Splendid Programme Splendidly Presented.

The concert held last night in the Opera House in the interests of the funds of the Children's Aid Society, was a brilliant and successful affair in every respect. The hall was well filled with an audience fully representative of the musical culture of the town, and that their expectations of a genuine musical treat were more than realized, is not a matter of doubt. The success of the concert from a musical social and financial regard must be very gratifying to the official of the society who was so active in promoting it, and to the excellent society whose funds enjoy the benefit of it. The concert was not under the auspices of, but in aid of the funds, of the society.

The programme opened with a finely presented pianoforte solo, a little morceau by Hayden, given very gracefully and daintily by Mrs. Blight, who, later in the evening, performed the accompaniments for Mr. Jarvis.

Mr. Harold Jarvis' first number struck the keynote of enjoyment that was fully sustained during the rendition of his other numbers. The heroic selection from Handel's "Jeptha"—the recitative "Deeper and Deeper," and the aria "Waft her Angels," was sung with splendid spirit, and a masterly interpretation. The shading was exquisite and in every way the number received a genuinely artistic treatment. He was received with great applause and the inevitable recall was responded to. Unexampled enthusiasm was evoked by Mr. Jarvis' magnificent singing of "MacGregor's Gathering," sung with superb effect and refined vigour. At its conclusion enthusiasm became almost frantic and another repeat number could not be avoided. But his "Death of Nelson was even a greater triumph. It was magnificently sung and Mr. Jarvis had to pay the penalty of popular approval by being twice recalled. The first encore rewarded the audience with his inimitable rendering of "Scots Wha Hae," and the second was that sweetly pathetic contrast, "Douglass Gordon" sung with a delicacy, sweetness and pathos inexpressible by words. Mr. Jarvis won a great triumph with his singing last night.

Mons. LeSimple, the celebrated Belgian 'cellist, was in good form and contributed four programme numbers, the first a double number, Franchomme's "Romance" and Popper's "Spinner-leid," both furnishing enjoyable examples of rich tone, broad spirit and dainty technique, respectively. His second number was one of his own compositions, "Village Scenes," and it was as much of a revelation of his merits as a composer as of his brilliant artistic capabilities. But the tenderest, sweetest and most artistic work of the evening was his performance of the simple "Melody" by Gluck, and it was, in a musical sense, a realization of the composer's name—"happiness" was characteristic of the theme, of the work of the talented performer and of the mood of the audience under his absorbing spell. His other selections may have afforded more brilliant examples of virtuosity, but for soulful music, he reached his highest point in the simple notes of Gluck's melody. Mr. Thomas Dunn, Peterborough's favorite baritone, for his first number sang "Beneath the Ramparts," from Concone's "Judith." Though this selection is an heroic one, of the classical order, Mr. Dunn's happy production of it and mastery of its difficulties was rewarded with enthusiastic popular approval, and he was very warmly recalled, and sang with fine spirit and musical instinct, "In Happy Moments." His second number, "The Toreador," from Carmen, was excellently sung and provoked another recall, to which Mr. Dunn merely responded by a bow. Mr. Dunn also appeared to excellent advantage in duet with Mr. Jarvis in the closing number of the programme, Bonheur's "After the Fray." This spirited composition was splendidly sung; the blending of voice and harmony of shading made it one of the most delightful features of the programme. Messrs. Jarvis and Dunn make a strong team, and their singing of "God Save the Queen," that closed the concert was last night listened to and enjoyed as a pleasure, and not endured as a duty, as its usual perfunctory performance generally demands.

During the evening Mrs. Blight and Mrs. Dunn supplied the several accompaniments in a most acceptable manner to both artists and audience. They used a Williams special pianoforte.

The net receipts of the concert were not very large, its high character making the expenses heavy—$207—while the receipts were $212.50. However, if the balance available is not large, one good effect was a lively stimulation of public interest in the affairs of the Society, which will doubtless bear material results. In recognition of such a splendid concert as that of last night, public sympathy should take a practical form.

Bronchitis Can be Cured.

By aiding medication with increased nutrition, The especial function which Maltine with Cod Liver Oil and Hypophosphites discharges in pulmonary diseases is to build up and strengthen, by providing a valuable nutritive, combined with the purest cod liver oil. This valuable combination is enhanced by the addition of the hypophosphites—themselves of highest repute in debility and wasting diseases. The oil is rendered palatable, acceptable to the stomach, and of easy digestion. These merits place Maltine with Cod Liver Oil and Hypophosphites in the very front rank. It increases the solubility of starchy food so as to largely augment the nutritive matter available for renewing strength, muscle and tissue. None then suffering from bronchitis or cough should neglect the remedy—a food medicine and reconstructive of the gratest value.

C. P. R. AND TOWN.

To the Editor of the Examiner:

DEAR SIR,—I notice that the town solicitor has advised the town council that he has notified the Canadian Pacific Railway Co., that unless they remove their freight shed from Wolfe street, he will take proceedings against them to compel them to do so.

This appears to me to be uncalled for and not in the interest of the town. No one is injured unless it be the owners of two lots of little value, which lots I understand the Railway Co. are prepared to buy at a fair price. The railway, which has not cost the town anything by way of bonus, has been of the greatest benefit to it and might, if they wished, do the town considerable injury. Why then should the town council go out of its way to harass the company? The Grand Trunk Railway occupy the whole of Bethune street, greatly injuring the property on it, and although it was agreed that the town should be paid a rent for this, that was in turn to be paid over to the property owners, it is not paid, and the town council, although repeatedly urged to collect this rent, have refused to do so. Why are the council so premptory in the case of the C.P.R. and so lax in that of the G.T.R.?

This is a matter in which the C.P.R. are in the wrong and yet the town council does nothing. We have often heard of the two acres of land owned by the town in the South Ward, but the councillors know, or should know, that the C.P.R. have taken possession of a part of this, put up a building and other erections, and may soon acquire a title by length of possession. Why do not the councillors take proceedings to prevent this?

Yours, etc.,

A Significant Departure.

With the departure of another year when a review made of the condition of affairs, it is only right that some thought be given to the physical body which enables everyone to battle with life's problem and figure for themselves the profit or loss on the trial balance sheet. Though the bank account may be large and each one's gain be great, it would not be suprising if it suddenly dawns upon many that good health has been greatly impoverished by the low condition of the blood. It is in this state that the lactic acid in the vital fluid attacks the fibrous tissues, particularly the joints, making known the local manifestations of rheumatism. Thousands of people have found Hood's Sarsparilla the great blood purifier, a positive and permanent cure for rheumatism.

An Epidemic of Scarlet Fever.

From Our Own Correspondent.

Death Seemed preferable to Agonizing Pain.

Mrs. Roadhouse, of Williscroft P. O. Ont. writes; "I have used Dr. Agnew's cure for the heart since last fall, having taken in all nine bottles, and I now feel entirely like another woman. I am 54 years old, and have been troubled with heart disease for more than twenty years; sometimes for five hours at a time suffering such agony that death seemed preferable to the pain The cold sweat would stand out in great beads upon my face. The heart cure gave me relief from almost the first dose and has proved a great blessing.

WOMEN'S AUXILIARY OF ST. PAUL'S CHURCH.

THEIR ANNUAL MEETING HELD YESTERDAY AFTERNOON.

The Reports of the Work Done by This Branch of the Women's Missionary Society—Interesting Address by Mrs. McClelland, of Havelock.

The annual meeting of St. Paul's Auxiliary of the Women's Missionary Society was held yesterday afternoon with Mrs. A. G. Dickson presiding. After the opening hymn, the president led in prayer, at the conclusion of which Miss Flora Davidson, the secretary, submitted her report as follows:

The Annual Report of St. Paul's Auxiliary of the W. F. M. S., for 1895:

During the year just ending the interest evinced in the work by the members of our society has continued unabated. The average attendance for the ten meetings is thirty-one. The number of general society members, 53; auxiliary members, 30; eleven life members. Total membership for the year, 82. The contribution for the year was $238.13. The October thank-offering amounted to $78 75. Our yearly subscription to the Northwest was $35, and was sent to the school for Indians at Prince Albert; the value of box sent was $75. The number of subscribers to the Monthly Leaflet is one hundred.

The annual Presbyterial meeting was held at Port Hope in February. Miss Dickson represented our society, and brought a very full and interesting report of the proceedings.

The semi-annual was held in Bobcaygeon in June. Miss Roger and Mrs. Alexander being the delegates.

The annual meeting of the General Society was held in Toronto in April. Our Auxiliary appointed Mrs. Macdonald, Mrs. R. S. Davidson and the secretary as the delegates, but many of the other members displayed their interest by attending. An invitation from the Auxiliaries in Peterborough was extended to the General Society to make this their next place of meeting, which I am pleased to say was unanimously accepted, and we are looking forward to a pleasant and profitable gathering next year.

The interest in our meetings has been increased from month to month by the thoughtful and clever papers read by different members. This was a new feature introduced last year and we have found it very successful this year also. The society has sustained the loss of a very bright and helpful member—Mrs. Murray, who's removal from Peterborough has left a vacant spot in our ranks. And it is with feelings of sadness that we record the removal by death of one of our old and tried members, Mrs. Tassie, whose thoughtful words of comfort and encouragement have frequently cheered us on the path of duty.

And now before entering upon a new year of work, let us first fit ourselves for the warfare against the sin and ignorance of paganism by earnestly praying to our dear Lord to make us more self-denying and more zealous and earnest in the cause, and in the soul inspiring words of Longfellow:

"Let us then be up and doing,
With a heart for any fate;
Still achieving, still pursuing,
Learn to labour and to wait."

FLORA H. DAVIDSON,
Secretary.

The Treasurer's report and that of the Frazer Mission Band and Faithful Workers was also presented.

Miss Code, in a few well-chosen words, moved the adoption of all the reports.

Mrs. McClelland, of Havelock, then delivered a most interesting address on Missions, which commanded the closest attention. At the close she was accorded a most hearty vote of thanks, on motion of Miss Roger and Mrs. Dennistoun.

Miss Vair then rendered a solo in her peculiarly sweet voice, after which the following officers were elected to act for the ensuing year:—

Hon. Pres.—Mrs. Fairbairn.
Hon. Vice-Pres.—Mrs. Henderson.
President—Mrs. A. G. Dickson, (re-elected.)
1st Vice-President—Mrs. McPherson.
2nd Vice-President—Mrs. Dennistoun.
Treasurer—Miss Kingan, (re-elected.)
Secretary—Miss F. H. Davidson, (re-elected.)
Asst. Secretary—Mrs. Albert Loch, (re-elected.)
Executive Committee—Mrs. Erskine, Mrs. Gilchrist, Mrs. Wood, Mrs. Trotter, Mrs. Hill, Mrs. Fife, Mrs. Innes and Miss Roger.

A dedicatory prayer was offered, after the collection, by Mrs. Fairbairn, after which Miss Nicholls, of the Baptist church, and Miss Forsyth, of St. Andrews, addressed a few words of greeting to those assembled, and Mrs. Dennistoun then read a letter from Miss Baker, of the Northwest, thanking the Auxiliary for clothing received. The closing prayer was offered by Mrs. McPherson.

COUNTY BOARD OF EXAMINERS.

Resolutions Adopted—No More Extensions of Certificates Granted.

The County Board of Examiners, composed of Messrs. J. Coyle Brown, J. Davidson, A. Wherry and W. A. Evans, (J. Coyle Brown, P. S. I., in the chair) held a meeting at Norwood on December 11th, at which the following resolutions were unanimously passed:

1. That no extensions or renewals be given, as the supply of teachers is sufficient and more than sufficient to fill the schools.
2. That Miss Emma Lewis and Mr. R. G. Johnston be granted their certificates when they obtain their legal non-professional standing, and that Mr. E Gallagher be given his certificate when he attains the age of eighteen. And
3. That hereafter no candidate be admitted to the Peterborough County Model School who has not the necessary legal qualifications as to scholarship and age

W. A. EVANS,
Sec'y Board of Examiners.

Lakefield, Dec. 13th, 1895.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P. O Box 55, Jarvis, Ont.

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

HALE AND HEARTY AT 70.

WHAT "FATHER" TOULL THINKS OF A POPULAR REMEDY.

Suffered for Twenty Years From Heart Troubles—His Doctor Said He Might Drop Dead at Any Moment—Tells How He Overcame the Trouble.

From the Ingersoll Chronicle.

That a sound mind in a sound body is one of the best and greatest gifts of a kind Providence no one will deny. Mankind in all ages have sought to obtain the elixir of life, have hunted for some means of prolonging health, vigour and vitality—have in fact hoped that they might find

"Some blithe wine
Or bright elixir peerless they could drink
And so become immortal."

But while man can hardly hope to attain that coveted prize this side of the eternal world, yet it is evident to all who give the subject any consideration, that modern science, skill and education in the treatment of the ills that flesh is heir to, have worked wonders in restoring the human body to its original "form divine," and in relieving many sufferers from untold misery, bringing them back to health and happiness, and giving them a feeling that life is indeed worth living. A case in point, in our own town, having reached the ears of a reporter of the Chronicle, the scribe determined to satisfy his curiosity by calling on the party who had had such a happy experience and investigate

"Busily at work."

for himself. He called at the boot and shoe shop of Mr. John Toull, King street west, and on entering the building the reporter found "Father Toull," as he is familiarly known in town, busily at work on a pair of shoes for one of his many customers, at the same time humming over to himself the tune of a cherished hymn, for by the way, in his younger days Mr. Toull was considered a good local preacher among the Methodists of this section and frequently filled the pulpits of some of our local churches in the pastor's absence and he still loves to sing or expostulate on some scripture theme or favourite hymn. The reporter was cordially received, and on making known his business the old man's countenance brightened and his eyes sparkled with delight. It was interesting to note the fervency with which he volunteered, as he said for the sake of humanity, to tell what he could of his case, and we will let it be told in his own words. He said: "For twenty years I was subject to heart trouble and could get no relief, although I had tried almost everything that kind friends recommended to me. My family physician would sometimes give me some medicine that would help me for a short time, but without permanent benefit. He told me I might drop dead at any moment, and I tell you I expected to do so on many occasions. I had heard of Dr. Williams' Pink Pills when they first came out but I had used so many remedies that I just about lost faith in everything of that kind, and had become resigned to my fate. However, I came in contact with so many that had used Pink Pills, and who assured me that they had been benefitted by their use, that at last I decided to give them a trial also, and several years ago I commenced taking them. I continued their use until I had taken eight boxes, and I am now happy to say that I have never had a symptom of the disease since, and I am convinced that by the blessing of God, Pink Pills cured me. I might also say that last fall I was attacked with rheumatism, which became so bad that I could scarcely walk from my work to the house, and for a long time I could not get out to church. I tried a number of things recommended to me, but received no good from their use, so I said to myself one day, Pink Pills did me so much good before for my heart trouble, I'll try them again, so I gave them another fair trial, with the result that the rheumatism has all gone out of my bones, and I have not been troubled a bit with it since. Everyone, said the old man, as he waxed warm over the thought of his happy experience, who knows old Father Toull, knows that what he tells is the truth." After thanking Mr. Toull for his kindness and courtesy, the reporter left the shop with the same opinion as to the truth of his statements, and impressed with the belief that from his rugged, hearty appearance and cheerful disposition, the old gentleman is still good for many years of a healthful, contented life.

Dr. Williams' Pink Pills are the greatest blood builder and nerve restorer known to medical science, and cure when all other remedies fail. If not kept by your dealer they will be sent post paid on receipt of 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont., or Schenectady, N.Y. Get the genuine; imitations and substitutes are worthless—perhaps dangerous.

FRUIT GROWERS' CONVENTION.

Public Parks and Gardens, Flowers and Plants—The Export Trade in Apples.

Woodstock, Dec. 13.—At yesterday's evening session of the Fruit Growers' Association convention, the chair was taken at 8 o'clock by President H. Pettit, who delivered his annual address reviewing the progress of horticultural work during the year.

Mr. H. H. Groff of Simcoe read a very valuable paper on the gladiolus, and its improvement, a line of experimental work to which Mr. Groff has devoted a great deal of his time.

Public parks and gardens was treated by Mr. G. R. Patullo of Woodstock, in which he advocated more of these public pleasure resorts for the health and pleasure of the citizens.

Mr. J. S. Scarff of Woodstock read an interesting paper on the cultivation of house plants. No one, he said, should attempt to cultivate more plants than he could well care for. Never water house plants when the sun is shining brightly on them. All large leaved plants need washing with tepid water and in the house they often need daily watering. Provide as near as possible uniform temperature. Plunging pots in coal ashes encourages root formation.

Mr. Groff said that all pots over four inches in diameter need drainage.

Mr. Craig advised dissolving one ounce of nitrate of soda in about three gallons of water and use it about twice a week.

Mr. Mitchell of Innerkip said that broken pieces of pots afforded poor drainage, for they soon became closed and packed with earth. Old rootlets of grass in the soil afforded better drainage.

Mr. Mitchell spoke on some common garden plants, their requirements and probable value. In cultivation of geraniums he advised one variety in a bed. One of the most desirable was the double General Grant. The tube rose begonia forms a brilliant display during the whole summer. Sedges and callas are the only plants which will thrive with their saucers full of water.

This morning the president called the meeting to order at 10 o'clock. The election of officers was the first order of business. Mr. M. Pettit was re-elected president and Mr. W. E. Wellington vice-president. The directors of 1895 were re-elected except that Mr. J. S. Scarff of Woodstock takes the place of Mr. L. Chapin of Brantford, and Mr. R. L. Huggard of Whitby the place of Mr. McMichael of Oshawa.

The treasurer's report was read, showing an expenditure of about $1700 during the year, largely from members' fees.

Mr. Shuttleworth, on the part of the apple buyers, made an interesting address on the export trade in apples, which was followed by a very lively discussion.

Several committees reported. First the new fruit committee, D. W. Beadle, chairman of the exhibit committee, T. H. Race, chairman of the committee on resolutions, G. R. Patullo, chairman. Among the latter was one to the Woodstock press, the Associated Press and the Toronto press for their very full and satisfactory reports of the meetings; onethanking Hon. John Dryden for his presence and practical sympathy and valuable addresses; Profs. Saunders and Craig of Ottawa, and Pres. Mills of Guelph, all of whom have contributed so largely to the interests of the meetings; and others.

The directors met in the afternoon and decided to hold the next annual meeting in Kingston.

With much appreciation of the kindness received from the Woodstock Horticultural Society the meeting adjourned.

PRIEST AND PARISHIONER.

Miss Maggie Melody, of Hamilton, used Dr. Agnew's Celebrated Catarrhal Powder, on Recommendation of Rev. Father Hinchey, and Found it a Grand Remedy for Influenza.

Having himself been benefited by the use of Dr. Agnew's Catarrhal Powder, Rev. Father Hinchey, of St. Joseph's Church Hamilton, Ont., followed the council of the good book, and carried the good news to others. One of his parishioners, Miss Maggie Melody, had been a sufferer from influenza. Father Hinchey knew how much good his remedy had done in case of cold in the head with himself, and recommended it to Miss Melody for her case, who over her own signature has written: "I have used Dr. Agnew's Catarrhal Powder for Influenza and found it a grand remedy. In fact it gave me relief almost at once. I can with pleasure highly recommend it to all who are suffering from this malady."

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves in ten minutes and permanently cures catarrh, hay fever, colds, headache, sore throat, tonsilitis and deafness. 60 cents.

Sample bottle and Blower sent on receipt of two 3—cent stamps, S. G. Detchon, 44 Church street, Toronto. Sold by H. S. Macdonald,

POWDER IN HIS EYE.

The Prince of Wales Had an Accident While Out Shooting.

London, Dec. 12.—The Prince of Wales met with an accident that for a time caused much concern to those who were aware of the affair, but the injury turns out to be trifling. The Prince was shooting on Sir Edward Lawson's estate, Hall Barn, Beaconsfield, Buckinghamshire, when he got some grains of powder in his right eye. A doctor was summoned, who applied fomentations to the eye to subdue the inflammation, and then injected cocaine, after which he extracted the powder. The eye is now assuming its normal condition. The Prince has returned to London.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

Victims of the Hurricane.

Gloucester, Mass., Dec. 12.—A despatch received here from St. Pierre, Miq., says a hurricane of great violence prevailed there to-day, doing tremendous damage to shipping, and that the schooners Mabel R. Bennett, Hattie D. Linnet, S. P. Willard and Jennie Severns, belonging to this port and engaged in the frozen herring fishery, were driven ashore and will probably be a total loss. Also, that a French steamer was driven ashore. The vessels were among the finest sailing from this port. The crews of all were saved.

Health and strength carry us through dangers and make us safe in the presence of peril. Disease germs do no harm in a healthy body. A germ is not a big thing, and it is only physical weakness that makes it dangerous. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. Nature is continually working to throw off any impurities that may come into the body, but if there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, they quickly fill the whole body. The only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists in the digestion of food and puts the digestive organs in a perfect condition. It stimulates the secretion of digestive fluids, so promoting assimilation and nutrition. It fills the blood full of healthy red corpuscles. It purifies and enriches every drop of blood in the whole body and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

Nine-tenths of all human ailments come from the same cause—impurity in the blood. Take almost any disease you please and trace the cause of it—you will find it in the blood. Purify and enrich the blood and you remove the cause, and so you cure the disease inevitably and infallibly. Dr. Pierce's Golden Medical Discovery cures all diseases depending upon poor, impoverished, thin, impure blood.

GENDRON'S GRATITUDE.

WHY AN OTTAWA MAN VISITED A NEWSPAPER OFFICE.

The Marvelous Story he Told of His Escape From Death and the Solemn Declaration he Made Before a Notary.

On Sept. 20, 1895, the editor of Le Canada, published in the capital city of Canada, received a visit from A. F. Gendron, and the reason for that visit was of such a nature as to be rare even to the point of uniqueness. The interesting story Mr. Gendron told is reproduced from Le Canada.

Mr. A. F. Gendron, lumber measurer, well-known in this city and at Hull, and who has suffered for the last three years from a painful malady, reputed to be incurable, has recovered in a marvelous manner during the last month. Many celebrated doctors had treated the patient, and one after another had abandoned the case in despair. Mr. Gendron suffered from a terrible malady of the kidney which had brought on locomotor ataxia—really a softening of the spinal marrow. Lying helpless upon a bed of sickness, his case seemed to be really incurable. Indeed, those who looked upon him in that state believed him to be at the end of his life, and it was with difficulty that they could believe their eyes yesterday when they saw him out walking around to our office. To what is to be attributed this cure? Mr. Gendron states it himself in the following affidavit, deposed and sworn before a notary.

Ottawa, Sept. 20, 1895.—I declare solemnly that, after having suffered more than two years from complicated malady of the kidneys, which reduced me to the most complete helplessness, I was cured by using Dr. Ryckman's new remedy, called Kootenay Cure. I recommend this medicine to the attention of all, especially of those who are suffering from disease of the kidneys.

A. F. GENDRON.

A marvelous cure, truly; so complete and perfect that the grateful man went to the office of Le Canada unasked and purchased with his own money space in which to tell the public what Kootenay Cure had done for him.

BRITAIN AND VENEZUELA.

Some More Talk as to What Crespo and Olney Will Make Britain Do.

Washington, Dec. 12.—Members of Congress who are interested in the Venezuelan boundary dispute with Great Britain, say President Crespo will be guided in making his reply to Lord Salisbury by the suggestions of this Government. Lord Salisbury's note, it has been reported, asked the payment of $60,000 as a compensation for the arrest of the colonial officers a year ago, an episode which has passed into history as the "Uruan incident." That President Crespo will refuse to pay this indemnity is certain. That he will be so advised by Secretary Olney is equally certain. It is said to-day that his reply in substance will show the arrest of Sergeant Barnes and his associates to have been an outgrowth of the boundary question, which must first be settled before any of its incidental features can be considered. Such reply, it is asserted, would force Great Britain to meet te issue without further equivocation or delay.

A Farmer Loses a Leg.

Chesley, Ont., Dec. 12.—This morning Mr. Robert Willoughby, a farmer living on the second concession of Elderslie, while crossing the G.T.R. half a mile north of this place was struck by the morning express and thrown about 20 feet from the track. His leg was so badly crushed that it had to be amputated above the knee. His recovery is doubtful.

Nova Scotia Vessel Wrecked.

Boston, Dec. 12.—A despatch from Barnstable, Mass., reports the wreck of the British schooner Carrie Easler, bound from Port Medway, N.S., for Boston. The crew were saved.

The Easler was owned and commanded by Capt. John Hutt, and left Medway on Dec. 1, with a cargo of 120 tons of wood and pulp, consigned to Charles D. Brown & Co. of this city. Vessel and cargo a total loss. Both insured.

"I Took One-half Bottle of South American Rheumatic Cure and Obtained Perfect Relief."—This Remedy Gives Relief in a few Hours, and Usually Cures in One to Three Days.

J. H. Garret, a prominent politician of Liverpool, N. S., makes, for the benefit of the public, the following statement; "I was greatly troubled with rheumatic pains for a number of years. On several occasions I could not walk nor even put my feet to the floor. I tried everything and all local physicians but my suffering continued. At last I was prevailed upon to try South American Rheumatic Cure. I obtained perfect relief before I had taken half a bottle of the remedy, and to-day regard it the only radical cure for rheumatism." Sold by H. S. Macdonald.

Ottawa, Dec. 13.—Among this week's notices of applications to Parliament are the following:

The Canada and Michigan Bridge and Tunnel Company will apply for an Act empowering the company to build, at its option, a high level bridge across the Detroit River from Windsor to Detroit.

The Pontiac Pacific Junction Railway Company will ask time to construct its railway to Sault Ste. Marie and Ottawa.

The Ontario Pacific Railway Company will apply for power to change the name of the company.

Application will be made to incorporate "The Imperial Life Assurance Company of Canada."

New post-offices were opened December 1st at Desbarats, Gawas, Senie River and Senie River Valley, all in Algoma; Hammond and Manotick Station, Russell.

The Dominion Savings Bank of Truro, N.S., has been closed and all the accounts transferred to the post-office savings bank. This is in accordance with the policy of the Government adopted some years ago whenever a managership of a Government bank became vacant.

The Interior Construction and Improvement Company has deposited a plan and description of the manules in which it has laid its natural gas mains across the river at Detroit, with the Minister of Public Works, and after one month will apply for approval of such mode of crossing.

BOYS AND AN OLD GUN.

A Rabbit Appeared, the Gun Went Off Too Soon and Killed One Boy.

Wingham, Dec. 12.—Two sons of John Taugher, of concession 12, Turnberry, had been engaged in chopping wood. They had an old gun with them. On Wednesday afternoon shortly after dinner, a rabbit suddenly appeared, when the eldest boy, aged about 18, picked up the gun and pulled the hammer quickly, when it flew back from not catching properly, and the charge was fired, the shot entering the neck of James, the younger brother, on the right side, and causing instant death. The dead boy was about 16 years old. The boy who so instantly caused his brother's death was crazed with grief.

Blanchard as Sole Commissioner.

New York, Dec. 13.—The Board of Management of the Joint Traffic Association to-day elected George R. Blanchard sole commissioner of the Joint Traffic Association. Mr. Blanchard has been commissioner of the Central Traffic Association for several years.

Syrian Situation Improved.

Vienna, Dec. 13.—The Politische Correspondenz says that the situation in Syria has greatly improved since the arrival of reinforcements at Beyrout and Damascus.

FRENCH BUDGET DEFICIT.

The Committee of the Chamber Will Tax Foreign Securities to Meet It.

Paris, Dec. 13.—At the sitting of the Budget Committee of the Chamber of Deputies to-day, M. Doumer, Minister of Finance, announced that the Government would partly cover the 2,800,000 francs deficit by an increase of the tax upon transferable and foreign securities, which increase would yield 2,000,000 francs.

Mr. H. Wettatein, of Marengo, Ill., found that Ayer's Pills, taken when the first symptoms of la grippe appear, prevent further progress of the disease, and he has yet to find the first case where these pills did not cure the malady. Every dose was effective.

Yellow Oil used internally cures or relieves croup, asthma, sore throat, bronchitis and similar complaints. Used externally on man or beast, it cures rheumatism, sprains, galls, chilblains, frost bites, lumbago, lame back, cuts, wounds, insect bites.

A GREAT MEDICINE.

Cod-liver Oil is useful beyond any praise it has ever won, and yet few are willing or can take it in its natural state. Scott's Emulsion of Cod-liver Oil is not offensive; it is almost palatable.

Children like it. It is Cod-liver Oil made more effectual, and combined with the Hypophosphites its strengthening and flesh-forming powers are largely increased.

Don't be persuaded to accept a substitute!

DICKS IS A FREE MAN.

Mr. Justice Rose Took the Case from the Jury and Ordered Acquittal.

Another Arson Case.

Toronto, Dec. 13.—Mr. Justice Rose brought the Dicks murder terial to a termination yesterday afternoon by taking the case from the jury and directing the acquittal of the prisoner. Dicks was not immediately discharged, but at the request of the Crown was held over till this morning, when he probably will be given his liberty.

The Crown's case depended upon two leading theories. One of them was that the house was fired for the sake of the insurance on the contents, and that the death of Mrs. Dicks was incidental to the burning of the building. The other was that Mrs. Dicks was killed for the insurance on her life, and that the burning of the building was for the purpose of covering up the killing. The former theory failed because the evidence showed that no insurance could be realized on the property in the house at the time of the fire. The other theory was knocked out by the evidence of Dr. Caven, which was to the effect that Mrs. Dicks was still alive when the fire attacked her body.

A REMARKABLE CASE.

Rheumatism of 20 years' standing radically cured by Scott's Sarsaparilla.

Mrs. Sarah Browning, an estimable resident of the Ambitious City, was for twenty years a sufferer from acute rheumatism, and her restoration to health is so remarkable that we present the case for the benefit of our readers, many of whom are doubtless sufferers from this painful complaint which arises from blood poison. Mrs. Browning says: "I used only one bottle of Scott's Sarsaparilla and received such benefit that I continued taking only at intervals for two months. That is seven months ago, and the pain has not returned. I had spent a fortune in various "treatments" and was told by one medical man that a cure was impossible as I had suffered so long."

Scott's Sarsaparilla cures by making and keeping the blood pure. It increases flesh by digesting flesh-forming foods. It is the most successful medicine in the world to-day, for dyspepsia, nervous troubles, rheumatism, sciatica, syphilitic afflictions, pimples and all diseases originating in a foul condition of the blood. Dose from one half to one teaspoonful.

Singers of the Dominion—(Continued.)

Lampman's poem "Heat" is most vividly descriptive:

"Where the fallen tree shadows flood,
Dark patches in the burning grass,
The cows, each with her peaceful cud,
Lie waiting for the heat to pass.
From somewhere on the slope near by,
Into the pale depth of the noon,
A wandering thrush slides leisurely
His thin revolving tune.

In intervals of dreams I hear
The cricket from the droughty ground,
The grasshoppers spin into my ear
A small immeasurable sound;
I lift my eyes sometime to gaze,
The burning skyline blinds my sight,
The woods far off are blue with haze,—
The hills are drenched in light."

* * *

Lampman protests against the artificial life of the cities and towns. Always in his ear is the sound of the pines; in his heart is the swell of the sea. His poem, The City, is like the yearning cry of some old Hebrew prophet over a city given up to strange gods.

"Thou art fair as the earth at morning
And the sunshine loveth thee,
But its light is a gloom of warning
On a soul no longer free.

"The curses of gold are about thee
And thy sorrow deepeneth still,
One madness within and without thee
One battle blind and shrill.

"Care sits in many a fashion,
Grown gray on many a head,
And lips are turned to a-hen,
Whose years have right to rod.

"Canst thou not rest, O City?
Who liest so wide and fair;
Shall never an hour bring pity
Or end be found for care?"

* * *

William Wilfrid Campbell sings of the great inland lakes:

"Girt with a magical girdle.
Rimmed with a vapor of rest,
These are the Inland waters,
These are the lakes of the west."

* * *

He gives a voice to the legends which have come down out of the stormy past concerning them, as in "The Restless River," "Manitou," and other poems. His "Indian Summer" gives a description of that season so peculiarly Canadian.

"Along the lines of smoking hills
The crimson forest stands,
And all the day the bluejay calls
Throughout the autumn lands.

"Now by the brook the maple leans,
With all his glory spread,
And all the sumachs on the hills
Have turned their green to red.

"Now by great marshes, wrapt in mist,
Or past some river's mouth,
Throughout the long still autumn day
Wild birds are flying south.

* * *

But it is not alone of lakes and nature he sings. His poem, "The Mother," carried his name beyond America. It has pronounced the greatest poem written by a Canadian.

Roberts is Canada's laureate. He is loyal to England and proud of the imperial race from which he springs, but Canada is ever first in his heart. His "Collect for Dominion Day" voices the prayer of all true Canadians. He is the most versatile of our poets. He sings of battles by sea and land, and of the hearth and home; of the busy market place and of the solitude of the Canadian woods; of Indian legends and of Latin poets, and of the mystery of life and death. With prophetic lips he speaks of the future:

"I see to every wind unfurled
The flag that bears the maple wreath,
Thy swift keels furrow, round the world,
Its blood red folds beneath.

"Thy swift keels cleave the furthest seas
Thy white sails fill with alien gales,
To stream on each remotest breeze.
The black smoke of the pipes exhales."

* * *

To Arthur Weir, who has embalmed many of the legends of the Indians and of the days of the French rule, in fitting verse, we owe much. Perhaps his strongest poem is "The Secret of the Saugenay"—the story, so far as it may be told, of Roberval's ill-fated expedition up that mighty river in search of an ever vanishing Eldorado.

"Like a fragment of torn sea kale,
Or a wraith of mist in the gale,
There comes a mysterious tale
Out of the stormy past.
"How a fleet with a living freight
Once sailed through the rocky gate
Of this river so desolate,
This chasm so black and vast.

"O merciless walls of stone,
What happened that night is known
By you and by you alone,
Though the eagles unceasing scream.
'How once through that midnight air,
For an instant a trumpet's blare
And the voices of men in prayer,
Arose from the murky stream."

* * *

Duncan Campbell Scott makes the same plea as Lampman for a simpler mode of living:—

"Let your soul grow a thing apart,
Untroubled by the restless day
Sublimed by some unconscious art,
Controlled by some divine delay;
For life is greater than they think,
Who fret along its shallow bars."

Pauline Johnston speaks for the race from whom the sceptre has departed, and in her verse has raised a monument to the vanishing redmen.

In Chief Justice Hagarty, the poet has been sacrificed to the jurist. His "Funeral of Napoleon, 1854," is a masterpiece.

It is something that Canada has produced poets. It is a great thing that she is the mother of Carman, Roberts, Campbell and Lampman. Our poets have not shut their message in a maze of words. They have spoken simply and clearly as they were moved. Even Nordak, with his keen eye for a degenerate, would fail to find one among these clear-headed, sound-hearted men. Our poets have given us a high ideal, the issue rests with us; let us make it more glorious even than they have dreamed.

Keep Enemies Out.

All disease that linger and finally kill are the effects of bad blood.

The blood must be kept perfectly pure.

That is what the kidneys are for.

They have everything to do in filtering out the poisons.

This process of filtration may be interfered with by a cold.

Usually if there is any lack of good kidney work, it is a cold, or perhaps overeating and over-drinking.

Nearly every acute ailment starts with a cold. So do the diseases that finally kill.

The thing to arrest the cold. This brings us to the question: What is the best treatment for a cold? Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves, that there is no treatment known to man anywhere equal to Dodd's Kidney Pills.

SKATING.

The typical speed skater has a short body, capacious, round chest, with well developed back; his thighs are strong and very long, as are also his legs. His feet are large and flat. His weak points are his calves, due to the long, flat skate to which his flattened foot is so closely bound. The large muscles of his chest are not exercised, and his arms, held lying idly along his back, are unused, except in an occasional spurt, when they are brought down and swung straight from the shoulder. They say that they catch less wind held that way, and that the position is restful to the tense extensors of the back. This is no doubt true, but the result is disastrous to symmetrical development. This type of figure is seen at its best in such skaters as the Donahues, McCormick, the old-time professional, who still skates a fast race, although now 40 years of age, and in Wilson Breen, a professional, who has been a winner of much gold and glory by means of his long legs and powerful thighs.

The conclusion that speed skating alone is not a good exercise to develop a well-built, symmetrical man will be patent to anyone who reviews the facts. If indulged in it should be, as done by McCulloch of Winnipeg, in conjunction with other forms of athletics, which bring into action the muscles of the arm, calf, shoulders and chest.—Popular Science Monthly.

THE WHEEL.

Fred Loughead made the pace so hot for old King Death that he quit in the stretch, and as a consequence the Class A champion of Canada is now fully recovered from his long attack of typhoid fever, which was superinduced by his arduous campaign on the path the past season, during which he won the championship at Waterloo, broke innumerable records and beat the best riders in his class that the United States could produce at the big tournament in Springfield. He passed through Peterborough on his way to Montreal yesterday, looking very much unlike the slim, lanky youth who electrified the crowd with his cyclonic burst of speed in the stretch here last season, his illness apparently having agreed with him. He has taken on flesh wonderfully, and now weighs nearly 170 pounds, 30 pounds more than he did when in training. Contrary to expectations he will ride again next season, but not in class A, having about made up his mind to come out and take a whack at the cracks in the B division.

GRIP

KNOWN BY

Sense of illness, pain or soreness in the head, back, chest, side or limbs; or cough, sore throat, catarrah, influenza, profuse flowing from the nose or eyes, itching, and redness of the eyelids, general prostration and fever. Sometimes one and again another symptom is more prominent. The appetite is impaired and the nervous system unstrung, depressed and run down.

"77" meets the epidemic condition and is the cure for all its manifestations. Taken early cuts it short promptly; taken during its prevalence, prevents its invasion; taken while suffering, a cure is speedily realized.

"77" for COLDS

Cough, Sore Throat, Influenza and Catarrah. "77" will "break up" a cold that "hangs on.

NEWS FROM OTTAWA

Col. Prior to Have a Seat in the Cabinet.

TO BE CONTROLLER OF CUSTOMS

Probability That Both He and Hon. John F. Wood Will Have a Seat in Council—Writ to Issue at Once for Victoria—General News From the Capital.

Ottawa, Dec. 15.—Col. Prior, M.P. for Victoria, B.C., has been offered by the Premier a portfolio in the Government and a seat in the Council, which he has accepted. The writ will be issued at once and the election take place at the earliest date possible, so as to enable Col. Prior to take his seat in the House as soon as possible after, if not at, the opening of Parliament, which meets Jan. 3.

It is thought the Colonel will be made Controller of Customs, and that both the Controller of Customs and Inland Revenue will be taken into the Cabinet.

Father Paradis, the apostle of French-Canadian re-patriation, was in the city yesterday. In course of conversation, he stated that his colony in Northern Ontario is making good progress. The Canadian Pacific Railway Company has given the settlers another railway station, which is called Domremy, so that with the original station at Verner, the settlers have good railway accommodation. The saw mill has been removed to Domremy. Father Paradis is at present engaged in superintending the erection of a grist mill with a capacity of 35 barrels a day. It will be equipped with the latest appliances.

The tug Telephone, which was seized in Lake Erie for infractions of the fishery laws, is to be sold by auction at Amherstburg on Jan. 3.

The total number of Chinese immigrants entering Canada last month was 137, as against 79 in November last year.

In August, 1892, the Chinese Immigration Act was amended, providing that return certificates could be granted to Chinese to enable them to return home good for a period of six months. Previously there had been no time limit on these permits, the result being that they were transferred by the tricky Celestials, and direct loss to the Canadian revenue followed. Since the six months' limit went into force upon Aug. 4, 1892, up to Nov. 30 last, 1244 permits have been issued. Out of that number 357 Chinese returned within the specified time, 675 permits have lapsed, and 212 are still valid.

Capt. Holmes of the immigration staff is at present at work among the Tunkards of Indiana, many of whom are anxious to find a new location, and there are good prospects that a large contingent will settle in Manitoba in the spring. Mr. Holmes is under instructions to proceed shortly to South Dakota, where there are 62 families of Germans desirous of settling in British territory. Afterwards Captain Holmes will go to Michigan to assist a local man in working up a party for the Northwest.

Mrs. Shortis, mother of the Valleyfield murderer, was engaged nearly the whole of yesterday interviewing Ministers and interceding with them on behalf of her son. It is expected that the matter will be considered in Council early in the week. Petitions from a number of bodies in Waterford, Ireland, have been received by the Governor-in-Council, asking for a commutation of the death sentence, on the ground of insanity.

The plan of sending return men to the Old Country to work up immigration has been abandoned by mutual consent of the three intgrests, which have been acting in co-operation, viz., the Government, the C.P.R. and the steamship companies. The results achieved by this plan were not as great as were expected.

Mr. C. Olsen of this city, who has been represented in the newspapers as going to Norway as a "return man" does so entirely on his own responsibility and at his own expense. Mr. Olsen is a painter by trade and has been working in the city for some months past. The practice of the Department has not been to send artisans, but agriculturists, as that is the class of immigrants which the Department seeks to encourage to settle in Canada.

The lot of T. J. Watters, ex-Acting Commissioner of Customs, is not a happy one. Yesterday he was arrested at Gatineau Point on a charge of fraud, laid by F. R. White, a Boston mica dealer. He was taken to Hull jail, and is still in custody there. Several Ottawa friends offered bail, but Sheriff Coutee will only accept sureties who own real estate in the Province of Quebec. Mr. White makes affidavit that Watters undertook to operate mica mines for him in Templeton Township, the whole of the product to go to White. If the expense of operation exceeded $60 per ton for two months in succession the mine was to be closed down. He alleges that Watters purposely operated the mine so as to increase the expenses, and which led to the suspension of mining, and that, moreover, he sold a portion of the product to other parties. Mr. White claims $2500 overpaid to Watters and $6000 damages.

YOUNG CHURCHILL IN NEW YORK

He Has Just Arrived From Cuba and Thinks Spain Has a Big Contract on Hand.

New York, Dec. 14.—Winston Leonard Spencer Churchill, son of the late Lord Randolph Churchill, arrived in this city from Cuba last week, where he has been watching the operations of the belligerent forces for the last eight weeks. Mr. Churchill is accompanied by his brother officer and chum, R. W. R. Barnes. Mr. Churchill was seen by a reporter, and denied all the rumors about the political significance of his trip. He said that he had simply been in search of pastime and pleasure, and that he had had many interviews and experiences in the south. "My letters to Gen. Campos," said he, "gave me many advantages which I would not otherwise have had. I was fortunate in being entertained at Spanish military headquarters, and had a good opportunity for observing operations. Campos gave me a letter to Gen. Valdez, and I spent eight days at the front with his column. During that time I was a member of his staff. At La Reforma we were near the insurgents for the two and a half days, at the end of which time they retired."

"What is your opinion of the situation?"

"I think that, owing to the nature of the country, the Spanish have before them a very difficult task in the suppression of the rebellion. Although I believe them to be brave and energetic, I do not think there is sufficient combination in the movement of their several columns to catch the insurgents or inflict upon them serious defeat.

"The situation at present is just as it has been since the outbreak of hostilities. There have been no decisive battles fought and won on either side. And let me say right here that the reports of the engagements as published in the foreign papers have been misleading in every respect. At every battle a few men are killed on both sides, but the problem is no nearer solved.

"If when the spring rains set in Spain is in the same position that she is now, the probabilities are that the insurgents will win. Owing to the abominable condition of the roads in spring and summer it will be impossible for the Spanish to move their troops, and what with losses that must ensue from heat and pestilence, it would look as though they would have to eventually withdraw."

WEEDING OUT CRIMINALS.

A Dozen Undesirable Citizens Sent Out of Hamilton.

Hamilton, Dec 14.—The Hamilton police force has been making a record for itself during the past year in the matter of sending criminals to Kingston Penitentiary and Central Prison, and the city is rapidly cleaning its skirts of this undesirable element. A dozen men have been sentenced for long terms at Kingston, several have been sent to the Central, and Chief Smith is congratulating himself on the record, which exceeds that of any previous year for a long time. The terms range from eight to two years. Five men have been sentenced for highway robbery, two for housebreaking, one for uttering counterfeit money, one for arson and three for theft. On Saturday Judge Snider broke the record for giving long sentences by sending Jerry McCarthy, one of the quartet convicted for holding up Samuel Luscombe, to Kingston for eight years. The other three—William Wade, Thomas Duffy and Henry Findlay—were each sentenced to six years. The incarceration of the quartet will cost the country $11,622, at the rate of $447 per prisoner a year.

Ezra Jacques was sentenced to nine months in the Central Prison for breaking into John Pearson's house, Queen-street south, on March 21 last. Jacques is the last of the trio sent down for this offence, his pals—George Zimmerman, is serving 12 months in the Central Prison, and James Jackson, is serving two years in Kingston.

FOR MANSLAUGHTER.

Frank Smith and William Broome Convicted on Saturday.

Toronto, Dec. 16.

At the Criminal Court on Saturday Frank Smith and Wm. Broome were convicted of manslaughter. They were originally indicted for the murder of Mrs. Mary Atkins, but on Saturday morning, Judge Rose told the jury that the elements of murder were wanting, but the evidence was such as to warrant a charge of manslaughter, and as such the jury was directed to regard it.

The evidence for the defence was that of Drs. Scott, Nattress and Jones, all of whom supported the opinion that the deceased Mrs. Atkins did not die of shock.

The jury, after being out an hour and ten minutes, brought in a verdict of guilty against both.

His Lordship said that he would withhold sentence till next week, so that he might have an opportunity of hearing what there was to be said as to the previous history of the prisoners.

The Pearl of Great Price

To woman is beauty. Beauty the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds this charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath as fragrant as flowers.

"NOT FAR FROM THE KINGDOM OF GOD.

IT WAS THE THEME OF A TIMELY SERMON YESTERDAY.

Rev. James Allen, of the Metropolitan Methodist Church, Toronto, Conducted Anniversary Services in the George Street Church Yesterday.

Anniversary services were conducted in the George street Methodist church yesterday by Rev. James Allen, of the Metropolitan church, Toronto, and very large congregations were in attendance both morning and evening. His sermon at night was founded upon the verse, "And when Jesus saw that he answered discreetly He said unto him, thou art not far from the Kingdom of God, and no man after that durst ask him any question." St. Mark, xii chap, 34th verse. The discourse more especially bore upon the words "Thou art not far from the Kingdom of God." The words, he explained, were called forth from the Lord by the confession made to him by the scribe, when the Pharisees and Herodians were come unto Him to catch Him in His words. This particular scribe interrogated the Lord and was answered in such a manner as to cause him to acknowledge that Jesus spoke the truth. In reply

THE SAVIOUR ADDRESSED HIM

in the words of the text—"Thou art not from the Kingdom of Heaven," meaning you are not far from that condition of soul when you will be in sympathy with your Heavenly Father. You are just on the verge of that higher and nobler condition of soul that will put you in unison with the highest realm of earth and heaven. One more step and you will be in the Kingdom of God.

At the time these words were uttered to the scribe the advent of Jesus upon earth was regarded as an event that would menace the ruling party in the politics of the day. Hence it was that certain members of this party were sent to interrogate him and, if possible, to find a flaw in his reasoning. Coming with this object in view the scribe asked of him certain questions and through them was almost, himself, drawn into the Kingdom. What afterwards became of this scribe is not known, but as his conversion is not recorded it may be assumed that the last step which would bring him into unison with God was never taken.

Like many others in the present day he was one of those who was almost with his Creator when he turned back amongst his companions again.

IN HIS OLD AGE

he can be imagined sitting in the midst of his family, when a discussion suddenly arises concerning the Christ. He was denounced as an impostor. Suddenly the aged scribe joins in the conversation. He speaks of Jesus as a wonderful man. As a man who has a most powerful reasoner. Why, he would say, I had an argument with Him myself one day and His reasoning was astounding and I yielded His point to Him. None durst argue with Him afterward and I almost gave away my possessions and followed with His disciples.

Almost, yes almost, continued the speaker. Like so many, many others, he was almost within the kingdom when he stopped. Many, doubtless, were in the church at the present moment who, not once, but many times had been so near to God that only one more step remained to be taken.

No man has such a clear idea of the evils of intemperance as the drunkard himself. These men are at many times not far from the kingdom. Remorse overtakes them and if they had only the strength of will to go on in another minute they would be gathered to the bosom of their Saviour.

There is an animal and spiritual nature in all men and in the majority the animal nature predominates,

BUT THERE ARE OCCASIONS

when the spiritual nature breaks through and soars with the soul very near to its maker. The realism of the present day holds that man is only a superior being, but at times the spirit spurns the idea of being only a grade above the brute creation and feeling the affinity of God is very close to Him and His kingdom. Just one step more and the whole tendency of a life would be changed. The man is in the place of he who, going to write, finds the pen dry and lays it down for the present. If it had been wet the object would have been accomplished. It is often fully as close as this illustration would indicate.

Many were often moved by a sermon and would go home feeling very tender. If at these times they would but translate their feelings into action the one step required would be accomplished; but, unfortunately a day or so slipped by and the feeling becomes so faint that it is only regarded as a curious sensation at one time experienced.

In closing Rev. Mr. Allen appealed to the congregation most strongly to take the one last step required when moved by feelings such as these. He was sure that at such times they were so near the ear of the Saviour that the faintest whisper would reach His ear and the desired result would be consummated.

William Henry Ott, alias "Mustang Bill," says that he used Ayer's Hair Vigour for nearly five years, and owes to it his splendid hair, of which he is justly proud. Mr. Ott has ridden the plains for twenty-five years, and is well known in Wyoming and the Northwest.

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realized more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." MRS. C. CROMPTON, 71 Cumberland St., Toronto, Ontario.

A LITTLE GAME FOR A BIG STAKE

To any person looking below the mere surface, recent political events have a more important significance than would at first blush appear. The resignation of Hon. Clarke Wallace, Controller of Customs, in his ostensible political capacity, and Grand Master of the Orange order, in his real political character, was so timed as to give an appearance of hostility to the Government. The real meaning of his resignation, however, is deeper than appears and is evidently not intended to be a merely personal matter and for the embarassment of the Government. Mr. Edmund E. Sheppard, of Saturday Night, who has been a vigourous dabbler in politics in the pages of that journal, by acquiring possession of a newspaper, has indicated his intention of entering into politics in something more than an academic and critical spirit. Mr. E. F. Clarke, editor of the Orange Sentinel and Mr. Dalton McCarthy whose attitude of hostility to the Government has long been in evidence, are also probable elements in a new political move, which involves a deep laid scheme for retrieving the fortunes of the Conservative party and rescuing it from the mess in which it now finds itself, on account of its relation to the Manitoba School question. Such a conjunction of personal forces as that mentioned may seem improbable, but, in spite of the not exactly cordial personal feeling that is said to exist between Clarke Wallace and E. F. Clarke, of the Sentinel, and of a similar feeling between Mr. Wallace and Mr. McCarthy, the circumstances of the object aimed at call for the sacrifice of such petty sentiments, on behalf of the party whose interests their combination is designed to subserve, though it is not probable that Mr. McCarthy cares much for the Conservative policy, but he will in view of his stand on the religious question be dragged into the combination nolens volens.

Mr. Sheppard as "Don" in Saturday Night, Mr. E. F. Clarke in the Orange Sentinel, and Mr. Dalton McCarthy, on the stump, have all been vigorously clubbing the Government for its intention of forcing Separate Schools on Manitoba. They have all made a name as stalwart opponents of Remedial Legislation. The Government, recognizing the danger to be expected from this triple alliance insisting upon the necessity of Hon. Clarke Wallace, as head of the Orange order, deserting a Government pledged to a policy repugnant to every true Orangeman, decided that something must be done to save the government from the vengeance of its Orange friends, who seemed to be really in danger of polling a few votes against the Government if this agitation, as a bona fide agitation, were kept up. And that something proved to be the resignation of Hon. Mr. Wallace. Now the three gentlemen mentioned join hand in hand with the head centre of Orangeism; condole with Mr. Wallace on his noble sacrifice; pitch into the government in Caldwell; the Government "winks the other eye"; Parliament meets; remedial legislation is passed or the government is defeated on the issue; then away they go to the country, with the Conservatives of Quebec in favour of the government on account of their attitude to remedial legislation, and with the sympathy of the Conservatives of Ontario held by virtue of the sacrifices and attitude of Clarke Wallace, E. E. Sheppard, and E. F. Clarke, all representative Orange Conservatives. Should the government be successful at the general elections, as they would naturally be with the conjunction of forces thus presented, all these little differences and factions that seemed to agitate the bosom of the Conservative family will be patched up and smoothed over and we shall see a happy family for another five years parliamentary term, with all its substantial emoluments and vigourous exploitation of the public revenues and public works to serve the interests of the party in power. In the meantime Conservative French Canadian papers will be abusing and vilifying Mr. Laurier as a sympathizer with the hated "Orangistes" of Ontario, and as a traitor to his province, his religion and his race, while the Orange element will be glorifying the noble quartette for their lofty and self-sacrificing devotion to the interests of Orangism, while their real purpose is what has been indicated. It is not always satisfactory to prophesy, but it needs only a simple calculation, based on the past history of the relations of the Conservative Government and party to the Orange Order, to show that the little plot that has been outlined, will, in the main, be carried out by the parties mentioned and in the general manner indicated.

Persons without prejudice can easily see that such a combination is not only possible, but as probable, as the rising of the sun to-morrow. It may be thought that Mr. McCarthy would hold aloof from such a combination, but by virtue of his strong position on remedial legislation, he will be compelled to join his forces with and co-operate with them against coercion to Manitoba. When the elections are safely won, and there is no further need of his services, Mr. McCarthy will be gently dropped as a dangerous "wobbler," whose terrible heresy on the tariff question makes him unworthy of confidence.

It is certainly an ingenious device that will bring into accordant political play, to effect the success of the Dominion Government, two such diverse elements as the Orangemen and their religions antipodes.

WASTING YOUR LIFE.

Gradual Failing of Physical and Mental Forces.

General Breaking Down—How to Add to Your Years—Never Despair—Use Dodds Kidney Pills.

With a pathetic sigh how often it has been said:

"Well, then, I suppose I must let go my hold on life."

The failing senses, loss of strength, loss of flesh and loss of memory finally bring nearly all to this square issue.

To fathers and mothers of unreared children this is tragic.

For children it is simply pathetic and terrible.

How blessed, then, is the ray of hope—the timely sure help in this dark hour of trial!

But whence cometh this sure and timely help? If death is preventible, how?

The timely answer is: By scientific and successful kidney treatment—by using Dodd's Kidney Pills.

Since its advent, about four years ago, thousands have been saved from premature death by this great kidney medicine.

And hundreds of thousands must have used them, for over a million boxes have been sold in Canada alone.

Hundreds write to thank us and tell of their cure, but none to say that Dodd's Kidney Pills have ever failed.

The Empress Gold Mine.

Port Arthur, Dec. 15.—Work has been started in the Empress gold mine at Jack Fish Bay and highly satisfactory results attained. It is expected to have a ten-stamp mill in operation by April 1. The organization of the company to operate this mine has caused quite a mining boom here.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heart burn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

MOST COLD-BLOODED BUTCHERY.

Turned Mohammedans Rather Than to be Left Homeless to Starve - Another Son Born to the Duke and Duchess of York - General Cable News.

London, Dec. 15.—The representative of the United Press in Constantinople telegraphing under yesterday's date, says that advices from the interior showed that forced conversions from Christianity to Mohammedism are occurring everywhere. Women and children whose husbands and fathers have been killed and whose homes have been destroyed have, rather than to lead a life of vagabondage, accepted Islamism, whereupon they were housed and fed by the Turks. The sincerity of these conversions may be judged from what has occurred at Kaiserea. In this place, many women, whose protectors had fallen in the massacres were offered their choice between embracing the tenets of the Koran or being either hacked to pieces or meeting the worse fate of being kidnapped. Ostensibly the women accepted Islamism and thus rendered their lives, and, perhaps, their honor secure.

It is now thought that 1000 persons were killed in the massacres in Kaiserea. The fury of the Kurds was not satisfied with the death of its victims, but vented itself upon the inanimate bodies. The mutilation of the corpses was frightful and in many cases was of a nature that can not be described.

In Harpoot 50 Christians fled to a church in the vain hope that its walls would furnish them a shelter against those who were crying for the blood of Armenians. They were protected for a time to believe themselves secure, but suddenly the church was surrounded by a great number of Kurds. The doors were then blown in and the Christians thought they would be massacred within the sacred structure. They were not. Their captors took them one at a time outside the church and there, heedless of the pitiable cries for mercy from the women and children, killed them either by shooting or stabbing them. The first victim was the Protestant pastor of the church, who, as he was dragged out bade the others, if they had to die, to die as Christians. He met his death like a martyr. Some of the refugees, in a very agony of terror offered to abjure their faith and accept Islamism, thinking thus to save their lives. The offers availed them nothing, for their insatiable enemies, after accepting them, dragged the converts out and killed them one by one.

The Armenian Church has been turned into a mosque and the Protestant Church into a stable.

In Kaiserea the soldiers joined in the looting that accompanied the massacres.

AGRICULTURAL DISTRESS.

The Right Hon. Mr. Douglas Promises Government Relief Measure.

London, Dec. 14.—The Right Hon. A. A. Douglas, First Commissioner of Works, who represents the East Division of Kent in the House of Commons, has assured his constituents that the Government will introduce measures in the House for the relief of the prevailing agricultural distress, and that these measurs will be made the first business of the session, which will begin on Feb. 11 next. As the Ministers are still undecided what form the relief measures will take, Mr. Douglas was unable to give any definite information concerning them. A forecast of the Government's proposals, based on various official utterances, includes, besides modifications in the system of land taxation, a bounty on the wheat products of the United Kingdom. Prime Minister Salisbury's declaration against a protective tariff is held in Conservative circles to be quite consistent with the acceptance of the bounty system. In any event, unless the Government produces a measure that an influential section of its supporters will deem effective, no habits of obedience that have long controlled the Conservatives will prevent a disruption of the party. There are 232 members of the House of Commons pledged to maintain the program of the National Agricultural Union and they will not accept other than a substantial instalment of their demands. "If the Government fail to staisfy us some how," said a leading agriculturist at a conference of the Union, "let us make a clean sweep of them." This proposition was received with thunderous applause. Another plank in the program of the Union declares for preferential trade between all parts of the British Empire. This program obtains, besides the unanimous adhesion of the Conservatives, the growing support of the Liberals.

The circular of the Right Hon. Jos. Chamberlain, Secretary of the Colonies, to the Governors of the various British Colonies, has raised the question of an Imperial solverein into the sphere of the immediate practical politics. The Statist argues that such a solverein is improbable unless the colonies consent to absolute free trade with the Mother Country.

But the tone of the Conservative and some of the Liberal papers tends to the acceptance of the resolution adopted by the late Intercolonial Conference at Ottawa, which declared in favor of granting to Great Britain only a preferential tariff over foreign countries.

It is expected that an international conference of the Irish parties will be arranged to be held in Dublin in April. The anti-Parnellites, who are projecting the conference, desire that all sections be represented, including the extremists. It is recognized that if the conference aims at anything practical, all the delegates must promise to accept the decisions of the majority. Unless the projectors find that the meeting is likely to result in some uniformity of policy the conference will not be convened. When some basis of the agreement is obtained Mr. Justin McCarthy, the leader of the anti-Parnellites, proposes to retire from the leadership, leaving it to the conference to select a new chief.

Mr. John Dillon will start to-day from Rome, where he has been spending part of his honeymoon. He is returning home to assist in the deliberations of the International Conference. If the hopes of earnest Nationalists are realised the conference will put an end to the factionalism now prevailing, and no personal jealousies will be allowed to debar a reunion. In speaking of the leadership, it can be said that many of the anti-Parnellites would not hesitate to accept Mr. William Redmond, the Parnellite leader, who is admitted to be one of the best speakers and most capable politicians belonging to the Irish parliamentary party. Mr. Thomas Sexton would be preferred as the ablest parliamentary tactician, as well as the greatest Irish orator in the House of Commons, but unless the conference should give him an almost unanimous vote he will not be likely to accept.

THE PROTECTION MOVEMENT.

An Apparently Widespread Agitation in the Tory Party for a Return to Protective Tariffs.

New York, Dec. 15.—London special cable to The World: The really living feature of English domestic politics at the present moment is the apparently widespread movement within the Tory party in favor of a return to protective tariffs, as the only effectual method of restoring prosperity to agriculture.

For some years a certain section of the Tories has been coquetting with protective—or, as they call it, "Fair trade"—propositions, but the leaders have scouted any modification of the English free trade policy as beyond the range of practical politics.

But during the past week, when, owing to the great Christmas cattle show, numbers of representative agriculturists from all parts of the country were in London, the Ministers received a series of deputations whose mission was to invite the imposition of protective tariffs on various articles of agricultural produce, such as barley and hops.

The only Minister who expressed approval of any of these proposals was Walter Long, the Minister of Agriculture, who promised to introduce legislation during the next session of Parliament prohibiting the importation of live sheep. It is true that he defended this measure on the ground that it was only intended to stamp out disease, but the Radical papers have denounced it as being in its nature protectionist.

Lord Salisbury has been attacked in The St. James' Gazette, politically one of the most influential of the London Tory papers, for refusing his official countenance to fair trade suggestions and a speech he made in 1892, just before the general election, is quoted as showing him to be then in favor of placing a retaliating tariff on foreign [illegible]

The Duke and Duchess of York Have a Second Son.

London, Dec. 14.—The Duchess of York was delivered of a son at Sandringham Hall this morning. Mother and child are doing well.

While the joy bells were ringing today for the birth of a son to the Duke and Duchess of York, the Queen, Princess Beatrice and Prince of Wales and his family and all the other members of the Royal Family, with the exception of the Duke of York and the Duke and Duchess of Teck, attended the annual services at the Frogmore Mausoleum in memory of the Prince Consort, who died 34 years ago to-day, and Princess Alice, second daughter of the Queen and wife of the Grand Duke of Hesse, who died 17 years ago to-day.

The Queen will go to Osborne House, her residence on the Isle of Wight, on Tuesday. The present has been the greatest guest period at Windsor Castle for years. There has been a constant succession of entertainments at the Castle, at which the Queen unfailingly appeared.

Maltine With Cod Liver Oil and Hypophosphites for Throat and Lung Diseases.

Perfectly well established is the value of cod liver oil in all various diseases of the air passages, and combined with Maltine and hypophosphites, its remedial value is vastly enhanced. In the elegant and palatable preparation, Maltine with Cod Liver Oil, are combined the valuable tissue building oil, and that sustainer of vitality and digestive, maltine. No emulsion can compare in remedial value with this preparation, for in addition to disguising the unpleasant taste of the oil and rendering it more easily digested, the maltine plays a most important part in maintaining adequately the process of nutrition so essential in wasting and pulmonary diseases. This it does by rendering the starchy foods in a form which assures its assimilation, with the result that emaciation gives way speedily to plumpness, the irritated bronchial tubes are soothed, rest grows natural and health becomes an assured fact. Maltine with Cod Liver Oil and Hypophosphites is a food medicine and digestive.

Hayward's Insurance Money.

Minneapolis, Dec. 14.—W. W. Hayward, father of Harry Hayward, has relinquished all claim to the $10,000 insurance on Catherine Ging's life, which was assigned to him by his son. The action is taken as an admission that Mr. Hayward, sr., is convinced of his son's guilt. Julia Ging, sister of the murdered woman, has made a claim for the insurance money, but the insurance people will probably contest payment on the ground that policies were assigned to Hayward.

Proposes to Make Short Work of It.

Hood's is Wonderful.

No less than wonderful are the cures accomplished by Hood's Sarsaparilla, even after other preparations and physicians prescriptions have failed. The reason, however is simple. The second of the monthly communicants' classes will be held in the school house on Friday evening next. This class will partake of the nature of a preparatory service for the Christmas communion. The class will commence at 8 instead of 7.30 p.m.

Christmas Greetings.

In another week the great festival of Christmas will be here, and between now and then people will naturally think of buying presents for their friends. Now, Mr. Chas. Legros, the live George street tobacco and cigar dealer, realizing that money is very scarce, has put everything in the line of cigars and pipes down to cost, and when he says cost, he means at a less price than other local dealers can buy them for. He imports all his goods direct, and saves the wholesaler's profit. A few of the snaps which he offers are to be seen in his window, and the other local dealers have to acknowledge that he has the finest lot of pipes in Canada, all of B.B.B. manufacture. In cigars, his imported cigars are of the finest, and this is evidenced by the testimony of the best people of the town who smoke them. His brands are—Diazy, Garcia, Manual Garcia, Por Loeanza and Jos. Morales. Call and see him and you will be astonished at the prices and quality of his pipes, cigars and smokers' sundries. ALIVE C. LEGROS, 339 George street.

A CROWD OF WANDERING VAGRANTS.

They are a Great Nuisance to the North Enders and are Camped at the Waterworks Station.

Crowds of citizens went out to the Arabian encampment just across the river from the waterworks pump house yesterday.

There are about a dozen families in camp possessing a waggon each and in this the father, mother and from two to eight children reside. They are the filthiest lot of mortals that can be imagined and the stench from the camp ascends to high heaven.

A concert was given yesterday when the children sang the Marsellaise and After the Ball. A dog and bear fight followed and 'a couple of monks did the flip,' as one of the spectators expressed it. The hat was then passed round and the children went amongst the crowd begging for everything and anything. All the youngsters as well as the women and men smoked and a more degrading sight can not be conjured up than a visit to the camp will reveal.

Just how the members of the travelling caravans live is a question. Throughout the day the upper portion of the town is greatly harassed by them calling at the doors, day after day, begging and giving impudence if they do not get what they ask for. Our active County Constabulary should have been after them long ago and escorted them over the borders of Peterborough County, but probably the recent experience with the tramps at Curtis' Cut is still too strong in the memory of the constables to allow them to run any more such chances.

THE OVERCOAT RECOVERED.

It was Taken by a Passenger Getting Off at Claremont.

Mr. W. A. Taprell, the traveller for Mulholland & Co., of Toronto, who lost his overcoat on the train the other day, has written to the chief to say that he has recovered it at Claremont.

At first it was thought that the coat had been stolen in Peterborough, as a man had been seen walking on the platform wearing one much too long for him. This man was traced by the local police, but established his claim of ownership to their satisfaction, although the coincidence was most remarkable.

Chief Roszel afterwards had a talk with the conductor who was in charge of the train on which Taprell was a passenger, when the coat was stolen and learned that a passenger had gotten off at Claremont on the night in question. As Mr. Taprell had gone into the smoker just before Claremont was reached, it was thought that this man should be seen particularly, as he was so anxious to get off that he announced to the conductor his intention of jumping if he did not stop the train, on account of Claremont being only a flag station.

Mr. Taprell went back to Claremont and to-day the Chief received a letter from him saying that he had recovered the coat at that point without any trouble.

Singers, public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find, in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. A timely dose of this preparation has prevented many a throat trouble.

Lewis Morrison—"Faust."

At the Opera House to-morrow night Mr. Lewis Morrison and his powerful dramatic company will produce his elaborate scenic and dramatic version of "Faust." The piece will be mounted with magnificent scenic embellishments. Startling scenes, that makes the poor miserable mortal feel his weakness, when compared to the power of the immortal, come in quick succession. For this reason Mr. Morrison's "Faust" is a worthy moral lesson as well as a gorgeous production of dramatic and scenic art. In obtaining the fine scenic effects the power of electricty is taken advantage of. There are many electric surprises and mechanical novelties making it as a whole one of the most elaborate and brilliant productions ever witnessed. Mr. Morrison's physique is perfectly fitted to "Mephisto." His face is handsome or fiendish, as he chooses to make it. His "Mephisto" may be said to be a revelation. It certainly is wonderful. The production here will be complete in every detail, and the original New York company will be seen.

THOSE ORANGE RESOLUTIONS.

Manufactured Orange Congratulations.

The EXAMINER has been asked to print the following letter in reference to a paragraph that appeared in an evening contemporary, representing that at "a largely attended meeting of Sir Mackenzie Bowell' Orange friends" resolutions congratulating Sir Mackenzie Bowell on the election of his candidate in North Ontario, were "moved and carried amidst great applause."

To the Editor of the Examiner:

DEAR SIR,—We notice an item in the Review of the 13th inst. setting forth that "a largely attended meeting of Sir McKenzie Bowell's Orange friends in Peterborough," met and organized and passed resolutions congratulating Bro. Bowell on the success of his candidate in North Ontario, etc. We also notice there were four present on that auspicious occasion, only one of whom is now an active Orangeman. In order further to be able to say that the names of all who were there were not published, they evidently withheld the name of Bro. C. W. Sawers, the writer of the said resolutions, who doubtless was also present, as the "largely attended meeting" was held at his solicitation in his office and doubtless with the object of advancing his personal interests with the government.

Now of course we have no objections to citizens meeting and resolving as much as they choose, but when this is done in the name of an institution, of which the local executive is not in any way advised, and thus endeavouring to create false impressions that the Orange body here were in sympathy with Sir Mackenzie Bowell in his endeavour to coerce Manitoba, then we think it is time to repudiate the actions of such time-serving Orangemen.

Although his name is carefully concealed, we have it on the authority of one of their number that Bro Sawers is the author of these resolutions, and this, like his every other act in connection with our Order, is calculated to create discord and contention within our ranks, and if the Orange Sentinel has the interests of the Order at heart it will refuse to publish anything that emanates from him directly or indirectly.

Thanking you, Mr. Editor, for the opportunity and space to remove a false impression, we remain,

Yours truly,
EDWARD KEMP,
County Master.
H. S. ARMSTRONG,
District Master.

Peterborough, 14th Dec., 1895.

[When it is known, as stated above, that Mr. C. W. Sawers is concoctor of the resolutions of congratulation local estimation of their weight and importance can at once be made. It is not at all like Mr. Sawers' modesty that he should have withheld his name as one of those present in the report he furnished the press. This modesty doubtless arose from the consideration that his name would have utterly destroyed any weight which it was vainly hoped would attach to the series of concocted resolutions, which after all bear their buncombe nature on the face of them. We are not called upon to defend the Orange society, but it would have been remarkable if any self-respecting Orangemen of influence could have so far forgotten their oath and the attitude of their Order in the matter of Separate Schools, to adopt a resolution congratulating on his candidate's success, the Premier of a government pledged to enact legislation forcing Separate Schools upon Manitoba. The little coterie of peelers assembled in a lawyer's office have been often known in Ontario elections to denounce with the wildest license of language, the Ontario government for enacting a few amendments to the Separate School Act to make it a better educational enactment, who foamed at the mouth with loyal indignation over "Scripture Readings." And now they think it an indication of loyalty to the principles their Order professes, to not only view with complacency but with congratulatory glee, the success of a government which is determined to saddle Separate Schools on a sister province. But the public have long since ceased to look for consistency from such a quarter, and if Orangemen will forget their principles and sympathies to help an Orangeman-for-revenue, to gain a government office, then the order must sink all claims to consistency and loyalty to Orange tradition shown, as Dalton McCarthy says, by "flaunting your banners and insulting your Catholic fellow-citizens on the 12th of July." It is the inconsistency of a few Orangemen in this case that it is desired to point out. In one case Separate schools for Manitoba, enacted by a Conservative Government, are something to be gloated over; but when the Ontario Government desired to improve by legislation an important part of our educational system, the bayonet must be unsheathed and the Battle of the Boyne fought over again. Consistency doesn't seem to be a very brilliant jewel in the regalia of some of our local Orangemen.

THE TRIGGER.

There will be a turkey shoot in Peterborough on Christmas day and a large number of turkeys and geese have been purchased for the event. The arrangements are not yet completed, but it is probable that the gunners as well as the riflemen will have a chance to enter the contest. A special prize will be offered for a "green shoot" in which a number of well know young marksmen will compete.

355 GEORGE STREET.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Lansdowne Lodge meets to-night.

—Statutory meetings of the town and village councils this evening.

—There was a very large crowd at the rink Saturday evening.

—The skating on the Little Lake is good just opposite the C.P.R. station.

—Mr. Timothy Cavanaugh shipped 21 horses to Montreal on Saturday night.

—The thaw is playing havoc with the sleighing. If it keeps up much longer we will have a green Christmas.

—For a nice assortment of pipes and cigars try Morgan. He is the only dealer in town that handles the real Sir Robert Peel Cigar. 436 George street.

—Express agents say that Christmas gifts are beginning to move, parties having friends at a distance being compelled to ship early in order that their offerings may reach their destinations in time.

—There was a great run on the liverymen yesterday and rigs could not be gotten for love or money after one o'clock in the afternoon unless previously engaged. The day was a beautiful one for driving.

—A number of the Finlanders who have been employed on the canal at Kirkfield will be given their "walking tickets" this evening. Only a small number of men will be kept employed on the works during the winter.—Lindsay Post.

—A most perfect production entaining several startling scenic effects is promised in the production of "Jack Harkaway," a romantic, historical spectacle which will be presented at the opera house to-night.

—It would be a Christian and charitable act if, instead of throwing ashes in the back yard when they empty the ash pan in the morning, the citizens would scatter them on the sidewalk in front of their residences and thus save the downfall of many a man. The strewing of sand on George street is a good idea.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves in newest styles for all occasions.

—The Otonabee Flouring Mills Company, Ashburnham, are having their store-house raised so that the shipping floor will be on a level with the door of a box car, when shunted on the railway siding alongside. This will greatly facilitate both the loading and unloading of cars. The work is nearing completion.

—"Jack Harkaway, a scenic, melodrama, will be presented at the Opera House to-night with Mr. Theodore Babcock, the eminent romantic actor in the title role of "Jack." The scenic portion of this play is said to be of the most realistic. The scenes are purely historical.

—Mr. Harry Calcutt is having placed in his brewery, Ashburnham, under the supervision of Engineers Payne and Young, several "Donkey" pumps for the conveying of spring water from the numerous artesian wells to the vats used in the brewery. Mr. Calcutt has deemed it necessary that this addition should be made in order to fill his numerous orders.

—A chance to earn $250 is in the offer of reward made for the information that will lead to the arrest of John O'Neil, who absconded from Providence, R.I., a few days ago. The local police are notified that he is about 5 ft. 8 in. tall and weighs 160 lbs. He is an Englishman from Manchester and was treasurer of a shoe company. He is about thirty years of age.

PERSONAL.

Mr. Richard Ray is back from the Northwest on a visit.

Mr. George Morrow is spending a day or so with friends in North Toronto.

Mr. "Rob." Shaw, of New York, is spending a few days in town with friends.

Mr. Ernie Goldsmith has returned from Belleville where he spent last week visiting relatives.

Mr. Herbert Hall returned from McGill University, Montreal, on Saturday, for his Christmas holidays.

Messrs. George Stenson and George Edmison are home from the Ontario College of Pharmacy, Toronto, for their holidays.

Mr. Dickson Hall leaves on Saturday next for Europe, where he will attend to the spring buying for the firm of Hall, Gilchrist & Co.

Mr. James McCreary, Walton street, left this morning for Morrisburgh, in answer to a telegram announcing the serious illness at that place of her mother, Mrs. Graham.

The Essex Free Press contains a report of an address and presentation to Rev. Mr. and Mrs. Saunders, of Chicago, who have been visiting in Essex recently. Rev. Mrs. Saunders, a daughter of Rev. W. H. Shaw, of Cottam, and a sister of Mr. W. A. Shaw, town, is a regularly ordained minister of the Methodist church in Illinois, and she and her husband have been assisting Rev. Mr. Shaw in religious work for some time in Essex, in recognition of which the address and presentation were made.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P. O Box 55, Jarvis, Ont.

YOUNG PEOPLE'S CONVENTION.

Annual Meeting of the Peterborough Association of B.Y.P.U. of O.B.

The annual meeting of the Peterborough Association of the Baptist Young People's Union of Christian Endeavour, will be held in Port Hope to-morrow for the submission of reports and the election of officers:—

The local churches will be represented as follows:

Murray street—Rev. J. E. Trotter, Mr. E. A. Stanley, Mr. Louis Croly, Miss Mary Stratton, Miss Croly and Miss Perry.

Park street—Mr. A. L. Grover, Mr. Plummer, Miss Hunt, Mr. Geo. Benton, Miss Pilling and Miss M. E. Mann.

CHURCH CHIMES.

The collection last evening in the George street church was for the augumentation of the Trust Fund.

A collection in aid of the Widows and Orphans fund was taken up in St. Paul's church yesterday morning.

Miss Hendren took the solo in the anthem, "Seek ye the Lord," most acceptably last night in the Charlotte street church.

The anthem entitled "The Eyes of all Shall Look Upon Thee," by E. Clair, was exceptionally well rendered by the George street church choir last evening.

Miss Dickson has been elected president of the St. Paul's Auxiliary of the W. F. M. S., and not Mrs. A. G. Dickson, as stated in Saturday's EXAMINER.

The anthem, "Oh How Beautiful," was rendered in perfect harmony by St. Paul's choir yesterday morning. The accurate phrasing and shading was particularly noticeable.

Miss Maggie Fowler took the contralto solo most acceptably in the anthem "Hark Hark! My Soul," in St. Andrew's last night. The obligato was taken by Mrs. Jones with good effect.

The members of St. Andrew's choir reflected great credit upon themselves last evening in the rendition of the anthem "Praise the Lord." The attack and phrasing were very cleverly effected.

Rev. Mr. Graham, of Newfoundland, lectures in St. Paul's church Wednesday evening. As he is possessed of great oratorical powers and a grand command of language his audience should be a large one.

Two anthems were exceptionally well rendered in St. Andrew's church yesterday morning. Mrs. Jones took the solo parts in "Rock of Ages" and the vocalization in "The Lord is my Shepherd" was perfect.

A male quartette, composed of Messrs. Alf. and John Miller, E. Parsons and W. J. Squires, delighted the congregation of the Charlotte street church last evening by their rendering of "Christ Receiveth Sinful Men."

"How Beautiful upon the Mountains," was the title of the well-rendered anthem at the Charlotte street Methodist church yesterday morning. During the offertory Miss Hendren sang "If I were a Voice," in a most effective manner.

During the offertory in the George street church last evening the quartette "Peace be Still," by Danks, was rendered in a most pleasing manner by Mrs. Seward, Mrs. Kerneghan, Mr. Wilbur Daly and Albert Turner, their voices blending most harmoniously together.

Messrs. C. C. Dalton and T. G. Williamson have been elected Tankard Skips of the Toronto Granites. These two old curlers won the tankard three times, but last year retired to give some of the younger skips a chance. The tankard was not won and in consequence the old skips are nominated to go after it this year. Both are well-known in Peterborough.

Dangerous.

We often see this sign on roads or streets.

Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be poison in the blood, for these are the certain signs.

To the fact that poisons get past the kidneys may be traced every sickness to which you are liable.

Treat the kidneys forthwith and first of all.

It is the safe and proper thing every time; therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatment of kidney diseases on earth.

Can't you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney Pills keeps on curing these diseases.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet. There has been overwork and sleepless nights. The machinery of the whole system is demoralized. A business man feels that he cannot afford to be ill enough to quit work. He drags along day after day, makes bad deals, says the wrong thing, and health and business collapse together. There's no need of either disaster. Dr. Pierce's Pleasant Pellets are a gentle, effective renovator of both stomach and bowels. They assist nature without threatening to tear the body piece-meal. There are no griping pains, no nausea. One is a barely perceptible laxative. Two give more noticable results, and they may be continued until the system is throughly renovated, strengthened, and put into harmony with nature. One need not fear a "habit" of taking the "Pleasant Pellets." As soon as health is restored they may be discarded without a return of illness because of their absence. Therefore, you don't become a slave to their use.

A GREAT BOOK FREE.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million *free*. As this number of copies has already been sold, he is now distributing, *absolutely free*, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at the above address, thirty-one (31) cents in one-cent stamps to cover customs and mailing *only* and the book will be sent post-paid. It is a veritable medical library, complete in one volume. It contains over 1000 pages and more than 300 illustrations. The *Free Edition* is precisely the same as those sold at $1.50 except only that the books are bound in strong manilla paper covers instead of cloth. Send now before all are given away.

A MIDNIGHT SKATE;

Or All's Well That Ends Well—A Christmas Tale.

"Are you quite sure you will not dine at Greystone this evening?" said Arthur Hyde, Esq., of Clere Park, as he grounded his gun and sat down upon an ash-stole.

"Quite sure," replied his friend and guest, Charles Martel, lieutenant in a line regiment; and brushing away the thin crust of snow which had lodged upon a fallen trunk, he also sat down.

Though both young men, they appeared to possess strongly marked and very divergent characters.

Hyde, the owner of the fair domain over which they had been shooting pheasants, was about the average height, fair, with deep-blue eyes, and an honest, open, Saxon face, incapable of deceit or concealment, but also incapable of heroic effort, though perhaps equal to deep and sustained affection. Martel was very tall, but hardly looked his height, being unusually developed about the chest and shoulders. His grey eye, keener features, and curling chestnut hair and beard conveyed the impression of a daring nature, not too readily subservient to the trammels of society.

"No," he continued, "I shall not go to Greystone. Sir William looks upon me with the suspicion naturally felt by a wealthy uncle with a beautiful ward towards a scamp of a soldier who has nothing but his sword."

"I came out without a keeper because I thought we could talk more freely," said Hyde, in a hesitating and doubtful tone. "There is something I want to say to you, Charley, but—well—I—I—"

"Nonsense! You will not offend me?"

"Well, then, tell me, is there no other reason why you will not accompany me to Greystone?" He cocked and uncocked his gun nervously. "There, it must out—has anything passed between you and Ida?"

"On my honor, no," replied Martel very earnestly.

Arthur Hyde placed his hand on his friend's shoulder, and gazed anxiously into his eyes to read the truth there.

"Thank Heaven!" he muttered. "I was afraid. But never mind; the sun is sinking, let us return."

They walked silently along the green "drive" through the wood of bare ash poles. Hyde, absorbed in thought, did not see the almost pitying glance at Martel.

"He loves her," said the soldier to himself, "and she—I am ashamed of it—she loves me. Shall I tell him of our meeting under the oak? No, it would make him miserable; and why? I undeceived her. A fellow feels confoundedly awkward when a girl he cares not a snap for will follow him; it makes him feel like a puppy. However, I'll forget it. I wonder if Florry will manage to slip out to-night. Arthur" (this aloud) "what time does the moon rise—you're a farmer, you know?"

Methodical Arthur consulted the almanac in his pocket-book.

"Last quarter—eleven-thirty," he said.

"I may go out and shoot a wild duck," said Martel, explaining. "Don't be surprised if I'm not in when you return."

It was rather a slow solemn dinner at Greystone that evening, notwithstanding the beauty that adorned the table. Sir William Greystone's two nieces, Ida Swayne and Florence Greystone, were each gems in their particular style. Both of the same height and figure, there was a general family likeness between them, but only at first sight, Ida having coal-black hair and blue eyes and pale clear complexion; Florence, beautiful golden tresses of great length, gray eyes, a rosier complexion and lively manner. Ida was more calm and sedate—"still waters run deep." Arthur Hyde sat between them, lighter at heart than he had been for many a day, for he fancied there was an understanding between Ida and Martel. Though his heart was full of Ida his conversation was with Florence—as it often happens—and she asked after Martel.

"He has just had a chance of freeing his little estate from encumbrances," said Hyde; "but it requires about two thousand pounds, and he will not let me lend him the money."

"Foolish fellow," said Sir William. "It is ridiculous to despise money. What is it, Mark?"

The butler replied that Mr. Johnson, one of Sir William's chief tenants, was waiting in the library to pay his rent.

"Excuse me," said Sir William, rising. "We have finished, and I always make a practice of receiving my rents myself. Johnson has been behind-hand lately. He owes me a round sum."

Lady Greystone, who was a nonentity, led the way to the drawing-room. Ida was a splendid musician. Florence sang sweetly, but made no pretence to excel. She admitted her bad taste—she preferred so simple a ballad as "Annie Laurie" to the opera airs.

Sir William presently came in, and ostentatiously spread bank notes for 2,000l. upon a card table.

"I don't like keeping so much in my bureau," said he, "but there is no help for it to-night. I really must get a safe. There are your dividends too, Florry, just come in."

Finding no one admired his riches, Sir William gathered the notes together and departed. Hyde, though really a good fellow, was not brilliant at entertaining people; after a while a perceptible dulness began to prevail and, failing to improve matters, he left.

At eleven the household retired.

The beautiful cousins, though friendly, were not affectionate; perhaps Ida, being portionless, envied Florence, who, if she married with her guardian's approval, would have 35,000l. They did not visit each other in their private rooms.

Florence quickly got rid of her maid North, and slipped the bolt of her door. She then partially drew up the Venetian blind of her boudoir window, and looked out upon the frozen lake below. Greystone House had been a priory, and one wing—the remains of the monastic building—rose up from the very edge of a broad, shallow mere. There had been a watergate or postern, now a small boat house, and a stone staircase led from this to a passage, one end of which opened into the boudoir. It had been Florence's fancy to choose these rooms. Sir William said they would be cold, but Florence was wilful, so he had double baize doors put up in the passage. He loved her in his way, and humored her every wish. Had it not been for his avarice, or rather reverence for his money, Sir William would have been loved by many.

Florence placed her candle so as to show a light out upon the ice below. Then she took from the mantelpiece what had once been the upper arched part of a small window of stained glass in the old chapel, now preserved as a relic of antiquity, and held it before the flame. The red glass colored the light; and in a few moments there was a sound under the window like the cry of the owl. She instantly removed the stained glass, dropped the Venetian blind, and, hastily putting on her hat and fur jacket opened the double baize doors, and stepped down the narrow, dark staircase and out upon the ice. Not exactly out upon the ice either, but into the strong arms of Charley Martel, who lifted her up as if she had been a child, and covered her face with kisses. She got away from him at last, but not very far, you may be sure.

"I mustn't stop long" she said. "We shall certainly be caught. I do feel, O, so wicked."

"Why not come with me altogether?" said Charley; and he began to persuade her to elope with him.

"But if I did, uncle would never forgive me. He would never let me have my money, and I should be a burden to you. Wait a year or two."

"I've half a mind," said Charley, catching her up again, and making as if he would carry her off bodily. "I wish I had brought some skates. I will to-morrow night, and—and—"

"What's that?" said Florence in great alarm.

"I did not hear anything."

"I am sure a shadow went across my blind. Hush—let me go."

"To-morrow night at this time, then—"

"Yes—yes. Only do let me go!"

She darted inside the postern-gate, shut it and ran up the stone steps. As she opened the first of the double doors at the top of the stairs she distinctly heard a rustling sound, and paused. Anxiety and curiosity got the better of prudence—she pushed the second door open slightly, and peeped into the passage. Her candle in the boudoir cast a dim light into the passage, and she saw a shadowy figure glide towards her. Amazement more than fear held her spell-bound, for she saw herself!

"It was her own figure—her "wraith"—clad in her dressing gown, with her long golden hair floating over her shoulders, her eyes half shut as if half asleep, and countenance extremely pale.

Florence turned giddy, her hold of the door relaxed, and it shut itself. She leant for a moment against the wall, her heart seemed to have stopped beating. All the old stories she had read of wraiths, all the legends of the house itself of the apparitions of monks and nuns that had been seen, flashed across her mind. Yet she did not faint nor cry out. Afterwards she attributed this to the ruling idea in her mind at the time, which was to keep her meeting with Charley secret.

The fascination of terror was upon her. She pushed open the door—the passage was empty. She glanced into the boudoir—nothing there. Suddenly she remembered that out of the passage a door led to the landing—she opened it. There was a lamp on a ledge in the landing, but its light was feeble and uncertain. She again distinctly saw her own figure—the back this time—gliding without sound along the wall in the shadow. As she looked it vanished.

She rushed back to her room and buried her face in her pillow, to smother the scream that forced itself from her lips. Florence could never remember distinctly, but it is probable that she became unconscious, and afterwards slept in her dress. She was awakened by a knocking at the door, and rose with a start to meet the broad daylight.

"It's me, if you please," said the voice of her maid North.

Florence opened the door. The maid could not repress a start of surprise.

"You are ill," she said, glancing at the bed, which had obviously been slept on, and not in. "You look dreadfully pale."

Florence did indeed feel ill, and at last consented to undress and return to bed, but begged North not to alarm the house.

"Say I have a headache; and bring me some strong tea."

While North went to get the tea she tried to think over the apparition she had seen; but could not understand it. One thing only was clear—it must be kept secret.

"Goodness, miss," cried the maid, bursting in, in utter opposition to her usually quiet manner, "the house have been robbed! Sir William he be frantic—the two thousand pounds is gone!"

Florence sat up. "How extraordinary!" she said.

"Not at all extraordinary, miss," said a stern voice, and Sir William entered the room. "You can go," (addressing the maid, and bolting the door after her). "Now, where were you last night?"

Florence flushed scarlet, and afterwards turned pale as death, but made no answer.

"I will tell you," said Sir William, in a hard, uncompromising tone. "You visited my bureau and stole £2,000; no denials—the butler saw you as you left my study. And why did you steal it? I can tell you

Nervous Prostration.

Cured effectually by Scott's Sarsaparilla.

His heart was affected.

"Overwork as a student at college brought on an attack of nervous prostration," says Mr. Gilbert, a railway missionary. "I was exceedingly nervous and if I exerted myself my heart commenced to flutter violently, and I was warned that even ordinary exercise endangered my life. But thanks to Scott's Sarsaparilla I feel better than I ever expected to feel, for I can now address a meeting without effort, can walk a brisk pace for two hours or more without exhaustion and am free from that distressing palpitation. In my work I have oftentime recommended Scott's Sarsaparilla, and have seen many cases where its effects have been most marked."

Scott's Sarsaparilla acts like magic in restoring shattered nerves because it rebuilds the nerve centres. Nervous headache, nervous dyspepsia and all nerve derangements wear on the system. Scott's Sarsaparilla makes new blood and muscles and strong nerves. Of all druggists, $1 per bottle. Dose from half to one teaspoonful.

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

A MIDNIGHT SKATE.

Continued from Sixth Page.

that also; you dropped these letters. Florence uttered a cry of alarm as she saw two of Charley's notes which she thought safe in her desk. "They explain the reason—your paramour wanted the money. Hush! Do not add lying to thieving. You have not got the notes, indeed! I shall search your room."

He did so, Florence protesting, but quite borne down by his violence, and unable to prove that she was not near the bureau at that time by calling Charley as a witness. He left the room, threatening to send the police after that scoundrel Martel, who had no doubt got the notes.

What was the poor girl to do? Ill, frightened, exhausted, she lay still while endeavoring to shape a course. In half an hour Sir William returned.

"You may thank your cousin Ida," he said, "she has persuaded me not to trace the notes. I shall send you to-morrow to Edinburgh to your aunt's. As for Mr. Lieutenant, I will make his mess too hot to hold him."

Her very maid, to whom she had been so kind, would not believe her most earnest declarations of innocence; had she not found her still undressed in the morning, pale and ill—conclusive proofs of guilt? Lady Greystone visited her once in the course of the day, and left her a tract. She rose towards the afternoon and her dinner was brought to her in her boudoir. Doubtless it was foolish in the extreme, but Florence's one hope was in Charley's coming that night upon the ice. A little snow fell, and she dreaded lest it should be thick; but the wind rose, and it cleared again. The maid wished to stay with her, but this she refused.

At half-past eleven she displayed the well-known signal, and in a few minutes it was responded to. Sobbing upon his strong shoulder in that dark archway, she told him an incoherent tale of harsh usage and cruel wrong. Hardly knowing how, she felt skates upon her feet—Charley had said the night previous that he would bring them, and they could have a race round the lake before the moon rose; and leaning upon his arm she glided out into the starlit night.

It was very foolish and very wrong of Charley, doubtless; but consider his fierce love, and still fiercer indignation. To do him justice, had he thoroughly understood the shameful suspicions that had been cast upon him, he would have faced Sir William and insisted upon having the matter sifted to the bottom. But all he knew was that his darling had been wronged, and that she was in his arms. The very physical strength of the man seemed to rise up within and bear him onward.

Florence was a skilful skater—she had learnt upon the rinks—and they were speedily some distance from the mansion, and at the opposite bank of the lake. Charley lifted her in his arms, carried her up the bank and set her feet again on a broad, frozen canal, which the lake partly fed. Her nature, her whole will succumbed to the sense of power which she felt in his presence.

Swiftly, under the Aurora borealis, they sped eastward upon the ringing skates. On the left, the bright white streamers shot up almost to the zenith; in front, a low bank of clouds was lighting up with the rising moon. The wild fowl whistled over them; the calm planet Jupiter looked down in serene splendor. The exercise sent the warm blood coursing through her veins; the wild scene, their racing speed, roused up the innate love of adventure in her heart. When she tired she placed her feet together, and he drew her along almost as quickly. In little more than half an hour they had covered twelve miles; the locks retarded them, but the wind assisted. At the bridge Charley took off her skates; the lights of a large town glittered close at hand, and the red signal-lamps showed a railway.

Charley had timed himself well for the midnight mail to London; he fed the guard, and they had a compartment to themselves. Excited as she was, tired nature could not be resisted—towards the gray dawn Florence slept in his arms, and only woke up at London. As they stepped from the train and looked round for a cab a knot of three gentlemanly men quietly approached and tapped Charley on the shoulder. The telegraph had anticipated them; they were arrested by detectives. So well had the thing been managed that actually an apartment at an hotel had been reserved for Florence; Charley was marched off and placed in durance vile.

Calling at Greystone next morning about eleven, Arthur Hyde found everything in disorder. Sir William had left by the first train for London; and he had to hear the history of the stolen £2,000 and the elopement upon the ice, which North, the maid, being suspicious and watchful, had discovered—the thin snow bore the tracks of the skates. While he listened in amazement came a telegram:

"I am getting a warrant for Martel; to-night he will be in Newgate. He stubbornly denies. Florence ill."

At this Ida left the room, apparently agitated.

"Follow her," said Lady Greystone, "she feels deeply for poor Florry."

Arthur overtook her in the library; perhaps it was the excitement of the moment strung up his courage—the words to ask her if she could love him trembled on his lips, when suddenly she threw herself at his feet, and grasping his knees begged him to forgive and aid her. Utterly confounded, Arthur listened to her confession. Wild with love for Martel, and jealous of Florence, whom she knew he worshipped, Ida had herself stolen the bank-notes, in the character of Florence, contriving so that the butler should see her returning. A clever actress in amateur theatricals, and not unlike Florence, all she had to do was to hide her dark hair with false golden tresses, and keep her eyes half closed. Aware of Florry's secret meetings with Charley, she had seized that moment to enter the boudoir and take Florry's letters, assisted by skeleton keys which had been used in an acting charade. As a proof of what she stated she placed the bank notes in Arthur's hands. When the matter had blown over she intended to have cleared Martel's little property with the money. She had never anticipated the turn things would take, and that he would be suspected of abetting the theft. Her idea had been to separate the lovers, not to drive them away together, by the appearance of Florry's guilt.

Arthur lifted her from the carpet. Hurt as he was, there was a noble grain of knightly chivalry and love in his character.

"I forgive you," he said; and in a lower voice, "I love you still."

Ida burst into a flood of tears.

He left her to telegraph to Sir William; and afterwards went to London by a special train, sparing no expense. That evening Charley was released, and Florence relieved from the suspicion which had been cast upon her.

Sir William was all penitence to Florence and Charley.

"It was my fault," he said; "I drove you to—to—well, to run away. I will make amends, if you will forgive me. Mr. Martell, you will come with us as my niece's affianced husband. As for that bad wicked hussy——"

"Hush," said Arthur Hyde. "Hush, sir, for my sake. After all she loved deeply" (with a gulp); "for my sake say no more." It is easy now to foresee the end. By St. Valentine's Day Charley and Florence were married, and she had her dowry. Charley has not resigned, but bids fair to rise high in his profession.

And Ida? Ida cannot but feel the generous warmth of a love like Arthur Hyde's, which, true and loyal under the most trying circumstances, is more hers now than ever. There are signs that before the May blossoms again a merry peal of bells will welcome a mistress to Arthur's home at Clere Park.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

THE PRINCIPLES OF ACHIEVEMENT.

THE SUBJECT OF A MOST INTERESTING ADDRESS.

It Was Delivered by Rev. Mr. Graham, of Newfoundland, in St. Paul's Church, Yesterday Morning—He Spoke in St. Andrew's at Night.

Rev. W. Graham, of St. Johns, Newfoundland, delivered two sermons in town yesterday. In the morning he spoke in St. Paul's and in the evening in St. Andrew's.

The object of Mr. Graham's trip through the Dominion is to solicit aid for the Presbyterian cause in Newfoundland, where at present it is labouring under great difficulties through all its educational institutions, and several of its churches being destroyed by the great conflagration there several years ago. The recent failure of the Newfoundland banking institutions has practically beggared the richest supporters of the church, and therefore Mr. Graham was delegated to present the state of affairs to the different congregations of the Dominion and ask their aid. He is preminently fitted for the task, being gifted with great eloquence and possessed of

A PERSONAL MAGNETISM

which holds the attention of his listeners to a remarkable degree. His arguments are direct and lucid and he has a way of driving them home which is most convincing. Those who had the pleasure of hearing Mr. Graham yesterday were greatly pleased and also benefitted by his discourses.

In the evening he spoke from II Samuel, 5th ch. 10th ver., "And David went on and grew great and the Lord of Hosts was with him." David was his subject and he spoke on the "principles of achievement" as exemplified in his character.

The object and tendency of all Scripture biographies, said he, is to arouse and foster moral feelings, as well as excite interest. Many other biographies excite interest but do not inspire the reader with great or grand thoughts through the perusal thereof. Hence the difference between biblical biographies and others.

All the principles of achievement may be found in the history of David's youth. The principles which enabled him to reach the greatness of being a man after God's own heart.

The first characteristic which is discerned in young David is his loving heart—we see it in his obedience to his parents and in many, many ways. Through it he won Samuel's heart and was

CHOSEN FROM AMONGST ALL

Jessie's household. The love which he put into his music stayed the wrath of Saul.

The result is always the same with love. It can achieve anything. Here we have the ground work of all true principle—not love of self but love of others. Love conquers, love keeps and love remembers.

Another foundation of David't character is found in his faith. The example concerning which is found in his great contest with Goliath. A look at the two would instantly reveal the fact that David must have had great faith in something to enter into battle with such a giant. Upon what his faith was founded is made plain through his words—"I come against thee in the name of the Living God."

Education is made the God in the present day. The populace says: "Oh let us be educated and everything will be well with us." But education is but the sling and the stone with which David was armed. Without the faith it will achieve nothing. By faith alone can true greatness be won.

Self control is another characteristic which is found in

DAVID'S CHEQUERED CAREER.

This is instanced when he refused to draw his sword against the Lord's anointed—when he refused to slay Saul. Everything urged him to do it and the struggle in his soul must have been great. It was the grandest victory he ever won.

How often do we read of men who have overturned every difficulty opposing them in the world, but were slaves to a passion in their own soul. It is a sad, sad story, but in many of our highest intellects there is a demon of darkness driving them into the awful depths of the outer gloom. Truly it is said that greater is he who controls his own spirit than he who conquers a city.

The nature of Daniel's ideal was to be worthy of the choice of the Lord when

HE WAS SELECTED

to be Saul's successor. This is generally called ambition and ambition is a worthy motive to foster. We cannot rise to any great achievements without it. The poets say that "ambition is the last motive," but it is a mistaken idea. Through it men have risen to sublime heights. If by ambition angels fell, by ambition men have risen. Ambition is a spirit to be cultivated, a spirit to be encouraged. It was put into our souls for a noble end. It is a sad thing when nothing of the kind exists. The hopeless case is where there is no craving for excellency in anything. Form your expectations, said he in conclusion, and stand firm to them.

In the evening Rev. Mr. Graham spoke on the "Grand Motto" to a very large congregation in St. Andrew's, composed of many who had heard his excellent discourse in the morning. On Wednesday evening he will lecture in St. Paul's on Newfoundland, where he will doubtless be greeted by a large audience. Any contributions for the relief of the church in Newfoundland will be gratefully accepted.

Purely Vegetable.

First the bud, then the blossom, then the fruit. These are the several stages of some of the first important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

Christmas Relishes.

This is the season of the year when everyone likes to have the best relishes on the table. Your choice of the following can be found at the Palace Grocery: Lea & Perrin's Worcestershire, Crosse & Blackwell's Mushroom Sauce, Royal Club Sauce for Steaks and Game, Canadian Chutney, Snyder's Catsup. Also McLaren's and Cream Cheese, and the finest brands of Pickles, and California Canned Goods.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The greatest auction the world has ever known took place the other day at Topeka, Kansas, when the entire system of the Atcheson, Topeka and Santa Fe railroad was offered to the highest cash bidder. Nothing was reserved of its 10,000 miles of track, its 2,000 locomotives, its thousands upon thousands of cars, its buildings, rights and franchises, which, considered together, reach the imperial value of $350,000,000. The property was purchased by a New York syndicate for $60,000,000.

or BLANKETS?

One dollar is'nt much to put in a blanket, but it will buy a $1.50 Blanket at Miss Rudkins'.

You can buy them cheaper still—as low as 80c, or as high as $7.00, with various good values in between.

We've a stock that these snappy mornings and evenings are making a hole in. But its a lucky thing that we could repeat our Blanket orders at the old price before wool went up.

Broken Lots of Underwear.

We are passing these along to our customers at the reduced price because the lines have been broken—the goods are as perfect as the day they left the mill, but the prices! Almost broken in two.

Don't ask the laundry to wash those poor shrunken undergarments any more—new Flannels are cheap enough here, goodness knows!

KIPPEL MANSLAUGHTER CASE.

Evidence for the Defence in the Trial of Miss Helen R. Findlay at Owen Sound.

Owen Sound, Ont., Dec. 16.—The manslaughter case of the Queen v. Helen R. Findlay was resumed this morning at 10 o'clock. The evidence for the defence of Doctors Lang, McCullough and Middlebro was mainly contradictory of the Crown. In cross-examination Mr. McKay elicited a number of admissions damaging to the defence.

Mrs. Rebecca Jane McNaughton, wife of the Rev. Mr. McNaughton, knew the boy George E. Green. She became acquainted with him one Sunday about the middle of July; she had made a friendly call on Miss Findlay, who was away, but found the boy sitting on the doorstep. She talked with him for some time. He appeared fairly dressed and clean. He was lame and cross-eyed.

Mrs. McNaughton was again at Miss Findlay's on the Sabbath on which the boy was lying dead in the house. The house did not appear so very bad. The body was laid out on a board and covered with a sheet, and was marked with sores and scabs.

Robert Boyd, a neighbor of Miss Findlay, knew the boy George E. Green. He met him first in June last, when he seemed delicate and to have no command over his feet. He stumbled when he walked. His clothing appeared good, and he looked cleanly enough. He saw him several times afterwards, and also when he lay dead in the room upstairs in Miss Findlay's house. Witness said the room was as clean as an ordinary farm house upstairs.

On cross-examination by Mr. McKay, witness admitted that two weeks and one day before he died the boy was at work on peas and oats, and appeared weaker and very delicate and stumbled more when he walked. He also said that the window was open and the room appeared to have been recently swept where the boy lay dead.

William Johnson, a stage driver between Owen Sound and Big Bay, said he first met the boy at an hotel in Owen Sound. He walked imperfectly He was fairly well dressed, had a leather valise, but was not able to handle it through weakness. He contradicted Mr. Davis, who said the boy jumped out of the rig.

Cross-examined by Mr. McKay, he said the only good thing he knew about him was his appetite, and admitted that the leather valise might be in a wooden-box trunk, which other witnesses said was all he had.

James Jeffrey, a blacksmith's apprentice at Kemble (and a Barnardo Home boy), met young Green at Kemble when he was going to Miss Findlay's on Johnson's stage. The only peculiarity he noticed then were his eyes. The boy looked healthy and strong, but appeared dull. He next saw him at Miss Findlay's about the end of September or the beginning of October. He was then dressed in duck pants and shirt, was bareheaded and barefooted. He was driving cows from one field to another. Witness cut his hair for him. The boy appeared thinner, but there were no marks on his head then. He sang two songs for witness after his hair was cut.

Cross-examined by Mr. McKay, witness flatly contradicted the former witness Johnson, as to Green's physical condition, and also as to his having a leather valise. He admitted he was thinner and not of as good color as when he first saw him. He was a polite and docile boy, and said he formerly had a brother at Miss Findlay's.

This afternoon Aylesworth, McLeod and several more witnesses were examined.

Miss Findlay went into the box herself. Her evidence was much the same as she gave in the preliminary trial, denying all evidence for the prosecution, saying she never beat the boy or ill-treated him, and that they swore falsely.

The Pearl of Great Price

To woman is beauty. Beauty the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds this charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath as fragrant as flowers.

CARDWELL BATTLE.

Mr. J. D. Edgar Addresses the Electors at Caledon.

THE POSITION OF MR. WILLOUGHBY

Shown Up in Right Pointed Style—He Endorsed Mr. White in His 1891 Pledge on the School Question—The Liberal Policy Explained

Caledon, Dec. 16.—The candidature of Mr. R. B. Henry, the Liberal standard-bearer in Cardwell, and which promises so well, was advanced by an altogether successful meeting in his behalf here to-night. Mr. Henry was present, and stated to the electors the grounds upon which he is appealing for their support. The feature of the evening was the speech which was made by Mr. J. D. Edgar, the representative of West Ontario in the House of Commons. Mr. Edgar stated the position of the Liberal leader and party upon the Manitoba school question, which has been so grossly misrepresented by Ministerial apologists during the last few weeks, and indulged in some very interesting reflections upon the result of the triangular fight in North Ontario. Mr. Louis F. Heyd, the well-known lawyer, delivered a convincing arraignment of the policy and administration of the Government.

Mr. Henry, who was the first of the speakers to be announced, was cordially received. Although he has had little platform experience, Mr. Henry made a most favorable impression upon the audience, by making a plain, straightforward statement of his reasons for asking the suffrage of the people. Alluding to the criticisms which had been levelled against his candidature, Mr. Henry said that it had been charged that he had been brought out by the Roman Catholics; that he had been brought out by the Conservative party to defeat Mr. Stubbs, and finally that he had been placed in the field by Mr. Stubbs, so that he might retire at the eleventh hour in favor of the Third party candidate. Mr. Henry appealed to his record and he said that he had never sold himself, and he did not intend to do so this time. In commenting upon the situation in Cardwell, Mr. Henry maintained the right of the Liberal party to stand by its principles in this contest. If the Conservatives wanted to fight among themselves it was not the funeral of the Liberal party. He condemned the restrictive policy of the Government, and demanded the same privileges for the farmers and the great industrial classes of the country as were accorded a few unduly favored individuals and corporations. On the Manitoba school question Mr. Henry announced himself as being opposed to coercion, and favored a commission of inquiry.

An invitation was extended to the opposition to take part in the meetig, but it did not respond.

Mr. Edgar, who was given an attentive and appreciative hearing, after a brief and felicitous introductory, entered upon a discussion of the Manitoba school question, and presented the position occupied by the Liberal party in regard to it. He appealed to all to forget religious differences and to look upon it from the high level of Canadian citizenship. He deprecated any attempt to make party capital out of it, and declared that it should be treated from a standpoint above that of party. He was emphatic in the declaration that every candidate seeking election in Cardwell should be required to state definitely his attitude towards it, and no person should be allowed to shirk the question After a brief historical review of the question from the time of its origin in 1890, he proceeded to show how unwisely the Government had acted in dealing with it when it came fairly within the arena of Federal politics. He condemned the precipitancy of the Government in undertaking to settle it with a mere stroke of the pen without understanding the facts or making any attempt to ascertain them. The remedial order, which was issued with such indecent haste, he characterized as the worst piece of law of any order in council passed by a Canadian Government. It was the most stupid thing that the Government could have done in the interest of the aggrieved minority, in whose behalf it professed to act. The remedial order was issued on March 21st last. On March 6th he (Mr. Edgar) had written and published a letter appealing to the Government to do nothing premature in the matter. The claim of the Government that it had been standing by the constituton Mr. Edgar likened unto the Tory appeal to loyalty when the Government does anything that cannot be defended upon its merits. These constitution-smashers would have smashed the constitution a dozen of times had it not been for Sir Oliver Mowat. The remedial order was sent to Manitoba and the answer sent back was couched in the most moderate terms. The Manitoba Government had said that when the order was issued there was not available full and accurate information as to the working of the former system of schools; that there were lacking means of forming a correct judgment as to the effect on the provinces of changes in the direction indicated; that it was not too late to make a full and deliberate investigation of the subject; that if such a course were adopted they would cheerfully assist in affording the most complete information available, and that an investigation of such a kind would afford a substantial basis of fact on which conclusions could be formed with a reasonable degree of certainty. Mr. Edgar said that he did not think that any Roman Catholic minority should ask anything more than what a fair investigation would show. But the Government had called a sixth session for the 2nd of January to legislate without an investigation.

The policy of the Liberal leader and of the Liberal party was to have a full and fair investigation of the facts. That was the only policy that would do justice to all classes and creeds. This was the policy upon which Mr. Henry was appealing to the electors of this county. Mr. Stubbs had declared that he would not agree to an inquiry though Manitoba had asked for it. Mr. Edgar confessed his inability to understand the position of Mr. Stubbs and he could not see how the people could support him. He was prepared to vote blind upon everything. Mr. Willoughby was going down to Ottawa to vote for remedial legislation next session. Such a course as that which the Government purposed to pursue, to pass a law without being in possession of the facts, would be fatal to the claims of the minority, it would arouse a feeling of resentment throughout the country that would punish the innocent who claimed to have a grievance. Mr. Edgar expressed regret to think that any citizen of Canada should suffer from the bungling precipitancy of the Government. It was well known why the Government passed that remedial order. The Government thought an election would be on immediately and that it would capture the Roman Catholic vote of the Dominion. But a mistake had been made and the election was deferred. When the session came on the Government did not pass legislation to enforce the remedial order, but promised to do so at the coming session That remedial order was full of mistakes, as all Protestants and Roman Catholics who understood the question had discovered. Mr. Laurier's position was clear and well defined. He desired to do justice; he desired to get at the facts. Did the electors of Cardwell want to go it blind on that great question? They should be well-informed before they recorded their votes.

Mr. Edgar then read from a report of the Cardwell nomination meeting in 1891, showing that Mr. R. S. White had pledged himself to oppose Federal interference in regard to education in Manitoba and that Mr. Willoughby endorsed Mr. White in that position. Now, when the Ministers came to Cardwell and took Mr. Willoughby by the collar, shook him and said: "If you are going to be our candidate you must toe the mark and support our legislation next session,' he did toe the mark and said that he would support the legislation of next session. As far as he (Mr. Edgar) knew this was Mr. Willoughby's position if he had not changed it again.

Mr. Edgar then indulged in some very timely reflections upon the result in North Ontario and the methods and causes which had produced it.

Meeting at Orangeville.

Orangeville, Dec. 16.—The one thing about the political situation here that may be stated with the utmost definiteness is that it is intensely hot. The friends of all the parties are working with an energy that leaves no doubt as to their earnestness. No less than 42 meetings have been arranged by the supporters of Mr. Willoughby for this week alone, and the other parties are hardly less active.

Will Support the McCarthyite

Millbrook, Dec. 16.—The East Durham Liberal Association met in convention here to-day and decided to not place a candidate in the field, but to support Col. McLean, the McCarthyite candidate.

IMPERIAL CUSTOMS UNION.

Sir Charles Dilke Pronounces the Scheme Impracticable.

London, Dec. 16.—Speaking at Leigh to-day, Sir Charles Dilke, M.P., said tht nobody knew better than Colonial Secretary Chamberlain that Canada and Australia were not inclined to admit on more favorable terms than those extended to countries in which labor is dear goods made within the British Empire by cesp labor. Complete international free trade, he declared, was for the present, a dream. It was not reasonable to assume that Lancashire would favor the placing of import duties on American cotton for the benefit of the West Indies or that Yorkshire would favor duties on South American wool for the benefit of Australia. Any idea of an Imperial customs union was a mistaken one.

DEATH OF ARTHUR MORPHY.

A Prominent Club Man of Toronto Expires in the Hotel Quinte at Belleville.

Toronto, Dec. 17.

A despatch from Belleville last night records that a death of remarkable suddenness occurred at Hotel Quinte in that city yesterday. A lady boarding at the hotel, in attempting to get into a closet on the second flat, found a man lying on the floor. She at once gave the alarm, and he was found to be Arthur Morphy of Napanee. He was at once taken to his room, and Drs. McColl and Youker summoned. They worked at him for over two hours in an effort to restore consciousness, but without success. The unfortunate man by some means fell and his head and neck were twisted so as to impede the entrance of air to his lungs. The deceased's friends in Napanee were notified of his untimely end, and will arrive on the evening train to take charge of the remains. No inquest will be held.

The above despatch will be read with sorrow by the many Toronto people to whom Arthur Morphy was well known. He was a son of the late Henry Morphy of Morphy & Morphy, in their day one of the leading legal firms of this city. Arthur was born in Toronto about 35 years ago, was educated here, entered her father's office, and in due time was admitted to the bar. For a time he was a partner in the old business; afterwards he associated himself with Mr. A. R. Boswell. Last summer he went to Napanee and joined the firm of his brother-in-law, Mr. Muttan, Morden, Ruttan & Morphy. On Saturday he left Napanee for Belleville, where, according to the despatch, he died yesterday morning.

His mother, Mrs. Morphy, and sister, were living with him at Napanee. His elder brother George is living at Hamilton and Grimsby. The sad fate of the other brother, Ollie, will be recalled. He was in the Mounted Police and was drowned on Lake Winnipeg, his body not being found until the next spring, when it was brought to Toronto and buried.

Arthur Morphy was one of the most popular of teh young men of Toronto. He was handsome in looks, had a good address and made friends with everyone. He was in the Queen's Own, a member of the Argonaut Rowing Club, took a course at the military school, and was identified with many other clubs and sporting associations.

It is thought that the remains will be brought to this city for interment at Mount Pleasant Cemetery.

Christmas Goods at China Hall.

Nearly 2 car loads of the newest goods in the market have been received at China Hall during the past week, and never in the history of the store has there been such a beautiful display contained within its walls. Next week—all week—this store will be at the disposal of the public to inspect and admire the new goods. No one asked to buy. Take the elevator and see the dinner and toilet sets. There is no greater assortment in one store in Canada. All other dealers in its lines will be undersold at China Hall.

Tired but Sleepless

Is a condition which gradually wears away the strength. Let the blood be purified and enriched by Hood's Sarsaparilla and this condition will cease.

"For two or three years I was subject to poor spells. I always felt tired, could not sleep at night and the little I could eat did not do me any good. I read about Hood's Sarsaparilla and decided to try it. Before I had finished two bottles I began to feel better and in a short time I felt all right and had gained 21 pounds in weight. I am stronger and healthier than I have ever been in my life." JOHN W. COUGHLIN, Wallaceburg, Ontario.

Daily Examiner.

TUESDAY, DECEMBER 17, 1895.

IT does not seem that the triumph of the N. P. party in the North Ontario elections had the effect of booming prices of farmers' produce. Quite the contrary. The Globe calls attention to the great slump in turkeys. During the elections they sold at $20 each.

THE Government is already casting about for a Controller of Customs to succeed Hon. Clarke Wallace. The taxes must be collected, but the affairs of the farmer can drift along by themselves. The office of Minister of Agriculture has been vacant for months and there seems to be no haste about filling that.

MR. D'ALTON MCCARTHY is modest assuredly. He calls upon the Liberals in Cardwell to withdraw their candidate in favour of the Third Party candidate, Mr. Stubbs, having in view, no doubt, the defeat of both Liberal and Patron candidates in North Ontario. The Liberal party is rather older than Mr. McCarthy's party, and has long advocated a trade policy which is Mr. McCarthy's chief claim to community of sentiment with the Liberals. If some party does not give way the chance for the election of the Government candidate is improved. If Conservatives were as independent of party ties as the Liberal patrons in North Ontario proved themselves to be, there would be some sense in Mr. McCarthy's request. But they cannot, it would seem, break away from old party lines. In North Ontario the Liberal Patrons voted for the Patron candidate; the Conservative Patrons voted for their party candidate.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heart burn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

Salaries	275 00
	$14,638 46

In regard to the item of $600 for fire protection, the reeve asked the council what was to be done in regard to it.

Councillor Smith stated that as this sum had been refused by the Peterborough council, and as the village claimed to have paid for its protection up to 1892, he thought the sum of $450 should be entered on the statement instead of $600, as this would be payment for three years protection at $150 a year.

It was decided, however, on motion of Councillors Calcutt and Craig, not to change the item, but to receive the statement and adopt it with the exception of this one item (without prejudice) and to publish it according to law.

BY-LAWS.

A by-law was passed appointing A. H. Peck deputy returning officer for the municipal elections in the south ward and John B.T. Wright deputy returning officer in the north ward.

ACCOUNTS.

The following accounts were ordered to be paid on motion of Councillors Calcutt and Craig:

A H Stretton & Co.	$ 90
P Nicholls	85
Pay sheet No. 36	5 00
Total	$6 75

It was decided that this year the ballots for the school trustees and councillors be of different colours to lessen the trouble of counting and avoid mistakes being made.

When the discussion concerning the purchase of a new snow plough was opened, Councillor Smith submitted a very neat model, invented by himself, with a lever attachment to widen or narrow the plough as required. The model met with the instant approval of the council, and a plough similar to it will be purchased.

BEYOND RECOVERY.

The Boy Laflamme Was Thought Incurable.

One Hundred Dollars Paid for Treatment—His Body Swollen Into Inconceivable Shapes—A Few Boxes of Dodd's Kidney Pills Cured Him.

Thurso, Que., Dec, 17th.—(Special)—The appearance in the Ottawa papers of a despatch from Pappineauville concerning a son of Mr. E. J. Laflamme, merchant, of that place, has been all the talk here for days.

The parties and the case are so well known, and the sympathy so general that the interest taken in it is quite public.

The particulars of the recovery are the sensation of it.

The suffering and condition of the boy led all who knew of the case to lose hope, in fact, nearly everyone spoke of death as a happy release.

But in a few weeks, even after repeated medical operations to relieve him, he was romping and playing with other boys.

His father shows him with pride as a specimen of what Dodd's Kidney Pills will do after all hope has departed.

About twenty Indians of the Black Feet tribe arrived in Port Hope on Monday in a destitute condition. They were all distinguished members of their tribe, some of them being chiefs and belonged to the Missouri Indian Reserve. They left the reserve some time ago to travel with a Wild West Show. The show went on the rocks somewhere in the Province of Quebec, and the Indians were forced to face a long and tedious march for home. They were in a sad condition on arriving in Port Hope, suffering from the fatigues of their march and the intense cold, for which they were unprepared. They appealed to J. E. Gittings, Esq., American Consul who telegraphed to Washington representing the misfortunes of the braves and he succeeded in influencing the Government to give them railway accomodation to their homes and other attentions. The tickets for their transportation to Black River Falls, Missouri, were issued and on Monday night the Indians were sent on their way rejoicing. The unfortunate redman are very thankful toMr. Gittings for exerting himself in their behalf.—Port Hope Times.

The Ashantee King Proposes to Fight.

HAS WIPED OUT A NATIVE FORCE

Serious Outbreak of Hostilities in the Island of Crete The Duke of Westminster Urges Britain to Take Decisive Action in Turkey - Italy's War.

Cape Coast Castle, British West Africa, Dec. 16.—Owing to the refusal of the Adansis tribe to join King Prempeh of Ashantee, the latter recently attacked and routed them, with great slaughter. The affair is regarded as indicating that King Prempeh is determined to fight the British, and that the expeditionary force now fitting out under the direction of Sir Francis Scott, Inspector-General of the Gold Coast forces, will not have the walk-over anticipated in some quarters.

CHRISTIANS MASSACRED.

A Serious State of Affairs in the Island of Crete.

Syria, Dec. 16.—The situation in the Island of Crete is serious. In the attack made on Tuesday last by a strong Turkish force on the position occupied by the Christians at Vryse, 24 Turks were killed and 36 wounded. The Christians had five killed and eight wounded. At Alicampo the Turks massacred three men, two women and five children.

ARMENIAN HORRORS

Duke of Westminster Urges England to Take Decisive Action.

Manchester, Dec. 16.—The Guardian says that the Duke of Westminster a few days ago wrote a letter to Lord Salisbury, urging that England take decisive action to put a stop to the atrocities in Armenia. In reply to this letter, the Premier admitted that there was really no effective concert of the European powers in regard to Turkey. He was convinced, he said, that, although public opinion in England was deeply moved at the horrors in Armenia, there was no such deep-seated feeling existing in the countries of the Continent.

ITALY'S AFRICAN WAR.

Report That Great Britain Has Agreed to Cede the Island of Zella.

Rome, Dec. 16.—It is reported that Great Britain has agreed to cede the island of Zella, Africa, to Italy for a period of several years' duration The Italian ironclad Etruria, conveying men and war material, has sailed, it is supposed, for Zella.

The Government is informed that the Abyssinian chief, Ras Makonnen, has sent a message to General Baratieri, commanding the Italian forces in Abyssinia, proposing terms of peace. General Baratieri has not yet replied to the message.

The Italian Government has ordered in England 100,000 tins of preserved meats for the use of the Italian troops in Abyssinia The forts at Massowah and on the coast are being garrisoned by sailors in order to permit all of the soldiers to go to the front.

A Caravan Slaughtered.

Zanzibar, Dec. 16.—A caravan comprising 1200 men while en route from Eldoma was attacked by Chief Massais' followers, while passing the latter's kraals, on the night of Nov. 26. Over 1000 of the men with the caravan were killed.

Mr. Bayard Was Guarded

London, Dec. 16.—United States Ambassador Bayard made the inaugural remarks at the opening of the Hausshalter Water-Color Exhibition of Venetian scenes in the Pall Mall galleries to-day. Mr. Bayard's speech was very short, being confined chiefly to briefly introducing the artist and his works to the visitors. Henry M. Stanley, M.P., the African explorer, and many other persons distinguished in art, politics and fashion were present.

SAMSON, KENNEDY & CO.

Not a Very Promising Outlook for the Firm's Creditors.

Toronto, Dec. 17.

An approximate statement of the affairs of the suspended firm, Samson, Kennedy & Co., has been prepared by Receiver Clarkson and it cannot be said that it is at all flattering to the creditors of the big dry goods concern. Gentlemen who are conversant with the ins and outs of mercantile life say that a careful perusal of the statement does not leave much room to expect a better settlement than 15 cents on the dollar, while there is a great likelihood that not more than 10 cents may be realized. The stock of the firm, which has been appraised at something less than $300,000, will shortly be offered for sale en bloc and it is said that a prominent retail dealer in this city will become the purchaser. The statement rendered by Mr. Clarkson is as follows:

Direct Liabilities.

Canadian and U. S. creditors	$310,264
English creditors	110,725
	$420,922

Indirect Liabilities.

Canadian Bank of Commerce, paper under discount	300,000

New York—A lockout of tailors has taken place here. About 2000 are thrown out.

Saratoga, N.Y.—William H. McCall, one of the best-known members of the Saratoga county bar, died of consumption, aged 34 years.

Houghton, Mich.—With the opening of the new year the Calumet and Hecla copper mines will reduce its production one-third, or to about 6,000,000 pounds per month.

Detroit—President Ledyard of the Michigan Central says the company is only awaiting legislation to have a bridge constructed over the Detroit River.

Martin's Ferry, O.—There are 33 cases of smallpox in this place. The disease is spreading rapidly.

Philadelphia—John Robinson, aged 30, to-day fired three shots at his wife, May E. Robinson, aged 24, all of which took effect. He then turned the pistol on himself and sent a bullet through his heart. He died instantly. The woman is in a critical condition.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

PROVINCIAL ANNOUNCEMENTS

A Number of Appointments—A Brand New Town and Creamery Company.

Toronto, Dec. 16.

The Ontario Government has made the following appointments: W. A. Boyes, Esq., of Barrie, to be a notary public; W. E. Woodruff, Esq., of Niagara Falls, to be a notary public, and David Reid, Esq., of the town of St. George, to be clerk of the Third Division Court of the county of Brant, vice David Baptie, Esq., resigned.

A proclamation has been issued "erecting" the village of Hawkesbury, in the Ottawa valley, into a town as it has more than the requisite population of 2000, and dividing it into three wards, to be known as Hamilton, Centre and West Ward.

Letters patent have been issued incorporating Joseph Wright, manufacturer; Howard Williams and Asa Matthews, roofers; Thomas Mounce, agent; David Carlyle, builder, and Charles Tapscott Stark, stock broker, all of the city of Toronto, to manufacture, refine, buy and sell butter, cheese and other dairy products, by the name of "The Richmond Creamery Company of Toronto (Limited)," with a total capital stock of fifty thousand dollars, divided into five hundred shares of one hundred dollars each.

The Cardinal Water Co. give notice that they have complied with all the requirements of the Joint Stock Companies Act.

Charters have ben issued to the Hamilton Fruit Exchange Co., capital $30,000, and The John Gillies Estate Co. (Limited) of Carleton Place, with a capital stock of $20,000.

The arrest of Thomas Rush, alias Smith, by Detectives Burrows and Duncan, has proved to be one of considerable importance. It is said that Rush, who has been taken back to Windsor, came to Toronto after the White burglary there, with an accomplice named Cranham. They engaged a room in Yonge-street, and on hearing of Rush's arrest Cranham made himself scarce. In a search of their room the detectives found two crucibles for melting jewelry, a knotted rope and a number of projecting screws used for climbing verandah posts, a slung-shot and other evidence tending to show that it was these worthies who robbed the residence of Dr. D. E. Thompson, Queen's Park, and other houses in the city.

In their investigation the detectives unearthed a bold scheme of robbery planned by Rush and frustrated by his arrest. He and his pal had discovered that the employes of a certain large factory in the city were paid every two weeks, that the office was in one part of the city and the factory in another, and that the manager was in the habit of carrying the two weeks' wages from the office to the factory.

It was learned through a city stool-pigeon that Rush and Cranham had followed the manager from the office to the factory and had discovered that in order to reach the latter place he had to go up through a dark lane. Their plan was to await his arrival in this lane, knock him on the head with a slung-shot and secure his money.

"The Common People,"

As Abraham Lincoln called them, do not care to argue about their ailments. What they want is a medicine that will cure them. The simple, honest statement, "I know that Hood's Sarsaparilla cured me," is the best argument in favor of this medicine, and this is what many thousands voluntarily say.

Hood's Pills are the best after-dinner pills, assist digestion, cure headache. 25c.

Buffalo, Dec. 16.—Mayor Jewett this morning signed the Niagara Falls franchise.

Hall and Choynski.

Joseph Choynski and Jim Hall are to face each other on January 13 at the Empire Athletic Club, New York. This set-to should be a winner for everybody, especially the management. There is a doubt in many minds whether Hall can settle Choynski. The latter is a man who has never walked out of the path of rectitude, and his habits have been in accordance with the laws of nature. On the other hand, Hall has ben one of the "rowdy-dowdy boys" for a long time, and this must tell on the young man's system.

Purely Vegetable.

First the bud, then the blossom, then the fruit. These are the several stages of some of the first important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

Last Night at the Opera.

Theodore Babcock and a select company presented "Jack Harkaway" last evening at the Opera House in a manner which was most pleasing to the audience. The company is one of the largest on the road and, without exception, assumed their characters perfectly last evening. Mr. Bradburn is to be complimented on bringing so excellent a company to Peterborough.

A Prominent Peterborough Boy.

Mr. R. F. McWilliams, son of Mr. J. B. McWilliams, town, is now attending lectures at University College, Toronto. He is taking a prominent position at the University, in his studies, in personal and social favour and as an orator of high rank for so young a man. It may be pointed out that he was made chairman of the "Varsity night at the Grand, Hallowe'en, 1895." He is a member of the finance committee of the 'Varsity conversazione, one of the most important social functions of the provincial capital. He is gaining particular prominence as a public speaker of fluency and vigour. In connection with the University Literary and Scientific Society there is a mock parliament, with regularly constituted cabinet. In this cabinet Mr. McWilliams holds the prominent position of Minister of Trade and Commerce. At the public debate in connection with the same society between Osgoode Hall and the University Mr. McWilliams is one of the two orators selected to uphold the prestige of his alma mater. He is now in his graduating year and the indications are that he will make a brilliant ending of a brilliant University course.

A PLEASANT EVENING.

Miss Florence White Remembered by Her Friends at the Mission.

A most pleasant social evening was spent at St. John's South Ward Mission last night by the members of the Woman's Auxiliary, and others of that congregation who were assembled to do honour to Miss Florence White, who has for a number of years most ably filled the position of secretary of the Auxiliary, and who is about to sever her connection with the society prior to her marriage and subsequent removal to Winnipeg.

Miss White was greatly surprised when during the evening Rev. Carl Smith read the following address :

Dear Miss Florence White :

We, the members of St. John's South Ward branch of the Woman's Auxiliary, desire to express to you the deep regret we feel at your withdrawal and eventually your departure from our midst. The untiring zeal you have always shown as secretary-treasurer of our society has been thoroughly appreciated, and we feel sure our loss will be another's gain. With congratulations and best wishes for your future welfare, we ask you to accept this silver fern holder as a token of our esteem.

THE SOUTH WARD WOMEN'S AUXILIARY.

The presentation was made by Miss Chamberlen on behalf of the Woman's Auxiliary, after which refreshments were served.

TWO EXQUISITE PAINTINGS IN OIL.

Two Burleigh Scenes from the Brush of Mr. Thos. Workman.

Mr. J. B. McWilliams has just come into possession of two exquisite paintings in oil from the brush of Mr. Thos. Workman.

The scenes represented are the big chute at Burleigh before the locks were built, and the falls at the mouth of Perry's creek. Both painting are so accurate as to be instantly recognizable by anyone acquainted with the localities, and Mr. McWilliams is to be congratulated on possessing two such gems.

The view of the big chute was painted from nature by Mr. Workman eighteen years ago and sold to Mr. Miller, of Toronto. Since that time Mr. McWilliams has been endeavouring to secure it for himself and has at last succeeded. Mr. Workman brightened the painting up and executed the view of Perry's Creek Falls to make the pair.

Both pictures are on view in Mr. A. Clegg's window and it was amusing to hear the reminiscences which the sight of the pair revived in the minds of some of the older residents. The perspective is very accurate and the October foliage and the dashing water is so true to nature as to reflect great credit on the reproductive genius of the artist.

BAPTIST YOUNG PEOPLE.

The Programme for the Annual Meeting in Port Hope

The following programme has been prepared for the annual meeting of the Peterborough Young People in Port Hope today and Wednesday, Dec. 17th and 18th.

The first meeting will be held at 2.30 Tuesday afternoon, when Mr. T. D. Craig, M. P., will give the address of welcome to the young people of the Peterborough District, who will be present. In the evening there will be a mass meeting at 8 o'clock, and Rev. B. D. Thomas, D. D., of Toronto, will speak.

On Wednesday a conference of pastors and deacons will be held in the morning and afternoon. In the evening a service will be held, when Rev. V. H. Cowsert, of Belleville, will preach. The list of local delegates was published in yesterday's issue of the EXAMINER.

Singers, public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find, in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. A timely dose of this preparation has prevented many a throat trouble.

MR. SAWERS EXPLAINS.

To the Editor of the Examiner :

SIR,—My attention has been called to an address delivered by Mr. W. H. G. Armstrong at the Lady True Blue social and published in your issue of the 4th inst., in the course of which he alleges, (1) That I was not an invited speaker to the Downer's Corners' meeting on the 5th of November ; (2) that I was hissed ; (3) that the officers of No, 321 wrote to the Sentinel declaring that I had no right to speak, and (4) that I myself had asked for the privilege of speaking on historical matters for three minutes.

Mr. Editor, as an act of justice, will you kindly publish the following editorial clipped from the Sentinel of the 5th of December, and also portions of Mr. J. Graham Weirs letter which appeared in the same issue :

"PETERBOROUGH.

THE DOWNERS CORNERS MEETING—A CORRECTION.

"In the Sentinel of the 21st November appeared a communication signed by Joseph Saunders and James Murray, alleging that Bro. C. W. Sawers was not an invited speaker at the Downers Corners' meeting on the 5th of November, and that he (Sawers) asked to be allowed to speak for five minutes, and that the chairman granted him that privilege. We learn that the facts have not been correctly stated in the Sentinel, and in justice to Bro. Sawers we append herewith a letter from W. Bro. J. Graham Weir, Past County Master and Secretary of Committee, which will set the matter right."

From Mr. Weir's letter :

"The Sentinel of the 21st inst. contained an article over the signatures of Bros. Joseph Saunders and James Murray, about an address of Bro. C. W. Sawers, delivered at Downers Corners on the 5th of November. I have nothing to say about the address, it has appeared in the Sentinel and speaks for itself, and it needs no praise from me. But I am very sorry that the four or five friends of Bro. W. H. G. Armstrong's did our lodge and the Orange Order an incalculable injury when they at that meeting indulged in hissing, and they only discontinued when one of them was elected from the hall. The serpent is an emblem of deceit and betrayal, and for a man to hiss in imitation of a serpent gives the audience to understand his vile nature, and I hope at our future entertainments the hissing serpents will absent themselves.

Bros. D. Kennedy, R. J. Mitchell and myself were a committee appointed by resolution of the lodge to invite speakers and do other work in connection with our demonstration. Bro. Sawers was one of the first invited, and he, at our request, wrote to Bros. Wallace, Birmingham and Hughes, inviting them to attend the meeting. The only invited speakers present were Rev. Mr. Symonds, Rev. Mr. Rae and Bro. Sawers. Bro W. H. G. Armstrong was not invited or expected to speak, and his few insulting remarks were anything but well received ; in fact the audience was disgusted with them.

Allow me, Mr. Editor, to add that at the meeting of No. 321 on the 10th inst., called for the election of officers, neither Mr. Armstrong nor any of his four or five friends were re-elected to office. Mr. J. Graham Weir was elected secretary. Mr. Armstrong opposed him but received the votes of 9 brethren only from a membership roll of 79.

Yours truly,
C. W. SAWERS.

A RUNAWAY TEAM

Comes Lashing up George Street but do no Damage.

Mr. J. B. McWilliams' carriage team ran away to-day whilst being driven up George street. Mrs. Mills and Mrs. Eastwood were in the sleigh as well as the driver. The team turned in close to the sidewalk at the southwest corner of George and Hunter street, and running into a telegraph pole broke the neck yoke. The pole dropped to the ground, but the horses were brought to a standstill just as they swung around the Oak Hall corner. A lady with a baby carriage had a very narrow escape on the crossing, as she seemed absolutely paralyzed with fright and unable to get out of the way. Fortunately the team swung clear of her. No damage was done other than the breaking of the neckyoke.

Our stock of general furniture is now complete and is one of the largest in Canada; prices lower than ever.—A. Clegg 427 George street.

Christmas Greetings.

In another week the great festival of Christmas will be here, and between now and then people will naturally think of buying presents for their friends. Now, Mr. Chas. Legros, the live George street tobacco and cigar dealer, realizing that money is very scarce, has put everything in the line of cigars and pipes down to cost, and when he says cost, he means at a less price than other local dealers can buy them for. He imports all his goods direct, and saves the wholesaler's profit. A few of the snaps which he offers are to be seen in his window, and the other local dealers have to acknowledge that he has the finest lot of pipes in Canada, all of B.B.B. manufacture. In cigars, his imported cigars are of the finest, and this is evidenced by the testimony of the best people of the town who smoke them. His brands are—Diazy, Garcia, Manual Garcia, Por Loranza and Jos. Morales. Call and see him and you will be astonished at the prices and quality of his pipes, cigars and smokers' sundries. Alive C. LeGros, 339 George street.

ANNUAL MEETING.

The Members of Queen's Own Lodge Elect Their Officers. Who Are Installed by the Officers of the Grand Lodge.

Queen's Own Lodge, Loyal True Blues, elected its officers for the ensuing year, last night, in the presence of a number of distinguished visitors, who were present to participate in the attendant ceremonies. The election resulted as follows:—

Worshipful Master	Wm Tremain
Deputy Master	R Sutherland
Recording Secretary	Geo Sloan
Financial Secretary	S Adlus
Treasurer	W Allison
D of C	H Blackstock
Outside Tyler	Wm Wilson
1st Committeeman	E G Dormer

4th "	A Fletcher
5th "	Wm Jackson

Auditors—E G Dormer, G Collins, J Rome, Wm Tremaine, G Evans.

Sick Committee—Wm Tremaine, A Fletcher, T Hetherington and G Evans.

The installation ceremonies were conducted under the supervision of Grand Secretary Bro. N. Ingram, of Port Perry, after which speeches were made by the newly elected officers and Grand Organizer R. Newman, P. G. M., Toronto, and Deputy Grand Master, Bro. Sloan, of Toronto. Bros. W. Wilson and Morrison, of Victoria Lodge, No. 56, Bridgenorth; Sister Allison, Maple Leaf Lodge, No. 7, and Bro. Batt, Toronto, were also present.

Upon the adjournment of the Lodge a supper was served at the Little Windsor Hotel, where a most excellent repast had been prepared under the skilled eye of Bro. M. Jameson.

THE ORANGEMEN AND THE PREMIER.

To the Editor of the Examiner:

Sir,—In Monday's issue of your paper appears a letter over the names of Edward Kemp and H. S. Armstrong, criticising the resolution of congratulations to Sir Mackenzie Powell, and also alleging that there were but five present at the meeting called for that purpose, and also attacking Mr. C. W. Sawers. Mr. Editor, as secretary of the meeting, permit me to say that the statements made by them are in every particular most untruthful. Had they got their information otherwise than from the man who was found standing at the door, with his eye on the key hole, they would not have rushed into print. The meeting was a most representative one and larger than any Orange lodge meeting held this year. If it is any gratification to them to know I have no hesitation in saying that I had as much to do with getting up the meeting as Mr. Sawers, and that at said meeting he took no part whatever either in speaking or moving any of the several resolutions. As Mr. Sawers is quite capable of defending himself I will not go further into the particulars of our meeting.

Yours truly,
J. W. Miller.

Pine as a Lung Remedy.

From the earliest time the human race have believed in Pine as a remedy in throat, Bronchial, and Lung troubles. Modern research and progress have strengthened that faith. Doctors constantly advise this class of patients to "take to the Pine woods," especially on the approach of winter—so strong and universal is the belief in the curative power of breathing air loaded with the volatile properties of Pine. Of the total number but few can go or afford the expense. Pine is undoubtedly a powerful remedial agent. It has many properties, in this differing from all other remedies. It is the NEW WAY, because antigerm; it prevents putrefaction; it is cleansing, healing, fragrant, soothing. Pinemalt is the newest, most Palatable, and best. It is scoring great success. Chronic cases call for Pinemalt and Hypophosphites instead of plain Pinemalt.

To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

The boy does care. The flippetty flappetty sort of clothes, worry him about as much as a slouchy rig worries a man. If you are prejudiced against ready-mades, and would like to see him dressed in a tailor-made suit or overcoat, bring him in to Gough Bros and let Duncan Cameron take his measure. See if it don't make him a better all-round boy. GOUGH BROS.

WINDING UP MEETING OF THE TOWN COUNCIL.

SURPLUS OF ASSETS OVER LIABILITIES OF $1,596 47.

Mr. Cahill Presents His Budget—Serene Satisfaction of City Fathers Over the Financial Situation—The George Street Bridge Superstructure Authorized—Preparing for Elections.

Monday, Dec. 16th, 1895.

The statutory meeting of the town council was held last night. Present, Mayor Kendry in the chair, and Messrs. Cahill, Best, Denne, Mills, Phelan, Dawson, Cobb, Sawers, Stone, Mason and Brady.

After routine the following

COMMUNICATIONS

were received and dealt with as follows:

From R. N. Hoddy, desiring the privilege of making a skating rink on that part of the river between the C.P.R. spur line and the river bank between King and Simcoe streets and also of building a dressing room on the end of Charlotte street at the river bank, and asking the council to grant him the privilege—Granted.

From Mrs. Trotter, asking for remission of taxation.—Court of Revision.

From E. B. Edwards, enclosing a bylaw to authorize the execution of the contract for the superstructure of a bridge over the creek on George street.—Received.

From the Street Railway Company asking permission to close down their line entirely until spring, should they find it desirable, on account of the branch on George street below Charlotte being cut off by the raising of the street grade.—Received.

From Fred E. Jones, asking for a refund of dog tax.—Court of Revision.

The following accounts were presented:

T E Boddy	$ 6 90
John Glass	1 00
W J Charlton	15 00

John Craig	1 35

Paid, with the exception of two or three accounts which were referred to the Finance Committee.

THE PROPERTY COMMITTEE,

through its chairman, Councillor Dawson, reported having considered Mr. A. E. Dixon's letters and recommended that the Council guarantee to expend $300 next year on the ground given by Mr. Dixon to the town for a park and thereafter maintain it in accordance with the terms upon which it was accepted by the town. The Committee also recommended that as Mr. Joseph McClelland is not now a resident of the town, that Mr. Charles S. McClelland be appointed caretaker of the town clock at a salary of $50 a year.

—Report adopted.

THE BUDGET.

Mr. Cahill chairman of the Finance Committee, presented the annual statutory financial statement with the remark that it was a formidable document, involving $120,000. He said he might point out that it was satisfactory to know that the taxes were paid as satisfactory as last year, notwithstanding the expenditure of $4,020 on the George street sewer and of $800 for the George street bridge, it was a pleasure to state that there was a surplus of $1,596.47 on the financial operations of the year. He moved that the statement be received and that the usual number be printed. The motion carried.

Lakefield, Jan' 16 1896. dw

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. When a piano is badly out of tune, the noises that come from it are certainly not musical. They are not beautiful. If it is only a little bit out of tune, you can play some few things on it. You can create a semblance of music, but you cannot make really beautiful, satisfying, soul-stirring music, unless every string is tense and firm, unless every piece of the whole instrument is in perfect tune, in perfect condition, in perfect harmony with every other piece.

It is the same with a human being. If his body is all out of order and run-down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right" he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. To really live, and to take his part in the work and pleasure of the world, his body must be in perfect condition. If this condition doesn't exist, something is wrong and something ought to be done. That something nine cases in ten means the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the whole body. It makes the appetite good, the digestion perfect and nutrition rapid and easy. It supplies rich, red blood to all the tissues and builds up solid, healthful flesh. It brings perfect health and restores vigorous, springy vitality. It makes every function in life a pleasure instead of a drag. It is an invigorating tonic as well as the greatest blood-purifier of the age. You can get it at any drug store. If you care to know more about it, and about your own physical make-up, send 31 one-cent stamps to cover cost of customs and mailing *only* and receive *absolutely free* a copy of Dr. Pierce's celebrated book, "Common Sense Medical Adviser"—1008 pages, profusely illustrated. Another Massacre of Christians Feared in the East

UNLESS THE POWERS INTERVENE

Public Feeling Worked Up to a High Point Constantinople Meeting in London in for the Promotion of Protection Ideas—The French Budget Deficit.

London, Dec. 13.—A public agricultural conference was held here to-day at which many influential men were in attendance. Mr. James Lowther, M.P., presided and stated that the object of the conference was the establishment of the system of protection.

Mr. Lowther further said that they who were leading the protectionist movement were aware that public opinion must be framed and the people of the country convinced before the battle could be won. This conference, he said, was organized with that view and no wish to embarrass the Government. During the half century since the system of free trade came into operation public opinion has greatly changed. Mr. Gladstone, himself, admitted that the tendency throughout the world was in favor of protection. Many advocates of free trade also had said that the foreign trade was so much more valuable than the home trade that nothing should be done to affect the foreign trade while bolstering up the home trade.

Mr. Lowther, continuing, deprecated the suggestion that a duty of so many shillings per quarter should be imposed upon imported grain. He preferred the principle of a sliding scale, and desired especially that there should be preferential trading relations between the United Kingdom and all parts of the British Empire.

Mr. Arthur M. Brookfield, M.P., moved a resolution setting forth that the present fiscal system of Great Britain required reconsideration with a view of affording protection to native industries.

This resolution was carried.

A MASSACRE IS CERTAIN

Unless the Powers Intervene to Prevent It Alarming Letters.

Constantinople, Dec. 13.—Letters that have been received here from Aleppo predict a massacre of Christians there is certain unless the powers intervene to prevent it. Troops are hemming in the Armenians at Zeiteun, where the latter some time ago revolted against the Turks and captured the fortifications. The object of the Turks is to starve the Armenians into surrendering. No fighting has been reported.

The Armenians are holding out because they place no reliance upon the official promises that security will be granted them if they surrender.

The Sultan has dismissed his First Chamberlain Hadji, Ali Bey and has appointed Izzet Bey to succeed him. Emin Bay, the Second Chamberlain, has been ordered to explain charges that have been made against him by ex-Grand Vizier Said Pasha.

The chief equerry, Izzet Pasha, recently addressed a long report to the Sultan on the deplorable situation in the country. His Majesty refused to read the report. Since then Izzet Pasha has tendered his resignation five times to the Sultan, but His Majesty has each time refused to accept it. Nevertheless, Izzet Pasha persists in his intention to retire from his office.

The details of the scare here and at Galata and Pera yesterday illustrate the tension of public feeling. One of the two Armenians who started the panic by engaging in a street brawl discharged a revolver at his opponent. The Christians within hearing of the shot immediately surmised that another massacre had commenced, and shops in the vicinity of the disturbance were closed. The alarm spread hither and thither. The streets soon furnished a scene of incredible confusion, hundreds of people making their way as fast as possible toward Galata and Pera, on the northern side of the Golden Horn. The dwellers in these suburbs seeing the fugitives wildly stampeding either joined in the flight or barricaded themselves strongly within their houses or shops. The Armenian porters who were working about the streets as usual hastily dropped their loads and with terror depicted on their faces, fled as they thought for their lives.

A number of English ladies were affected by the fear that had seized upon all the Christians and fled from their places of residence to the British Embassy, where they claimed the protection of the ambassador. Fifty Armenians sought and were given shelter in the residence of Hon. M. H. Herbert, the Secretary of the British Embassy.

As soon as the authorities heard of the trouble, and that was almost immediately, more troops were summoned to the Yildiz palace. The officials acted promptly and well. The police were well handled and cavalry and infantry were detailed to patrol the streets. The panic lasted for some time and then subsided almost as quickly as it had started.

IN FAR AWAY ALBERTA.

A Surprisingly Fine Country—Splendid Grazing Prairie.

Toronto, Dec. 16.

Among the recent arrivals from the Northwest country is Mr. R. R. Holt, who has spent the past summer in connection with a Government surveying party in the northern portions of the Alberta district of the Northwest Territory. To a World reporter Mr. Holt said that the country he has visited is surprisingly fine from a grazing standpoint. "Never have I traversed mile after mile of finer and more promising grazing prairie than is to be found in the district we have surveyed in what is known as the Vermillion country," said Mr. Holt. "The country is in extent about 500 x 300 miles and lies along the banks of the Saskatchewan River, commencing at a point 130 miles northeast of Edmonton. At the present time there are no residents in this district and the magnificent prairie grazing lands are allowed to go to waste. Of course there are portions of this country that are absolutely useless, but the area of such portions is far less than of that which is particularly adapted to the successful growing of cattle.

"While I found a large number of immigrants flocking to other portions of the northwest country, it must be admitted that they are not of the class calculated to improve a new country; as a rule, the settlers are agricultural adventurers. They have little if any money and are unable to carry their undertakings to a successful issue. The country is being loomed by the only railroad company which traverses it, and the five-cent per mile tariff exacted by that company, considering the long distance between points of promise, has a tendency to make less exact the investigation which a newcomer might naturally be expected to make before settling down to a life-long task. I would, therefore, advise those who are comfortably settled in Ontario to remain where they are; the Northwest, I judge, is open, at the present, only to those who are well equipped with ready money and enterprise.

"Going back to the country where I have spent the greater portion of the past summer," said Mr Holt, "the Saskatchewan country, it is my opinion that a railroad built from Battleford, through the Vermillion country and along Beaver Lake to Fort Saskatchewan, would tend to open this magnificent country and bring its virtues to the front. At the present time the country is difficult of access, and one of the grandest openings to cattle-growers on this continent is necessarily neglected. Such a railroad, I am convinced, would result profitably to the company undertaking its construction."

Referring to other sections of the Northwest Territory, Mr. Holt said that on his return to Ontario he had stopped at Indian Head and visited the Experimental Farm. The farm consists of 640 acres, though but about 250 are under cultivation. It is remarkably successful as a venture in its line and is proving of great value to the agriculturists of that country.

"The crops throughout the Northwest country during the past season were simply enormous; the telegraphic reports were not in the least exaggerated," said Mr. Holt. "From what I could learn the average was about 45 bushels to the acre, but the figures named by buyers were so low that a large number of the producers have declined to part with their products, and are holding for a better market."

Mr. Holt expects to return to the Alberta district in the spring, and believes that large sections of the country he has so loudly praised will be taken up by cattle-growers, who are constantly on the lookout for new and promising fields.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P. O. Box 55, Jarvis, Ont.

Almost a Hopeless Case.

A Terrible Cough. No Rest Night nor Day. Given up by Doctors.

A LIFE SAVED

BY TAKING

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. A MIX IN CARDWELL.

Mr. Wallace and His Friends in the Riding.

MR. R. S. WHITE ALSO ON HAND

Efforts to Get a Pledge From Mr. Willoughby—Hon. Messrs. Foster and Montague on Their Way to the Riding—A McCarthy Meeting.

Orangeville, Dec. 14.—The Cardwell fight is on in earnest. Dr. Beattie Nesbitt, as advance of Hon. N. C. Wallace, came up on Friday night and attended D'Alton McCarthy's meeting at Bolton, where the member for Simcoe made a straight appeal to the Liberals to withdraw their candidate, Mr. Henry, in favor of the McCarthy man, Stubbs. It is said that Mr. James Sutherland (chief Liberal Whip) replied to this proposal by saying that he was running the Liberal candidate, not Mr. McCarthy.

Dr. Nesbitt left Bolton and came over here early this morning, where he was joined by Hon. N. C. Wallace, James Armstrong and John A. Ferguson of Toronto. They put up at Shaw's Hotel and made that the headquarters of the Wallace party.

Willoughby, the Conservative candidate, has his headquarters at the Queen's Hotel here, where Chief Organizer Birmingham is also staying.

Mr. Bob White, the late member, is also here and is trying to find out where he is at as between the two factions.

Mr. Wallace and his friends had interviews with their sympathisers and it is stated tried to induce both Mr. Henry (Liberal), and Mr. Stubbs (McCarthyite) to withdraw.

A friend of Mr. Wallace tried to get Mr. Willoughby to sign a pledge of some kind but got a straight refusal.

The Wallace party returned to Toronto in the evening, the ex-Controller getting off at Woodbridge. Mr. Birmingham also returned to Toronto.

Meetings will be held every night. A. F. Campbell is stumping for Willoughby.

The Conservatives, including Mr. Birmingham, are confident of winning by a big majority.

So far Mr. E. F. Clarke has declined to take a hand in the fight, although Mr. Wallace expected him to become his candidate. Mr. Clarke says he intends giving all his time in the next two weeks in electing Ald. John Shaw as Mayor of Toronto.

Ottawa, Dec. 15.—To-night Hon. Mr. Foster and Dr. Montague left for Cardwell and, accompanied by Mr. Birmingham, will start for Cardwell from Toronto Monday at 8 a.m. They will camp in Cardwell until the election is over.

MCARTHYITE MEETING.

The Third Party Leader Absent Trying to Get Something Straightened.

Alton, Ont., Dec. 14.—A meeting was held here to-night by the McCarthyites in favor of Candidate Stubbs. The meeting was fairly well attended, but much disappointment prevailed when it was learned that Dalton McCarthy himself could not be present.

Before the chair was taken Col. O'Brien—who, by the way, was the lion of the evening—announced that owing to some disaffection towards Mr. Stubbs in their party, the leader was forced to go to Toronto and from there to Orangeville to neutralize the efforts and wire pulling of some of his discontented followers. He (Col. O'Brien) cautioned the audience not to put any faith in the rumors which might be afloat regarding Mr. Stubbs' retirement.

The first speaker was Mr. Stubbs, who denounced the policy of the Government, both as to the National Policy and the Manitoba schools, giving the audience to understand that if he were elected neither Sir Mackenzie Bowell nor Mr. W. Laurier would be able to interfere with Manitoba. He was followed by Col. O'Brien, who went into the details of the school question, after which he branched off into the National Policy.

William Algie followed with a short address, in which he advocated secular schools as the only solution of the difficulty.

A Mr. Carr then took the floor. He waded deeply into peanut politics and made his audience merry over the cigars and whisky used at Sir John Thompson's funeral. He waxed eloquent over the enormous expenses of the burial of the dead statesman. He told his audience not to trust either Mackenzie Bowell or Mr. Laurier with the school question, and declared that the only people who could be trusted were the McCarthyites.

While this harangue was being carried on a great part of the audience left the hall and the next speaker, Mayor Bailey, wound up the meeting.

Pacific Cable in Three Years.

New York, Dec. 15.—Sun's London says: If, as is very probable, the Salisbury Government should remain in power for three years, a cable from Vancouver to Australia will be made and laid by the end of 1898. Mr. Secretary Chamberlain has privately pledged himself to that effect. His heart is in the scheme, and he is strong enough in the Cabinet to carry it out even if the Imperial Government has to provide a disproportionate part of the subsidy. The appointment of a committee to inquire into the scheme must therefore be regarded as a mere form, intended to satisfy the few people who distrust its practicability. Mr. Chamberlain has himself drawn up the terms of the reference to the committee. They are:

"To consider in all its aspects the proposal for laying a telegraphic cable between British North America and the Colonies of Australasia, and to report thereon to the Secretary of State for the Colonies, besides the questions of route, cost, revenue and other matters which will suggest themselves to the committee. Special consideration should be given to the question whether the cables should be laid by the Government or by a private company, and to the distribution of cost or subsidy among the Governments concerned."

MISS FINDLAY'S TRIAL.

Saturday's Proceedings in the Manslaughter Case at Owen Sound

Owen Sound, Dec. 14.—The case of the Crown v. Helen M. Findlay was resumed at 9 o'clock this morning.

Mr. Alfred B. Owen of the Barnardo Home said when the boy left the home he received a book of instructions and two post cards addressed to the home, one to be sent to the home on his safe arrival at his destination and the other to be kept in case he should not be able to procure paper and stamps to communicate with the home at any time. He also stated that he could read and write. On these points he seemed somewhat uncertain on cross-examination by Mr. McKay, saying the boy could read print, and he received a postcard from him after his arrival, purporting to be signed by him.

Dr. C. M. Lang, on Nov. 16, with Dr. Middlebro, made a post-mortem examination after the body had been buried in damp soil for nearly a week. He stated that the skin of the shoulder and breast had a large number of bed sores. The skin had a large number of spots, some as large almost as a 5-cent piece. They extended nearly all over the body, particularly in the back and legs. He stated that they could not be caused by insects. The condition of the body as regarded nutrition was fair. He had cut into the bone and found the joints tuberculous. The heart had not been cut into on the former examination. He cut into it and found clots. Death was due to stoppage of the blood, due to these clots; examined the lungs and found traces of pneumonia. The bowels were normal and there was no evidence of starvation. The mesentric glands were filled with chalky matter, indicating tuberculosis. He accounted for bruises on the skin as being post-mortem changes. He stated that bran porridge and milk—said to have been the boy's diet—were nourishing.

On cross-examination by Mr. McKay, he admitted that impure food and unhealthy surroundings might develop strumous or scrofulous condition. He would not be able to judge as well as if he had seen the body on Nov. 11. He also admitted that bran porridge and milk supplied the boy as part of his food, might account for his filthy habitis in bed.

Dangerous.

We often see this sign on roads or streets.

Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be poison in the blood, for these are the certain signs.

To the fact that poisons get past the kidneys may be traced every sickness to which you are liable.

Treat the kidneys forthwith and first of all.

It is the safe and proper thing every time; therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatment of kidney diseases on earth.

Can't you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney Pills keeps on curing these diseases.

The Bodies Under the Ice.

Barrie, Dec. 16.—The freezing over of Kempenfeldt Bay has ended the diligent search for the bodies of Alfred Warnica and son Dalton, who were drowned here a short time ago, while crossing from Tollendale to Barrie. Their bodies were not found, as was reported, the only things found being the boat and trunk. A reward of $50 was offered by their friends for the recovery of the bodies. The wife and mother, with her eight children, left in comparatively destitute circumstances, is nearly distracted, as beneath the ice and within the shadow of their humble home on the beach lie the bodies of the father and son.

Maltine With Cod Liver Oil and Hypophosphites for Throat and Lung Diseases.

Perfectly well established is the value of cod liver oil in all various diseases of the air passages, and combined with Maltine and hypophosphites, its remedial value is vastly enhanced. In the elegant and palatable preparation, Maltine with Cod Liver Oil, are combined the valuable tissue building oil, and that sustainer of vitality and digestive, maltine. No emulsion can compare in remedial value with this preparation, for in addition to disguising the unpleasant taste of the oil and rendering it more easily digested, the maltine plays a most important part in maintaining adequately the process of nutrition so essential in wasting and pulmonary diseases. This it does by rendering the starchy foods in a form which assures its assimilation, with the result that emaciation gives way speedily to plumpness, the irritated bronchial tubes are soothed, rest grows natural and health becomes an assured fact. Maltine with Cod Liver Oil and Hypophosphites is a food medicine and digestive.

For Bronchitis.

GENTLEMEN,—We have used Yellow Oil as a family remedy for Bronchitis with every success. My husband also used it for a stiff finger that he thought he would never be able to use again, but it is now as well as ever through using Hagyard's Yellow Oil.

Kelley Said He Was From Toronto and Would Rather Steal Than Work.

New York, Dec. 16.—The police last night arrested Edward Mulville as a suspicious person and later took in George Kelley, Mulville's room-mate. Kelley said that he came from Toronto two months ago. "I was out of a job," he said, "but that does not make any difference, for I would rather steal than work. It is better to be in jail with a full stomach than to walk the streets and be hungry."

He then admitted that he had committed three burglaries in Brooklyn, which netted him $40. Mulville, he said, had nothing to do with any of the robberies. They were both held for examination.

RHEUMATISM

Its Cause and Cure.

A poisonous Acid in the Blood, which needs removal.

Only one means for a radical cure.

Rheumatism is a blood disease, due to the presence of uric acid—a poison—in the system, and it is only by the removal of this pain-producing poison, that a radical cure can be effected. Acute rheumatism is hereditary, and thus it is that young children are often victims to this torture. The use of liniments, embrocations and outward applications, may give temporary relief, but can never cure, for the poison is in the blood, and until it is expelled, rheumatism, sciatica and neuraligic pains will continue. Scotts' Sarsaparilla cures rheumatism by removing the cause—by neutralizing and expelling this poisonous acid. In chronic cases, this medicine reaches the source of the disease as no other medicine can. It gives renewed energy to the organs that sustain life, the forces that make the blood. For the nervous troubles of youth, for the debility that precedes old age, for ladies in their severe ordeals, it is without a competer.

Scott's Sarsaparilla is a concentrated compound of the finest medicines known to modern medical science—The dose is from one half to one teaspoonful and during its use the ordinary vocations are not interfered with.

JAMES BEST, *Chairman.*

Mr. Brady moved, seconded by Mr. Cobb, the adoption of the report.

Moved in amendment by Mr. Denne, seconded by Mr. Mills, that the work be divided among the different teamsters.

Mr. Stone pointed out that the adoption of the amendment would result in tenderers putting in tenders at any price, for they would be sure to get "a slice of it anyway." The council was in duty bound to award the contract to the lowest tenderer.

Amendment lost and report adopted.

PREPARING FOR THE ELECTIONS.

Mr. Stone introduced a by-law to fix polling places and appoint deputy-returning officers as follows :

Ward No. 1, VanEvery's shop, Joseph Lundy, deputy-returning officer.

Ward No. 2. Market building, Charles Cameron, deputy-returning officer.

Ward No. 3, Metherall's shop, John Irwin, deputy-returning officer.

Ward No. 4, Wm. Lee's shop, Wm. Lee, deputy returning officer.

Moved by Mr. Phelan, seconded by Mr. Mills, that the present bonds given by the town clerk be surrended and a satisfactory new bond be given—Carried.

A bylaw was passed permitting the execution of a contract for the erection of the superstructure of the George street bridge.

MR. OWEN'S CLAIMS.

Mr. Stone moved, seconded by Mr. Brady, that the sum of $26 be paid to Mr. Henry Owens for disbursement in connection with the action brought by the Board of Health in reference to Whyte's dam.

Mr. Dawson said the payment of the amount was establishment of a bad precedent. He thought that Mr. Owens should be well satisfied with the decision that Whyte's pond was not a "pest hole," which he said was wide of the facts, for it was a pest hole. He raised the point of order that a motion involving expenditure of money required notice.

Mr. Stone said that it was unjust to refuse Mr. Owens reimbursement for the expense the town forced upon him.

Mr. Dawson said that he would agree to Mr. Stone's motion if all the witnesses were included. From the way Mr. Stone was talking he should be getting $5 for talking to-night.

Mr. Stone—"Order! Order! Mr. Mayor, he is is making personal reflections upon a member of this council." It amounted he said to bribery.

The Mayor pointed that Mr. Dawson should not make personal reflections.

Mr. Dawson continuing, said, he was not making such a charge. It was his "imagination," that Mr. Stone by the way he spoke was talking for $5.00.

The breeze then blew over.

The account of W. Cox for affixing street numbers, $6.00, was directed to be paid.

Mr. Brady submitted that it was too bad to have these unpleasant reflections cast, and he thought Mr. Dawson should apologize.

Mr. Cahill—"I think both should apologize"—a laugh—and the adjournment brought peace.

William Henry Ott, alias "Mustang Bill," says that he used Ayer's Hair Vigour for nearly five years, and owes to it his splendid hair, of which he is justly proud. Mr. Ott has ridden the plains for twenty-five years, and is well known in Wyoming and the Northwest.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

CURLIANA.

The committee in charge of the arrangements for the big Peterborough bonspeil met last night and drew up the following circular to be forwarded to the clubs east of Toronto, which will be invited to participate :

The Peterborough curling clubs purpose holding a grand bonspiel on Tuesday, Jan. 7. We would be pleased to have your club represented and we think we can safely promise to make it pleasant for you should you decide to come.

We promise to have a single rink competition, open to not more than four rinks from any club, for four pairs of curling stones for the best rink, and four agate fobs (curling stone patterns) for the best competing rink. This will be held on Jan. 6th.

The stones presented in this competition are from the Andrew McKay Curling Stone Manufactory, Peterborough, which is a guarantee of their quality, two pairs being presented by the makers and two pairs by the Peterborough curling clubs. The four agate fobs are very kindly presented by Mr. J. S. Russell, secretary of the Ontario Curling Association and are valued at $20. Entrance, $2.

A club competition, two rinks a side, for a valuable trophy presented by the Peterborough curling clubs and valued at $50.

All entries must be in before 6 p.m., Tuesday, Jan. 6th. Kindly let me hear from you as soon as you can as to the number of rinks you will send, as we desire to make arrangements for your comfort at the different hotels.

You are requested to have a representative at the Peterborough rink at 0.30 p.m., January 6th, when drawing for places will take place.

The entrance fee has been placed at $2.00.

Mr. J. S. Russell of Toronto, will be umpire.

The competions are open to all clubs in good standing in the Ontario Curling Association, between Toronto and Kingston, including the latter city, and all on Northern and Northwestern and Midland Div. of G. T. R.

Amongst the matches played on the rink yesterday were the following :

F D McKay,	R Neill,
John Stanger,	R H Fortye,
T Rutherford,	Geo Brown,
R H Kells, skip 13	J B Pentland, skip...14

THE WHEEL.

Champion Billy McIntosh was not out of a berth very long, as the Brantford firm, always on the lookout to secure the cream of the racing men, have snapped him up, and next year he will push "Red Bird," it is to be hoped, to victory, scores of times.

MISCELLANEOUS.

McRae, Queen's great footballist and hockey player, is in town for a day or so. He is a son-law of G. T. R. Stationmaster Wm. Hayden. The boys should get "Chip" out on the ice to give them a pointer or two.

HUSTLING HAVELOCK.

(From Our Own Correspondent.)

A dead lock—the seal on the arbitration.

The "at home" given at Mr. Waller's on Thanksgiving evening, proved a very interesting and profitable gathering.

Merchants are complaining that collections are bad. One states he has $6,000 out in accounts and would like to see the colour of a ten dollar bill.

The young and old are on the hustle preparing for the coming Xmas tree entertainments.

The skating rink is progressing slowly and the stars on steel are taking the frog pond in.

Robert Ford is preparing for fast time on ice this season, and ordered our expert shoe maker, Mr. Fennell, to make him a pair of fast shoes, laced from stem to stern.

The Glee Club is blooming, having engaged Prof. Davis as instructor. Two of the professional juniors made the air howl by their glee at quite a late hour the other night. Less noise boys, old people want to sleep.

Watson Bros., the enterprising butchers, are having another shooting match. They have also erected a dark parlour in their butcher shop.

Mrs. Gould and children took the east-bound train on Saturday for Kingston to visit her father. J. B. now goes along with a tear in his eye.

One of the most disgraceful pieces of work ever done in the village is the crossing which the council has put across George street at Dr. Jeff's corner, leaving large cakes of frozen earth lying upon the ground to such an extent that occupants in cutters or sleighs are shaken badly while crossing, if great care is not taken to either drive across the sidewalk on one side or scrape the fence on the other. Two ladies while driving across were thrown forward from their seats in the cutter. Danger at that corner, ladies, drive slow.

The old Council has decided to stand for another election.

Mr. P. J. Hill, it is understood, is coming out for Reeve against Mr. Joyce. This will be a race between horses and harness—both go together but two cannot win this time.

The Council has laid the petition for the curfew bell over. It would be a blessing to a good many ladies who have occasion to go on the street at night if the crowd of boys, who nightly gather in various places and especially in front of McMaster's hardware store, could be dispensed with. Here the most filthy language and hardest oaths are to be heard nightly, not by men, but from infants, as it were, children from 7 to 14 years, and some of them (with professing Christian parents) whose ages do not exceed 13 years, are not at all backward in damning young girls whom they meet. It is time Havelock, with all its improvements, had a lock-up and constable to put such blackguardism down.

Rev. Mr. McKnight, Peterborough, filled the pulpit in the Presbyterian church last Sunday, both morning and evening, giving a very interesting discourse at both services. Dr. McClelland contemplates taking a month's vacation.

Jas. S. Laing and his bride (nee Miss Bothwell) arrived in the village on Friday evening.

Jesse Whitney, who formerly run Taylor's saw mill, was in the village Saturday, having returned from Nipissing District, where he has been employed for some time past.

or BLANKETS?

One dollar is'nt much to put in a blanket, but it will buy a $1.50 Blanket at Miss Rudkins'.

You can buy them cheaper still—as low as 80c, or as high as $7.00, with various good values in between.

We've a stock that these snappy mornings and evenings are making a hole in. But its a lucky thing that we could repeat our Blanket orders at the old price before wool went up.

Broken Lots of Underwear.

We are passing these along to our customers at the reduced price because the lines have been broken—the goods are as perfect as the day they left the mill, but the prices! Almost broken in two.

Don't ask the laundry to wash those poor shrunken undergarments any more—new Flannels are cheap enough here, goodness knows!

Cardwell Nominations Yesterday at Mono Mills.

LARGE AND GOOD-NATURED CROWD

All the Candidates Made Speeches Defining Their Position—Mr. McCarthy Makes a Serious Allegation Against Hon. Dr. Montague—Amusing Incidents.

Mono Mills, Dec. 17.—From 12 o'clock noon until 2 in the afternoon, as required by law, Mr. Robert Johnston, returning officer for the County of Cardwell, sat before his table in the little hall at Mono Mills to-day, to receive nominations for candidates for the forthcoming election. And he did not sit alone. Shortly after he had taken his seat the people began to pour in, and soon the little building, capable of seating about 200 people, was packed like a sardine box. Fully 200 people more remained on the outside, utterly unable to squeeze in.

It was a great day in the history of the picturesque village. The solitary hotel, which on ordinary occasions is more than capable of catering to the requirements of the hungry and thirsty, natives and wayfarers, was hopelessly inadequate to accommodate the crowds that pressed upon its hospitality, while all the stabling room in the neighborhood was pressed into service.

The nomination papers were handed in in the following order:

William Stubbs, veterinary surgeon, Charleston; financial agent, Mayor W. T. Bailey, Orangeville.

W. B. Willoughby, Toronto; financial agent, Charles Robert McEwan, Orangeville.

R. B. Henry, Caledon; financial agent, Thomas McCartney, Caledon.

At 2 o'clock the nominations were declared closed, and Mr. Returning Officer Johnston was voted to the chair to take charge of the subsequent meeting.

t was then ascertained that the Hon. Mr. Foster and Mr. D'Alton McCarthy were on the outside, having been unable to get in.

A message was despatched to those gentlemen, asking them to endeavor to arrange as to the order of the speaking, and he returned with the information that the hall was regarded as unsafe, and that Messrs. Foster and McCarthy did not feel like trusting themselves within its narrow walls.

Then ensued a brief period of suggestions. Some proposed an open-air meeting in the lee of a neighboring barn; others proposed that the speakers alone be allowed inside the building, and that they talk to the crowd through the windows; others still proposed an adjournment to the drillshed, and this last suggestion was the one adopted.

Now, this drill shed, at one time the headquarters of the gallant boys who composed the Mono volunteers, has suffered severely from the ravages of time, and looks like a dilapidated barn or a deserted homestead. Without windows, doors, flooring or seating, it could boast no other accommodation than simply space.

But the crowd was not particular as to furnishings. It was an animated, enthusiastic, good-natured crowd, solely bent on hearing politics discussed, and so long as it could hear, was not particular as to the surroundings. It swarmed along the cross-beams and perched itself wherever a point of vantage presented itself. Those who could not would not climb to loftier situations, stood patiently and good-naturedly on their ankles in the loose straw which covered the earth and did duty for a floor. An old door, supported partly by the remains of a home-made land roller, was hastily constructed into a platform, and on this the various speakers ventured their necks, and from it made their bows to the audience.

It was arranged that Mr. Willoughby should open the meeting and that Mr. Foster should close it. This was an unfortunate arrangement for Mr. Foster, for by the time his turn arrived almost perfect darkness had settled down upon the assembly.

Mr. Willoughby was given a splendid hearing. He pointed with pride to the fact that he was the candidate of a party which had selected him with hearty unanimity. He was the candidate of a party whose policy was very well known. It had changed at times as changing circumstances required, but in all the years of its existence it had retained its distinctive characteristics. It was a policy of protection for the manufacturing industries and for the farmers of the country. It was a national policy in that it sought to make a composite union out of the various elements of the Dominion. The Conservative party was a Dominion party; the Liberal party was a provincial party. But there was also now a third party, the party of Mr. McCarthy. Mr. McCarthy should never attempt to force his party on Cardwell, for when that gentleman's political fortunes were at a very low ebb it was Cardwell that took him up and gave him a seat in Parliament. Mr. McCarthy might say he was as good a Conservative now as any of them. This the speaker denied. He refused to recognize Mr. McCarthy in his present attitude as a good Conservative. On the contrary the Dominion Government had now no more hostile opponent than Mr. McCarthy, and if Mr. Stubbs was true to his principles, he, too, would have to rank with those who sought the overthrow of the Government. The Reformers now felt that they had the chance of a life-time and were taking every advantage of it. But he believed that the men of Cardwell who had stood by Sir John Macdonald through good report and evil report, would still remain true to their allegiance.

The speaker then proceeded to consider the policy of the Government in relation to the interests of the agricultural community.

He described what the Government had done especially for the farmers through the operation of the Experimental Farm at Ottawa, through the fostering of the cheese industry of the Country by the policy of protection; through the encouragement of the butter trade; through the encouragement o fthe dead meat industry and in many other ways.

In answer to a question as to his positon on the Manitoba school question Mr. Willoughby said: I admit that I was at one time convinced that remedial legislation meant the restoration of the system of Separate schools, existing prior to 1890. If it does mean that I am opposed to it now, as I was then. But I am willing as a loyal Canadian, to stand by the constitution, willing to extend to Roman Catholics and Protestants alike every privilege that the constitution affords, and if Manitoba be unwilling to deal with its own affairs, I am willing to scan any measure for redress that may be introduced, and if it be a fair and proper measure, I will support it.

In conclusion, he asked his friends who had trusted Sir John A. Macdonald and Mr. Thomas White to act as they knew those gentlemen would act if they were alive, and doing so they couldn't do otherwise than support him. Mr. Stubbs was to be left out of the question. The issue was between Mr. Henry and himself, and if the Conservatives did not want to strike a blow at the Government, they would have to support the Conservative candidate.

Mr. Stubbs was the next speaker. He was received with a cheer. Mr. Willoughby's policy, he said, was along the line of the old party and the old men—some of them dead. He thought that what was wanted was a live question, and the most important question before the country to-day was the Manitoba school question. It was that question that had called for an extra session of Parliament. Why was Cardwell vacant to-day, but because the late representative was bound in honor to vote against that Government which he was elected to support? He accused Mr. Willoughby of having changed tacks on the schol question. Had he stood by his first declaration he (the speaker) would not be a candidate to-day. As for Mr. Henry, his attitude was that of Mr. Laurier, and that was an attitude of delay. Why was it necessary to appoint a commission? Manitoba was able to conduct its own affairs and it was the policy of himself and his supporters to allow it to conduct its own affairs. The education of Roman Catholic children in the Roman Catholic faith was a union of church and state such as was contrary to the constitution of this country.

Mr. Stubbs spoke but briefly, his throat giving out before his time was up.

Mr. Henry was the next speaker. He said he was the Liberal candidate, a Reformer and a home man. He had been pressed into the field by farmers on both sides of politics, because it was felt that the farmers were not receiving justice at the hands of the Government, and were anxious to have a farmer representative. H was put in the field by a fairly representative convention and would stay there until he was taken away. He had been accused of a good many things and in many ways had been misrepresented; he had been accused of selling out, but he could say that he had never been aproached by the representatives of any party with a view to selling out. He laid special emphasis on his being a "home" man and proceeded to discuss the trade question as it affected the farming community. If we couldn't have free trade he wanted fair trade. He denounced the National Policy for having "tariffed" the trade and the people of Canada out of the country. With reference to the school question, he was prepared to stand by the policy of the Liberal party. He was in favor of a commission of enquiry to investigate the matter thoroughly.

Col. O'Brien was next called upon. He began by accusing the Government of sending a host of officials into the constituency to corrupt the electorate, and if Mr. Foster was aware of the manner in which his satellites were forcing whisky down the throats of the people, he should either call them off or resign his position. Coming to the school question, he asked what rights any minority could have that were not the rights enjoyed by all. When any minority claimed special rights they violated the compact on which Confederation was formed. He declared that in Manitoba the public money spent on the support of separate schools had brought no proper return, and the Governemnt of Manitoba was therefore perfectly justified in making the change it had made

Mr. Frank Pedley of Toronto was next called upon. He began at once by stating the position of the Liberal party with reference to the Manitoba school question. That policy in brief was the appointment of a commission to investigate the whole question, and that policy, he declared, was suggested by the Manitoba Legislature itself.

Mr. D'Alton McCarthy was next called upon. He claimed that he was as good a Conservative as he was 19 years ago, and if he had gained any experience in those years his country was entitled to it. He had supported the National Policy, but only to give the manufacturers a start, and he claimed that he was a good Conservative in withdrawing from the support of the National Policy, now that the manufacturers had got a start. He characterized the talk about protecting the farmer as delusive. Farmers were not protected; and did not need protection. But he was not going to be drawn into a discussion of the tariff, for the reason that Parliament was called together for the 2nd of January for one purpose and one purpose only, and that was the school question. He read a letter which Mr. Willoughby had written, setting forth his views on the school question. The letter was written to one Jackson Brett, Camilla, and was dated Nov. 7th, of this year. In this letter Mr. Willoughby, stated that he was opposed to any interference with Manitoba from whatever quarter it might come. If Mr. Willoughby had stuck to this, Mr. McCarthy declared that his candidate would not now be in the field. He denied that Parliament was bound to pass any remedial legislation. There was no power on earth that could compell parliament to pass any law. He then proceeded to the school question, but took an early opportunity of making a personal attack on Dr. Montague He accused the Secretary of State of having forged a document purporting to be a proclamation from the Queen to the Indians, in his (the doctor's) constituency, asking them to vote for him, and asked if he (Mr. McCarthy) could be blamed for refusing longer to associate or link his fortunes with a man who would do the like of that.

Mr. Foster: Can you prove that he forged that document?

Mr. McCarthy: Perhaps not with his own hands, but—

Mr. Foster: You daren't say that he did.

Mr. McCarthy: Daren't say what?

Mr. Foster: Not daren't, perhaps, for you dare say anything; but you have no right to say it.

Mr. McCarthy, continuing, said that Dr. Montague had been abusing him from every platform on which he appeared, but that when an opportunity presented itself of meeting him (the speaker) face to face he (Montague) was afraid to face the music.

Mr. McMullen, M.P., spoke briefly on some of the leading questions of the day, and Mr. Foster brought the meeting to a close. It was dark by this time and the crowd began to move for home, so that Mr. Foster spoke under serious difficulties and his remarks were necessarily brief.

After the meeting Mr. Foster drove to Caledon, where he addressed a meting in the interests of Mr. Willoughby.

Another Postoffice Burned

Brighton, Dec. 17.—At 3 o'clock this morning at Codrington, 10 miles north of this place, fire totally destroyed John A. Robinson's general store, The postoffice and Wade's telephone office were in the same building. Nothing was saved. Insurance on stock, $800; on building and contents, $900 in the British American. Cause of fire unknown. This makes the third postoffice inside of a year that has been destroyed by fire on this route between Brighton and Campbellford.

Kingsville Postoffice Robbed.

Kingsville, Dec. 17.—The postoffice here was entered by burglars last night. Entrance was effected through a second-storey window into Cowan & Quick's store, from which they managed to get through the partition into the postoffice. They cut open an Island mail bag which had just arrived and ransacked letters in Pelee Island mail bag. Other letters were not disturbed.

AT THE PETERBOROUGH PROTESTANT HOME.

An Evening of Music Which Greatly Delights the Inmates—Many More of Them Should Follow During the Coming Winter.

About fifteen of the members of the George street church branch of the Epworth League journeyed up to the Peterborough Protestant Home last evening, and spent several hours with the old people, amusing them in various ways.

Mr. Will Roadhouse and Miss Mabel Maude each gave several instrumental solos, and also played a duet on the autoharp, mouthorgan and violin, as well as playing the accompaniments for a number of hymns which were sung to the great delight of the old ladies and gentlemen, who joined in most enthusiastically.

During the course of the evening the young people produced their baskets and refreshments were partaken of. Acts of kindness such as these are greatly appreciated by the old people, and those having a talent for music could not do better than spend an occasional evening at the Home.

A PLEASANT GATHERING.

St. Andrew's Choir and the Sunday School Orchestra Enjoy Themselves.

Last evening the choir of St. Andrew's church and orchestra of the Sunday school spent a most enjoyable evening at the manse, nearly every member being present. After enjoying the numerous games for a couple of hours, a visit to the dining room was suggested and what a sight; the tables fairly groaned with the load of tempting dishes which had been prepared by Mrs. MacWilliams After doing justice to the sumptuous repast, the choir returned to the parlour and sang a number of selections, closing with "Should Old Acquaintance be Forgot." It is safe to add that the choir never had so much genuine enjoyment all crowded into one evening.

THE TOWN'S FINANCIAL POSITION.

The statement of the Town Treasurer, presented to the council on Monday night through the chairman of the Finance Committee, Mr. Cahill, shows a surplus of $1,586.47 over the current liabilities for the year 1895. This, taken in connection with a reduction in the rate of taxation, furnishes evidence that our financial affairs during the past year have been fairly managed; and a slight review of the financial statement will be of interest. In its dry tabulated form it is not very enticing or easily intelligible reading, therefore a brief consideration of it will not, perhaps, be without profit.

There were realised from debentures during the past year $23,500—that is, $17,000 for the outfall sewer, and $6,500 for the South Ward School. Of course, part of last year's receipts were used for the purpose of sewerage construction, and this year a portion of the proceeds of the sale of debentures has returned to the town treasury the amount paid on Mr. Grant's contract last year, one about balancing the other. This year the expenditure on account of the administration of Justice is $5,494.05 as against $3,510.05 last year, the increase being caused by the payment of $2,025 due the county under the award on this account last year and paid this year. The Board of Health has increased its expenditure about $50 and the Collegiate Institute about $500. The charity account shows an increase, according to the statement, of $312; but this may be offset by the value of wood on hand for distribution in charity.

The increased cost of the Fire Department of about $470 is accounted for by payments for new hose. The contribution of the town of $750 for the Bensfort bridge—by the way a good investment—is accountable largely for an increase under the head of special grants. There have also been increases of $30 and $40 respectively in heating and insurance accounts. The cost of light shows an apparent increase but this is due, probably, to one more quarterly payment having been made before the statement was issued last year. Then the miscellaneous expenditure shows an increase of about $80, and markets an increase of $20, for which good value has doubtless been received. The demand of the Board of Education for schools is responsible for an increase of some $1,500 over last year. The apparent large increase in the printing account, of $250, is due to all work being charged to that account instead of, as in former years, being charged to the several departments for which it was done. The expenditure on public buildings was $187 in excess of last year. Altogether, increases in the several departments over last year amount to, in round numbers, over $4,000. These are offset by decreases in other departments totalling about $1,450. The expenses of municipal government show a decrease of $75, and hydrants also show a reduction of $1,100, which is, however, only apparent, there remaining to be made another quarterly payment, which was made earlier last year and so appeared in the statement. The decrease in interest this year is $25, and the expenditure on streets and bridges is shown to be less by $250 than last year, though some who demand improvement may think that the expenditure might be increased in this department with advantage. The items quoted show the difference in the corresponding items between the statement of this year and last.

In the matter of liabilities, not included in the statement, there is the Mason case liability, which may be perhaps regarded as met by sums now on deposit to the credit of the town in court—$400 in the Court of Appeal, and $500 in the Supreme Court, which sums Mr. Edwards may be inclined to consider an asset, and Mr. Dumble a liability. Then there is the liability likely to arise in the settlement of the sewer arbitration matter with the township of North Monaghan, which will probably amount to between $500 and $700. And against these there is a sum of about $1,500 arrears of taxes, which, however, may be regarded as largely nominal in its character, worth, judged by former receipts, perhaps $200. In this connection it may be suggested that it would be in the interests of the town to hold a sale of lands for taxes and realise what is due instead of carrying unpaid taxes through the yearly statements as so much dead matter—an asset of little practical value.

There is another liability of $2,823 for the construction of the George street bridge, which is a permanent improvement which has been put in this year's statement, and should be properly charged to capital, instead of current account. There can be no doubt that the plan pursued in this case is the best—"pay as you go."

While the council is deserving of credit for making both ends meet so closely, it must be remembered that they began the year with surplus assets of about $5,000—$5,141.86, and ended with a surplus of $1,586.47. With another year of economical expenditure and close sailing in financial matters, it is to be hoped that next year will witness another reduction in the rate, and that next December's statement will show as generally satisfactory a balance sheet as the present year.

COUNTY COUNCIL SESSIONS.

There is a discussion going on in Oxford county over the advisability of doing away with a December session. There is wisdom in the plea that it can be eliminated without any injury to the public interests. The county council of Peterborough has only two sessions in the year—in January and June and there is no complaint that the interests of the county suffer from the failure to hold a December session. On the contrary our county council looks after every interest and the people are well satisfied with the manner in which their business is transacted. The Woodstock Sentinel Review points out that a session of the Oxford Council means an expense of about $100 per day, which allowing about a week as the duration of a session, is $600 practically wasted—or, at least, unnecessarily expended. But that is not all the unnecessary expense. No deliberative body, with executive functions, can sit a week without feeling the necessity of something to do—something upon which to spend money and generally under such circumstances, unwisely. The complaint is often make that we are over-governed, and too frequent meetings of our governing bodies is one of the most expensive phases of our excess of law-makers, local and otherwise. Fewer representatives and less frequent meetings, within reasonable limits, are conditions that would make for more economical, with equally effective, municipal government.

Several directors of the T., H. & B. Railway Company visited Beamsville on Saturday, when the question of extending the electric road was discussed. The chair was occupied by Warden Ritchie. The meeting was unanimously in favor of having the road extended to Beamsville, and representatives of Beamsville and Lincoln Councils promised a free right of way through their territory, and the H. G. & B. people gave their assurance that the road would be finished as soon as the municipal councils would pass the necessary by-laws. President Myles said the road would be finished to Beamsville by July, 1896, if right of way could be secured at a reasonable rate.

It is said that at the annual meeting of the shareholders on January 20, an effort will be made to depose President Myles, and consequently there is a great demand for shares.

STRONG LANGUAGE

Indulged In Over the Venezuelan Dispute.

THE MESSAGE OF MR. CLEVELAND.

Britain Refuses to Arbitrate, Therefore the Proposal is to Arbitrate on Their Own Mook - Lord Salisbury's Pointed Words in Reply to Secretary Olney.

Washington, Dec. 17.—The President sent to Congress to-day the Venezuelan correspondence, accompanied by the following message:

"In my annual message, addressed to the Congress on the third instant, I called attention to the pending boundary controversy between Great Britain and the Republic of Venezuela, and recited the substance of a representation made by this Government to Her Britannic Majesty's Government, suggesting reasons why such dispute should be submitted to arbitration for settlement, and inquiring whether it would be so submitted.

"The answer of the British Government, which was then awaited, has since been received, and, together with the despatch to which it is a reply, is hereto appended.

"Such reply is embodied in two communications addressed by the British Prime Minister to Sir Julian Pauncefote, the British Ambassador at this capital. It will be seen that one of these communications is devoted exclusively to observations upon the Monroe doctrine, and claims that in the present instance a new and strange extension and development of this doctrine is insisted on by the United States, that the reasons justifying an appeal to the doctrine enunciated by President Monroe are generally inapplicable 'to the state of things in which we live at the present time,' and especially inapplicable to a controversy involving the boundary line between Great Britain and Venezuela.

"Without attempting extended argument in reply to these positions, it may not be amiss to suggest that the doctrine upon which we stand is strong and sound, because its enforcement is important to our peace and safety as a nation, and is essential to the integrity of our free institutions and the tranquil maintenance of our distinctive form of Government. It is intended to apply to every stage of our national life, and cannot become obsolete while our republic endures. If the balance of power is justly a cause for jealous anxiety among the governments of the old world, and a subject for our absolute non-interference, none the less is an observance of the Monroe doctrine a vital concern to our people and their government.

"Assuming, therefore, that we may properly insist upon this doctrine without regard to the 'state of things in which we live,' or any changed conditions here or elsewhere, it is not apparent why its application may not be invoked in the present controversy.

"It will be seen from the correspondence herewith submitted that this proposition has been declined by the British Government, upon grounds which, in the circumstances, seem to me to be far from satisfactory. It is deeply disappointing that such an appeal, actuated by the most friendly feelings towards both nations directly concerned, addressed to the sense of justice and to the magnanimity of one of the great powers of the world, and touching its relations to one comparatively weak and small, should have produced no better results.

"The course to be pursued by the Government, in view of the present condition, does not appear to admit of serious doubt. Having labored faithfully for many years to induce Great Britain to submit this dispute to impartial arbitration, and having been now finally apprised of her refusal to do so, nothing remains but to accept the situation, to recognize its plain requirements and deal with it accordingly.

"In order that such an examination should be prosecuted in a thorough and satisfactory manner, I suggest that the Congress make an adequate appropriation for the expenses of a commission, to be appointed by the Executive, who shall make the necessary investigation and report upon the matter with the least possible delay. When such report is made and accepted, it will, in my opinion, be the duty of the United States to resist by every means in its power, as a wilful aggression upon its rights and interests, the appropriation by Great Britain of any lands, or the exercise of governmental jurisdiction over any territory, which, after investigation, we have determined of right belong to Venezuela.

"In making these recommendations, I am fully alive to the responsibility incurred, and keenly realize all the consequences that may follow.

"I am, nevertheless, firm in my conviction that, while it is a grievous thing to contemplate the two great English-speaking peoples of the world as being otherwise than friendly competitors in the onward march of civilization, and strenuous and worthy rivals in all the arts of peace, there is no calamity which a great nation can invite which equals that which follows a supine submission to wrong and injustice and the consequent loss of national self-respect and honor beneath which is shielded and defended a people's safety and greatness."

THE CORRESONDENCE.

Lord Salisbury's Emphatic Language in Reply to Mr. Olney.

Although the matter submitted to Congress in connection with the foregoing message consists of three diplomatic notes only, they are very voluminous. Mr. Olney's note to Mr. Bayard concerning the threatening aspect of affairs between Great Britain and Venezuela is first in the correspondence. It is dated July 20 last and deals with the boundary question at great length.

Mr. Olney says it is not perceived how such an attitude can be defended nor how it is reconcilable with that great love of justice and fair play so eminently characteristic of the English race, and holds that if such position be adhered to it should be regarded as amounting in substance to an invasion and conquest of Venezuelan territory.

In conclusion, Mr. Olney said that in these circumstances the duty of the President appears to him unmistakable and imperative, to ignore Great Britain's assertion of title and her refusal to have that title investigated; and not to protest and give warning against the substantial appropriation by Great Britain of the territory for her own use would be to ignore an established policy with which the honor and welfare of this country are closely identified. He, therefore, instructed Mr. Bayard to lay the views given before Lord Salisbury, and said: "They (the views) call for a definite decision upon the point whether Great Britain will consent or will decline to submit the Venezuelan boudary question in its entirety to impartial arbitration."

Lord Salisbury's reply is addressed to Sir Julian Pauncefote, British Ambassador at Washington, under date of Nov. 26 last. This dealt only with the application of the Monroe doctrine in the case at issue and was followed the same day by another note discussing the boundary dispute.

The dispute between Great Britain and Venezuela, avers Lord Salisbury, is a controversy with which the United States have no apparent practical concern.

Continuing, in short, pithy sentences, he says it is difficult indeed to see how the question in controversy can materially affect any state or community outside those primarily interested; that the disputed frontier of Venezuela has nothing to do with any of the questions dealt with by President Monroe; that it is not a question of the colonization by any European power of any portion of America, nor of the imposition upon the communities of South America of any system of government devised in Europe.

"It is," he said, "simply the determination of the frontier of a British possession which belonged to the throne of England long before the republic of Venezuela came into existence."

As he proceeds in the discussion the language of Lord Salisbury becomes tart. He argues on the theory that the Monroe doctrine in itself is sound, but disclaims any intention of being understood as expressing any acceptance of it on the part of Her Majesty's Government. He quotes Mr. Olney as saying, "That distance and 3000 miles of intervening ocean make any political union between a European and American state unnatural and inexpedient will hardly be denied," and adds that "The necessary meaning of these words is that the union between Great Britain and Canada; between Great Britain and Jamaica and Trinidad; between Great Britain and the British Honduras or British Guiana, are inexpedient and unnatural."

President Monroe, says His Lordship disclaims any such inference from his doctrine, but in this, as in other respects Mr. Olney develops it. "He lays down," says Lord Salisbury, "that the inexpedient and unnatural character of the union between a European and an American state, is so obvious that it will hardly be denied.

"Her Majesty's Government are prepared emphatically to deny it on behalf of both British and American people who are subject to her crown. They maintain that the union between Great Britain and her territories in the western hemisphere is both natural and expedient. But they are not prepared to admit that the recognition of that expediency is clothed with the sanction which belongs to the adoption of international law. They are not prepared to admit that the interests of the United States are necessarily concerned in every frontier dispute which may arise between any two of the states who possess dominion in the western hemisphere, and still less can they accept the doctrine that the United States are entitled to claim that the process of arbitration shall be applied to any demand for the surrender of territory which one of these states may make against another."

Lord Salisbury concludes with the statement that Her Majesty's Government have not surrendered the hope that the controversy between themselves and Venezuela will be adjusted by reasonable arrangement at an early date.

The second note of Nov. 26 is wholly devoted to a discussion of the boundary dispute, exclusive of its relation to the Monroe doctrine

The Thunderer's Warning.

London, Dec. 18.—The Times says: "It is impossible to disguise the gravity of the difficulties that have arisen between this country and the United States. The message which President Cleveland transmitted to Congress and the reception it met from both sides in the Senate give an additional importance to the dispatches that have passed between the State Department at Washington and the Foreign Office. The details of the boundary dispute with Venezuela are insignificant in comparison with the far-reaching claim put forward in Mr. Olney's despatch and emphasized in Mr. Cleveland's message. Convinced as we are that a rupture between the two great English speaking communities would be a calamity not only to themselves, but to the civilized world, we are nevertheless driven to the conclusion that the concessions that this country is imperiously summoned to make are such as no self-respecting nation and least of all one ruling an empire that has roots in every quarter of the globe could possibly submit to. The United States, themselves would never dream for a moment of yielding to this kind of dictation. We are of the same blood and shall not be less careful of our national honor. We can hardly believe that the course threatened by Mr. Cleveland will be seriously adopted by the American Government, but if so it will be incumbent upon us, without entering upon any aggressive measures, to protect our imperial interests and stand up for our rights under international law. It must be observed that the Monroe doctrine upon which Mr. Olney relies, has received an entirely new development by the statement in his despatch and in Mr. Cleveland's message that the doctrine is admitted by all the highest authorities. It has never been recognized even in its original form as a rule of international law. Lord Salisbury expresses his full concurrence with the view that the disturbance of territory in the western hemisphere by fresh acquisition on the part of European states is highly inexpedient, but the recognition of this expediency does not cover the preposterous deductions from the Monroe doctrine which Mr. Olney's despatch puts forward and Mr. Cleveland makes the basis of the most astounding proposal that perhaps has ever been advanced by any government intime of peace since the days of Napoleon.'"

"We are bound to resist the claims which the Monroe doctrine has for the first time been extended to cover, and to which Mr. Olney has added comemnts and inferences against which an emphatic protest must be made."

The Times refers to the cool assumption based upon a distance of 3000 miles and continues: "A power which has command of the sea does not regard the 3000 miles of intervening ocean as severing it from its subjects. It is to be remembered, moreover, that a good deal of time must elapse before a commission can be appointed and that it will be a still onger time before it can report. It may not come into existence, indeed, until the executive has passed into other hands. In the meanwhile the sober, common sense of the American people, we should hope, will condemn the attempt to pick a quarrel with a friendly power. In any case, our own course is clear. We must stand firmly and calmly upon our rights as an independent state and if necessary take practical measures to assert them. It may be expedient to settle the frontier question by drawing a line of our own. Of course there can be no thought of anything less than the Schomburgh line and allowing the United States and Venezuela to deal with matters as they may."

William Henry Ott, alias "Mustang Bill," says that he used Ayer's Hair Vigour for nearly five years, and owes to it his splendid hair, of which he is justly proud. Mr. Ott has ridden the plains for twenty-five years, and is well known in Wyoming and the Northwest.

YOUNG WEESE CONVICTED.

A Peterborough Youth Gets Himself Into Trouble In Toronto.

"He does nothing but walk about our store looking for pockets to pick," said George Magginson, floor-walker at Eaton's, referring to a young man named Brydon Weese, charged with attempting to pick pockets. Mr. Magginson swore he saw Weese put his hand in a lady's pocket, from which her purse was partially protruding, but as the lady turned suddenly he drew it out again without any booty. Witness had noticed the man a number of times in the store, and had followed him about and put him out every time he caught him.

Detective Harrison and Sergt. Reburn swore Weese gave a false name and address when arrested and told conflicting stories as to his business and relatives.

Weese's brother gave him a good character, and the Colonel sent the prisoner to jail for 40 days.—Toronto Telegram.

Weese, it will be remembered, went up to Toronto from Peterborough some time ago. The police here state that he was a wild lad.

ST. JOHN'S WOMEN'S AUXILIARY.

The Annual Meeting Held on Monday in the School House.

The St. John's Branch of the Women's Auxiliary held their monthly business meeting in the School House on Monday afternoon, Dec. 16th. There was a good attendance and the Secretary reported that the usual autumn bale had been packed last week and this year despatched to the Rev. F. H. Hartley, Young's Point. It contained 87 new garments, 16 second-hand garments, and 278 presents for Christmas trees, suitable for Sunday School children, consisting of dolls, toys, books, candy-bags, etc.

The Treasurer having left town last week for Petrolia, after carrying on her work in this society for a great many years, a resolution was moved by Mrs. Vernon, seconded by Mrs. Morphet,—"That the members of St. John's Branch of the Women's Auxiliary desire to express their deep regret at the loss, by removal from town, of their treasurer, Miss Kirkpatrick, and to place on record their hearty appreciation of her most devoted and faithful services."

Mrs. A. N. Clark has undertaken her duties for the present.

It is hoped that Archdeacon Tims, late of the Blackfoot Home, will be in Peterborough early in January and speak at a meeting about the work being done among the Indians. The date will be announced later on and a crowded house will be expected.

Newfoundland.

The lecture to be delivered this evening in St. Paul's church by Rev. W. Graham, of St. John's, Newfoundland, will possess sufficient interest to all our citizens to make it well worth attending. The lecturer will deal with many interesting facts about Newfoundland, and a series of lime light views of the island will be exhibited by our experienced lime-light operator, Mr. R. M. Roy.

Fine Furs Sent Abroad.

This morning Messrs. Fairweather & Co. made a shipment of furs which shows how highly their work is appreciated abroad as well as at home. They shipped to city customers two superb shoulder capes, made of the best Alaska seal, and lined with brocaded satin. They were 22 inches in length and 140 inches sweep. The invoice of the consignment totalled for the two capes $375, and while they were making them the customers wired to add $25 to the price in order to insure satisfactory garments. They are intended as Christmas presents, and Fairweather & Co.'s splendid stock contains hundreds of fur articles suitable for such purposes. This shipment is pleasing evidence that Fairweather & Co. stand high in public favour.

A PLEASING PIANOFORTE RECITAL

Given by the Pupils of Mr. A. F. Hoover Last Night—A Fine Programme Exemplifying Well Grounded Proficiency.

Last night in the basement of the Murray street Baptist church a delightful recital by the Junior II, Senior I and II and graduating class pupils of Mr. A. F. Hoover's School for the Pianoforte, was given. There were present a large number of the parents and friends of the pupils taking part in the delightful evening's programme presented. Upon the platform of the school room was placed an excellent Heintzman & Co. pianoforte, whose fine tone and action permitted the cleverly instructed pupils to make the most of their abilities. A few pots of beautiful blooming flowers grouped around the instrument added brightness to the scene.

The following is a copy of the programme given:

PART ONE.

Polka, Lange, Miss Jennie Hall; "Francaise," Strauss, Miss Wilhelmine Gumpricht; "Dein Eigen," Lange, Master Oscar Dumble; "Melodie Andante," Beaumont, Miss Elizabeth Dumble; "Morceau de Salon," Goerdeler, Miss Ettie Ball; "Chimes du Morceau," Wilson, Miss Josie Eakin; Valse, No. 2, Godard, Miss Wynnie Dobbin; "Troubadour," Smith, Miss Gertie Kendry; "March Brilliant," Sydney, Miss Ada McBain; "Romance," Richards, Miss Marion Hall.

PART TWO.

Duet, "Gallop de Concert," Stevens, Misses Charlotte and Maggie English; Song, "The Soldier's Tear," Lee, Miss M. Hendren; "O Cara Mia," Grobe, Miss K. Ferguson; Second Nocturne, Leybach, Miss Ada Aldridge; "Valse de Concert," Lange, Miss Lillian Hall; Fifth Nocturne, Leybach, Mr. T. Laing; "Fantaisie du Concert," Wely, Miss Maggie English; "Letzte Gedanken," Weber, Miss J. Robinson; "Faust Fantaisie," Leybach, Miss E. Hubbs; "Massaniello," Auber, Miss M. Coulter; (a) "Berceuse," Chopin, (b) "Spinnlied," Mendelssohn, Miss S. Campbell; "Scherzo, B flat Minor," Chopin, Miss M. Hendren.

Of course it is impracticable to deal in anything like criticism of the work of the youthful performers, though, truth to say, all the performers, generally speaking, would come out of the ordeal of pretty severe criticism with great credit. The programme was indeed a treat from the opening number, one of Lange's simple and pretty little polkas to the closing selection, Chopin's Scherzo in B flat minor. The programme was skillfully arranged so as to present a progression of selections of gradually increasing difficulty, and corresponding advance in the skill of the performers—to use musical phraseology the programme, in difficulty and excellence of the numbers, was "crescendo poco a poco al fine."

Throughout one was forcibly struck with the solid nature of the musical grounding the pupils had received as shown in the fact that even the youngest pupils evidenced a rare correctness of method and execution which bore testimony to the care that had been bestowed upon the most important part of pianoforte training, the acquirement of correct musical habits. While, of course, the several performers showed an individuality of style, according to their temperament, the playing of all was marked by a vigour of touch, crisp and clean, and well defined, and a cleanness of execution that made their playing unusually enjoyable, while the musical expression employed by the pupils generally showed that while the technique received careful attention, their musical intelligence had been also carefully developed. The value of pianoforte instruction of this character was exhibited in the presentation of the programme, and the cordial congratulations that Mr. Hoover received at the close of the recital, indicated how heartily his abilities as a teacher are appreciated. Another purpose the recital served was to explode the absurd idea that "any stick of a teacher" is good enough for beginners. The work of even the youngest pupils demonstrated that they had the foundation laid so far as it was laid upon which to build a superstructure of the excellence shown by the more advanced of Mr. Hoover's pupils, whose performance for correct method, brilliancy of execution, taste and musical sentiment reflected the highest credit on both the teacher and the taught. The graduating class is composed of Miss J. Robinson, Miss E. Hubbs, Miss M. Coulter, Miss S. Campbell, and Miss M. Hendren. Words of warmest praise are due these young ladies for the brilliant manner in which they acquitted themselves. Miss Hendren was the only graduate at this recital, and Mayor Kendry, on behalf of Mr. Hoover, presented her with a diploma, which set forth the extent of her studies, her proficiency in them, the extent and character of her musical culture, and the solid and valuable qualities she possesses as a teacher.

Mr. Dumble, in the course of a few remarks, warmly congratulated Mr. Hoover and his pupils, and said it was gratifying to have in our town so excellent a teacher of music as Mr. Hoover, to whose instructions the very marked success of the pupils was mainly due.

During the evening Miss Hendren, to give variety to the programme, sang in very sweet voice the song "The Soldier's Tear," by Lee. "God Save the Queen" brought a delightful evening of enjoyment to a close.

Singers, public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find, in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. A timely dose of this preparation has prevented many a throat trouble.

Lamps.

What more suitable for a Christmas present than a handsome lamp. China Hall has them in endless variety, at special prices. No such value anywhere as at China Hall.

Western Cheese.

The Brockville Times says:—Messrs. A. A. Davis returned yesterday morning from their trip to London, Ingersoll, Woodstock and other cheese centres in Western Ontario. They found that large quantities of cheese are still held by buyers who are unwilling to sell at the current prices, as that would mean a considerable loss. These western buyers make the mistake of not unloading at the time of the last advance in the English demand which is now low

THE ARABS CAN'T BE CHASED AWAY.

Threats and Promises of no Avail—They are Determined to Stay Here.

The county authorities have been puzzling their brains as to what disposition to make of the wandering troup of Arabs, which are established just across the river from the waterworks pump house.

County Constable Cochrane visited them the other day and ordered them to "move on" or he would have the whole outfit put into the county gaol. He was coolly informed that it would cost the county a thousand dollars to feed the members of the tribe and so there was little danger of his threat being put into execution.

The wily constable then went off on another tack and expounded on the shekels which could be raked in at Omemee and Lindsay, as bears and monkeys had never seen over there. The chief of the tribe thought this was a good suggestion, but announced that the camp would not move for some time yet.

Matters have gone so far, and the tramps have become such a nuisance to the whole country side that some of the county councillors suggested that they be given $25.00 to cross the borders into Victoria county.

County Constable Cochrane, however, now has a scheme which will probably have the desired effect. The tribe will be ordered to "move on" once more, and if the members do not comply three or four of the principal men will be arrested and fined, and if the fines are not paid the bears, monkeys and curley haired pigs will be sold at auction.

355 GEORGE STREET.

MR. SAWERS MAKES ANOTHER EXPLANATION.

To the Editor of the Examiner:

SIR,—In your issue of this evening appears a letter over the names of Edward Kemp and H. S. Armstrong, and also a long editorial of your own commenting thereon and even going so far as to lecture Orangemen upon the nature and sacredness of their obligations.

As for Messrs. Kemp and Armstrong they have allowed themselves to be made use of by a certain Liberal Orangeman, whose well known hand appears in every line of their communication. Before replying to the said communication let me say a word or two in explanation of our meeting last Thursday. It was talked of as early as last Monday, Capt. Miller and myself having charge of the arrangements. The writer attended the meeting of L.O.L. No. 321 on Tuesday, and at its close spoke of the matter to many of the members, who expressed approval. Whenever he met a "Conservative" Orangemen he told him of the expected meeting, as did Capt. Miller. We could not make a public announcement, because elections, like horse races, are uncertain. And as it was not, nor was it understood to be, a meeting of others than the political friends of Sir Mackenzie Bowell, we, of course, did not wish to insult either Mr. Kemp or Mr. Armstrong, who are known to be Liberals, by inviting them. The resolution mentions no lodge, but expressly says "That this meeting composed of Orangemen of the County of Peterborough, etc." These men, sir, are made to say that there were four present, only one of whom is now an active member. The writer was referred to as a fifth.

Mr. Editor the sight of the party who applied his eye to the key-hole either failed him or he did not get the right focus, otherwise he would have reported that the room was crowded; and if the cold night air had not chilled his hearing he would have heard that it was a most harmonious, enthusiastic and largely attended gathering, and he would also have known that the writer of this took no part in the proceedings whatever, that eloquent addresses were delivered by Dr. Clarke, Col. Poole, Capt. Miller, Mr. Joseph Batten, Mr. J. Graham Weir, Mr. Jas. Craig, Mr. A. W. Webb, and other prominent Orangemen in the County. Dr. Clarke, the chairman, is a Past Master and a member of L O.L. No. 80; Col. Poole (the mover of the resolution) is not only an active member, but he is a member as well of the Supreme Grand Lodge of British America and an honorary member of No. 80, moreover he was County Master for three years. Capt. Miller (the secretary of the meeting) is not only a member of No. 80, but also one of its present officers. Mr. Joseph Batten, who in seconding the resolution made a rousing speech, saying that it was just what should be done, and that he as Deputy County Master, was proud to be present to do honour to Bro. Bowell, and that he had great pleasure in seconding the resolution, is an active member of 321. As to the largeness of the gathering, let me say that I attended the meetings of the County and District Lodges this year, and also those for election of officers of Nos. 80 and 321, and of the Black Preceptory, and I have no hesitation in stating that ours of last Thursday evening was larger and more representative than any one of the others, and that there were more in attendance than there were members present at the assemblies of both 80 and 321 together, or of 80 and the Black Preceptory together. There were present officers of the several Primary Lodges and of the Black Preceptory, three Past County Masters, the present Deputy County Master, and at least twenty five members of the District and County Lodges, besides a large number of the rank and file. Should not they, I ask, be considered as a representative and largely attended meeting? And as for assembling in my office, is it not true, Mr. Editor, that when a rally of the great Reform party in West Peterborough is called, the meeting place is invariably the law offices of Messrs. Stratton & Hall?

The writers of the communication, who call themselves my brethren, go on to say that I have created great discord in the Order. Mr. Editor, facts are stubborn things. A year ago by special request the new hall of No. 321 was dedicated by me. Last May, by special invitation, I dedicated the hall of No. 419. This last November the writer was the only Orangeman of the county invited to speak at the Guy Fawks demonstration of No. 321. During the present month the members of No. 80, and of the Black Preceptory, did me the honour to unanimously elect me to a responsible office in each lodge. Is the above not sufficient evidence of the rank and standing as an Orangeman in this community of

Yours truly,
C. W. SAWERS.

Peterborough, Dec. 16th, 1895.

[As to the numerical size of the meeting one is not inclined to dispute Mr. Sawers' statement—under the circumstances the more present the less it redounds to the credit of Orangemen as consistent individuals. We have had the spectacle of these same Orangemen and others of their kind raving themselves hoarse over the injustice of Sir Oliver Mowat passing a few resolutions in improvement of the Separate School Act, which he has no more power to abolish than he has the power to settle the Eastern question, and trying to make the world believe that the fate of Protestantism hung on their individual efforts. Yet these same Orangemen, when their brother Orangemen in Manitoba ask their assistance in preventing Separate Schools in Manitoba, are the rst to congratulate on its success, the head of a government which is pledged to force Separate Schools on that province, thus showing that they are politicians first and Orangemen afterward. But then there is no probability of Sir Oliver Mowat conferring a government office on the leader of these local Orangemen, and Sir Mackenzie will have to make some concession of the kind. Men with such motives and such practices would discredit any organization with which they were associated. Thirty pieces of silver was a powerful incentive to a certain Biblical character, and an office it seems is quite enough to excuse the betrayal of Orange principles.

In yesterday's issue of The EXAMINER was published a letter from Mr. J. W. Miller on the same subject in which he claims credit for an equal share in arranging a meeting to congratulate Sir Mackenzie Bowell on the success of his policy of coercion to Manitoba in the matter of Separate Schools. One would think if Mr. Miller had any idea of consistency he would be reluctant to claim such credit. He is the same man, who, during the last Provincial election campaign, was engaged in the work of circulating that foul document "The Green Eye Opener." He is now boasting of glorifying the success of a policy for forcing Separate Schools on Manitoba. If Mr. Sawers and Mr. Miller are samples of loyalty to Orange principles, as generally understood, there must be either a lack of principle in them or the Order itself.

"FAUST" LAST NIGHT.

Lewis Morrison Was Ill But the Play Was a Success.

The Opera House was crowded to the doors, last evening, by an audience anxious to witness Lewis Morrison's artistic production of "Faust." Unfortunately Mr. Morrison, *himself*, was unable to be present, on account of illness, and his absence was at once noticed by those acquainted with his magnetic personality, which lends so much to the presentation of the play, and has made *his* name famous. This part was taken by an understudy, who had only received the benefit of two rehearsals and though he was not Lewis Morrison there was nothing in his acting that could be cavilled at. In fact few of those present were aware of the change which had been made, but as unfavourable comparisons have been made between the presentation of the part by Mr. Morrison last night, and that of Mr. Griffith some weeks ago, this explanation of the circumstances is only fair. The members of the company which occupied the boards at the opera house last night left nothing to be desired, and the caste is one of the most excellent which has visited Peterborough in some time. The large audience was well pleased with the production, and though the scenic effects might have been better, if the stage was of sufficient size to allow all the settings to be placed in position, yet this fact was taken into consideration before judgment was passed.

A PRETTY CANTATA.

The Mission Band of St. John's Have a Pleasant Entertainment.

A most delightful evening's entertainment was furnished in St. John's church school house last evening, by forty or fifty of the little members of the Mission Band, who, under the direction of Mrs. W. Sailsbury, presented the Cantata "Toy Making in Wonderland."

The children entered into the spirit of the cantata thoroughly, and the numerous choruses were rendered in a manner which reflected great credit on the careful training which they had received as well as upon their own zeal. The principal parts were taken with a degree of excellence most pleasing to the audience.

During the evening Miss Dollie Comstock contributed a brilliantly executed piano solo to the programme, and Miss Ethel Bradburn recited with grace and effect.

The chair was occupied by Rev. J. C. Davidson, and at the conclusion of the entertainment he made a few brief remarks, in the course of which he took occasion to warmly congratulate Mrs. Sailsbury on the success achieved by the little ones.

They do not Despair.

A mirror could not lie if it wanted to. The glass has nothing to gain by flattery. If the roses of health and plumpness of beauty are leaving your face, your mirror will tell you so. You can see for yourself you are in danger of losing the admiration which is every woman's due. You may not really realize it, but health is the greatest beautifier in the world. Lotions, plasters, creams and cosmetics cannot make as good a complexion as health can. They cannot hide the story of ill-health. They merely emphasize it. Health shows in clearness of eyes and skin, in redness of lips and vivacity of manner and expression. Disease is proved positively by the absence of these things. When a woman sees the indications of ill-health in the face, she may with almost absolute certainty look for the cause in one or both of two conditions—constipation, and derangement of the organs distinctly feminine. These things in themselves are in some degree related, and nine-tenths of all the sickness of women come from them. Dr. Pierce's Favorite Prescription will cure permanently and positively any so-called "female complaint." Dr. Pierce's Pleasant Pellets will cure constipation. There is no reason in the world why a woman should not be perfectly healthy. It rests with herself. If she will take these truly wonderful remedies, and follow a few hygienic measures, she may become perfectly strong and healthy in all ways. She will gain in health, strength and flesh. Hollows and angles will give place to fullness and grace. She will be that noblest and most beautiful of all creation—a perfect woman. All druggists sell Dr. Pierce's medicines, but if you care to know more about them and to know all of the grandest medical truths, send 21 one-cent stamps to cover customs and mailing *only*, and a complete copy of Dr. Pierce's 1008 page book, "The People's Common Sense Medical Adviser" will be sent post-paid. It is a veritable medical library, complete in one volume. Several finely illustrated chapters are devoted to the consideration of diseases of women and their successful home-treatment. NEWS FROM OTTAWA

The Development of Trade with the Antipodes.

A REPORT FROM MR. J. S. LARKE

Steamships Having Good Cargoes Each Way New Method of Advertising Canada in Europe—U.S Sealers Caught by Russian Regulations—Malforced Colony.

Ottawa, Dec. 17.—The Department of Trade and Commerce to-day received a report from Mr. J. S. Larke, Canadian Commissioner, who had just returned to Sydney from New Zealand, when the mail steamer sailed. The outward and inward manifests of the Miowera indicate a very satisfactory condition of trade between Canada and Australia. On the outward voyage the freight consisted largely of canned salmon and British Columbia but there was also a large variety of Canadian manufactures, considerable flour and a good quantity of oatmeal, rolled oats and cotton, making up a very extensive and general assortment of Canadian products. The large export of Canadian flour is accounted for by the fact that the wheat crop of Australia is considerably short this year. The cargo brought to Vancouver by the Miowera consists mainly of wool, but there were also considerable consignments of fruit, such as pineapples and cocoanuts together with hides and skins. The wool imports were for Vancouver, Galt, Philadelphia, New York and Boston. The bete noir of the Patron stumpers, Australian canned mutton, does not figure extensively on the cargo list. There were, in fact, but 41 cases of preserved meats imported altogether, and these were consigned to a dealer on the Pacific coast

During the past summer the Minister of the Interior was successful in securing the publication, as an Imperial state paper, of a short sketch of the different provinces of Canada. The sketch was transmitted to the Colonial Office by His Excellency. Since its publication it has been distributed in large numbers through the High Commissioner's office. The plan of securing publication in this manner after the documents have been laid on the table of the British House of Commons, having proved so successful in one case, it is proposed to repeat in another form

All the Provincial Goverments have, therefore, been invited to send in an approximate estimate of crops of past season, and these will be transmitted to England through the Governor-General and in due time published for distribution by the Home Government. It is hoped to transmit both to Belgium and Scandinavian countries a descriptive account of Canada similar to that already published in England with a view to the Governments of those countries taking similar action.

Over a dozen tenders were received at the Department of Railways and Canals to-day in response to a call for offers for the supply of steel rails for the I.C. Railway and its branches.

According to information which has reached the Government it appears that the six sealing vessels seized on the Russian Asiatic coast some time ago are United States vessels manned by United States seamen. Some of the crew are now held prisoners by the Russian authorities.

An important circumstance in connection with the capture of these vessels is the fact that they are equally amenable with Canadian sealers to the regulation upon Russian coasts, for when the modus vivendi between Russia and England was sought to be renewed last year Great Britain only consented to become a party thereto on condition that the United States were included in the arrangements. In order, presumably, to establish the bona fides of their long-continued advocacy of preservation of seal life, so called, the Government at Washington readily consented. Accordingly United States subjects thus become liable to all the penalties which attach to poaching within 10 miles of the Russian coast and 30 miles of the Russian seal islands.

PROF ROBERTSON AT ROCKLYN.

A Useful Address on Agricultural Topics—Mr. Cleland, M.L.A., and Others Give Addresses.

Rocklyn, Ont., Dec. 16.—Prof. J. A. W. Robertson, Dominion Dairy Commissioner and Agriculturist, Ottawa, addressed a large gathering in the Town Hall here yesterday afternoon on subjects connected with his department. Speeches were also made by Dr. Sproule, M.P., of Markdale, chairman of the Committee on Agriculture and Colonization, and Mr. James Cleland, M.L.A., of Meaford. The chair was occupied by Mr. Alexander Erskine, president of Rocklyn Cheese Factory Association, and among those present were: Mr. D. R. Ellis, president Centre Grey Farmers' Institute; Mr. Thomas Elliott of Markdale and Rocklyn cheese factories; Mr. Rorke of Meaford creamery; Thomas Gilray, Reeve of Euphrasia, and Councillor Kells, and Mr. James Brodie of Artemesia. Prof. Robertson gave a great deal of valuable information as to the results obtained from experiments at the Dominion Experimental Farms, and pointed out how by the exercise of brain power processes may be improved and waste products utilized He discarded all technical terms, and spoke in a plain, conversational, easily understood way. His address was very favorably commented upon, and will doubtless prove of much practical benefit.

Dr. Sproule, in a 15-minute speech, gave many interesting statistics concerning the work being done by both the Dominion and Provincial Governments in the interests of agriculturists, fruit growers and dairymen, and Mr. Cleland's address along the same lines, coupled with references to the local cheese factory and creamery enterprises with which he had been associated, was well received.

THE SCHOOL QUESTION.

Manitoba's Reply Will Reflect the Policy of the Dominion Liberal Party on the Subject

Winnipeg, Dec. 16.—On the return of Attorney-General Sifton from the east, the Provincial Government will prepare its answer to the rejoinder of the Ottawa Government on the school question.

Mr. Sifton is now in the east in consultation with Mr. Laurier and other Liberal leaders, and it may be taken for granted that the reply of the Manitoba Government will reflect the policy of the Federal Opposition on this vexed question.

DEATH OF A GREAT SCHOLAR.

Prof. John Schulte, D.D., of Alma College, St Thomas, Taken Off Suddenly.

St. Thomas, Dec. 16.—The Rev. John Schulte, Ph.D., D.D., professor of German and Italian for the past 10 years in Alma College, one of the most prominent ministers in Ontario for the past 40 years, died suddenly at Bismarck on Sunday, where he was conducting service. He was born at Westphalia, Germany, and educated for the Roman Catholic priesthood at the College of the Propaganda at Rome, where he spent seven years. He came to Nova Scotia to take charge of Roman Catholic missions, and was converted to Protestantism. He is the author of many books and pamphlets, his "Roman Catholicism" being one of the most famous and widely read books on the subject. He was for some years an examiner in Toronto University. Owing to his death lectures at Alma College have been suspended, and the Christmas entertainments withdrawn.

Native of Brockville Dead

New York, Dec. 16.—Joseph Powell of the firm of Powell, Smith & Company, cigar manufacturers, is dead. He was born in Brockville, Canada, May 20, 1850.

FATAL FIRE IN WINNIPEG.

Mrs. J. F. B. Morrice Perished in the Destruction of the Cauchon Block.

Winnipeg, Dec. 16.—The large three-storey artificial stone and brick building opposite the Hudson's Bay Company's store, known as the Cauchon block, was completely gutted by fire at an early hour this morning, and Mrs. J. F. B. Morrice perished in the flames. Many inmates had narrow escapes from death, and several were severely injured by jumping from windows. The loss will aggregate $50,000; insurance $40,000

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp:—Mr. Edward Lambert. P.O. Box 55, Jarvis, Ont.

Fire and Panic in Chicago.

Chicago, Dec. 16.—The explosion of a lamp in the Morgan Park training school, while the students were at supper last evening, almost wrecked the building, a three-storey brick. The walls were left standing, but from the second floor up the structure was completely gutted. The total loss is about $10,000. The fire caused a panic among the young women students, some of whom had to be urged to leave the threatened structure, while others became hysterical and a wild scene followed.

Staples Postoffice Burned.

Comber, Ont., Dec. 16.—The post-office at Staples, situated in a building owned by W. A. Maricle and occupied as a general store by James Reaume, was destroyed by fire shortly after noon hour yesterday.

The body must be well nourished now, to prevent sickness. If your appetite is poor take Hood's Sarsaparilla.

DEAR SIR:—I have suffered from Eczema for two years; tried different kinds of medicine. I was at the hospital for some time, and was told there that all had been done for me that could be done. I ceased treatment at Christmas. After leaving the hospital I was under the care of a Hamilton physician, but got no relief. I have taken four bottles of Kootenay Cure, and I am now well and free from Eczema. Yours very truly,
WM. MARCHAM,

A Terrible Cough. No Rest Night nor Day. Given up by Doctors.

A LIFE SAVED

BY TAKING

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. NEWS FROM OTTAWA

Wood for Customs, Prior for Inland Revenue.

AND BOTH TO SIT IN THE COUNCIL

That is the Result of the Latest Shuffle—Something About the Oyster Industry—Meeting of Dominion Rifle Association Executive—Other News From Ottawa.

Ottawa, Dec. 16.—It is understood that at to-day's meeting of the Cabinet Hon. J. F. Wood was appointed Controller of Customs and Col. Prior, M P. for Victoria, Controller of Inland Revenue. Mr. Wood's transfer leaves the greatest revenue-producing department in the hands of an Ontario man, and he gets, in addition to considerably more work, the honor of being made a member of the Privy Council. This, of course, does not mean that Mr. Wood attains full Cabinet rank, but that will come in due time, as John F. has demonstrated his capacity as a departmental administrator. Nevertheless, it is an honor much sought after and will give him the title of honorable for life.

Col. Prior will also be sworn a member of the Privy Council. The Colonel is admittedly an able man. During the 20 years that he has been in British Columbia, he has built up a successful hardware business, which is the largest in the province. Col. Prior has long been identified with prominent enterprises in British Columbia. He is a Yorkshireman by birth.

By creating Mr. Wood and Col. Prior members of the Privy Council when matters affecting their departments come up at Cabinet meetings, they may be invited to a seat at the Council Board, but without a vote.

W. F. King, Canadian Boundary Commissioner, returned to-day from Washington, whither he has been to confer with his co-commissioner, Gen. Duffield, chief of the United States coast survey, in reference to their report on the Alaska boundary. A comparison of the data procured by the Canadian and United States surveyors showed the two commissioners that they would be able to sign a joint report to their respective Governments.

Mr. Ernest Kemp, oyster expert of the Fisheries Department, has returned from the Maritime Provinces after completing his season's work. During the summer a new bed at Tracadie, N.S., was prepared and planting almost completed. The bed at Shediac, N.B., which was completed last year, has done remarkably well, inspection by Mr. Kemp showing most favorable results. The latter part of the season Mr. Kemp visited different points along the coast of the Maritime Provinces, examining the oyster beds and reporting upon prospecitve locations.

Sir Charles Tupper, High Commissioner, spent a pretty busy day seeing old friends. He had a two hours' conference with the Premier in the morning, and in the afternoon was in consultation with Mr. Ives on steamship and cable matters.

Hon. Mr. Costigan, on the recommendation of Prof. Prince, has authorized a selection of specimens of the fisheries resources of Canada to be taken from the exhibit here and forwarded to the Imperial Institute, to add to the Canadian collection there, which at the present time is not representative of the Dominion. The specimens will be fully identified and labelled under the direction of the Commissioner of Fisheries before they are sent.

The Council of the Dominion Rifle Association held a meeting here to-day to make arrangements for the annual meeting, which will be held on Jan. 21. Mayor Delamere came down from Toronto to attend the meeting. The annual report was adopted. As arrangements for the Bisley team cannot be well made in January, it was agreed that the gathering on the 21st prox. should be a formal one, and that the regular meeting shall be held in February.

With reference to the invitation of the Australian Rifle Federation for the Bisley team to go to England via the Antipodes, it was felt that the cost would be too great. In view, however, of the probability of an Australian rifle team going to Bisley next summer, it was decided to invite the team to return home via Ottawa, and take part in the annual matches here.

His Excellency's letter declining an invitation to attend the ball on New Year's Eve, in aid of the Children's Hospital, has been published. The Governor's secretary says: "I have to express Their Excellencies regret that the date you mention, viz., Dec. 31, should have been selected for the entertainment in question, not because it interferes with any contemplated entertainment at Government House, but because it would be impossible for Their Excellencies to be present on that day. Moreover, they fear that many others also would prefer to remain at home quietly on New Year's Eve, and that holding the ball on that day may thus militate against the chances of securing a successful gathering for an object in which Their Excellencies take much interest."

Mr. Berkeley Powell, honorary secretary of the ball committee, secured permission to have the above letter made public in order to correct a wrong impression that had gone abroad.

Mr. George Cormack, owner of a grist and flour mill in Aberdeen, Scotland, is here to judge whether he should locate in Canada, or to see if he can secure for his mills improved machinery and facilities which are wanting to enable them to compete with foreign importations. He says that the Scotch mills are feeling very keenly the present competition from this side and five in Aberdeen, of which his is one, are shut down.

The ratepayers of Hull will not be allowed to vote at the ensuing elections unless they have paid their taxes. Only about 15 per cent. of the population are in good standing.

The Premier had a visit to-day from Mrs. Shortis, mother of the Valleyfield murderer. She pleaded her son's case in a very urgent manner.

Dangerous.

We often see this sign on roads or streets.

Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be poison in the blood, for these are the certain signs.

To the fact that poisons get past the kidneys may be traced every sickness to which you are liable.

Treat the kidneys forthwith and first of all.

It is the safe and proper thing every time; therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatment of kidney diseases on earth.

Can't you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney Pills keeps on curing these diseases.

Maltine With Cod Liver Oil and Hypophosphites for Throat and Lung Diseases.

Perfectly well established is the value of cod liver oil in all various diseases of the air passages, and combined with Maltine and hypophosphites, its remedial value is vastly enhanced. In the elegant and palatable preparation, Maltine with Cod Liver Oil, are combined the valuable tissue building oil, and that sustainer of vitality and digestive, maltine. No emulsion can compare in remedial value with this preparation, for in addition to disguising the unpleasant taste of the oil and rendering it more easily digested, the maltine plays a most important part in maintaining adequately the process of nutrition so essential in wasting and pulmonary diseases. This it does by rendering the starchy foods in a form which assures its assimilation, with the result that emaciation gives way speedily to plumpness, the irritated bronchial tubes are soothed, rest grows natural and health becomes an assured fact. Maltine with Cod Liver Oil and Hypophosphites is a food medicine and digestive.

For Bronchitis.

GENTLEMEN,—We have used Yellow Oil as a family remedy for Bronchitis with every success. My husband also used it for a stiff finger that he thought he would never be able to use again, but it is now as well as ever through using Hagyard's Yellow Oil.

IT PUT NEW LIFE IN ME.

"ALL I DID WAS JUST TO MOPE AROUND"
"SCOTT'S SARSAPARILLA CURED ME."

The chilly weather of late fall and early winter finds them unprepared to stand the change and hence they suffer. This fact is plainly proved by the following opinions of some who speak from practical experience:

"I felt like a man that could commit suicide. I caught a cold while camping on damp ground, had twinges of awful muscular pains, couldn't eat and couldn't sleep. All I did was to mope around and make all in the house as miserable as myself. Scott's Sarsaparilla put new life in me, braced me up thoroughly, and since its use pain is a stranger to me." Alex Grant, Toronto.

J. T. McGraw, a mining prospector, writing from Minden: Express me three bottles Scott's Sarsaparilla here before Saturday. Have been a martyr to rheumatism and indigestion brought on by exposure. Scott's Sarsaparilla is rapidly curing me."

Nothing has ever equalled Scott's Sarsaparilla for building up the system, putting the blood in healthful circulation and invigorating the body. Thousands testify to its splendid effects in extreme weakness and all debilitating diseases. On this account no imitation of Scott's should be accepted. Of your local druggists at $1 per bottle, 6 bottles $5.

PETERBOROUGH PRESBYTERY.

SPRINGVILLE'S CALL TO REV. MR. LOGIE SET ASIDE.

A Presbyterial Society of Young People to be Formed—A Convention Will be Held in Port Hope on the Third Monday in March, Next.

The regular quarterly session of the Peterborough Presbytery was held in St. Paul's church, yesterday, the first session convening at nine o'clock in the morning. The following members were in attendance :—

Rev. Mr. Clelland, Port Hope ; Rev. Mr. Andrews, Keene ; Rev. Mr. Bennet, Clerk of the Presbytery, Peterborough ; Rev. Dr. Torrance, Peterborough ; Rev. Mr. Thompson, Hastings ; Rev. John Hay, Cobourg ; Rev. Richard Hyde, Warsaw ; Rev. C. S. Lord, Grafton ; Rev. A. MacWilliams, Peterborough ; Rev. D. P. Oswald, Janetville ; Rev. Dr. Smith, Port Hope ; Rev. James Cattanach, Centreville ; Rev. Alex. Laird, Port Hope : Rev. William Johnston, Millbrook ; Rev. A. C. Reeves, Lakefield ; Rev. J. F. Somerville, Norwood ; Rev. D. M. Jamison, Harvey ; Rev. J. W. Tanner, Omemee ; Rev. R. Laird, Campbellford.

Elders—Mr. A. Fairbairn, Lakefield ; Mr. G. Stewart, Peterborough ; Mr. W. Riddel, Cobourg ; Mr. Robert Tully, Peterborough ; Mr. T. Thompson, Keene ; Mr. J. Clarke, Campbellford ; Mr. P. W. Chase, Harwood ; Mr. W. Mattison, Havelock ; Mr. E. M. Sanderson, Springville ; Mr. W. A. Roxburgh, Norwood ; Mr. J. Larmer, Millbrook, and Mr. J. Rutherford, Mount Pleasant.

A report was received from Rev. John Hay as to steps taken to secure the amount allocated to the Presbytery for augmentation purposes.

A report was received from the committee on

YOUNG PEOPLES' SOCIETIES,

submitted by Rev. Mr. Lord of Grafton. The committee was authorized to take steps to form a Presbyterial society. It was agreed to hold a convention of Young Peoples' Societies in Port Hope on the afternoon and evening preceding the next meeting of the Presbytery.

Rev. Mr. Graham of St. John's, Newfoundland, being present, was invited to a seat with the Presbytery.

The nomination of two professors for chairs in Knox College, was deferred until next meeting.

A committee was appointed on church work, Rev. Mr. Hay being convenor.

THE FURTHER CONSIDERATION

of the matter affecting Rev. Mr. McKnight was given into the hands of a committee composed of Rev. Dr. Smith, Rev. Dr. Torrance, Rev. Mr. MacWilliams, Robt. Tully and G. Stewart to report upon.

The records of the session of Bobcaygeon were examined and ordered to be attested as carefully kept.

Steps were taken to aid the Harvey congregation in the payment of the debt contracted by the erection of their new church.

It was decided that the call from Springville to Rev. Mr. Logie be set aside owing to that gentleman having a call elsewhere. The congregation was therefore granted leave to moderate in another call when the people are prepared.

Bobcaygeon was also granted leave to moderate a call when prepared and to find its own pulpit supplies for six weeks.

An arrangement was decided upon for the visitation of augmented congregations.

The following exchange of pulpits will take place this term :—Rev. Dr. Torrance will visit Springville and Bethany. Rev. A. McWilliams, Janetville, Ballyduff and Pontypool. Rev. J. F. Somerville, Havelock. Rev. Mr. Reeves, Warsaw. Rev. Mr. Jamieson, Bobcaygeon.

The next meeting of the Presbytery was appointed to be held at Port Hope on the third Tuesday of March, 1896, at 9.30 a. m.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease ; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic ; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heart burn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

Christmas Greetings.

In another week the great festival of Christmas will be here, and between now and then people will naturally think of buying presents for their friends. Now, Mr. Chas. Legros, the live George street tobacco and cigar dealer, realizing that money is very scarce, has put everything in the line of cigars and pipes down to cost, and when he says cost, he means at a less price than other local dealers can buy them for. He imports all his goods direct, and saves the wholesaler's profit. A few of the snaps which he offers are to be seen in his window, and the other local dealers have to acknowledge that he has the finest lot of pipes in Canada, all of B.B.B. manufacture. In cigars, his imported cigars are of the finest, and this is evidenced by the testimony of the best people of the town who smoke them. His brands are—Diazy, Garcia, Manual Garcia, Por Loranza and Jos. Morales. Call and see him and you will be astonished at the prices and quality of his pipes, cigars and smokers' sundries. ALIVE C. LEGROS, 330 George street.

MONEY VOTED FOR A COMMISSION.

Proposal to Spend One Hundred Million Dollars to Strengthen the United States Army and Navy—Comments of American and European Newspapers.

Washington, Dec. 18.—Several Senators are thoroughly in earnest about the President's message and propose to back him up in the most substantial manner. There have been numerous conferences of Senators, and there appears to be a somewhat practical unanimity that an appropriation should be speedily made that would enable the Administration to equip an army if it were necessary to call one into the field. With this idea in view, Mr. Chandler (R., N.H.) this morning introduced a bill which provides that the President be and he is hereby authorized and directed to strengthen the military armament by adding thereto, equipped for use, one million infantry rifles, 1000 guns for field artillery, and not exceeding 5000 heavy guns for fortifications, to be procured by manufacture in the arsenals, or by contract for manufacture, or by direct purchase in this country or elsewhere, according to the discretion of the President, who shall conform, when practicable without unwise delay, to the methods prescribed for making contracts and purchases by existing laws. The sum of one hundred million dollars is appropriated to carry into effect the provisions of this act.

Mr. Grout (R., Pa.) offered in the House a bill of the same purport as Mr. Chandler's. It appropriates one hundred million dollars to be immediately available, for the construction of fortifications and other works of defence on the sea coasts and along the Canadian frontier, and for their armament with heavy ordnance.

In order to raise the sum of money necessary to carry out the provisions of this act, the Secretary of the Treasury is authorized to issue and sell bonds, payable at the pleasure of the United States, within 30 days.

Mr. Hitt introduced a resolution in the House appropriating $100,000 to defray the expenses of a commission to fix the Venezuela boundary, which was unanimously adopted.

The bill appropriating $100,000 for the expenses of the Venezuelan commission, as recommended by the President, will not be passed in the Senate quite as expeditiously as it was rushed through the House. The House simply appropriates the money necessary; the Senate proposes to make it a more serious matter. When the bill comes over it will be referred to the Committee on Foreign Affairs. Senator Morgan favors increasing the appropriation to $250,000; but there is another and more important reason why the bill should be referred. The Monroe doctrine has never been perpetuated in and of the United States statutes and it is the purpose of the Senate Committee to engraft this doctrine into this bill. The time was never so opportune, it is said, and the House will doubtless accept the amendment.

President Cleveland and Mr. Olney began to realize very early this morning the intensity of the patriotic feeling which has followed the publication of the President's Venezuelan message. They found scores of letters from prominent people, all containing endorsements of the policy which the Administration has adopted, and these have been supplemented by telegrams from all parts of the country.

Ex-Congressman Coombs of New York, who is one of the Government directors of the Union Pacific Railroad, was among President Cleveland's callers at the White House to-day. Mr. Coombs congratulated him, saying he had read the message with interest, and assured him that it had struck a popular chord in the public breast, and that the people were with him.

"That is not what concerns me," replied the President with grave deliberation, "I am more concerned to know that the people consider it just and proper, as I do myself."

Mr Morgan's Ideas.

Senator Morgan (Dem., Ala.), the present chairman of the Committee on Foreign Relations, expresses his views on the President's message as follows: "I look upon the President's message as a thoughtful, able, carefully prepared, vigorous document. It is time that we should have an utterance of this character, and Americans who always like a straightforward declaration will support all that the President has said on this subject, so fraught with vital consequences for the people of this country.

"The message will meet with the approval of the Congress, and will teach England that she has gone as far as she dare in this matter. The whole subject will be up soon for discussion in the Senate, and I predict that there will be nothing uncertain about the sentiments that will be expressed on the floors of the two Houses of Congress. That I deem the situation one of the most vital importance is suggested by my motion yesterday granting the Committee on Foreign Relations the authority to sit during the recess of Congress."

Mr. Whitney's Approval.

New York, Dec. 18.—William C. Whitney has expressed himself as follows: "It is simply a renewal affirmation of the Monroe doctrine. It expresses the meaning and purpose of that doctrine. Mr. Cleveland's expression of it is clear, concise, and not by any means overstated or intemperate.

"It does not matter on what pretext England is seeking to extend her system of government on this continent. If she seeks in any way to extend her territory against the will of Venezuela, she comes in conflict with the Monroe doctrine. And since we say, in obedience to that doctrine, that she shall not extend her system of government on this continent, it is for us to decide whether or not she is doing so either by just arbitration or through our own investigation. It is certainly not for England to decide for us whether she violates the Monroe doctrine or not. That we must decide for ourselves.

"I do not consider Mr. Cleveland's message in any sense a jingo document. It is strong and decided, as it should be. I do not think we need worry about war. War is a long way off. The simple fact is that we cannot abandon the Monroe doctrine, and that we must make clear our intention to stick to it whenever a foreign power shows an inclination to forget its existence and vitality.

"Mr. Cleveland states our side of the case very clearly. We keep our hands out of Europe and European rows on condition that Europe shall keep her hands off this continent. Without the Monroe doctrine there would be nothing to keep the European powers from dividing up South America, as they have divided up Africa. They would so divide it undoubtedly, if allowed."

THE NEW YORK PAPERS.

Very Plain Talk of The World to the President.

New York, Dec. 18.—The World says: President Cleveland's message to Congress on the Venezuela matter is a serious blunder. It is a blunder because it is based upon a wrong conception, because it is not sustained by international law or usage, and because it places the United States in a false position.

The President in his message, like Secretary Olney in his despatches, assumes that the policy of Great Britain in Venezuela involves a menace to this country. The President says that "the doctrine (of Monroe) upon which we stand is strong and sound, because its enforcement is important to our peace and safety as a nation and is essential to the integrity of our free institutions and the tranquil maintenance of our distinctive form of government."

This is the conception of the situation upon which the President bases his threat of war. It is the only conception that could justify our intervention in South America or warrant the extraordinary attitude of the President.

England is not a foreign nation in this hemisphere. Great Britain owns more territory on this continent than we do. She was here before we were a nation. If she had the hostile intentions which the President's words impute, did she need to wait for a boundary dispute in distant Venezuela with a hybrid race to assail us or to menace our republican institutions?

The assumption is absurd, and with it falls the structure of ponderously patriotic rhetoric reared upon it by the President.

The Republican Organ

The Tribune says: The President speaks with no uncertain sound. There can be no mistaking the purport of his latest message. It means business. We do not say it means war. We do not believe it does. But the President does not in the least exaggerate the gravity of the responsibility to be incurred by the course of action he recommends, and of "the consequences that may follow." Congress will be wise to consider that course with unusual care and deliberation. The appointment of such a commission as the President recommends, at first blush, appears needlessly offensive to a friendly nation, and Congress may prefer some other mode of determining the equities in the case. But on the general question of the Monroe doctrine and its application to the Venezuelan dispute, there will be no difference of opinion among patriotic Americans. The President has spoken straightforward, manly words, which are worthy of and which we believe will command the approval and enthusiastic support of the people of the United States.

The Herald's Moderate Tone.

The Herald says: Meanwhile, in this country and Great Britain the people and their official representatives will have an opportunity to reflect soberly and patriotically on an issue fraught with such grave consequences to two great nations.

Peace, honorable and creditable to each, should be the highest aim of the statesmanship and patriotism of both. Menacing as is the aspect which affairs have now assumed, it is to be hoped that the issue may be settled without disturbing the friendly relations existing between the two countries.

Very Serious.

The Times says: The declarations of Mr. Cleveland's special message on the Venezuela affair are very serious. They are more so than the American public had expected, though they are absolutely in harmony with the brief statement contained in the message of Dec. 3.

As it stands to-day in the message of the President it is a clear, grave assertion that the United States will see justice done, neither asking more nor accepting less, to any independent state on this continent. To that principle soon or late we believe Great Britain will assent. By that principal, in any event, the American nation will stand.

STUDYING WAR MAPS.

London Papers Calculating Uncle Sam's War Strength.

London, Dec. 18.—Despite their publication of leaders assuming that President Cleveland's message is merely an election move, most of the newspapers print articles summing up the war strength of the United States.

The St. James' Gazette publishes a list of the British warships now in American waters, together with their dimensions, etc., which is followed by a list of the vessels comprising the United states navy, giving also their capacity, etc.

The Westminster Gazette has an article showing the numerical strength of the United States army and the strength, character and location of the country's defences and The Pall Mall Gazette presents a map of the disputed frontiers, accompanied by an article thereon.

Grain Men Not Worried.

The Glasgow grain market is quiet, not having been disturbed by President Cleveland's message to the United States Congress. The Glasgow dealers announce that they will follow the lead of the London and Liverpool markets, but do not expect any rise in prices in Glasgow. The stock and iron markets are fractionally lower.

The consensus of opinion among the grain dealers of Glasgow in regard to President Cleveland's message is that if war should result, the American grain dealers will suffer most, as they will not be able to dispose of their surplus wheat, while Great Britain has other markets.

Was Understood Beforehand.

A number of politicians seen at the various Conservative clubs by the United Press representative maintained that diplomats, acting under the instructions of Lord Salisbury, had sounded the European powers during the last autumn, and prior to the despatch of Great Britain's reply to Secretary Olney's note, with the results that the diplomats answered that all the powers having interests in America agreed with Lord Salisbury that the Monroe doctrine, as stated by Mr. Olney, did not possess any international authority.

The Joker Gets in His Work.

That the situation resulting from the communication of President Cleveland's Venezuelan message to Congress is not generally taken as seriously as the newspaper articles on the subject indicate is evidenced by a cablegram wired by some members of the London Stock Exchange to the President of the New York Stock Exchange, inquiring whether in the event of an English fleet appearing before New York the vessels would be hampered by excursion steamers.

It is the opinion in financial circles in London that President Cleveland's message will render the placing of a new issue of United States bonds in London impossible.

The stock exchange market opened quiet and steady, except in the case of American railway stock, which was unsettled and weak under the influence of President Cleveland's Venezuelan message to Congress.

Further Editorial Comments.

The Sheffield Telegraph, the organ of the steel plate manufacturing districts, says: Mr. Cleveland's language is admirably calculated to induce England to bid the Yankees do their worst, which, as they would be the attacking power, seeing that they have neither army nor navy to speak of, would incline to the ridiculous. Still, if the United States really mean fighting, Great Britain is not likely to evade the challenge. Certainly we will not be turned from the plain truth by threats.

GERMANY WITH ENGLAND.

The Cologne Gazette Says All the European Nations Will be Blite.

Berlin, Dec. 18.—The Cologne Gazette, discussing President Cleveland's message to the American Congress says: Against pretensions of this kind, all of the European states will stand by England, for it is a question to be decided once for all whether unbridled claims of the United States shall be recognized or European civilization subordinated to North American civilization on the American Continent. Great Britain has the fullest moral and material right to persist defiantly in a conflict so passionately initiated.

The Vossische Zeitung, says that the President's sharp tone against England and his emphasizing the Monroe doctrine will attract the attention of other powers.

The National Zeitung says: Rudeness towards unlikes countries is the rule when Presidents re-seek office. As the Washington Government claims exclusive rights in the matter of arbitrating American affairs, the whole arbitration claim becomes a pure farce, as is also the demarcation commission.

The Boerson Courier says that England first haughtily treated the Alabama claims but was afterwards obliged to accept arbitration on the question, and that established a precedent.

The Boerson Zeitung says: President Cleveland's answer leaves nothing to be desired in its outspokenness. England will begin to comprehend that America is no longer a field for English expansion. Mr. Cleveland appears to intend purposely to offend other powers, but it must be remembered that the elections in the United States are near.

The Local Anzeiger says that the President's message is purposely aggressive and will make a friendly solution of the question harder than ever.

All the Bourses Affected.

Paris, Dec. 18.—The Bourse here was somewhat affected to-day by the message of President Cleveland. While it was not regarded by the operators that war would result between England and the United States, the feeling being that England would save her dignity without extreme measures being resorted to, it was thought, nevertheless, that the friction between the two countries would produce regrettable consequences.

Rome, Dec. 18.—Some alarm was felt on the Bourse here to-day as to the relations between Great Britain and the United States.

Berlin, Dec. 18.—The message of President Cleveland alarmed the operators on the Bourse here.

Vienna, Dec. 18.—The Vienna Bourse, which has been unsteady ever since the recent crisis, was to-day greatly affected by President Cleveland's message.

Purified Blood

Saved an operation in the following case. Hood's Sarsaparilla cures when all others fail. It makes pure blood.

"A year ago my father, William Thompson, was taken suddenly ill with inflammation of the bladder. He suffered a great deal and was very low for some time. At last the doctor said he would not get well unless an operation was performed. At this time we read about Hood's Sarsaparilla and decided to try it. Before he used half a bottle his appetite had come back to him, whereas before he could eat but little. When he had taken three bottles of the medicine he was as well as ever." FRANCIS J. WORLD'S C. E. PRAYER CHAIN.

Subject of prayer for December—"For young people's societies of every name and in every denomination, that their members may exemplify the life of Christ, and that they may be especially prepared for the coming week of prayer."

ST. PAUL'S.

Bright, instructive and decidedly interesting was the general comment on Monday night's meeting. The programme consisted of papers bearing on the important features of the topic and "True Friendship and How to Gain It," was discussed from many standpoints. Miss Sharpe conducted the meeting. A large number of strangers were present. The meeting next Monday promises to be bright and will be led by Miss Cromie and Mr. B. Gerrans. At the close of this meeting the members will prepare the baskets for Christmas cheer.

SALEM

E. L. of C. E. held its regular meeting last Tuesday evening. We were much pleased and gratified to see an unusually large attendance, the outcome of which we hope will be new workers for our society. It being missionary night the topic was conducted by the president of that committee, Miss Cromie, assisted by Mr. Thos. Petrie. Each read a paper which was supplemented by a few remarks in which were set before us the needs of the many mission fields and our duty in helping to supply those needs. We hope to do more and better work in that line in the future.

VILLIERS, OTONABEE.

Our meeting on Tuesday evening was opened in the usual way by our newly elected president, Miss Williams. The topic was taken by Miss E. M. Nelson, and was very interesting. After giving us some facts, showing the progress of Christianity in some of the heathen countries during the last few years, she explained the mission we each have. She said we each have an influence over those with whom we associate, and how important then it is for us to be followers of Christ so that our influence may be for good. The prayer meeting was conducted by Miss Aggie Embirst, a number taking part. The attendance was large and the meeting all through was very profitable.

KEENE.

Through the month of November our meetings have been interesting and helpful. Tuesday, Dec. 3rd, Miss Kirby gave a thoughtful talk on the topic, "Is my heart right with God?" Last Tuesday, Dec. 10th, we had an unusually good meeting, the Missionary Committee being in charge. Two excellent essays were read, one on "God's Triumph in the Mission Field," by Miss Adeline Eason, and the other on "Japan" by David Edwards. Mrs. Ashburn gave a reading, entitled "The Bengalee Widow." During the evening Mrs. Harrison sang very nicely an appropriate solo. The prayer meeting was conducted by W. Chapman and earnest prayers were offered up for missionaries and mission work.

GEORGE STREET SOCIETY.

Our Literary Committee gave the first of a series of "Literary Evenings" in the lecture room of the church on Monday night. There was a good attendance of the members of the League and their friends. The programme consisted entirely of selections from Tennyson, some of the more beautiful poems of this well known author being rendered in recitations, solos and duets.

John Jeffries, B. A., read a masterly paper on "Tennyson, his life and style," which, in spite of the fact that he was limited to twenty minutes, sufficed to give all a very fair knowledge of the importance of the late Laureate's long and active life, and the remarkable and meritorious peculiarities of his style. An address on "The Princess," by the Rev. W.R. Young, B. A., gave unbounded satisfaction, and was marred only by the fact that time would not permit him to follow in detail the poem throughout.

During the evening slips of paper were distributed to each one present, on which were written some of the finer passages from Tennyson's best poems, and after the first part of the programme, fifteen minutes recess was granted, in which each person was to find from some one in the room the poem from which the selection was taken.

All were well pleased and anticipate another pleasant "Literary Evening" on Jan. 13th, when the second of the series will be given.

That Pain Knocked out

MR. JOHN MCKEE, Druggist, Peterboro:

DEAR SIR—I have been troubled with Neuralgia more or less for 25 years. For the past 10 years my sufferings have been intense, until last winter, when you advised me to try a box of "Templeton's" Pink Powders." After taking three or four powders all pain left. I continued them, however, until three boxes were taken, and have had no recurrence of the pain for about nine or ten months. G. J. JOPLING, Bridgenorth, Ont.

MILLBROOK.

From our own Correspondent.

The East Durham Liberal Association met here on Monday afternoon for the purpose of discussing the advisability of placing a candidate in the field at the coming Dominion elections. After two hours of spirited discussion it was decided to not put a Reform candidate in the field but to support the candidate whose platform was nearest in accordance with the Liberal platform.

It was about half past two o'clock when Mr. H. H. Burnham, of Port Hope, president of the Association took the chair and called the meeting to order, there being a fair representation of the Liberal element present. Among those who were there were Messrs. B. P. Ross, Geo. Wilson, J. H. Helm, of Port Hope; W. H. McCallum and Asa Choate, of Hope; A. Wood, W. S. Pickup and J. Crocker, of Millbrook; Jas. Brock, W. H. Wood, David Armstrong and William Shaw, of Cavan, and W. T. McGuire, of Manvers.

The chairman in a brief speech explained the object of the meeting and said that as it was nearly a year since the present officers were elected he thought it advisable to elect a new set of officers at this meeting. The following officers were elected:

President—H. H. Burnham, Port Hope.

Vice-Presidents—J. H. Helm, Port Hope; W. H. McCallum, of Hope; A. Wood, of Millbrook; W. H. Wood, of Cavan, and W. G. McGuire, of Manvers.

Sec.-Treas—B. P. Ross, Port Hope.

Mr. T. W. McGuire of Manvers then came forward and moved a resolution of confidence in the leadership of Hon. Wilfrd Laurier. In moving the resolution the speaker gave an excellent address in which he exposed the extravagance at Ottawa and the failure of the N. P. The resolution was carried amidst great applause.

The next and by far the most important matter that came up was whether the Liberals should put a man in the field.

Reeve W. H. McCallum of Hope mounted the platform and made a stirring speech on the political situation in East Durham. He claimed that there was no stronger Grit in East Durham than he, and that if the meeting decided to put a man in the field he would be found doing the best work he could. Some might think that it would not be wise to put a man in the field, but to let the two already in the field fight it out, as one of the candidates' platforms was almost identical with the Liberals. He thought it better not to divide the forces.

Messrs. J. H. Helm and Jas. Brock of Cavan wanted to run a straight out and out Liberal. Messrs. A. Wood, E. A. Powers, B. P. Ross and others did not want a man brought out, as they considered as it would be unwise under the circumstances.

Finally a resolution was moved by Mr. A. Choate, seconded by Mr. W. Shaw, "That we do not bring out a man but support the candidate whose views are nearest in accordance with the Liberal platform." This was carried and the meeting broke up, everyone seeling satisfied that the matter was finally settled from the Liberal standpoint.

Mr. Bert Davidson, of Port Hope, is in town the guest of Mr. Stanley Pickup.

Mr. Fred Hendrie and his sister Emma spent Sunday with friends at Fairmount.

Rev. J. J. Rae, of Peterborough, will preach in the Methodist church here on Sunday, Dec. 29th.

The annual meeting of the Bible Society was held in the town hall on Monday, evening and was very well attended.

The concert which was given in the town holl on Friday evening was a grand success. Mr. F. J. Carless appeared in his usual fine style.

Municipal matters are beginning to take lively appearance. For councillors all the old council will seek re-election with the exception of Councillor Bateson, who has decided to step out. Messrs. R. J. Doak and J. C. Kells are the new aspirants. For reeve, Messrs. Ferguson, the present head of the council, and Pickup will fight it out.

HEART FAILURE.

All Such Exits from Life are Preventable.

Called by its Proper Name it would be "Kidney Failure" Every Time.

To pass from seeming robust life to instant death is the most appalling death of all.

Not a day passes, however, without its records of death in such form.

The columns of every newspaper has its accounts.

And preventable endings every one of them. But how?

A noted Toronto physician gives the answer when he says: "I have yet to learn of a single case of so-called 'heart failure' where examination after death did not disclose kidney disease as the primary cause of death."

Therefore kidney treatment is the only method of preventing heart failure.

The warning distress or symptoms of heart disease are but calls for kidney treatment.

The most absolute and effective answer to this demand is to use Dodd's Kidney Pills.

These pills are solely and purely a kidney treatment, and go direct to help the kidneys as soon as dissolved in the stomach.

They have saved or prolonged a hundred thousand lives in Canada.

Dodd's Kidney Pills are sold at 50c. a box by all druggists and dealers.

COLDSPRINGS—OTONABEE.

From Our Own Correspondent.

On Monday evening, Dec. 23rd, the Coldsprings Union Sunday School intend holding their annual Xmas entertainment. A choice programme of music, recitations, dialogues, etc., is being prepared by local talent. Miss Hendren, of Lakefield, will be present and a very enjoyable evening is anticipated. A cordial invitation is extended to all. Doors open at 7.30.

William Henry Ott, alias "Mustang Bill," says that he used Ayer's Hair Vigour for nearly five years, and owes to it his splendid hair, of which he is justly proud. Mr. Ott has ridden the plains for twenty-five years, and is well known in Wyoming and the Northwest.

Karl's Clover Root will purify your blood clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c. and $1.00. Sold by John Nugent, 269 George Street.

Weak and Tired.

DEAR SIRS,—I can heartily recommend Milburn's Cod Liver Oil Emulsion. For a long time I felt so weak I could hardly keep up, every little thing tiring me out. I took two bottles and the fatigue and tired feeling left me and have never returned.

Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!

NOTE THE ADDRESS

408 George St.

IN CARDWELL.

Sir Richard Cartwright at Caledon East.

THE MANITOBA SCHOOL QUESTION

Fundamental Errors in the School Question Pointed Out—A Question of Popularity—The Liberal Policy as Regards Manitoba—Conservative Meeting at Caledon.

Caledon East, Dec. 18.—The electors of Caledon and Albion filled Hanlan's Hall here to-night, listened to the discussion of public affairs by Sir Richard Cartwright and others, and cheered for Mr. Henry, the Liberal standard-bearer, whose candidature is gathering strength as time goes on. The discussion of two important questions made up the very able speech of the member for South Oxford. The course of the Government in dealing with the Manitoba school question received his severest condemnation. He characterized it as being utterly indefensible from first to last. Sir Richard also arraigned the Government upon its fiscal policy, the failure of which to accomplish its object was made abundantly plain.

Dr. Stewart of Bolton, President of the Liberal Association of Cardwell, was asked to take the chair, and an excellent man for the position he proved himself to be. In his opening address he expressed his satisfaction at being allowed to preside at a Liberal meeting.

Mr Henry was received with a gratifying degree of warmth and cordiality Mr Henry mentioned the fact that he was a home man and a farmer. Hitherto Cardwell had been represented by a gentleman who resided outside of it, and it was worth considering whether it would not be an advantage to the people generally to be represented in Parliament by a local man, and to the farmers particularly to be represented by one from among their own ranks.

Thirty minutes were allowed to Col. O'Brien, who was present in the interest of the McCarthyite candidate, Mr. Stubbs. The election, he said, was one of paramount importance, and the only issue was the Manitoba school question.

Dr. Robinson of Brampton, who is well-known and much respected in this vicinity, was listened to appreciatively during his admirable address. He disclaimed all sectarian bias, and said that Liberalism knew no divisions of creed.

Sir Richard Cartwright then spoke. He said that the Liberal party had stood firm for many years by their creed, and if they came forward and asked one of their members to be their standard-bearer he would not believe that any true Liberal would be found turning his back upon Mr. Henry, who came before the people as the unanimous choice of the convention. While arraigning the Government upon its course in regard to the Manitoba school question, he said that to refer the matter to a parliament that had had its full five sessions was an abuse and a strain of constitional usages. Let the Government, he said, go before the people. Let them return, not with a moribund parliament, but with a parliament really reflecting the opinion of the people of Canada, and before that parliament, if they happen to be returned to power, let them propose such legislation as in their conscience appeared fit, and let that parliament, fresh from the people, deal with it. When the Government appealed to the people on the ground that they were not free agents, but that they were merely carrying out the decisions of the Imperial Privy Council, they were attempting to deceive them. The conduct of the Government in this matter was wholly indefensible, and in taking the line they did injured not merely the Government of Manitoba, but very seriously the entire Roman Catholic population, as it was in the interest of the Catholic minority that the matter should be kept as far as possible out of the arena of party politics, and that it should be amicably settled, if it could be amicably settled, by some conference arrangements between Ottawa and Winnipeg. If it was their plain bounden duty to pass this Remedial order, it was their duty to stand or fall by it. If it was right they should have stood by it and not endeavored to modify it as they had tried to do in their second communication. If it was wrong it was their duty to withdraw it. Either the school act was an outrage on the minority that required instant disallowance, and it was the duty of the Government to disallow it, or it was a matter fairly debatable, on which the Government before taking action should have conferred freely and fully with the Manitoba Government. Sir Richard, after alluding to the inconsistent position taken by Mr. Willoughby on the question, ended by quoting the declartaion of Sir Mackenzie Bowell that that remedial bill would be introduced at the coming session, promising the restoration of Separate Schools in Manitoba But, he questioned very much whether the Ministers knew just what they would do He suspected that they would first endeavor to determine whether it was profitable to throw overboard their Orange friends on the one side or their Catholic friends on the other Tell them, he said, whether it is more profitable to quarrel with the Orange vote or more profitable to gain the Catholic vote, and I will tell you how the Government of Canada will feel bound to decide the question.

In explanation of the policy of the Liberal party upon the question, he said that it was proposed to do even-handed justice between all parties, as they did not desire to favor the Protestant majority or the Catholic minority; they wanted to do justice as far as they could to both. If the Catholics had been deprived of things justly theirs, let the Catholics have their just rights; but if the contention of the Manitoba Legislature proved to be well founded, let the Manitoba Legislature be sustained. The first thing to be done was to withdraw the remedial order, which never ought to have been passed, and then to cause to be made a proper and fair investigation. When the investigation was made, and with the information before them, the Liberal Government would be prepared to deal with the question fairly and honestly to the best of their ability, and he had no doubt that if such a course were pursued an amicable settlement could be arrived at—a settlement which would be satisfactory to the Catholic minority of Manitoba on the one side and to the Protestant majority on the other. It was their duty to use every reasonable means of reconciliation, and he had no doubt if that were done this troublesome question would be easily settled. He doubted whether the Government, powerful as it might be, could enforce any conclusion arrived at on Manitoba. Until they receded from the false position which they had taken there was very little hope of a reasonable solution of the question.

Cheers for the Queen and the candidate, R. B. Henry, closed the meeting

Conservative Meeting at Caledon.

Caledon, Dec. 18.—A well-attended Conservative meeting was held here to-night in the town hall. The speakers were the Finance Minister, Major McLennan, Mr. Willoughby and Mr. E Cochrane, M.P. The chair was occupied by Mr. James Hillyard of Caledon. The Conservative candidate was the first speaker. He declared that he was "a straight, old-line Tory." "Government does not ask a pledge from me," he said, "and I am an unpledged man. I have given none to the opposition, although I have been hounded to do so."

During Mr. Cochrane's speech, there was considerable interruption from Mr. John Ferguson, a prominent Conservative farmer of Caledon, who asked what Sir John Thompson's funeral had cost.

The episode was interesting as showing that the meeting was made up very largely of opponents of the Government. Mr. Cochrane was allowed to conclude without further difficulty.

Mr. Foster's speech was on the usual lines.

Dangerous.

We often see this sign on roads or streets.

Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be poison in the blood, for these are the certain signs.

To the fact that poisons get past the kidneys may be traced every sickness to which you are liable.

Treat the kidneys forthwith and first of all.

It is the safe and proper thing every time; therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatment of kidney diseases on earth.

Can you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney Pills keeps on curing these diseases

Baritone Solos.

The following popular baritone songs have just been received from England at the R. S. Williams & Sons' music store, Water street:

The Phantom Horseman, by Weatherly.
The Heroes' Return, by St. Quintan.
Bill the Boatswain, by Jude.
Were I a King, by Bottesini.

All the newest music received as soon as published. 3d142

The Romance of an egg.

A romantically inclined young lady, got access to a crate of eggs being shipped to Scotland by a local firm and wrote on the shell of one a message to the finder requesting him to correspond with her. Long ago the shipment left for Scotland and the other day an answer came from a young man in Scotland—"a marriagable young man 24 years of age." This may be fairly construed into an opening of matrimonial negotiations, though whether this epistolatory egg will ever hatch a wedding, is for the future to decide.

A True Bear Story.

One day last week Sandy Ewans and his hired man were cutting wood in a small patch of timber on their premises, not far from Kirkfield. Noticing the peculiar action of their dog toward a certain log, they went forward with the expectation of unearthing a coon. The hired man thrust his axe far into the heart of the log, when suddenly the axe was violently struck out of his hand, and immediately afterwards a large bear made its appearance. Mr. Sandy Ewens seized his axe and struck the bear a powerful blow on the head, killing it. Another bear was also discovered in the log. Not thinking it safe to rely wholly on their axes, one guarded the log while the other sped across for Mr. John Ray, one of the best shots in the district, and an old hand at bear killing. Mr. Ray speedily put in an appearance, and with little difficulty put an end to the second bear by sending a bullet through his head.—Lindsay Post

THE MAYORALTY CONTEST.

Dr. Bell Asked to Become a Candidate.

Last evening an influential deputation of ratepayers waited upon Dr. Bell and pressed him to stand for the mayoralty.

The doctor, although not consenting, agreed to take the matter into serious consideration, and give the deputation an answer in the early part of next week. In the meantime those who are anxious to have Dr. Bell offer himself as a candidate are circulating a requisition amongst the ratepayers in order to bring home to him the fact that his candidature would be a popular one.

THOSE CONGRATULATORY ORANGE RESOLUTIONS.

How Independent Opinion Regards the Chief Movers.

The Toronto Evening Telegram, an independent evening newspaper, thus expresses its editorial opinion of the little Peterborough Orange coterie that was responsible for the congratulatory resolutions passed to Sir Mackenzie Bowell, on the occasion of the North Ontario election, felicitating him on the election of a supporter of a government pledged to coerce Manitoba on the School question. The Telegram says:

"Those Peterborough Orangemen who proudly announce themselves as followers of Sir Mackenzie Bowell, make of him a pope and of themselves papists.

The word papist is not used offensively to Roman Catholics, in fact it is not applied to Roman Catholics at all. There are pope worshippers outside the communion of Rome, and their pope is a good deal lower than the Sovereign Pontiff of the Seven Hills.

Everybody who follows a man instead of a principle is a papist in the worst sense. The excuse for the abasement of those Peterborough partizans is that in adhering to Sir Mackenzie Bowell they are not worshipping a man, but worshipping the offices which they hope the man will give them."

["Those Peterborough Orangemen," if they have any copies of the green "Eye-opener" left from the last Provincial election campaign, should fish them out and mail a copy to themselves. It is odd how easily "principles" change with the party concerned in the application of them by the persons that are supposed to revere such "principles"—that can be so easily twisted to achieve a party end.

The Catholic Association.

A meeting of the board of the C.L.A. will be held this evening at 7.30 sharp. A full attendance is requested.

Presents For Gentlemen.

What do you say about a good pipe, a box of cigars, a nice cigar case or a latest style walking stick? These are very acceptable presents for gentlemen and easily selected. Call at Clegg's and see his stock, all first quality and best value.—E. B. CLEGG, one door south of Stratton's Book Store.

A Fine Deer Head.

Taxidermist Hudson is mounting a set of elk horns, the property of Mr. J. Dixon Jewitt, of the Snowden House. The horns are three feet seven inches long, and three feet across from tip to tip, while the upright borns over the head are two feet in height. Mr. Jewitt captured the elk in the township of Dcrset some time ago. It was considered a beauty by all who saw it.

Purely Vegetable.

First the bud, then the blossom, then the fruit. There are several stages of some of the first important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

Out Clean in Two.

Christmas business is running, but we are going to have a greater rush still as announced by me yesterday. I shall hold on Friday and Saturday the greatest cigar sale ever known in Peterborough. I have lately imported 22,000 cigars direct from Havana, and you can get them at prices that will paralyze you. Look at our list on first page, second column. Don't forget me, Alive LeGros, 329 George street.

A Handsome Newcombe.

Mr. Shaw, who represents in Peterborough and district, the celebrated Canadian piano manufacturers, Messrs. Octavius Newcombe & Co., has on exhibition at the Peterborough Bookstore for the convenience of those who are desirous of seeing the productions of this firm, a beautiful piano, excellent in tone and finish. Any person wishing to procure a piano should see this handsome instrument. 6d140

A Prosperous Peterborough Boy.

The EXAMINER has received through the kindness of Mr. S. Clegg a copy of the Cincinnati, U. S., Merchant and Manufacturer, containing a cut of a new electric motor, the Davis motor, which is the invention of Mr. L. W. Davis, of the firm of L. W. Davis & Co., of that city. This Mr. Davis is a former resident of Peterborough and will be well remembered. He is a son of the Mr. Davis of the late firm of Whyte & Davis, agricultural implement manufacturers, who had an establishment on Brock street. Mr. L. W. Davis was at one time a pattern-maker in Mr. Peter Hamilton's Agricultural Works and left Peterborough about fifteen years ago. He seems to have had since then a successful career. He was at one time superintendent of the Queen City Electric Company and of the Cincinnati Edison Company. He was the first to introduce the electrical industry into that city, where he has now a large and well equipped factory and his dynamos received two gold medals at the Centennial exposition, and his special invention, the Davis dynamo and motor, is meeting with great success. Peterborough boys as a rule make their way to the front when they go abroad.

"Put Money in thy Purse."

This timely proverb has much significance at this season of the year. A peep into Ostrom's new fruit, oyster and grocery store is enough to unloosen the purse strings of a skinflint. Such a window display of dainty, luscious, unforbidden luxuries is not excelled in Peterborough. Artistically arranged pyramids of Florida oranges, lemons, grapes, bananas, English walnuts, cranberries, apples, peas, etc., arouse a longing around the pit of the stomach such as one gets after a long day's fishing. Delicious mince meats. McLaren's creamery cheese, table biscuits, Cross, Blackwell's, relishes, prunes, figs, apricots, and delicious looking sweeties are set out temptingly under your eyes; while the big blue raisins, currants, peels, extracts, seasoning stuffs, butter, eggs, flour and sugar, that go into the Christmas cakes and plum puddings, stare you in the face and demand to know if your wife has started her Christmas baking yet. And as you close your purse with a decisive snap and turn to the door in haste to escape further pressure, you catch sight of the luscious Baltimore bivalves, finnan haddie, sea salmon, white partridge and other rare game and poultry which cleans you out of every dollar you had left. It needs no words to stimulate such trade—a look is enough. There is the added charm of newness and freshness about the stock, which also appeals to your good taste. Shop early in the day to avoid the crowds and shop often. "It will put money in your purse" to shop at OSTROM'S. 1d

ROSZEL VS. O'SHEA.

Written Judgment in this Case at the Police Court this Morning.

This morning in the police court, Magistrate Dumble delivered the following written judgment in the case of Roszal vs. O'Shea:

"The defendant is charged under No. 56 of Liquor License Act with permitting persons other than a member of her family or household, or a servant, or an employee actually engaged in necessary domestic occupation or service, to be in her barroom during prohibited hours."

"In this case the police find in the defendant's barroom, her husband, the bartender and two tinsmiths, residents of the town."

"Evidence was given that the two tinsmiths were there for the purpose of 'dressing the bar.' Dressing the bar was explained as taking down the bottles and putting them back again—perhaps after cleaning them and perhaps rearranging them, and it was stated that there were 150 bottles on the shelves. It was stated that the tinsmith who brought his friend with him to assist, was paid in advance for his work, and that he had done it before."

"Now it is important that the meaning of this section should be defined, in order that hotelkeepers may not, under pretence of dressing their bars, evade the act and thus keep too many persons in their bars on Sunday or other prohibited hours."

"It is quite certain that the tinsmiths were not members of the defendant's family or household. Can it be said they were employees actually engaged in necessary domestic occupation or service?"

"It has been held in English cases that baking rolls on Sunday and that baking bread in the ordinary course of a baker's business is not necessary work."

"I am, therefore, of opinion that the bringing in of two strangers to dress the bar was not within the meaning of the act, for the purpose of performing a necessary domestic occupation."

"The barkeeper is especially employed to keep the bar and that must include the work required to dress the bar of a little tavern. He could, no doubt, find plenty of time to do it in a week day, and if not he could do it himself on Sunday, but if not the defendant's husband could assist him. It was not such a big job as to necessitate the presence in the bar of four men. I am aware from the evidence that is frequently before me that barkeepers and proprietors do make a habit of cleaning and dressing their bars on Sunday, and so long as this is done by themselves, or their ordinary servants, no conviction would probably be made against them, but when they claim the right to bring in strangers to do this domestic work, they must establish that it is necessary. In this case I am not satisfied that it was necessary and I think it best that the evident intention of the Act—namely, the keeping the bar closed on Sunday should be enforced."

"I find the defendant guilty and I award that she do pay a penalty of $20 and costs, to be paid in ten days, and in default of payment, distress, and in default of distress, imprisonment in the county gaol for fifteen days.

REMANDED TILL MONDAY.

Three Cases Before R. S. Davidson, J. P., This Morning.

The court was crowded this morning, most of those in attendance being interested in some of the cases.

The first was that of J. McDonough, the picture agent, who was brought back from Newmarket by P. C. Adams last night. The prisoner was charged with stealing a picture frame and overcoat from Mrs. McBurney. He did not plead, and at the request of the Chief he was remanded till Monday. Bail was fixed at $200.

Lizzie Lennox and Mary Payne were charged with being vagrants, and were remanded till Monday. These two girls are quite young, and have been leading very immoral lives. They were found in a stable last night by P. C. Stewart in company with two men.

A BADLY CUT HAND.

A Bell Boy Falls Through a Window and is Seriously Cut.

Mark Carroll, one of the Oriental Hotel bell boys, fell from a ladder whilst cleaning the windows of the porch this afternoon. In falling he threw out his hand to save himself and thrust it through a pane of glass, inflicting a most ugly gash. The cut was bandaged in Lynch's drug store. The flow of blood was very profuse.

The Pearl of Great Price

To woman is beauty. Beauty the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds this charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath as fragrant as flowers.

How About the 25th?

ST. ANDREW'S AUXILIARY.

Annual Meeting—List of Officers Elected—The Annual Report.

The annual meeting of the St. Andrew's Auxiliary of the W. F. M. S. was held on Tuesday evening. The report of this society show a great increase over the last year. The amount of contributions for the year, $190 and a box of clothing sent to the Indians at Prince Albert, value, $39.

The following officers were elected for the ensuing year:

President—Mrs. A. Stewart (re-elected).
1st Vice Pres.—Mrs. Huebeck.
2nd " —Miss Forsythe.
Secretary—Miss Edmison (re-elected).
Assistant Secretary—Miss Weddell.
Treasurer—Mrs. G Laing (re-elected).
Executive Committee—Mrs. W. Fowler, Mrs. Larmouth, Mrs. Currie, Mrs. Cunningham, Miss Anderson and Miss Bathgate.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Messrs. J. J. Turner & Sons are beautifully decorating St. John's Mission building for the Pink and White Social to-night.

—For a nice assortment of pipes and cigars try Morgan. He is the only dealer in town that handles the real Sir Robert Peel Cigar. 436 George street.

—Messrs. J. J. Turner & Sons received an order to-day from Toronto for one dozen large British ensigns, and the firm cabled to England at once for the best bunting, as the order specifies.

—Mr. Geo. Schofield has a handsomely dressed window of fine imported perfumes, as usual, at Christmas times. The goods displayed are in elegant cut glass pieces, and will, no doubt be found very popular as Christmas presents.

—THE EXAMINER has to thank Messrs. Pete Simons & Co. for a copy of their beautiful calendar for 1896. The subject of the calendar is "Britain's Bulwarks," and it contains a medallion portrait of the Queen, a central picture of an iron-clad, enclosed with drapings of flags, and in the corners military groups. It is in colours and makes a very handsome calendar.

—Mr. Tom Hooper has the sweetest dressed candy window in town, up to date. The skill, taste and labour displayed in this effective exhibition of Christmas candy is very creditable. Rich candy effects in the shape of large cones dressed off with ornamental candy toys, nuts, etc., form the principal features in the window. These are surrounded with choice confections of all sorts, principally Mr. Hooper's own manufacture. The children are in ecstacies over this enticing window.

—The evil of the bottle is offset by the fact of a Port Hope young man saving his pile by banging a foot pad, who demanded his purse, over the head with a whisky bottle. Doubt is thrown on the story by the absurdity of the idea of any foot-pad being so credulous as to suppose a Port Hope man would have money—as that of his being reckless enough to sacrifice a whisky bottle to save his problematical possessions.

ST. JOSEPH'R BAZAAR
SCENES FROM FAIRYLAND.

YET REPLETE WITH SUBSTANTIAL REALITY.

Magnificiently Decorated Hall—Beautiful Booths—Charming Wares for Holiday Buyers—Detailed Description of the Attractions—Music Adds its Mystic Spell—Great Success of the Bazaar.

The *Opera House* was transformed into fairyland last night through the activity and zeal of the ladies interested in making St. Joseph's Bazaar a success. The interior of the large hall was so changed as to be almost unrecognizable. Long lines of pennons and flags were looped and garlanded from the four corners to the centre, whilst great streamers and bunting were artistically draped from the walls in a manner which produced an indescribably pretty effect, which was heightened by the bright colours with which the various booths were decorated.

These booths were in themselves things of beauty, and the

EFFORTS OF THE LADIES

must have been indefatigable, indeed, to execute such wonders in the short time which they had at their disposal.

The right hand side of the hall was occupied by the ladies of Wards Nos. One and Two, and their wares were disposed in a most artistic way. The long table was overhung with a bower of bunting, arranged on a cleverly-designed framework, upon which were hung all manner of ladies' work, amongst which might be mentioned a very beautiful picture, worked in silk by the Sisters of St. Joseph's, also a quantity of hand-painted work which was greatly admired. Several exquisite pieces of drawn work attracted a great deal of attention, as did some tea cosies in delicate shades of silk. A large oak rocker, a guitar and dolls innumerable are amongst the other many attractions on this table, which is in charge of Mrs. Justus Dunn, Mrs. Harry Phelan, Mrs. Harry LeBrun, Mrs. Thos. Cahill, Mrs. Daniel Donoghue, Mrs. Thos. Leplante, Mrs. E. Hurley, Mrs. Riley, Mrs. Thos. Henry, Mrs. Thos. McGrath, Mrs. Thorne, Miss Leonard and Miss M. Hurley.

IN THIS DEPARTMENT

there is also a drawing table containing many very beautiful articles—a parlour lamp, suit of clothes, smoking jacket, meerschaum pipes, silverware and many other things.

At the lottery table one can take a chance for ten cents, and as there are no blanks it is liberally patronized. It is presided over by Mrs. Cahill, Mrs. Pope and Mrs. Riley.

The fish pond belonging to these wards is looked after by Miss Annie Simons and Miss O'Neil, and a good many 5-cents were taken in by these young ladies last night as they attached the numerous little toys and other things to the lines of the crowd of impatient youngsters who angled during the evening.

The left hand side of the Opera House is under the supervision of the Sisters and the ladies of Wards Three and Four and Ashburnham and the decorations of the principal fancy work table is much the same as that across the hall. A lace handkerchief, worked

BY THE SISTERS,

was universally admired as being the most delicate piece of fancy work at the Bazaar. It was the most delicately fragile wisp of lace imaginable and the ladies were in raptures over it. A pastel picture for an easel was also greatly admired, as well as several tatted silk drapes and a most varied and pretty assortment of doylies. A pincushion in the bottom of a large shell was thought to be "quite too cute," and something entirely new was a design in which gauze was drawn over a collection of pressed pansies and ferns in such a manner as to lead to the belief that the flowers were the product of the brush. The ladies in charge of this department are Mrs. John C. Sullivan, Mrs. Begley, Mrs. Dineen, Miss Vinnett, Miss Frankie Sullivan and Mrs. M. Giroux.

Mrs. Ball and Miss Katie Lynch have the fish pond on this side of the hall, and the marvelous assortment of "fish" which they have on hand is such that the tastes of anyone can be satisfied.

ALL THE ARTICLES

are the full value of the fee charged, and many of them will prove great prizes.

The lottery table is in charge of Miss Vinnett, Miss O'Reilly, Miss Burke and Miss McDonald, and consists of three departments. Five, ten and twenty-five cent chances being offered. As there are no blanks of course there is a crowd around the tables all the time.

The art museum deserves a call from everyone who visits the hall. It is under the supervision of Miss Kate Simons and Miss Mamie Riley. Amongst the curiosities on exhibition are:—

A Beauty from the Sunny South, The Poet's Bays, Drooping Lashes, Pledge of Affection, View of a well known Prison, The Light of Other Days, A Striking Scene, A Maiden's Prayer, The Waifs, Temptation in the Garden, Unwelcome Christmas Visitors, We met 'twas in a Crowd, The Dripping Well, A Striking Object, Travellers Guide, Instruments of Torture, After the Valse, Christmas in China, Specimen of Antique Lace, A Swarm of Bees, Meet of the Windsor Harries, Tales of Sea and Land, A Celebrated Composer, Flocks of Hens, View of Rotten Row, An Antediluvian, A Noted Scientific Lecturer, The Departed Spirits, The Last Letter, Game, a View of Cork, Faded Respectability, True to the Core, A Study of Fish in Oil, A Vale of Woe, An Authorized Portrait of Her Majesty the Queen, After Tea, An Old Screw, Our Hampstead Friends, Study of a Head Sweet Memories, Blighted Hopes, The Missing Link, Ashes of the Great, The Old Love and the New, Oliver Twist, Old Times, A Source of Tears, H.M.S. Pinafore, A Rare Old Print, The Staff of Life, On Point of Death, To Point a Moral to Adorn a Tale, A Noble Invention (for though steam and electricity have been great aids to human progress this is greater), A Quiet Friend in the Evening, A Young Pickle, Cedars of Lebanon, Copies from Old Masters, Meeting of the Bishops, Buonaparte Crossing the Rhine.

THE GYPSY TENT

was the great centre of attraction during the evening. Around it were gathered crowds of young people and a good many of their elders as well. It was under the supervision of Mrs. L. M. Hayes and Mrs. Moloney, with a whole bevy of dark beauties assisting them. Miss Lizzie Mahoney, as "Zingara," told fortunes by means of palmistry and was kept busy all evening, while in another corner of the tent Miss M. Baker, representing a Salem witch, read the future for you out of the bottom of a teacup. The gipsy girls, who circulated through the crowd and were tricked out most fantastically in bright-hued roles, were Miss Maude Kelly, "Zuanita;" Miss Gertie Muncaster, "Palla;" Miss Emily Carew, "Soretta;" Miss Annie O'Connell, "Harrie," and Miss Maggie Lynch, "Safia."

Meals are served at all hours during the day, but hot dinner is only put on between the hours of 12 and 2 and supper is placed on the tables at six o'clock and kept on until eight. Hot oysters can be had at any time.

Mr. P. Begley has on view a model of the famous

SHRINE OF ST. ANNE

de Beaupre and those who have already visited the shrine attest as to its wonderful accuracy in every point of detail. He has also a model of the first house ever erected in Peterborough. His department well merits a call.

All the ladies connected with the Bazaar are to be congratulated on the great success which they are making of it. One of the most noticeable and pleasing features exists in the fact that no one is bothered by being asked to "take chances" on this, that or the other. The chances are there and the prizes are on exhibition, but if one does not wish to try their luck there is no danger of being coaxed into it.

During the evening Mr. L. M. Hayes officiated as chairman and announced the different numbers on the programme at intervals. Those who took part were Miss A. Simons, Miss Primeau and Miss Lillie Simons, as well as a number of the Convent pupils who gave a most creditable calisthenic drill under the direction of Sgt.-Major Rundle.

A special meeting of the Bicycle Club is called for tomorrow evening at the club rooms at 8 p. m. sharp. All members are requested to be present.

They do not Despair.

An utter loss of hope is not characteristic of Consumptives, though no other form of disease is so fatal, unless its progress is arrested by use of Scott's Emulsion, which is Cod Liver Oil as palatable as cream.

Crafton and Co. clothing manufacturer, sell direct to their customers at manufacturer's prices, the best made and cheapest clothing in Canada.

Suitable.

Nothing more suitable for a Christmas present than a dinner or tea set or a lovely lamp. China Hall has the assortment and prices to suit the times. Buy early.

Lamps.

What more suitable for a Christmas present than a handsome lamp. China Hall has them in endless variety, at special prices. No such value anywhere as at China Hall.

Piano Tuner.

Mr. George Gumpricht, as a first class piano tuner, is highly recommended by Messrs. Heintzman & Co., and all leading piano dealers. Orders may be left at Mr. H. S. Macdonald's drug store.

Beats Santa Claus.

Oak Hall's latest wrinkle is a green tag sale. Men's Overcoats that formerly sold from $6 50 to $12, are now all ticketed with green tags and sold for $5.95 and $7.95. Your tag is ready waiting for you, but don't wait too long.

The Dinner

Is always the centre of attraction. Housekeepers plan to have the bill of fare extra nice; but the surest way to have it pass off right is to draw on John J. Howden's meat market for your beef and other meats. 'Phone 39.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves in newest styles for all occasions.

Ready.

China Hall is now ready for the rush with the largest and most beautiful stock ever shown. Dinner Sets, Tea Sets, Toilet Sets, Silverware, Cutlery, Fancy Goods, &c., in endless variety. Buy early to avoid the rush.

Tokay Wine.

This excellent wine is now on draught in the leading hotels. Sole agent,

Seems as if consumption always picks out the brightest and best. Maybe it isn't so. Maybe it seems so because consumption is the most frequent of all diseases. Consumption kills more people than wars or Cholera or Yellow Fever. Fully one-sixth of all the deaths that occur in the world are caused by consumption. And consumption can be cured. Doctors used to say that it was incurable, but the doctors were merely mistaken. It would be strange if medical science did not make some progress. Many things were once considered impossible. The ocean steamer, the locomotive, the telegraph and telephone, the phonograph, the electric light—all these were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is a disease of the blood. It used to be considered a disease by itself. It is not. It is caused and fostered by impurity in the blood. Purify the blood and restore the healthy action to the various organs of the body and consumption will be cured. It is by weakness and loss of vitality in the blood. It is cured by purity and richness of the blood—surely, certainly cured. Those who have consumption or any lingering bronchial, throat or lung disease, and those who are on the road to them, have a positive remedy at hand. Any condition of the body that indicates weakness, any indication of impurity in the blood, should be attended to at once. Loss of appetite, loss of flesh, loss of vitality, nervousness, weakness and unnatural weariness, are indications that the body is running down. Dr. Pierce's Golden Medical Discovery makes the appetite good, the digestion strong. It builds up solid, healthy flesh and vigorous strength. Thousands of people have testified that it has really saved their lives. Some of these testimonials, together with hundreds of things that everybody ought to know about health and sickness and medicine, have been embodied in Dr. Pierce's "Common Sense Medical Adviser." This 1008 page medical work, profusely illustrated, will be sent free on receipt of 31 one-cent stamps to cover customs and postage *only*. World's Dispensary Medical Association, Buffalo, N. Y.

LATEST CABLE NEWS.

Lord Salisbury Holds His Usual Wednesday Afternoon Reception - Mr. Bayard Absent.

London, Dec. 12.—The Marquis of Salisbury held the usual Wednesday reception at the Foreign Office to-day. The French, German, Italian and Spanish Ambassadors and the Austrian and Dutch Charge d'Affaires were present. United States Ambassador Bayard was absent.

It is understood that the British Government has not been informed officially of President Cleveland's message in regard to the proposed comsion in connection with the Venezuelan boundary dispute, and that Great Britain will follow the usual diplocourse until overt action is taken by the United States. The action of the House of Representatives in voting an appropriation for the expenses of the commission may hasten a crisis, but it is not expected that there will be serious developments until the commission shall have arrived in Venezuela. Their presence on the Guiana boundary will constitute a grave menace, and the necessary instructions will be forwarded to the authorities to maintain the interests of Great Britain in Guiana.

AGAINST REUTER.

The Central News and New York Sun Come Out on Top.

London, Dec. 18.—The action brought by Reuter's Telegram Co. against The New York Sun and the Central News of London came up in the Queen's Bench Division of the High Court of Justice before Lord Chief Justice Russell to-day. The Sun made no appearance, holding that if the Reuter Co. wanted to take local action against The Sun, they should go to New York where that newspaper is published.

In regard to the Central News, the Lord Chief Justice dismissed the action, ruling that there was no case against the defendant. The Reuter Co. will consequently have to pay the costs of the action, which will probably amount to about 400 pounds.

The action grew out of the alleged dissemination by the Central News and publication by The New York Sun of allegations of fraud against Reuter's International Agency in Nov., 1894, when petition was filed in the Court of Chancery for an order for the winding up of the affairs of the International Agency, which had been formed to acquire the advertising business of Reuter's Telegram Co.

THE PROSTRATE POWERS.

Mr. Gladstone Points Out the Humiliating Position of the Nations.

London, Dec. 18.—A pro-Armenian meeting was held in the City Temple here yesterday, at which was read a letter from Mr. Gladstone, in which he said: "The six great powers which, between them, spend more than £100,000,000 yearly upon what is termed their defences, lie prostrate at the feet of an impotent Sultan, who, with their cognizance, appears to prosecute massacres at his will, day by day. Which power or powers are to blame I know not. Our country is quite able to cope with six Turkeys, and she is under peculiar obligations; but she is not omnipotent. I sincerely hope that Her Majesty's Government has not been in any degree answerable for bringing about an almost incredible situation."

Singers, public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find, in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. A timely dose of this preparation has prevented many a throat trouble.

Hagyard's Pectoral Balsam cures coughs, colds, asthma, bronchitis, sore throat and all diseases of the throat, lungs and chest.

An Evil Follower.

Consumption follows neglected colds. Norway Pine Syrup cures coughs, asthma, sore throat, bronchitis and lung troubles. Price 25 and 50 c.

Burdock Blood Bitters

Purifies, renovates regulates the entire system, thus curing Dyspepsia, Constipation, Sick Headache, Biliousness, Rheumatism, Dizziness, and all diseases of the stomach, liver, kidneys and bowels. It also removes all impurities from the system, from a common pimple to the worse scrofulous sore.

Don't start the holiday season without a black suit. In our tailoring department, the prices won't scare you. Our cutter, Duncan Cameron, can give you any of the choice conceits of London's leading Tailors or correct copies of America's foremost fashion plates, and the price will be about $14 or $16, instead of $23 and $25.

DINNER TO MR. SEARGEANT.

The Retiring Manager of the Grand Trunk Honored.

Montreal, Dec. 17.—The dinner this evening to the retiring General Manager of the Grand Trunk Railway, Mr. L. J. Seargeant, was one of the most brilliant demonstrations of popular esteem ever held at the Windsor Hotel. The State was represented by Sir Mackenzie Bowell, Sir A. P. Caron, Hon. John Costigan, Hon. W. B. Ives, Hon. J. A. Ouimet, Hon. J. A. Chapleau, Hon. A. F. Wood and most of the local party leaders. Hon. Wilfrid Laurier was unable to attend.

Some 325 guests were present, amongst them being Sir William Van Horne, Vice-president Shaughnessy, Messrs. John Earls, Toronto, western district freight agent; W. J. Spicer, Detroit, general manager of the Chicago and Grand Trunk; George B. Reeve, Chicago, traffic manager of the Chicago and Grand Trunk; John Bell, Belleville, Grand Trunk solicitor; Messrs. W. E. Davis, D. Brown, A. B. Atwater, Chicago; H. Roberts, J. H. Muir, Detroit; C. I. Haigh, Buffalo; Thomas Ballantyne, ex-Speaker of the Ontario Legislature, Stratford; James Goldie, Guelph; John Hoodless, Hamilton; R. Dowle, Buffalo; James McQueen, Detroit, and others.

Mr. Seargeant's speech in reply to the toast of "Our Guest," was a splendid effort. Referring to his own road, he said: Speaking in round figures, the Grand Trunk in 1860, consisted of 1000 miles; in 1895, with its affiliations, of 4200 miles. The company paid out in wages last year upon its main line $8,000,000. It employs upon that part of the system 16,000 men—upon its whole system 20,000 men. "We expended in Canada during the last 12 months in purchase of stores and materials, nearly $2,000,000. The capital accounts of the companies comprised in the Grand Trunk system are equivalent in round figures to £75,000,000. In 1874 two million passengers were carried; in 1894, nearly six millions, or more than the population £75,000,000. In 1874 two million tons, and in 1894, eight million tons of freight. The gross receipts of the lines comprise dia the Grand Trunk system for the year 1894, were $21,000,000. Bearing in mind that the capital expenditure on railways in Canada in 1867, the period of federation, was 150 millions, and that in 1894 it was 883 millions, and the mileage in 1867, 2258, and in 1894 nearly 16,000 miles, it is interesting, in considering the question of coincidence to note what has been the result, so far as the railway system is a factor in the case, upon the statistics of the Dominion. The earnings of all railways in 1862 were $54,000; in 1894 nearly $50,000,0000. The population in 1851 was about 1,800,000. In 1891 nearly 5,000,000, and now is presumably between five million and six million, which was the population of England in the time of Queen Elizabeth, and a population that constitutes a nation. The populaion of Montreal in 1851 was 60,000, and at present probably 250,000; of Toronto at the same dates 30,000 and probably 185,000.

After alluding to several other matters at length, Mr. Seargeant concluded as follows: I leave you gentlemen, with the knowledge that to your care and loyalty, and courage, and patriotism, is committed in area more than one-third of the British empire; that this favored country contains in itself every element of national greatness, that a more loyal country exists nowhere, that you have a perfected railway system, that further developments in the carrying industry may be in store for you, on land and on water, that political developments are distictly pointing to events which will conduce to your prosperity and greatness, and that events are now within the sphere of practical politics, which, not long since, were regarded as chimeridircal; and that above all, that Canadians possess in happy combination those qutilties which have made the great English and French-speaking nationalities what they are—and which qualities are destined to make Canada the brightest jewel in the British diadem. (Great cheering. I leave you with mingled feelings. On one hand:

Breathes there a man with soul so dead,
Who never to himself has said:
This is my own, my native land.
Whose heart hath not within him burned,
As home his footsteps he has turned,
From wandering on a foreign strand.

And, on the other hand, I must confess, and I do so with the certainey of the fact in the presence of the ladies types of all that is most beautiful and most charming in Canada—that a large share of my heart wil iremain behind. With these sentiments, it is more appropriate, more consistent with the probabilities, and more congenial to my hopes ;if I ask our distinguished chairman's permission to borrow two words of his beautiful language, and wish you all a cheery "au revoir," rather than a mournful good-bye. (Tremendous cheering.)

Sir Mackenzie Bowell and the other Ministers also made happy addresses, eulogizing the honored guest.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

Almost a Hopeless Case.

A Terrible Cough. No Rest Night nor Day. Given up by Doctors.

A LIFE SAVED

BY TAKING

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. WARD, 8 Quimby Ave., Lowell, Mass.

The English Feast-Day.

Our English ancestors had few fast-days, but many feast-days. The best day of them all, however, was Christmas. An old Italian proverb says, "He has more business than English ovens at Christmas." From an old weekly we quote the following:

Noblemen and squires kept open house. All comers were welcomed, and lord and subject were that day put on a level by the grace of hospitality.

The first of the Christmas dishes served at the manor-house was a boar's head.

On a dish of gold or silver it was borne into the banquet hall, amid the flourish of trumpets and the songs of knights and ladies, who followed in stately procession. An apple or an orange graced its mouth, and mustard was its sauce.

The fancy cooks of the day flatter themselves that they are artistic and original when they put roasted ducks and grouse on the table arrayed in their natural feathers.

But three hundred years ago Christmas dinners in England were ornamented with a roasted peacock, resplendent in his feathers, variegated tail and gilded beak.

Sometimes a piece of cotton, saturated with spirits, was put in his beak and lighted before the carver began his work on this "food for lovers and meat for lords."

The celebrated plum-pudding illustrates the theory of evolution.

At first it was a plum-porridge, made from mutton boiled in broth, thickened with brown-bread in which half-boiled raisins, currants, prunes, cloves, mace and ginger were mixed.

The whole was thoroughly boiled and served with meats. From this mess came forth the glory of the table, an English plum-pudding.

The well-known mince-pie, whose interference with the digestive organs has given it the name of the Devil's pie, is an ancient Christmas dish.

Mince pies were formerly made of neat's tongue, chicken, egg, sugar, currants, lemon and orange peel, with various spices. The crust was oblong, in the form of a coffin, in imitation of the manger where the Holy Child was laid. The ingredients were supposed to refer to the offerings of the wise men. With the eating of mince pies there is connected a superstition which sounds like a pretty device of hospitality.

During Christmas-time—that is to say, from the 16th of December to the 6th of January—you will find mince-pies a part of the feast, in whatever house you may be invited to dine; and the tradition is that the number of happy months you will pass in the following year will be as many as the mince-pies you taste at Christmas-tide in other people's houses.

Two for a Pound.

The drawing teacher had been giving a lesson on cubes, and some of the pupils had given examples. The teacher wanted more, but no one could think of any. Finally a boy said, "I know a good cube—half a pound of butter." "Why, that is excellent;" cried the teacher." "Now, who can give me another example, as good as Henry's?" After a long time she saw a hand waving wildly in the back of the room. "Well, Willie, what is it?" "Why, the other half-pound of that butter," said Willie, triumphantly.

A New Day, New Ideas.

Looks like a Miracle how the Windsor Table Salt is made so pure. The purest salt in the world. Every atom all salt, nothing else, never cakes. Be sure to ask your grocer for it.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds,

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Plain Facts.

Burdock Blood Bitters purifies, renovates and regulates the entire system, thus curing Dyspepsia, Constipation, Sick Headache, Biliousness, Rheumatism, Dropsy, and all diseases of the stomach, liver, kidneys and bowels. It also removes all impurities from the system, from a common pimple to the worst scrofulous sore.

Children Cry for Pitcher's Castoria.

CHRISTMAS CUSTOMS.

Merriment of Holidays in all Lands.

"In that hearty hospitality and merriment and that profusion of substantial good cheer which we all so closely associate with the occasion, the English Christmas is perhaps richer than that of any other country." The speaker was Robert T. Lincoln, United States Minister to England. "From the long-gone days when the lord of misrule and the abbot of unreason held sway in the feudal castles of old England, from Halloween (Oct. 31) to Candlemas day (Feb. 2)—then the limits of the Christmas season—down to the present-day Christmas, the king of days, has been most faithfully kept, as far as his means and circumstances would allow, by every Englishman; and the words of Sir Walter Scott are as true to-day as when he wrote them in his poem of 'Marmion' so many years ago:

"'England was merry England when
Old Christmas brought his sports again.'

A TIME OF FEASTING.

"No country in the world has a greater reverence for old customs and observes them more generally than England. The famous Christmas dinner of the old feudal barons, with its dish of boar's head borne upon a massive platter in great state the whole length of the immense banqueting hall by the major-domo of the household, attended by a large number of servants and vassals, finds its counterpart in the modern roast turkey which, in England as in America, graces the festive board of the prosperous celebrant of Christmas, who in England reinforces that toothsome bird with Yorkshire pudding, roast beef and plum pudding.

BOXING DAY.

"To an American it seems very strange that in England the day after Christmas or 'boxing day,' as it is called, is an occasion of even greater festivities among the working classes than Christmas day itself. It derives its name from the Christmas boxes or donations of Christmas spending money which are collected on that day by all working people. Boxing night is one of the greatest occasions of the whole year at the London theaters. They are then packed to their utmost capacity with patrons anxious to witness the first production of the spectacular Christmas pantomime which is always the piece de resistance of the London theaters at this season."

THE GERMAN CHRISTMAS.

"Germany might not inaptly be styled 'the home of Christmas,' said William Walter Phelps, United States Minister to Germany. "It is to the Germans that we are indebted for many of our most popular and universally observed Christmas customs. The ancient Germans were accustomed to celebrate long before the birth of Christ a great feast of the winter solstice, which continued during the twelve days from December 23 to January 6, and during which they were accustomed to light and decorate large yew trees, to which they also attached gifts for each other. These old German yew trees may be said to blossom annually on our hearthstones as the modern Christmas tree.

ORIGIN OF THE YULE.

"To the great feast the Germans gave the name Jul or Yul, a name that the Saxons carried with them to England, where it still survives—with one added to t—as a synonym for Christmas. The yule-log of old England is derived from Germany, as are also the yule-cheese, the yule cake, the yule-candle, and many other things pertaining to yule-tide. Santa Claus and Kris Kringle are both natives of Germany. It is to the latter, whose full, correct name is Christ Kindlin, or Christ Child, that we owe the familiar fable that it is the infant Jesus himself who brings presents for the stockings of good children.

"A German household on Christmas Eve is a very pleasant place to be. The little ones can scarcely wait for bed-time, so anxious are they to hang up their stockings—another custom, by the way, for which all the rest of the world is indebted to Germany. Some of the youngsters, who can recall instances when they have been disobedient or otherwise naughty during the year, are in mortal terror lest on awakening in the morning they should find in their stocking instead of toys and bon-bons, only a small birch rod, which has been placed there by one 'Pelsnichol' (literally Nicholas with the fur or St. Nicholas dressed in fur, as we should say), who punishes the bad children at Christmas time, while Kris Kringle rewards the good. Some German children, instead of hanging up their stockings, place their shoes outside the door of their bedroom."

ITALY'S CHRISTMAS.

"Italy, as personified by any of its principal cities, is never seen to better advantage than at Christmas time." It was Albert G. Porter, United States Minister to Italy, who spoke. "The streets of Florence or Naples wear a most carnival-like appearance at the Christmas season. On Christmas eve the people keep the vigil of the Nativity with great joyfulness and devotion. Great crowds throng all the principal thoroughfares. Innumerable paper lanterns give light to the scene, and it is the delight of the Italian small boy to hover on the outskirts of the crowd and suddenly extinguish one of those same lanterns with a well aimed stone or other missile. The Italian street fakir is quite as active at Christmas time as his brother in the States, and is busy offering all kinds of small wares. The cries of these fakirs, mingled with chants and the playing of various musical instruments before temporarily-erected shrines in honor of the blessed mother whose maternal pangs this music is intended to assuage; the shrill cries of bovish voices, the ringing of bells, the screeching of whistles and the beating of drums make up a royal Christmas chorus that would delight the heart of a Chinaman or any one else who loves a noise."

"The dawn of Christmas morning finds all the churches crowded to the doors with kneeling worshippers, the elegantly attired lady of fashion brushing garments with the half-clad woman of the people. Later in the day that superb promenade, the Prado, is thronged.

"The theaters are crowded and there are numerous bull fights in various parts of the city."—The Chicago News.

CHRONIC HEADACHE.

The change in my Mother's condition marvellous.

Scott's Sarsaparilla is a Boon.

MONTREAL, August 29th, 1895.

GENTLEMEN:—There is such a change in my mother's health that I cannot restrain myself from writing you. She suffered for years past with a chronic headache, accompanied with a disordered stomach. She was weak and irritable, and we thought she was going into a decline. For three weeks she has been taking a course of Scott's Sarsaparilla, which was recommended to her by Mr. McGale, Druggist, Montreal. Her headache is now but a memory, her appetite is good, and she has gained five pounds in weight in twelve days. She is a different woman, and I feel that you, in God's hands, have been the means of restoring her to health. I shall always recommend Scott's Sarsaparilla to sufferers from head or digestive troubles. Thanking you again, I close.

Yours sincerely,
Hortense Gaviliere.

Scott's Sarsaparilla is a concentrated extract, pleasant to the taste, and is taken in small doses. It is the finest remedy for disorders of the stomach and liver, palpitation, scrofulous sores, eczema and skin diseases arising from impurities of the blood. It builds up the weak, the strong it maintains in health. $1 of all druggists.

MECHANICAL ABSURDITIES.

Mr. McCallum's Paper Read Before the Fortnightly Club Meeting.

A regular meeting of the Fortnightly Club was held in the Judge's Chambers, on Tuesday evening, Dec. 17th, the President in the chair. The following gentlemen were elected new members:—Messrs. G. M. Roger, M. A. Morrison, C. L. Trotter Wm. Madill, F. D. Kerr, H. Nesbitt, H. Cluxton and G. S. Ames. It was agreed that the public debate of Jan. 28 should be decided by the audience, and that each debater should have twenty minutes in which to present his arguments, the leader of the affirmative having ten minutes at close to reply.

The main feature of the evening was the paper on "Mechanical Absurdities," by Mr. A. C. McCallum. The speaker succeeded in holding the closest attention of the members and was highly complimented on the superior excellence of his paper and illustrative diagrams. The discussion was left wholly to Mr. Fessenden, whose thorough knowledge of natural science made him quite at ease in discussing the subject of the paper.

THE PAPER.

Summarized Mr. McCallum's paper showed that :—"Mechanical absurdities" are many and varied. Perhaps the most fertile field for such are to be found in perpetual motion schemes, in which the inventor sets forth the claim, the literal meaning of which is, that something can be obtained from nothing.

A clear conception of the meaning of perpetual motion will help to a solution of this question. The term itself is an unfortunate one, calculated to mislead those who do not use language critically.

The perpetual motion sought for by inventors is not something that moves or will continue to move for ever, until it wears out itself, but the machine of which visionaries have dreamed, and for which enthusiasts have laboured. It is a machine that will under ordinary circumstances start itself and increase its motion till it reaches a maximum, overcoming the resistances of air and friction and possessing a surplus of motion to spare for impulse of other machines not in themselves self-moving.

No item of energy in the universe ever perishes, nor is any item of energy ever added to the existing supply ; the only changes possible are the transformation of energy from one form to another. Thus heat energy may be developed from electric energy or from chemical energy, but for every unit of heat energy developed an exact equivalent of the other form of energy must disappear. Proteus-like, energy can take all shapes, but must leave one to become another. It can only transform but cannot multiply itself. It is just as impossible to create energy as to create matter, and if any process is presented which claims to get out of one pound of coal more energy than it is known to possess, or out of the work of a horse more than its known amount, it should be regarded as precisely equivalent to the claim that ten chairs could by special grouping or arrangement of them be made into eleven or twelve. In other words, we should regard it either as a piece of legerdemain, or of oversight, or of error in observation.

Perpetual motion means then the doing of work without expenditure of energy, as would be illustrated by a machine which once started would continue to saw wood, or even overcome the friction of its own journals, without further supply of energy. Strange as it may seem, even in this crude form, this fallacy still crops up among intelligent, and in a general sense well-educated, people. The negation of the possibility of perpetual motion may therefore be accepted as a axiom in mechanical science.

To help us to come to a clear understanding of the object of this celebrated problem, it is necessary that we should remember, that in considering the construction and the performance of any machine, there are three things involved : (1st) the object to which the machine gives motion ; (2nd) the construction of the machanicism ; (3rd) the moving power, the effect of which is transmitted by the machine to the object to be moved. In consequence of the inertia of matter, the machine cannot transmit to the object more force than it receives from the moving power. Strictly speaking, indeed, it must transmit less force, since more or less of the moving force must be intercepted by friction and atmospheric resistance. If, therefore, it were proposed to invent a machine which would transmit to the object to be moved the whole amount of force imparted by the moving power, such a problem would be at once pronounced impossible of solution, inasmuch as it would involve two impracticable conditions : first, the absence of atmospheric resistance, which would oblige the machine to work in a vacuum ; and, second, the absence of all friction between those parts of the machine which would move in contact one with the other. But suppose it were proposed to invent a machine which would transmit to the object to be moved a greater amount of force than that imparted by the moving power, the impossibility of the problem would, in this case, be all the more glaring ; for even if the machine were to work in perfect vacuum, and all friction were to be removed, it could do no more than convey to the object the power it receives. To suppose that it could convey more power or force, it would be necessary to admit that the surplus must be produced by the machine itself, and that, consequently, the matter composing it would not be endowed with the quality of inertia. Such a supposition would be equivalent to ascribing to the machine the qualities of an animated being. But the absurdity would be still greater, if possible, if the problem were to invent a machine which would impart a certain motion to an object without receiving any force whatever from a moving power, yet such is precisely the problem of perpetual motion.

[Some five black and white sketches were shown, exhibiting some of the attempts to obtain perpetual motion and kindred absurdities, and proved most helpful to the members present.]

Flying machines are another fertile source for the inventor, and many schemes that have been invented from time to time must be considered as "mechanical absurdities." The difficulty in the way of success is the fact that the materials at our command are altogether too heavy, and not strong enough to be employed in the construction of flying machines, for the material entering into the construction of such machinery must be light enough to sustain itself with its load with a large reserve of lifting and impelling power.

The express locomotive weighs 100 to 150 lbs per horse power developed, and takes several times its weight along the railroad at from 40 to 60 miles an hour. The marine engine which generally occupies about 1-5 the space of the containing vessel, weighs from 500 to 600 down to 200 to 300 lbs per developed horse power, while the swift torpedo boat and the fast steam yacht machinery weighs in many cases as little as 100 lbs. per horse power, but these are all vastly higher than the maximum weight permitted by the aeronaut. The birds weigh certainly no more than 20 to 25 lbs. per horse power developed by them and man must certainly rival and surpass them. Machinery weighing probably 25 lbs per horse power is perhaps the practical limit.

A good draught horse weighs about 15 to 20 hundred per horse power.

Strong men work at about the rate of one horse power per 750 pounds weight as a minimum, and not far from double this as a maximum.

The animal's muscular substance is subjected to a maximum stress of not more than 100 pounds per square inch, in ordinary work 15 to 20 pounds. It is reported that the stress per square inch section upon a bird's muscles is not far from 15 to 20 pounds per square inch.

Pinard, the French writer on Aerostation, gives the resistance of a feather as about 45,500 pounds per square inch, about the strength of the softer grades of bar and sheet iron. But its density is about one-third that of iron, thus making its value for aeronautic purposes very great, giving six times the carrying power per unit weight. By comparing these figures with those given by authorities for the actual stresses on the muscular fibre, the animal machine would seem to have a very high factor of safety.

It is most wonderful that with those low stresses, with high factors of safety, and their comparatively bulky nature that those animal machines should be capable of lifting into the air a load equal to 50 per cent. their own weight, and unloaded to traverse a thousand miles without stopping in a day.

It seems then most probable that a weight of somewhere about 10 to 12 lbs. per horse power, for the machinery of propulsion must be worked, if success is to be either certain or satisfactory in this particular detail of the problem of successful flying machines ; otherwise we must ever concede that flying machines are simply "mechanical absurdities."

MR. FESSENDEN'S COMMENTS.

The chairman remarked that, as had been stated by the writer of the paper, it is now a universally accepted conclusion among men of science that it is as impossible to create energy as to create matter. The only possible use that can be made of a machine is to transfer energy from one body to another, or to change the energy from one form to another. Hence a machine that can do more work than is done on it is an impossibility. This doctrine of the conservatism of energy was not, however, so constantly before the minds of scientific men forty or fifty years ago as it is to-day, and even the great Faraday, in some of his experiments on unthinkingly looked for results which could follow only if the creation of energy were possible. The results which Faraday did observe, it is needless to say, only tended to confirm the doctrine.

The scientific genius of to-day and of the future has a wide field in which to labour without attacking impossibilities.

The man who discovers a means of converting heat energy into the energy of the electric current so as to utilize the whole of the heat energy will have increased the available mechanical energy of our coal fields about ten fold. And as great a triumph awaits him who can construct an electric cell in which the substances consumed are oxygen from the air and coal in the condition in which we obtain it from the mines.

The next session of the club will be held in the Judge's Chambers, Tuesday evening Jan. 7th, when Mr. J. Hampden Burnham, M.A., will deliver a paper on "Life in the Sea."

Owing to the continued indisposition of Prof. Clark, of Trinity University, Toronto, the lecture which he was announced to deliver to the citizens of Peterborough, under the auspices of the club, has been indefinitely postponed. This is a matter very much to be regretted, but Mr. Clark's illness, it is understood, is not so serious as to preclude the possibility of his fulfilling his engagement before the season is over. The club has much pleasure in intimating to the public that Dr. Bain, of Victoria College, has most kindly consented to deliver here his popular lecture on "Oxford." The particulars of place and time will be definitely announced in a few days.

CHRISTMAS PHOTOGRAPHS.

Special Invitation for the Ground Floor Gallery.

Christmas is coming ; in less than four short weeks it will be here and the time honoured custom of gift giving will necessarily include photographs of yourself or your family for your best friends. Nothing in the way of a present in good taste can better be given than a photograph—it represents a small cost if got at the Ground Floor Studio—and is of the highest value to a friend. Next to a visit from oneself a well taken photograph is the most acceptable gift. Business has been good with us since I assumed the management of the Ground Floor Gallery, Charlotte street, a few days ago, and with the great satisfaction expressed with our work we have reason to expect a genuine rush as Christmas approaches. Now you are advised to take the very first chance to give me a sitting, if you wish the best photograph that can be produced in this district. You know it takes some time to take, print and finish a photograph and that work done hurriedly in any branch cannot be done as well as when reasonable time is given. I am sure there will be a rush of orders as Christmas comes near and that many who apply late will perhaps be disappointed—only so much work can be done. So that if you do your part in spreading the rush over the weeks between now and Christmas by giving me a sitting at once, you will serve your interests and my own. Call early therefore and leave your order for your Christmas photographs at the Ground Floor Studio, Charlotte street (Sproule's former premises).

One Honest Man.

Dear Editor :—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp :—Mr. Edward Lambert. P. O. Box 55, Jarvis, Ont.

CURLIANA.

Only curlers possessing great muscular power materialized at the rink last night and even they did not last long and after some half dozen ends had been played all were glad to pick up their stones and walk off the ice. The mildness of the atmosphere made the curling so heavy that it took a powerful swing to get the stone over the hog.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic ; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heart burn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

Dignity of Age.

Twenty years ago Messrs. MASON & RISCH began building Pianos. That they made good Pianos is proved by the magnificent success which their instruments have achieved. They were popular from the very first, and to-day are more in demand than ever before. Other makers claim that their pianos are "just as good as the Mason & Risch." Nobody ever says the Mason & Risch are "just as good" as some other.

VENEZUELA DISPUTE.

Sir Michael Hicks-Beach Speaks Significantly.

WAR IS NOT AN IMPOSSIBILITY

Kinship Between Nations Not Always a Sure Guarantee of Peace - Hope That on Full Consideration an Amicable Settlement May Be Reached.

London, Dec. 19.—In a speech delivered at Bristol to-day the Right Hon. Sir Michael Hicks-Beach, Chancellor of the Exchequer, made a passing reference to President Cleveland's messag. Some people, he said, appeared to regard a war between the United States and Grat Britain as impossible owing to their ties of kindship. Nothing, was, however, impossible. War had alredy happened between them. If kindsmen unhappily differed they became sometimes very bitter enemies. But he did not believe that many persons, if any, on either side of the Atlantic, thought that the people of the United States or Great Britain wanted war. He is confident that when a true statement of Great Britain's case was ably and fully explained and Lord Salisbury's despatches were laid before both people the result would be a peaceful settlement, honorable to both countries.

Lord Salisbury did not come to London to-day. Business at the Government offices went along as usual and there was no bustle or excitement.

It is the opinion in official circles that there will be no developments in Venezuelan matters until Christmas holidays are over.

The Morning Post will to-morrow say: "There seems little doubt that the commission will hold an inquiry, in which event an unexpected way of escape may be provided for President Cleveland."

A Capital Suggestion.

Belfast, Dec. 19.—A newspaper here prints a suggestion that the Orangemen volunteer their services in the event of a war with the United States, to enable them to have a chance of meeting the proposed Irish-American army.

IRRITATION IN ENGLAND.

Correspondents of New York Papers Tell of the Feeling in the Old Land.

New York, Dec. 19.—A special from London to The Tribune says: President Cleveland's message on Venezuela is received in England with amazement and causes intense irritation. Hardly anything else is talked about in the clubs. Secretary Olney's despatch and Lord Salisbury's reply were published here with the message and the whole controversy, in which English leaders had taken little interest, has been suddenly sprung upon them.

What arouses more indignation here than anything else is President Cleveland's recommendation for the appointment of a commission to decide where the boundary line ought to be. Every journal refers to it as an attempt to dictate a method of settlement which no self-respecting nation could accept in a dispute with another independent state.

The menacing fact is recognized that England is threatened with war, and the gravity of the difficulties which have arisen is not disguised. Loud as is the talk on the streets about American bluster and the audacity of political campaigning, the journalists realize their responsibility and succeed, with a few exceptions, in keeping their tempers under excellent control. Several papers offer suggestions which tend to minimize the situation.

One result of this diplomatic episode is evident. Mr. Cleveland, who has been the English ideal of an American statesman, is now nothing more or less than a jingo of the most pronounced type. He is charged with begging the whole question in dispute and misrepresenting it besides; with picking a quarrel with a friendly power; with recasting the Monroe doctrine and converting it into an intolerable pretence; with seeking a renomination and trying to put the Republicans in a hole. Mr. Cleveland has been an English idol, but he is now dethroned.

Another effect has been produced by the remarkable language of his message. It has obscured much that was offensive and irritating in Lord Salisbury's reply, which is pronounced by all the journals calm, diplomatic and reasonable, and altogether remarkable. If it had been read a week before it would have been criticized as unconciliatory in tone and abrupt and contemptuous in its reference to the Monroe doctrine and the traditions of American diplomacy.

A special to The Herald from London gives the following as embodying the views of the British Government at the present moment with regard to the situation in Venezuela. The English Government is of the opinion that in the matters under consideration it would have been usual to make previous unofficial overtures to ascertain the British Government's view upon the situation before any proposals of any kind were officially formulated or presented.

Instead of this the unusual course was adopted by Mr. Olney—whose ability, however, is ungrudgingly admitted—of delivering a long lecture to the British Government, although he necessarily was at the time without full knowledge of the English case, being only in possession of the Venezuelan side of the question.

Such a "bolt from the blue," could only evoke a logical and argumentative reply, which, although extremely courteous in tone, naturally embodied the opposite English views.

It is frankly recognized that the United States Government, having once started on the unusual course indicated, will find it extremely difficult to remodel its attitude; now that the details have been made public, and bearing in mind the elements the Washington Government has to consider.

There is, however, a strong official conviction that when the matter is fully considered by the American public, and when the present burst of excitement has somewhat filtered down, the nation will realize that the true interests of the American people are scarcely affected at all.

If America wants to quarrel with England, it is contended, she surely would find a better excuse. Finally, if America seriously intends to give so elastic an interpretation of the Monroe doctrine, she must be prepared to accept the responsibility for the orderly conduct of the various independent South American states, who endeavor from time to time to shield themselves behind her mighty influence. Hence, the English Government takes a calm and dispassionate view of the situation.

It may be said that the publication of the correspondence that has passed between Lord Salisbury and the United States Government was decided upon quite suddenly and unexpectedly at a certain hour on Tuesday.

Lord Salisbury Lectured.

London, Dec. 19.—The Westminster Gazette, continuing the discussion of the Venezuela controversy in the light of the connection of the United States therewith, says: "Lord Salisbury made a mistake in going beyond necessity in the case and arguing against the merits of the Monroe doctrine as being obsolete. He ought to have confined himself to showing that it did not apply to the present case."

The Manchester Guardian claims to have knowledge that the Foreign Office will placidly proceed without regard to President Cleveland's message, and the demand for indemnity for the arrest of members of the British Colonial police will be steadily pressed upon Venezuela, and if necessary enforced by the admiralty commanding the West Indies, concerning the territory extending to the Schomburk line, The Guardian says, will also be held against Venezuela or any other power; while the matter of possession of the territory beyond that line will be submitted to arbitration if that can be agreed upon with Venezuela: otherwise, it too, will be occupied in the course of time.

The Pall Mall Gazette to-day assumes a patronizing tone. "We are not infuriate," it says, "nor are we excited, but we are partly astonished, partly amused and also somewhat embarrassed, as when somebody else has committed a bad breach of decorum in public. We know it is not our fault, yet we feel awkward and are disposed to blush."

The Globe says: "Whether election exigencies lie behind the message of President Cleveland or not, it does not matter. A much more serious matter is the fact that the chief magistrate of the United States has distinctly pledged himself that if England refuses to abide by the award of the commission, he will resort to warlike measures to enforce obedience to his will."

Says There'll be No War

London, Dec. 19.—Rev. Joseph Parker in the course of a sermon in the City Temple to-day told his hearers that there would be no war between England and America. The Christians of these countries, he said, would keep the peace of the world.

AT ALL HAZARDS

President Crespo of Venezuela Says He Will Protect His Interests.

New York, Dec. 19.—The Herald's special from Caraccas, Venezuela, says: President Crespo was interviewed yesterday upon Mr. Cleveland's message, transmitted to the United States Congress with the Anglo-Venezuelan correspondence. Crespo said he was preparing a personal letter of thanks to President Cleveland. He added: "The attitude of Venezuela and of her executive head upon the boundary question in Guiana will always be one of self-protection. The Republic will uphold rights that properly may be regarded as hers at all hazards."

"President Cleveland and myself were both as one in losing and regaining power, and certainly it seems as if we were one in destiny and in action."

Chili is With Britain

The Herald's Valparaiso, Chili, despatch says: Chili, which is thoroughly conservative in its policy as a Republic, is greatly inclined to hold the views of Great Britain on the Venezuelan question. It is thought that the British Government has nothing to fear as to the outcome of the dispute. Repeatedly is this opinion expressed.

Leading men in all circles here sharply criticise the interpretation put upon the Monroe doctrine by the United States.

The Herald's special from Panama, says: The press and people of Columbia unite in sustaining the attitude of President Cleveland on the Anglo-Venezuelan question.

The general opinion here is that, in the event that England should attempt further aggressions, her acts would be resented by all the Latin American Republics, who would be prepared to resist to the utmost and while a man remained to fight. All, also, rely upon the United States to aid them by the rigid enforcement of the Monroe doctrine.

CONTINENTAL FEELING.

M. Hanotaux Thinks Salisbury is Able to Handle the Case.

London, Dec. 19.—A despatch from Paris to a news agency gives a report of an interview with M. Hanotaux, who was Minister of Foreign Affairs in the Cabinet of Premier Dupuy, and retained that portfolio in the succeeding Ministry formed by M. Ribot. M. Hanotaux, when asked to give his views upon the tension between the United States and Great Britain over the latter's claim in Venezuela, said that no serious French politician would venture to express an opinion in a case upon which two powers friendly to France were at variance. He had, he said, the most implicit confidence that Lord Salisbury's judgment, firmness and fairness would secure a satisfactory solution of the difficulty without a resort to force. M. Hanotaux declined to discuss the Monroe doctrine. Each case, he said, ought to be judged on its merits. If the boundary dispute between France and Brazil became acute it ought to be submitted to arbitration. In the small dispute between France and Venezuela, which was not a territorial question, the United States sought to interfere. He (Hanotaux) resisted such interference and simply demanded that France be left to settle the matter without the intervention of a third party.

Saw It Long Ago

Liverpool, Dec. 19.—The Liverpool Post says that when Secretary Olney's letter in regard to Great Britain's position in Venezuela reached Lord Salisbury last August, the Premier saw the gravity of the situation. His first idea was to obtain the withdrawal of the letter by the American Secretary, but he did not make a formal request for its withdrawal, finding that it would be fruitless.

"God Forbid That There Should be War."

London, Dec. 19.—General Lord Wolseley, Commander-in-Chief of the British forces, in the course of an address to the inmates of the Soldiers' Home at Norwich to-day, mentioned the difference between the United States and Great Britain over the Venezuela question, and exclaimed: "God forbid that there should be war."

DUTTON ARSON CASE.

Mrs. Cascaden Gives Pointed Evidence Against George Urlin

Dutton, Ont., Dec. 19.—On court resuming, W. P. Taylor was cross-examined by Mr. McDougall. He said that he had been accused once of setting fire to Dr. Samson's barn in Blenheim, but he was only 8 years old at the time. He never heard that he was accused of setting fire to the Urlin store or to any other building in Dutton. He was positive he heard the Cascadden women accuse George Urlin of burning the building on the night of the fire, and that George didn't deny it.

Mr. McDougall asked the witness if he was ever a witness before or had given evidence, and the witness answered, never. He knew the nature of an oath, and knew he was to tell the truth. When asked if he was an atheist he refused to answer as he didn't understand what the question meant. He said to Squire Hunt that he believed in a God and he had regard for the sanctity of an oath. He believed in future rewards and punishments.

His examination, in chief, was not materially affected by the severe cross-examination, as the main points in his evidence were whether George ran by the store before unlocking the door, as George said he had; and if the Cascaden women accused George of being the cause of the fire on the night of the fire, to which George made no reply.

George D. Ruthven was recalled, and said he remembered A. D. Urlin saying at the inquest that he had the two insurance policies at his house and went to get them, but came back saying that he had since the fire given Escott of London one of the policies and D. M. Tait the other.

J. C. Hertel was called, and showed that the amount in the statement made by Mr. Urlin of stock on hand to the insurance companies, contained clothing that he had made for A. D. Urlin and his family. The very suit of clothes that George Urlin had on his back was included in the stock sheet; that was made out to the insurance.

Mrs. Dr. Cascaden was next called. Her evidence was the most pointed and startling that was given during the whole trial. She said that she, with her daughter, was sitting in their library upstairs. They were sitting at the window facing Urlin's store and she saw some person manipulating with a lamp, by waving the hand quickly over the top of the lamp chimney, until the blaze came out at the top of the lamp chimney. Then, that lamp was carried back to the wareroom, and after a little a light appeared upstairs and a dim light still remained in the wareroom. The dim light remained in the wareroom until the fire alarm was sounded. The wareroom was the first place to be on fire. After the light disappeared from upstairs it reappeared in the front store and George was seen to come out of the store and walk to the south side of Shakleton-street, opposite to the store. Then George went back and the front store at once became dark and the small, dim light still continued to be seen under and between the wareroom doors. In about 10 minutes after the front store became dark the cry of fire was heard and the light in the wareroom window presented a lurid red appearance. On George coming over to their house with the book she said to him: "George, this has been a dreadful night's work, and we know who did it; we watched you and we saw it all. George, you burned the building." To which George made no reply, but walked away.

Cross-examination by Mr. Meredith for a great length failed to make her deviate from her first statement. She said she told the whole crowd who could hear her, that she and her daughter saw from the library window the whole performance with the lamp and that she accused George Urlin of having burned the building. She told A. D. Urlin on the night of the fire that she knew who did it, and she also told him that she knew who did the firing. To which he made no reply, but walked away. She said there was no bad feeling between them and the Urlins, and so far as she knew there was none between her husband, Dr. Cascaden and A. D. Urlin. On the night of the fire she was under the impression that A. D. Urlin was in the store, and when she said to George: "You did it," she meant some of the Urlins did it. She didn't at that time think the young boy George did it alone.

FRIDAY, DECEMBER 20, 1895.

MR. WALLACE AND THE ORANGE PLACE-HUNTERS.

HON. CLARKE WALLACE has shaken the Cabinet dust off his feet and it appears, besides, that he has also "shaken" an importunate friend in Peterborough, whose correspondence with Hon. Mr. Wallace, when the latter's importunate friend was in search of an official assignee-ship, was so voluminous as to almost demand a special mail bag. Speaking at the annual banquet of the Orangemen of Northwest Toronto district, Hon. Mr. Wallace, in referring to his attitude and relation to the Government and the Manitoba school question, said, as reported by the Mail:—

"He had noticed that an Orange Lodge in Peterborough was recently reported to have passed a resolution in support of the course of the Government, but the fact was that there were only five persons present, four of whom had been office seekers, and the inspirer of the resolutions had been after a county judgeship. (Laughter.)"

Hon. Mr. Wallace may be a little out in his details, in the light of recent letters, but he has caught the essence of the situation. The "inspirer" may not be after a county judgeship, but would doubtless be contented with something not quite so heavy—with a lucrative attachment. Hon. Mr. Wallace would not betray his Orange principles for $5,000, but it seems the "inspirer" would play that role for a considerably lighter figure. Continuing his address after his reference to the "inspirer," Hon. Mr. Wallace said that:

"He had not severed his connection with the Government until the last hope had failed, and had regretted it on account of the associations which he had formed at Ottawa, but he had acted as he had, not only in the interest of the Orange order, but, as he believed, also in the interest of the people of the country as a whole."

The "inspirer" and his confederates in the now notorious resolution of congratulation, have not reached the heroic pitch of the late minister. Their "last hope" has evidently not failed and they will continue to sacrifice their Orange principles for the benefit of their pockets and their party. When Mr. Wallace was the dispenser of pap and patronage in the Government he had at least three or four warm admirers in Peterborough, but he cannot, it appears, influence them to follow his example of sacrificing emoluments for the sake of the principles of the Orange order. The portion of the "open Bible" they evidently admire most is the parable of "the loaves and fishes. The proverb says: "Put a beggar on horseback and he will ride to the——." "Place some men on King William's white horses and they will guide him in the wake of the Government procession "every time."

NOTE THE CONTRAST.

The interest on the public debt was responsible for an expenditure of $7,048,883 in 1878, and $9,906,888 in 1893.

The charges on the debt were $189,566 in 1878, and $212,690 in 1893.

On legislation $618,035 were expended in 1878, and $867,221 in 1893.

Mail and steamship subsidies amounted to $257,534 in 1878, and $413,936 in 1893.

The expenditure on militia and defence has risen from $618,136 in 1878 to $1,419,745 in 1893.

The Mounted Police service in 1878 cost $334,748, and in 1895 $615,479.

The Northwest government cost $18,199 in 1878, and in 1893 $276,446.

The expenditure on penitentiaries was $308,101 in 1878, and $346,353 in 1893.

In 1878 the public works expenditure was $997,469, and in 1895 $1,927,832.

Superannuation expenditure was $106,-568 in 1878, and $263,710 in 1893.

The cost of customs administration has grown from $714,527 in 1878 to $901,946 in 1893.

The excise expenditure in 1878 was $215,-024, and in 1893 $387,673.

The postoffice cost $1,724,038 in 1878, and $3,421,203 in 1891.

Public works expenditure (departmental) was $97,123 in 1878, and in 1893, $149,390.

The outlay on railways and canals has risen from $2,375,438 in 1878 to $4,096,041 in 1893.

"Miscellaneous" expenditures were responsible in 1878 for $62,968, and in 1893 for $284,678.

The total expenditure was $23,509,156 in 1878, and $36,814,052 in 1893.—Globe.

IT is said that one of the now notorious Orange resolutionists—not the inspirer—is after the office of inspector of hides for the county, for which office, his friends think, the thickness of his skin eminently qualifies him.

THE Globe's remarks that the President's message will afford a gleam of hope to the gentlemen who were disappointed that the Corbett-Fitzsimmons fight did not come off, is a striking indication of its estimate of the gravity of the Venezuelan embroglio.

MR. H. CORBY, Dominion representative for West Hastings has placed his resignation in the hands of the West Hastings Conservative Association. Mr. Corby is now absent with his family in search of health. The personal reasons that induced Mr. Corby to resign are a matter of regret which will be shared by his friends in Peterborough, who will wish him a speedy restoration to health.

A Most Remarkable Recovery from Rheumatism.

Dismisses Two Chicago Doctors and Recovers after Partial Paralysis.

St. Thomas, Dec. 20.—(Special).—Mr. John H. Mellar of Belmont, well known here, had a peculiar experience in Chicago. Suffering from an inflammatory form of rheumatism he had lost the power of his hands, wrists and arms. He dismissed the second physician and turned for help to a Canadian medicine—Dodd's Kidney Pills. He says:

"The prompt relief from the first few doses convinced me I was on the road to recovery, and I kept on until I had used two boxes.

"That was all I needed, and they were cheap at $25 per box.

"I had been confined to my bed for many weeks and suffered miseries indescribable."

Rheumatism is the result of uric acid in the blood and there is only one cure and that is by kidney treatment with Dodd's Kidney Pills.

They are sold by all druggists and dealers at 50 cents a box, or my mail from the proprietors, The Dodds Medicine Co., Toronto.

OTONABEE.

The Late Mrs. Peter Gillespie.

Mrs. Peter Gillespie, of Otonabee, sister of Mr. Robert Borland, Otonabee, and Mr. William Borland, town, passed away to her rest on November 14th. The deceased lady was a native of Ayreshire, Scotland. She came with her family to Canada in 1850 and settled in Otonabee. About forty years ago she was united in marriage to Mr. Peter Gillespie. To this union there were born three children, the eldest having died several years ago, and the two others, daughters, the Misses Gillespie, live at the family residence. Her husband died several years ago. Mrs. Gillespie was a member of the congregation of the Presbyterian church, Keene, and was very warmly devoted to the interests of the church of her choice. She was very greatly respected in the community, and her surviving daughters, who mourn the loss of a most affectionate mother, have the sympathy of the community in their bereavement.

William Henry Ott, alias "Mustang Bill," says that he used Ayer's Hair Vigour for nearly five years, and owes to it his splendid hair, of which he is justly proud. Mr. Ott has ridden the plains for twenty-five years, and is well known in Wyoming and the Northwest.

LAURIER AND ROSS.

Grand Liberal Rally in Montreal Centre.

FREE TRADE AS IN ENGLAND

Remarks as to the Prosperity of the City in Connection With the N P.—Liberal and Conservative Meetings Held in Cardwell Yesterday.

Montreal, Dec. 19.—The Liberals of Montreal Centre held a mas meeting to-night in the roller skating rink in St. Maurice-street in the interests of Hon. James McShane. There were about 3000 people present. No seats were provided and the audience were compelled to stand. This they did until the finish, and although the meeting lasted until 10.30 few or none left the hall. All the speakers were enthusiastically cheered, and Mr. Laurier met with a perfect ovation.

Hon. James McShane, the Liberal candidate, was the first speaker. He received a most hearty welcome. He declared that he would be a faithful follower of Mr. Laurier if elected. The noble ward of St. Anne's had always been solid for James McShane,and he was sure it would be so again. (Applause.)

After a short speech by Mr.. W. C. Edwards, M.P., Hon. G. W. Ross,Minister of Education in Ontario, was introduced, and was received with applause. He first put himself at home with his audience by recalling the names of some of the celebrated men of Quebec which were household words in the Province of Ontario. He came with a message from the Liberals of Ontario, that they were at one with the Liberals of Quebec in the effort to place the Liberal standard on the citadel at Ottawa on the first opportunity. Having paid a tribute to Mr. Laurier, who had the undivided confidence of every Liberal, he repeated that he brought a message from the Liberals of Ontario. The message he brought was "Wilfrid Laurier, the next Premier." (Applause.) "Well," said Mr. Ross, "if you like that message, elect Mr. Laurier's candidate in Montreal Centre." (Hear, hear.) He then showed that the debt of Canada had increased from $75,000,000 in 1867 to $252,000,000 to-day. Of course some of this, say, $100,000,000, was due to national obligations, such as the Intercolonial and the C.P.R. Are we strong enough to bear the ever-increasing debt? Last year there was a deficit of $4,000,000, and the Government borrowed $6,000,000. Is it reasonable for such an extravagant Government to come down here and ask you to elect a man to support them in continuing their evil ways? The interest on the debt amounted to $1000 per hour. In 1867 the expenditure was $13,000,000. In 1878, under the Mackenzie Government, the expenditure was $23,000,000, or $5 per head. Now it is $38,000,000, or $8 per head, and is still increasing. Mr. Ross then turned his attention to the expression "Free trade as they have it in England," which the Tories were twisting into a reflection on Mr. Laurier. He examined the process by which free trade had been reached in England. John Bull in 1842 set about adjusting trade in a sensible, reasonable, practicable way. That was the way the Liberals proposed. In 1842 the duty was lowered on 750 articles. In 1844 the duty was abolished on wool, the raw material of manufacturers. In 1845 the duty was abolished on 430 articles. This was a gradual approach to free trade. In 1846 the Corn Laws were repealed. In 1853 the duty was repealed on 123 articles. In 1860 the duty was abolished on butter, cheese, tallow and oranges. In 1861 the duty on paper was abolished, and in 1866 that on timber was also abolished. In 1870 the duty on sugar was lowered. In 1873 it was lowered again, and later on it was abolished altogether. In 1880, only a few years ago, the duty on malt was abolished. That is free trade as they have it in England, and that is Mr. Laurier's way of attaining it. Liberals propose to follow England in the same reasonable way. Raw material should be free. Let us approach as they did in England. If we understood the question, a little lower tariff must be approached by regular, statesmanlike gradation. There will be no leap in the dark. Free trade as they have it in England he preferred to protection as they have it in the United States. Now, what has free trade done for England? In 1850 the trade of England amounted to £172,000,000. Now it was £683,000,000. In Canada the exports last year were $1,000,000 less than in the year before. The tonnage of England is now equal to that of all the other countries put together. In the last year of the Mackenzie Government 1,364,000 tons of shipping were built in Canada. Last year only 964,000 tons were built. The workingmen of England are as comfortable as they are elsewhere, the Government is as stable, the institutions are as well managed. We, looking forward 20 or 30 years, need not fear to imitate free trade as they have it in England.

Mr. Laurier was received with ringing cheers, which were again and agan repeated. In the course of his speech he said: "The admirable speech of my friend, Mr. Ross, relieves me from addressing you at such length as I otherwise would feel it my duty to do. I am proud, as a Liberal, that the people of Montreal have had an opportunity of seeing for themselves of what stuff the Liberals of Ontario are made. (Cheers.) I am proud that the people of Montreal have had an opportunity of hearing a colleague of that grand old man, Sir Oliver Mowat—a man who has given to the Province of Ontario the best Government to be found on the face of the earth to-day. It is because we have not so good a Government at Ottawa to-day that we have an election in Montreal Centre. We have two candidates befor[illegible], Sir William Hingston and Mr. McShane. I would not say a word of Sir William Hingston except to speak of him in the most respectful manner. I am proud to say, and let my words be heard throughout the length and breadth of this population, that he is indeed a very good man,but he has got into very bad company. (Laughter.) Of my friend, Mr. McShane, what shall I say? You, who are his fellow-citizens, know him better than I know him. I do not live in the city of Montreal, but I know that there is not a man in Canada who is not familiar with the name of the people's Jimmy. (Cheers.) I do not know him as you know him, but I am told that his name, Jimmy McShane, is a household word in every cottage of the poor in the city of Montreal. (Loud cheers.) His energy, his pluck and his courage are indomitable, and in this activity there is a sound of victory which already rings the death knell of the Tory Government a tOttawa. (Loud cheers.) It is not, however, the personality of the candidates wth which we are concerned. The policy of the Government at Ottawa is the question before the people, and the people have to resolve whether the present regime shall continue or whether a change must take place for the good of the country. That is the issue. (cheers.)

Mr. Laurier then went on to discuss trade matters and the Manitoba school question, treating both in his usual forcible way, and taking the lines heretofore followed In concluding he predicted the triumph of the Liberal policy when the elections came on.

UP IN CARDWELL.

A Most Successful Meeting Addressed by Sir Richard Cartwright.

Belfountain, Dec 19.—The vigorous campaign which has been prosecuted in the interests of the candidature of Warden R. B. Henry gives abundant promise of maintaining on election day the Liberal cause, whose worthy representative in this contest,Mr. Henry, has been duly advocating from the platform, and the declarations of sound principle which have been made by Sir Richard Cartwright and other speakers have been received with every evidence of popular approbation. Enthusiastic rallies have been held all through the riding and the educational work will be continued right up to election day. Besides this a vigorous canvass is being conducted and all honable means are being pursued to the end that the palm of victory may be awarded by the people to Mr. Henry on election day. Another was added to the list of successful campaign meetings to-night. It was in the village of Belfountain, situated in the most picturesque part of Caledon, that the people met.

The principal speaker of the evening was Sir Richard Cartwright, who drove over with Mr. Henry from Inglewood, where, in the afternoon, they addressed a large and enthusiastic audience. The chairman was ex-Deputy Reeve James Davidson of Cheltenham.

Sir Richard Cartwright spoke with his customary force on the topics of the day, being specially clear on the school question.

For the last couple of days the street crossings have been in a most disgraceful state, owing to the great accumulation of mud on the streets. At eleven o'clock this morning two old men started to clean them off.

Grossly Abusive Language.

Mr. James Fegg, the local C.P.R. baggagemaster, charged John McFarlane, a teamster, with using grossly abusive language to him, in the Police Court this morning. McFarlane was fined $2.00 and $3.35 costs.

Death of Mrs. (Dr.) Harvey.

Intelligence has been received here of the death to-day at Oak Lake, Man., of Mrs. Harvey, widow of the late Dr. Alex. Harvey, late of Peterborough. The remains will be sent to Peterborough for interment. Date of funeral announced to-morrow.

West Riding License Commissioners.

The West Riding License Commissioners met here to-day and considered the application of Frank Graham, to have transferred to him the license now held by Noble Ingram, for the Tremont House, Lakefield. The application was not entertained.

Holly.

THE EXAMINER has to thank Mr. Harry Long for a beautiful reminder of the Christmas tide, for a spring of genuine English holly, imported by him. Its tough spinous, glossy leaves sheltering little clusters of crimson berries of waxen smoothness and hardness, are full of suggestiveness of the poetical sentiment of the holiday season.

Interesting Entertainment.

An interesting musical and literary entertainment will be held in the Murray Street Baptist Church on Friday evening, Dec. 20th, at 8 o'clock. One of the principal features on the programme is a doll drill by a number of clever little children. No admission will be charged, but an opportunity will be afforded of making a free-will offering on behalf of home missions.

How About the 25th?

The fun goes merrily on at holiday headquarters—The Peterborough Bookstore. Almost nobody considers their Christmas shopping done without a visit to this store But there is no time to spare now. That's why we ask you to shop now and shop early. The money that you have "salting away" for Christmas should be unsalted now, and put to use before the uncomfortable rush comes.—A. H. STRATTON & Co.

A Belleville Citizen Gets "Jagged."

John Gorman, of Belleville, has been up in Peterborough on a tear for the last couple of days and as his "wad" was a big one he was able to paint the town in the most approved fashion. He also led Frank Laronde from the narrow path and got him intoxicated. This morning in the the Police Court he paid a fine of $2 and also very generously handed over a like amount for Laronde, who was also fined. Gorman still had $45 when he left the Court.

THE CHILDREN'S MISSION GUILD.

The St. John's South Ward Mission the Scene of a Pleasing Entertainment.

A unique and very pleasant entertainment was held in St. John's South Ward Mission, last evening, when "a pink and white social" was given under the auspices of the Children's Mission Guild, composed of twenty-two busy little workers in church interests.

The entertainment derived its name from the fact that the decorations were all in pink and white. The refreshment tables were overhung by canopies of these two colours, which harmonize so prettily, and the table decorations were also composed of articles of these shades.

Rev. Carl Smith presided and the following interesting programme was most excellently rendered :—

Cake and tea was served and the presence of a number of charming young ladies assisted in making the evening a great success.

THE SECOND EVENING AT THE BAZAAR.

was Even More of a Success than the Opening Night.

The second night of the bazaar in aid of St. Joseph's Hospital was even a greater success than the opening night. The crowd was so dense that many found it impossible to get near the tables. A great deal of fancy work has been disposed of, but there is plenty of the most exquisite designs still left for the purchasers this evening and to-morrow evening.

The programme during the evening was furnished by a number of the young ladies and gentlemen of St. John's church, and consisted of the tableaux, which were presented on the evening of Dec. 3rd for the Poor Fund.

Those who participated were :

HINTS FOR SANTA CLAUS.

Gough Bros., the Wonderful Cheap Men.

What are you going to give your husband for a Christmas present? What are you going to give your boy for a Christmas present? For your husband what would be nicer than a nice overcoat, ulster, dress suit or fancy vest? For your boy what would be nicer than a suit of clothes or a new pair of boots, an overcoat or collars, cuffs, ties, etc.? At Gough Bros'. large establishment these useful presents can be purchased. These goods are of the best quality and manufacture and are sold at a price which would astonish you. Gough Bros. carry a large stock of boots, shoes, slippers, rubbers, overshoes, felt goods, hats, caps, gloves and mitts, and from their large assortment a suitable gift can be chosen. Presents should be of a practical nature and at this store such goods can be had. For instance, a nice pair of kid gloves are always acceptable. A dozen silk or linen handkerchiefs or a box of collars, of which a large assortment is kept, would make a nice and useful Christmas present. Twenty years' experience in the the gents' furnishing trade has taught Gough Bros. the value of a good display and their two handsome stores are filled to overflowing with fine goods in their line. Parents wishing presents for their sons, young ladies who desire to please—well, say their brothers, can do no better than visit this store ; they are sure to find what they want. A special line of neckwear, gloves, silk handkerchiefs and neck scarfs has been placed in stock for the holiday trade.

Young Women's Association.

Class in writing this evening beginning at eight o'clock. Annual Association meeting next month. Watch for particulars.

Singers, public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find, in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. A timely dose of this preparation has prevented many a throat trouble.

Accident on the T.V.C.

A painful and probably fatal accident took place on the T.V.C. works Wednesday at Kirkfield. One of the guy stays of the boom broke, allowing the boom to violently strike a workman, named James Steen. Steen's leg was broken in two places and he received other severe injuries. Little hopes are entertained of his recovery. The injured man is from Nova Scotia.

Purely Vegetable.

First the bud, then the blossom, then the fruit. These are several stages of some of the first important ingredients composing the painless and sure corn cure—Putnam's Painless Corn Extractor. The juices of plants greatly concentrated and purified, gums and balsams in harmonious union, all combined give the grand results. Putnam's Extractor makes no sore spot, does not lay a man up for a week, but goes on quietly doing its work until a perfect cure results. Beware of acid substitutes.

Cut Clean in Two.

Christmas business is rushing, but we are going to have a greater rush still as announced by me yesterday. I shall hold on Friday and Saturday the greatest cigar sale ever known in Peterborough. I have lately imported 22,000 cigars direct from Havana, and you can get them at prices that will paralyse you. Look at our list on first page, second column. Don't forget me, Alive LeGros, 339 George street.

The Night after Christmas.

Max O'Rell, the great humourist, whom everybody who has laughed over his books has longed to see, will stop over in Peterborough the night after Christmas, Thursday evening, December 26th. The people of Peterborough will then be given the privilege of seeing and hearing this fascinating entertainer in a programme of his own coining. Max. O'Rell, who is one of the few eminent homourists who are a success on the platform, has been designated "the Wittiest of Frenchmen." His theme for the evening of the 26th will be, "Her Royal Highness, Woman." For two hours he will hold his audience spellbound, and the audience is most likely to be one of the largest that ever was packed into Bradburn's opera house. 21

THE KINDERGARTEN CLOSING EXERCISES.

SUCCESSFUL EXPOSITION OF KINDERGARTEN METHODS.

Interesting Afternoon in the New South Ward Buildings—Highly Interested Audience Present—Sketch of the Programme Presented—Value of Kindergarten Teaching.

By the large number present at the closing exercises of the South Ward Kindergarten, yesterday afternoon, it is evident that this special department of the educational system of Peterborough is beginning to be appreciated at its true value and is awakening a great interest in the hearts and minds of the parents.

The new apartments in the South Ward School were occupied for the first time yesterday, and it was well that the large rooms were taken, as the basement of the St. John's Mission, which has been used all along, would never have been of sufficient size to accommodate one-tenth of the spectators who assembled, and of whom many only caught

A PASSING GLIMPSE OF

the interesting exercises at times although every preparation possible was made to accommodate a large crowd the attendance so exceeded all expectations that more than half of those present were forced to stand.

To the casual visitor at the Kindergarten the games appears of no educational value whatever, but on closer examination it is found that they aid materially in the development of the physical, intellectual and spiritual powers of the child. The social side of the little one is broadened and habits of order, helpfulness and accuracy are inculcated. Even the most carless observer, yesterday, must acknowledge that the games develop courtesy, sympathy, observation and imagination. Lastly they all bear upon the child's relationship to God, to nature and to his fellowman.

The games are classified apparently under four heads—Physical, Sense, Nature and Representative. Under the first come games of running, marching and dancing ; from these the muscles and limbs are strengthened. In the second are all games that develop the senses. Under the third head are classed the games in which objects of nature are imitated both animate and inanimate. In the fourth are included a number of trade games, such as the cobbler, the weaver, etc., and a very few moments' observation of the exercises is the

BEST PROOF POSSIBLE

that through them can be laid the foundation of a grand educational equipment.

Miss Davidson, the painstaking instructress, has two assistants—Miss Gillespie and Miss Bacon, and as yesterday afternoon was a special occasion Miss Lottie Smith was also present to assist at the piano, for music is one of the principal influences used to sway the children.

The exercises were opened by a sweet little song prayer, sung to a simple old refrain, and during the singing of it every innocent little eye was reverently upraised. Then came a song of greeting to the the visitors which was followed by a number of pleasing ditties appropriate to the different seasons of the year as follows :

Summer.....The Daisies"
September.....Bobolink" and "Brown Birch"
October....."Little Jack Frost" and "October Party"
November....."The Weaver" and "Jack Frost"
December....."Old Winter" and "The Air is Filled, etc"
Christmas..."Merry Bells" "Jolly Old Fellow," Carols.

The little ones then settled down to their "studies." The small wee tots folded bright coloured papers into different designs and

READILY DISTINGUISHED

between the different shades. The next grade were busy with blocks of different shapes and sizes and were thus receiving their first lesson in mathematics. The third grade pupils were engaged in weaving and the dexterity with which they intertwined the various patterns was wonderful.

After spending some time at their exercises a march is struck up on the piano and all the little ones rise and file out into one of the other rooms whilst the tables and chairs are hastily removed. Then they come back, a leader is chosen, and a lesson in marching is given. This exercise strengthens the limbs, also developing ideas of order, time and rythm. Afterwards follow a number of different games and as each little one steps out to participate, in response to a call from a leader, most elaborate courtseys are interchanged. All the games strengthen the child ; physically, through the motions, his voice through the song and his ear by the music which accompanies the march. The social side is enlarged by their intercourse with one another. Observation and sympathy are developed,

THROUGH STUDYING LIFE

and the imagination by reproducing what he sees around him. All have to be polite and helpful to each other at all times.

Mr. W. B. Bamford, being present, was asked to assist in stripping a large Christmas tree which was laden with the work of the little ones, and had been brilliantly illuminated with electricity by Mr. E. Rutherford for the occasion. As the different names were called out, it was most pleasing to see the wee tots walk sedately over and receive the gift, and then in turn present it to a parent or friend. Another lesson is taught in this, viz.: the unselfishness and the pleasure of giving.

After all the presents had been given away the children gathered in a ring and sang their good bye song, and God Save the Queen, thus concluding the closing exercises.

The majority of those present were ladies, of course, and many of them had brought with them their little lisping babies—wee tots, just able to walk, and it was amusing to witness the interest which these latter took in the various exercises, watching every movement with eyes big with suppressed wonder and pleasure, and it is safe to predict that the next term will find many of them occupying seats in the Kindergarten class.

In leaving there were few indeed who could not in their hearts feel that "Deep meaning oft lies hid in children's play."

Who Was She.

The Lindsay Post says: An aged woman arrived in town Tuesday from Peterborough and made application for admission to the new home for the aged. A careful investigation of the case was made, but as the old lady was not a resident of this county admission was very properly refused, and she was compelled to return to the cheeky town from whence she came.

About Leap Years.

The 29th of next February, it is not generally known, will be the only 29th of February till 1904, since the year 1900, which most people are looking forward to as a leap year, will really be an ordinary year. For the solar or actual year consists of 365 days, 5 hours, 48 minutes and 50 seconds, or 11 minutes, 10 seconds less than the 365¼ days with which the calendar by intercalculating a 29th of February every four years, credits; and so in the course of a century the calendar goes wrong by 15 hours, 36 minutes and 40 seconds. Accordingly at the end of the century, in order to get tolerably right again, the calendar, three times in four centuries, drops a 28th of February and makes a leap year. It thus, instead of going wrong almost a day every century, goes wrong about a day every 5,000 years.

Maltine With Cod Liver Oil and Hypophosphites for Throat and Lung Diseases.

Perfectly well established is the value of cod liver oil in all various diseases of the air passages, and combined with Maltine and hypophosphites, its remedial value is vastly enhanced. In the elegant and palatable preparation, Maltine with Cod Liver Oil, are combined the valuable tissue building oil, and that sustainer of vitality and digestive, maltine. No emulsion can compare in remedial value with this preparation, for in addition to disguising the unpleasant taste of the oil and rendering it more easily digested, the maltine plays a most important part in maintaining adequately the process of nutrition so essential in wasting and pulmonary diseases. This it does by rendering the starchy foods in a form which assures its assimilation, with the result that emaciation gives way speedily to plumpness, the irritated bronchial tubes are soothed, rest grows natural and health becomes an assured fact. Maltine with Cod Liver Oil and Hypophosphites is a food medicine and digestive.

YEIGH'S PICTURE LECTURE ON CANADA.

A Coming Foresters' Entertainment.

Early in the year Courts Peterborough and Langton, Canadian Order of Foresters, held their annual concert, and the large number who enjoyed that really first-class entertainment will be pleased to learn that these Courts have decided upon holding a series of entertainments during the season. The first one was held in the Foresters' Hall on Friday evening last. And a more pretentious entertainment will be held in the opera house on Friday evening, Jan. 17th. The committee of management has engaged Mr. Frank Yeigh, of Toronto, to present the bulk of the programme on that occasion, consisting of one of his interesting musical picture lectures. He has half a dozen subjects of this kind; on "Canada," "Italy," "Norway," "Napoleon," "London," and "Rome." The committee has selected "Canada" for their entertainment of Jan. 17th. This lecture will be of the most absorbing interest. Mr. Yeigh's descriptive sketch of the history of Canada will begin with the landing of the French, and continue up to the present. He is a brilliant speaker, with a happy facility of word painting, and has made his mark as a literary contributor of high class descriptive articles to magazines, etc. His remarks will be illustrated by a hundred magnificent stereopticon views, presenting the splendid scenic features of the Dominion, her principal men, monuments and national buildings. The evening will be further brightened at intervals by a large chorus of school girls in charge of Sergt. Major Rundle, singing Canadian patriotic songs. As the lecture, besides being intensely interesting and entertaining, will be highly educative, it is proposed to give facilities for the attendance of school children, and to ask the Board of Education to allow the entertainment to be presented under its patronage. Besides, the entertainment will tend to give further development of a Canadian national sentiment, and the committee of Foresters is to be commended for selecting "Canada" from Mr. Yeigh's repertoire of lectures. The Canadian Order of Foresters was the first exclusively Canadian beneficial society to be instituted in this country, and is now the leading, if not the only, exclusively Canadian order of that character. Further details will from time to time be given of Mr. Frank Yeigh's extremely interesting musical picture lecture on "Canada" to be given in the opera house on Friday evening, January 17th, 1896.

CITY LODGE GOOD TEMPLARS.

A Successful Pie Social—Resolution of Condolence

Last evening a pie social was given by the members of City Lodge No. 404 I.O.G.T., in their hall, on George street. The following programme was presented:—

Chorus	Lodge Choir
Recitation (encored)	Edna Neild
Solo	Miss Coombe
Recitation	Nellie Manley
Duet	Misses Kindred
Recitation (encored)	Miss L. Pascoe
Instrumental	Miss F Coveny
Recitation	Edna Neild
Dialogue	Four Girls
Solo	Ethel Strain
Chorus	Lodge Choir

The programme presented was an excellent one. There was some difficulty experienced in finding seating room for the large number present, the hall being crowded to the doors. After the musical part of the programme had been concluded refreshments, chiefly pies and coffee, were enjoyed. An invitation was extended to all to join the lodge. The meeting was brought to a close by the singing of "God Save the Queen."

On Dec. 15th the following resolution of condolence with Dr. John Shaw, Keene, was passed and publication requested:—

Dr. J. M. Shaw.

DEAR SIR—The officers and members of City Lodge, No. 404, I.O.G.T., desire to express their deep sympathy for your sad affliction in the death of your beloved father, the Rev. John Shaw, D.D. To those of us whose privilege it was to be acquainted with him, it was indeed a privilege. His was a friendship, which, having been formed, time alone served to show the value and to bind its consummation. To all he was ever kind, gentle and good, a true temperance worker and a loyal citizen. We mourn a much-beloved friend and brother worker, and you have lost a father; a loving and faithful father has been taken from you. He died at his post like a hero. In such a sorrow we feel how little we can do. Truly, "the heart knows its own bitterness." Yet, we thank God that "we sorrow not even as others, which have no hope, and if we believe that Jesus died and rose again, even so them which sleep with Jesus will God bring with him." Knowing that "the trial of our faith is more precious than gold, which perisheth," and may God, which cannot err, bless and give you grace to bear this heavy burden with true Christian patience and grant that may we all, at last, be found worthy to stand in the presence of the Lamb, who died for us, and there meet with those we loved here below, and may we be able to realize His ways of wisdom, which as present are so hard to understand. Such, dear brother, is our desire and prayer.

Moved on behalf of the Lodge.

Yours truly,
CHARLES HENDRICKS.

A line of pictures very cheap, not much more than half the regular price, and the balance of his stock of window shades in plain, fringed, lace and insertion will be cleared out at cost. Our stock of general furniture is now complete and is one of the largest in Canada; prices lower than ever.—A. CLEGG 427 George street.

RUNAWAY ACCIDENT.

A Young Lady Thrown From Her Buggy Through Her Horse Running Away.

A serious accident occurred last evening at the corner of George and Macdonel streets. Just as a car was approaching the corner, a horse driven by Miss Lillie Edgar took fright, and dashing against a tree, threw the young lady out over the dashboard on to the hard, icy road and dragged her some little distance. The street car men were on hand, with their usual promptness, and no blame is attached to them whatever. By the kindness of Mr. Round she was driven to her home.

Miss Edgar suffers much pain in the side, upon which she fell when thrown from the buggy. The shafts were considerably broken, but otherwise the vehicle escaped injury.

The Pearl of Great Price

To woman is beauty. Beauty the key that unlocks every door, commands deference, inspires homage. But beauty of face cannot satisfy unless the additional grace, beauty of teeth, adds this charm. Fine teeth, sweet breath, rippling laughter—three graces that always go together. Ivorine imparts dazzling pearly like whiteness, removes discoloration and tartar from the teeth, and renders the breath as fragrant as flowers.

A Big Manvers Log.

A very large elm log was drawn into town by Mr. Alfred Wright of Manvers. The dimensions of the log were as follows: Length, 14 feet; diameter at butt, 44 inches; and at top, 40 inches. The log was perfectly sound, and when cut into lumber at Dundas & Flavelle's saw mill yielded a trifle over 8000 feet. This is probably the largest log ever drawn into Lindsay from Manvers, and attracted considerable attention as it passed along the streets.—Lindsay Watchman.

The counsel of older women is of inestimable value. A mistaken idea of modesty prevents many girls from learning the things that they ought to know before they assume the duties of matrimony and maternity. Women generally take these most important steps in their lives, without knowing in any degree what they mean, or what responsibilities and trials they bring. The highest and best thing that any woman can do is to bear and rear healthy, intelligent children. The accomplishment of this end depends almost entirely upon her health and particularly upon the health and strength of the organs distinctly feminine. The state of the children, both intellectual and physical depends on the mother. If she doesn't care enough for her own comfort and happiness to take the proper care of herself, she certainly ought to do it for the sake of her children. To a very large extent, the destiny and achievement of a man is decided in the months before his birth. During that time is determined whether or not he is to be of robust health and strong intellect. During that time, his mind and body are started on the path that they will follow through life. Circumstances may influence him, but he cannot get away from the effects of pre-natal influences. One of the principal uses of Dr. Pierce's Favorite Prescription is the preparation of prospective mothers for the time of trial and danger that comes when a child is born. The "Prescription" is strengthening and invigorating and lessens pain and danger. It insures the perfect well-being and the perfect health of both mother and child. Every woman should know these things before she really needs to know them. There are many things in Dr. Pierce's "Common Sense Medical Adviser," that every woman ought to know. This celebrated work has reached a sale of 680,000 copies at $1.50 each. The expense of production having thus been covered, 500,000 copies are now being given away. A copy will be sent to any address on receipt of thirty-one (31) one-cent stamps to cover customs and postage *only*.

IN CATHOLIC ADJALA.

Sir Frank Smith on Manitoba Schools and Sir. Wallace.

Loretto, Dec. 19.—The journey which Hon. Dr. Montague made from Tottenham to this place this evening must have given him time for reflections upon the cheerful comforts of the car Cumberland, which he had been obliged to leave behind him. The night was dark as "one black cat," and muddy beyond belief. Through seven miles of this darkness, muddiness, hills and hollows, the drive brought him out to the little hamlet in the centre of Catholic Adjala.

The meeting was called in the interests of the Government candidate. Besides the Secretary of State there were present Sir Frank Smith and Mr. Thomas Long of Toronto. Sir Frank, who is under the doctor's care and is out to Adjala almost against his wishes, came out to Tottenham this morning and drove at once out into the township to do missionary work. Dr. Montague and Mr. Long arrived on the evening train from Toronto, and reached Loretto late in the evening.

The feature of this meeting was the speech of Sir Frank Smith. In regard to the school question he praised the fairness of Premier Bowell, who was a Past Grand Orange Master, and he did, so standing here, an Irish Catholic, "because I suggested that he be the Prime Minister, and I am here to back him to the best of my ability." He had served under four Prime Ministers. Three were Orangemen and one a Catholic, and all had acted with a single purpose of serving Canada's interests. Sir Frank spoke of the formation of Confederation and the pledges with regard to education which the Provinces had then made. Now, there was an attempt, he declared, to take away from the minority in Manitoba, to take away what men love most dearly, the right to educate their children. Those who were threatening the Manitoba minority were seeking to bend the little twigs so that the trees should grow to their own views. "Why," Sir Frank asked, addressing imaginary Protestants, "should you trample upon the souls and hearts of those people?" But he did not believe the rights of the minority would be sacrificed.

This he would promise, that if Frank Smith were alive they would not be sacrificed without the Parliament buildings being made to ring with his voice raised in protest. For himself he had the kindest feeling toward his Protestant friends. In his opinion the question of religion was summed up in saying that there was one God, one heaven, and a merciful God was not going to damn men because they did not all worship at one altar. Reverting to the Manitoba schools, he said: "You will support the Government at Ottawa if I know the Canadians right, for it is ready to die politically, and has risked its political life upon the restoration of their rights of the minority."

Coming to Hon. N. Clarke Wallace's resignation, he said: "I have a word to say to a gentleman who I am sorry to say has been badly advised—the late Controller of Customs. I think he has been badly advised; I think he will be sorry for it, and if I had known about it, I would have advised him against it. I am not going to say anything harsh about Mr. Wallace; quite the contrary. He was taken into the Government by a Catholic Prime Minister with five other Catholic Ministers sitting at the Council board. There was not a word of objection. He was placed in that position and held it for three years. Now, gentlemen, when he was placed there he was not told that he could not attend to his duties as Grand Master. No questions nor fault was found except that he sometimes spoke a little unbecomingly. He attended his lodges all over the country, and went to the old country. He carried on the business of his office well, for he is an able man, and I may say, not at all a bad fellow. He was not asked to resign by the Catholics; he was simply badly advised."

Defining what rights he wanted for the Manitoba minority, Sir Frank said they were the same rights or privileges as they possessed in Ontario, or very near it. I would ask that the bill should put the people up there on the same footing as we are in Ontario, and in the Provinces down by the sea. Every schoolmaster should be a qualified man, and the schools should be under restrictions which the Government shall lay down. He wanted this so that money should not be wasted and the children prevented from getting their fair advantages in life.

Catarrh can be successfully treated only by purifying the blood, and the one true blood purifier is Hood's Sarsaparilla.

"GEORGE, YOU DID IT; WE SAW YOU."

The Words Which a Witness Swears He Heard Addressed to George Urlin at Dutton.

Dutton, Ont., Dec 18.—The hearing in the case of the Urlin fire here was continued to-day. The most important testimony was given by Roy Crane, a boy of 14, and Mr. Wm. Taylor. The boy Crane said, prior to the Urlin store being fired, he worked for Mr. Urlin; he worked for him 11 months. He was subponenaed by the Crown and expected to give what evidence he could about the matter at issue. During the noon hour George Urlin came to him and told him not to allow them to pump him; was in the store on the day of the fire; A. D. Urlin, George and William Urlin were in the store the day before the fire. They were all working at the books when they were not waiting on customers. I left the store at about five minutes after 5 o'clock. I saw that all the doors and windows were securely fastened before I left, both upstairs and downstairs, the only door that was not fastened was the front door. Left George alone in the store when I went home for the night. Neither George nor his father has ever since the fire talked to me about the fire, neither of them ever asked me how the doors or windows were left on the night of the fire, and I never spoke to George or his father about the origin of the fire.

Mrs. Sarah Wilkie was the next witness, and gave evidence to having seen George Urlin on the night of the fire looking down the side of the store and up toward the roof about 15 or 20 minutes before the fire.

William Taylor said he was at the fire on Nov. 7 last, was among the first to go into the store when it was opened by George Urlin. He lighted a lamp while in the store. Heard George say to some one to come and assist him to save the books. George came from the north to the store, when he unlocked the door. I swear positively that George did no go past the store when he ran from the north until he unlocked the door. If George says he ran past the store to the centre of Shackleton-street before he unlocked the door, he states what is not true. Saw George Urlin when he brought the books over to Dr. Cascaden's. Heard Mrs. and Miss Cascaden say the following words to George: House may go next. This has "Take your books away, our been a dreadful night's work, and we know who did it this time; we were watching." "George, you did it; we saw you."

All this was addressed to George while he was standing three or four feet from the ladies on the night of the fire; in fact, while the fire was in progress. And George made no reply. If George says these words were not said to him on the night of the fire, he states what is not correct.

Taylor was on the stand when court adjourned.

MR. CORBY RETIRES.

The Popular Member for West Hastings Issues a Letter to the Electors, Resigning.

Belleville, Dec. 18.—The Executive of the West Hastings Conservative Association, consisting of the president, vice-president and the Executive Committee, met last night at the call of the president, Col. Urquhart of Trenton. Mr. J. F. Wills acted as secretary. The president read a letter from Mr. H. Corby, M.P., stating that he desired to resign from his position as representative for West Hastings and that he placed his resignation in the hands of the association to be dealt with as they would consider best.

Mr. Corby's letter gives the reasons for the step, which are briefly that his physicians have ordered the utmost care on his part regarding his health, and being unable to put into his legislative duties the energies he desires, he relinquishes the seat.

A committee was appointed to draft a reply, in which it was recommended that the resignation be not accepted.

A resolution was passed expressing the hope for his speedy return from abroad with health fully restored.

GIVEN UP TO DIE.

Shop Closed for Two Months—The Patient Takes Dodd's Kidney Pills.

Richmond, (Special) Dec. 9—A correspondent at Ottawa, of a Toronto paper investigating so-called cures by Dodd's Kidney Pills, found himself here among ardent friends of this great kidney treatment. Seeing Mr. McCarthy at work in his shop after being closed for two months in expectation of death from Bright's disease; that gentleman referred him to the man who advised him to use the Pills. This was Wm. McCord, a farmer who had been helpless and bed-ridden for twenty-seven months with what was said to be "Incurable Diabetes." On calling the correspondent found Mr. McCord ploughing in the field. A few boxes of Dodd's Kidney Pills had worked the cure. It was a matter of no surprise as they always cure.

The Dominion Cabinet and Remedial Legislation

HON. JOHN HAGGART'S POSITION

Another Crisis Likely to Arise—The Demands of the Bishops and What Mr. Foster Has Promised—The Difficulties Which Beset Sir Adolphe Caron.

Ottawa, Dec. 18.—Hon. John Haggart occupies a peculiar position in the Cabinet at the present moment. He has been in a quandary over the school question all along, but the resignation of Hon. Clarke Wallace has intensified his troubles, and if Sir Mackenzie Bowell continues to give in to Mr. Ouimet and the influence behind the Montreal Minister, Mr. Haggart may resign. A Cabinet crisis is only a matter of a few days. As soon as the Cardwell election is over the nature of the Remedial bill to be brought down to parliament will be considered in Council, and the opposing forces, whose collision last July still echoes through the country, will once again be brought face to face. The very fact that the Quebec Ministers scored their point last summer and committed the Government to a policy of coercion will make it harder for them to extract concessions now from Mr. Haggart, Mr. Foster, Mr. Daly an. Dr. Montague. These gentlemen are all agreed to stand by the constitution, but they do not mean by that the restoration of Separate schools under separate control. They are going to contend that Separate schools under state control is all the constitution calls for, but Separate schools under state control are not what Mr. Ouimet and the Archbishop of St. Boniface want. What does His Grace want with schools over which he has no control? The Northwest Assembly passed an act bringing all Separate schools under the control of the state, but the Bishops petitioned for the veto of the act, although it preserved the distinction that Catholic taxes should go only for the support of Separate schools. This legislation, which Mr. Foster would induce the electors of Cardwell to believe is all they wanted to impose on Manitoba, was condemned by the 30 Roman Catholics bishops in Canada, who in their memorial spoke of it as follows: "The Catholic schools of the Northwest have been retained, but they have been deprived of their liberty of action and of the character which distinguishes them from other schools." Here is a case of the Bishops protesting against Separate schools, and why? Because they had been deprived of their liberty of action. It will not be sufficient, therefore, for Mr. Foster's coercion law to re-establish Separate schools; it must grant to them liberty of action. Liberty of action and state control are two different systems. The same memorial declares that the children of Roman Catholics must have an education "conducted in accordance with their religious convictions." It is therefore begging the question for Mr. Foster to say that the old, inefficient schools will not be reestablished, because the point in dispute among Mr. Foster's friends is not so much efficiency as it is the liberty to conduct education on a religious basis at the expense of the state and with the sanction of the general law.

Mr. Haggart, who is a much more practical man than Mr. Foster, foresees the clash in Council, and realizes keenly that in the conflict he will have to take sides either with the Bishops or against them.

It is probable that Mr. Haggart declines to comit himself. When the announcement at Smith's Falls that the Cabinet were unanimous on the school question was determined upon, Mr. Foster was deputed at the last moment to go and make the announcement. Although the meeting was held in Mr. Haggart's own home district, he refused to make the announcement, and while he was constrained to say that he agreed with Mr. Foster's elaborate and diplomatic statement, he added: "I believe the question will yet be settled by Manitoba." Such a statement from a Cabinet Minister would be thought to have some basis, but the Premier is authority for the statement that the position of the school question has not changed from last July to the present moment.

The end of Sir Adolphe Caron's political career is at hand. The Liberals have grown so strong in Quebec district that only one seat can be carried by the Government, and that is not Sir Adolphe's. But abundant proof is furnished by the fact that he is repudiated by his own party. At a recent meeting of the Club Cartier-Macdonald in the city of Quebec a resolution was adopted declaring that Sir Adolphe is no longer the leader in that district.

Dangerous.

We often see this sign on roads or streets.

Any kidney ailment is dangerous. Because you never know where it will end.

Suppose you feel languid, suppose you have feverish symptoms, there must be poison in the blood, for these are the certain signs.

To the fact that poisons get past the kidneys may be traced every sickness to which you are liable.

Treat the kidneys forthwith and first of all.

It is the safe and proper thing every time; therefore do it promptly and well. We are trying to teach people to turn to Dodd's Kidney Pills as the simplest and greatest treatmnt of kidney diseases on earth.

Can you see the point? Every serious disease results from the kidneys being out of order. Dodd's Kidney Pills keeps on curing these diseases

MR. N. C. WALLACE

Speaks of His Position in Relation to the Government and the School Question.

Toronto, Dec. 18.—The Orangemen of the Northwestern District of Toronto held their fourth annual banquet tonight at the Gladstone House, and there was a large attendance. The feature of the evening was a speech by Mr. N. Clarke Wallace, who said he would not make a political speech. He said he was more than recompensed for the loss of his position by the fact that he had followed the dictates of his conscience, and that his course had been approved by his friends. These things he valued more than $5000 a year, or five times $5000 a year. (Cheers.) When he found the Government anxious to propitiate the Roman Catholic Church, and to accept the dictation of that church; and when the decision of the Privy Council came, and the Government were so anxious to obey the behests of those men that they would not wait for the opinion to arrive, but straightway wired to the Manitoba Government to state their case, so that if there had not been a postponement the case would have been heard before a copy of the decision had reached Ottawa; and when all through he was humiliated to find that those gentlemen whom the Conservative party had placed in power, whom they in Ontario had assisted, were ready to bow the knee to Baal—(cries of "No! No!")—then he was obliged to resign

"I shall never bow the knee to Baal," Mr Wallace exclaimed, amid the tremendous applause of his auditors. He would never consent, as one of the Protestant Conservatives, in Ontario who had fought in many elections against the principles of Separate Schools in Ontario, because they believed that the Public Schools which were good enough for their children, were good enough for any children, to try to impose Separate Schools on Manitoba.

AYER'S CHERRY PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. Racked with Rheumatism

Unable to Walk, owing to excruciating pain.

After ten years' terrible torture, Cured by Scott's Sarsaparilla.

A. H. Christiansen, writing from the Clifton House, Niagara Falls, says: "I owe you more than I can ever pay. For ten years I suffered the tortures of the damned with rheumatism. Father had it before me, and I believe it is an hereditary disease. My knee joints would get inflamed and if I was out in any "weather" I was sure to be laid up, which to a travelling man is a calamity. In a score of Canadian towns local doctors treated me, some giving relief, others none. I read that Sarsaparilla was a rheumatic cure, and I asked a druggist for "a bottle of the best Sarsaparilla on the market." He gave me Scott's, remarking that it was an improvement on all others, and that he could honestly recommend it. I have taken four bottles, and am as free from pain as a man can hope to be. I was out in a rainstorm two days ago and never felt a twinge. As I said before, to Scott's Sarsaparilla I owe more than I can ever repay."

The best remedy for rheumatism, sciatica, and neuralgic pains—all arising from the presence of poison in the blood—is Scott's Sarsaparilla, a modern concentrated medicine, prompt in its curative effects. Doses from one half to one teaspoonful. At $1 per bottle of your druggist.

BAPTISTS MEET.

The Young People Assembled and the Pastors Have a Conference.

Port Hope Times.

At a representative meeting of the Baptist Young People's Union of the Peterborough District, which was held in the Baptist church on Tuesday, Dec. 17th, Rev. C. E. McLeod, of the Gilmour Memorial church, near Peterborough, was elected president, and Mr. A. L. Grover, Peterborough, was appointed secretary. The event of the day was the address of the Rev. Dr. Thomas, of Jarvis street Baptist church, Toronto, whose eloquence impressed the delegates and delighted all his large audience. The address was one which appealed to the sensibilities of all present, and was calculated to arouse a spirit of enthusiasm amongst the Christian workers and to encourage them in their charitable and religious work. The thanks of the meeting were extended to Dr. Thomas in the heartiest terms for his very thoughtful and earnest address, after which the meeting adjourned.

The Pastors' Conference of the Peterborough District of the Baptist church met last Wednesday. The Rev. C. E. McLeod of the Gilmour Memorial church, was elected president, and the Rev. W. A. Johnston, Stirling, secretary. Reports from the churches of the district were read, showing in this district a very satisfactory standing. The Rev. A. M. McDonald read a valuable paper on "Methods of Preaching," which evoked considerable discussion. The Rev. J. E. Trotter of Peterborough delivered a Bible reading. The address by the Rev. Mr. Cowsert of Belleville, recently of Louisiana, re Southern Baptists, was very interesting and was received with approval. The Rev. T. Watson read a paper on "Is there need for Extra Church Organizations for Evangelizing the World?" This very broad topic aroused a long and earnest discussion. The conference on the relation of the pastor to his brethren in the ministry was one of the most important topics brought before the convention, nearly all those present offering valuable hints and suggestions. The Rev. Mr. Cowsert of Belleville, addressed a large audience in the Baptist church on Wednesday evening, when he preached a vigorous and practical sermon.

THE SILENT SINGER, EUGENE FIELD.

BY MISS ALMA FRANCIS McCOLLUM.

The lights are all low, for the sun's in the west,
But where is the singer that lulled us to rest?
The singer was tired—though day was not long,
And when he had finished his slumber-time song,
An angel re-echoed the lullaby lay
And hushed him to sleep at the close of that day.
Oh, rest silent singer, till morning breaks through,
And wake to be welcomed by "Little Boy Blue."

—Saturday Night.

IVY.

How memory's vine, aye evergreen,
Creeps o'er life's rugged pile;
And hides its crumbling gaps and scars
With a softly rustling veil.

And the gentle chafings of the leaves,
Make voices of long ago;
Crooning their tender hallowed tales
With melody sweet and low.

Then the halls are no more desolate,
Nor looks the heath bleak and cold;
For love thus plieth his dream-fires high,
And gathereth the love of old.

And the lugle is warm with the mother's smile,
And the glow of a father's love;
While the noise of the children's laugh and shout
'Mong the rafters re-echoes above.

The weary heart leaveth the moilings of now,
To bask in the ease of then,
Ere the children had shouldered the cares of life,
And grown to be women and men.

Ere the close-wove circlet of home, sweet home,
Was burst by the pressure of years,
With their strange co-mingling of gladness and smiles,
And passionate pain and tears.

Ere hands were joined and hearts made one,
And child-loves were born again;
Or death had plucked the fairest flowers,
Or garnered the ripest grain.

Still ever as age storms ruthless beat
On the seamed face of the wall,
Dear memory creeps with her youngling sheets,
And lovingly covereth all.

Till the warder up to his eyrie high,
Climbeth the turret stair,
And with weary heart from his mantled tower
Looks forth o'er the landscape fair.

Till eyes are dim and hearts are numb,
And rigid the failing knee,
As he goeth to dwell in the spirit land, where
Time and memory cease to be

THE WHEEL.

The Globe of to-day says,—Peterborough is already in the field for the C. W. A. meet, and intends leaving no stone unturned that will in any way strengthen their chances of securing the big thing of Canadian cycledom. It is estimated that there are at least a thousand wheelmen outside the pale of the C. W. A. in the towns surrounding Peterborough, and the wheelmen of that city, under the capable guidance of G. J. Hopkins, count on having them all corralled before Good Friday, and as naturally they would give their support to Peterborough, they would almost ensure the "meet" for it.

—The holiday rates the railways come into effect on Saturday.

—Two Kingston ladies have signified their intention of being candidates for public school trustees.

—For a nice assortment of pipes and cigars try Morgan. He is the only dealer in town that handles the real Sir Robert Peel Cigar. 436 George street.

—The promotion examinations have been in progress during the last couple of days in the public schools. What with surmises as to whether they have passed their examinations and as to what Santa Claus will bring them at Christmas the juvenile mind is fully occupied.

—There is a feeling on the part of frequenters of the Opera House that the curtain should rise at 8 o'clock sharp. If this was made a rule of the house companies would govern themselves accordingly. As matters are now the curtain often does not go up until 8.30. It takes the average performance until 11 p.m. to conclude, a half hour later than the comfort and convenience of the audience demand.

—In a village not many miles from here a clergyman, at the close of the service on Sunday last, made the following announcement: "Our fatherly elder, Bro. ——, lies at the point of death; how long he may live we do not know." Then, continuing, as if he had created an innovation by imparting this information in the sanctuary, said: "I made this announcement as many will be glad to hear of Bro. ——'s condition!"

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heart burn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

CHRISTMAS SUPPLEMENT TO THE DAILY AND WEEKLY EXAMINER.

CHRISTMAS EVE.

By ANNA KATHARINE GREEN.

[Copyright, 1895, by American Press Association.]

It was the last house at the end of Beauchamp's row, and it stood several rods away from its nearest neighbor. It was a pretty house in the daytime, but owing to its deep, sloping roof and small bediamonded windows it had a lonesome look at night, notwithstanding the crimson hall light which shone through the leaves of its vine covered doorway.

Ned Chivers lived in it with his six months' married bride, and as he was both a busy fellow and a gay one there were many evenings when pretty Letty Chivers sat alone until near midnight.

She was of an uncomplaining spirit, however, and said little, though there were times when both the day and evening seemed very long and married life not altogether the paradise she had expected.

On this evening—a memorable evening for her, the 24th of December, 1894—she had expected her husband to remain with her, for it was not only Christmas eve, but the night when, as manager of a large manufacturing concern, he brought up from New York the money with which to pay off the men on the next working day, and he never left her when there was any unusual amount of money in the house. But from the first glimpse she had of him coming up the road she knew that she was to be disappointed in this hope, and, indignant, alarmed almost, at the prospect of a lonesome evening under these circumstances, she ran hastily down to the gate to meet him, crying:

"Oh, Ned, you look so troubled that I know you have only come home for a hurried supper. But you cannot leave me tonight, for Tennie" (their only maid) "has gone for a holiday, and I never can stay in this house alone with that." She pointed to the small bag he carried, which, as she knew, was filled to bursting with bank notes.

He certainly looked troubled. It is hard to resist the entreaty in a young bride's uplifted face. But this time he could not help himself, and he said:

"I am dreadful sorry, but I must ride over to Fairbanks tonight. Mr. Pierson has given me an imperative order to conclude a matter of business there, and it is very important that it should be done. I should lose my position if I neglected the matter, and no one but Hasbronck and Suffern knows that we keep the money in the house. I have always given out that I intrusted it to Hale's safe over night."

"But I cannot stand it," she persisted. "You have never left me on these nights. That is why I let Tennie go. I will spend the evening at The Larches, or, better still, call in Mr. and Mrs. Talcott to keep me company."

But her husband did not approve of her going out or of her having company. The Larches was too far away, and as for Mr. and Mrs. Talcott, they were meddlesome people, whom he had never liked; besides Mrs. Talcott was delicate, and the night threatened storm. It seemed hard to subject her to this ordeal, and he showed that he thought so by his manner, but as circumstances were, she would have to stay alone, and he only hoped she would be brave and go to bed like a good girl, and think nothing about the money, which he would take care to put away in a very safe place.

SHE BEGAN TO EMPTY IT.

"Or," said he, kissing her downcast face, "perhaps you would rather hide it yourself; women always have curious ideas about such things."

"Yes, let me hide it," she murmured. "The money, I mean, not the bag. Every one knows the bag. I should never dare to leave it in that." And begging him to unlock it, she began to empty it with a feverish haste that rather alarmed him, for he surveyed her anxiously and shook his head as if he dreaded the effects of this excitement upon her.

But as he saw no way of averting it he confined himself to using such soothing words as were at his command, and then, humoring her weakness, helped her to arrange the bills in the place she had chosen, and restuffing the bag with old receipts till it acquired its former dimensions, he put a few bills on top to make the whole look natural, and, laughing at her white face, relocked the bag and put the key back in his pocket.

"There, dear; a notable scheme and one that should relieve your mind entirely!" he cried. "If any one should attempt burglary in my absence and should succeed in getting into a house as safely locked as this will be when I leave it, then trust to their being satisfied when they see this booty, which I shall hide where I always hide it—in the cupboard over my desk."

"And when will you be back?" she murmured, trembling in spite of herself at these preparations.

"By 1 o'clock if possible. Certainly by 2."

"And our neighbors go to bed at 10," she murmured. But the words were low, and she was glad he did not hear them, for if it was his duty to obey the orders he had received, then it was her duty to meet the position in which it left her as bravely as she could.

At supper she was so natural that his face rapidly brightened, and it was with quite an air of cheerfulness that he rose at last to lock up the house and make such preparations as were necessary for his dismal ride over the mountains to Fairbanks. She had the supper dishes to wash up in Tennie's absence, and as she was a busy little housewife she found herself singing a snatch of song as she passed back and forth from dining room to kitchen. He heard it, too, and smiled to himself as he bolted the windows on the ground floor and examined the locks of the three lower doors, and when he

"WHO IS THERE?"

finally came into the kitchen with his greatcoat on to give her his final kiss, he had but one parting injunction to urge, and that was that she should lock the front door after him and then forget the whole matter till she heard his double knock at midnight.

She smiled and held up her ingenuous face.

"Be careful of yourself," she murmured. "I hate this dark ride for you, and on such a night too." And she ran with him to the door to look out.

"It is certainly very dark," he responded, "but I'm to have one of Brown's safest horses. Do not worry about me. I shall do well enough, and so will you, too, or you are not the plucky little woman I have always thought you."

She laughed, but there was a choking sound in her voice that made him look at her again. But at sight of his anxiety she recovered herself, and pointing to the clouds said earnestly:

"It is going to snow. Be careful as you ride by the gorge, Ned; it is very deceptive there in a snowstorm."

But he vowed that it would not snow before morning, and giving her one final embrace he dashed down the path toward Brown's livery stable. "Oh, why do I feel so!" she murmured to herself as his steps died out in the distance. "I did not know I was such a coward." And she paused for a moment, looking up and down the road, as if in despite of her husband's command she had the desperate idea of running away to some neighbor.

But she was too loyal for that, and smothering a sigh she retreated into the house. As she did so the first flakes fell of the storm that was not to have come till morning.

It took her an hour to get her kitchen in order, and 9 o'clock struck before she was ready to sit down. She had been so busy she had not noticed how the wind had increased or how rapidly the snow was falling. But when she went to the front door for another glance up and down the road she started back, appalled at the fierceness of the gale and at the great pile of snow that had already accumulated on the doorstep.

Too delicate to breast such a wind, she saw herself robbed of her last hope of any companionship, and sighing heavily she locked and bolted the door for the night and went back into her little sitting room, where a great fire was burning. Here she sat down, and determined, now that she must pass the evening alone, to do it as cheerfully as possible, and so began to sew. "Oh, what a Christmas eve!" she thought, and a picture of other homes rose before her eyes, homes in which husbands sat by wives and brothers by sisters, and a great wave of regret poured over her and a longing for something, she hardly dared say what, lest her unhappiness should acquire a sting that would leave traces beyond the passing moment.

The room in which she sat was the only one on the ground floor beside the dining room and kitchen. It therefore was used both as parlor and sitting room, and held not only her piano, but her husband's desk.

Communicating with it was the tiny dining room. Between the two, however, was an entry leading to a side entrance. A lamp was in this entry, and she had left it burning, as well as the one in the kitchen, that the house might look cheerful and as if all the family were at home.

She was looking toward this entry and wondering whether it was the mist made by her tears that made it look so dismally dark to her when there came a sound from the door at its end so faint that she could not determine its nature and yet so certainly not due to the wind that she felt her heart stand still and her feet grow paralyzed.

Knowing that her husband had taken peculiar pains with the fastenings of this door, as it was the one toward the woods, and therefore most accessible to wayfarers, she sat where she was, with all her faculties strained to listen. But no further sound came from that direction, and after a few minutes of silent terror she was allowing herself to believe that she had been deceived by her fears when she suddenly heard the same sound at the kitchen door, followed by a muffled knock.

Frightened now in good earnest, but still alive to the fact that the intruder was as likely to be a friend as a foe, she stepped to the door, and with her hand on the lock stooped and asked boldly enough who was there. But she received no answer, and more affected by this unexpected silence than by the knock she had heard she recoiled farther and farther till not only the width of the kitchen, but the dining room also, lay between her and the scene of her alarm, when to her utter confusion the noise shifted again to the side of the house, and the door she thought so securely fastened swung violently open as if blown in by a fierce gust, and she saw precipitated into the entry the burly figure of a man covered with snow and shaking with the shock of a storm that seemed at once to fill the house.

Her first thought was that it was her husband come back, but before she could clear her eyes from the cloud of snow which had entered with him he had thrown off his outer covering and she found herself face to face with a man in whose powerful frame and cynical visage she saw little to comfort her and much to surprise and alarm.

"Ugh!" was his coarse and rather familiar greeting. "A hard night, missus! Enough to drive any man indoors. Pardon for the liberty, but I couldn't wait for you to lift the latch; the wind drove me right in."

"Was—was not the door locked?" she feebly asked, thinking he must have staved it in with his foot, that looked eminently fitted for the task.

"Not much," he chuckled. "I s'pose you're too hospitable for that." And his eyes passed from her face to the comfortable firelight shining through the sitting room.

"Is it refuge you want?" she demanded, suppressing as much as possible all signs of fear.

"Sure, missus—what else! A man can't live in a gale like that, specially after a tramp of 20 miles or more. Shall I shut the door for you?" he asked, with a mixture of bravado and good nature that frightened her more and more.

"I will shut it," she replied, with a half motion of escaping this sinister stranger by a flight through the night.

But one glance into the swirling snowstorm deterred her, and making the best of the alarming situation she closed the door, but did not lock it, being more afraid now of what was within the house than of anything that was now likely to enter from without.

The man, whose clothes were dripping water by this time, watched her with a cynical smile, and then, without any initiation, entered the dining room, crossed it and moved toward the kitchen fire.

"Ugh! Ugh! But it is warm here!" he cried, his nostrils dilating with an animal like enjoyment that in itself was repugnant to her womanly delicacy. "Do you know, missus, I shall have to stay here all night? Can't go out in that gale again; not such a fool." Then with a sly look at her trembling form and white face he insinuatingly added, "All alone, missus?"

The suddenness with which this was put, together with the leer that accompanied it, made her start. Alone? Yes, but should she acknowledge it? Would it not be better to say that her husband was up stairs. The man evidently saw the struggle going on in her mind, for he chuckled to himself and called out quite boldly:

"Never mind, missus; it's all right. Just give me a bit of cold meat and a cup of tea or something, and we'll be very comfortable together. You're a slender slip of a woman to be minding a house like this. I'll keep you company if you don't mind, leastwise until the storm lets up a bit, which ain't likely for some hours to come. Rough night, missus, rough night."

"I expect my husband home at any time," she hastened to say. And thinking she saw a change in the man's countenance at this she put on quite an air of sudden satisfaction and bounded toward the front of the house. "There! I think I hear him now," she cried.

Her motive was to gain time, and if possible to obtain the opportunity of shifting the money from the place where she had first put it into another and safer one. "I want to be able," she thought, "of swearing that I have no money with me in this house. If I can only get it into my apron I will drop it outside the door into the snowbank. It will be safer there than in any other bank." And dashing into the sitting room she made a feint of dragging down a shawl from a screen, while she secretly filled her skirt with the bills which had been put between some old pamphlets on the bookshelves.

INTO A MOUND OF SNOW.

She could hear the man grumbling in the kitchen, but he did not follow her front, and taking advantage of the moment's respite from his none too encouraging presence she unbarred the door and cheerfully called out her husband's name.

The ruse was successful. She was enabled to fling the notes into a mound of snow, where they would soon be covered from sight, and then relieved and feeling more courageous, now that the money was out of the house, she went slowly back, saying she had made a mistake, and that it was the wind she had heard.

The man gave a gruff but knowing guffaw and then resumed his watch over her, following her steps as she proceeded to set him out a meal with a persistency that reminded her of a tiger just on the point of springing. But the inviting look of the viands with which she was rapidly setting the table soon distracted his attention, and allowing himself one grunt of satisfaction he drew up a chair and set himself down to what to him was evidently a most savory repast.

"No beer; no ale. Nothing o' that sort, eh? Don't keep a bar?" he growled, as his lips closed on a huge hunk of bread.

She shook her head, wishing she had a little cold poison bottled up in a tight looking jug.

"Nothing but tea," she smiled, astonished at her own ease of manner in the presence of this fearful guest.

"Then let's have that," he grumbled, taking the bowl she handed him, with an odd look that made her glad to retreat to the other side of the room.

"Jest listen to the howling wind," he went on between the huge mouthfuls of bread and cheese with which he was gorging himself. "But we're very comfortable, we two! We don't mind the storm, do we?"

Shocked by his familiarity and still more moved by the look of mingled inquiry and curiosity with which his eyes now began to wander over the walls and cupboards, she took an anxious step toward the side of the house looking toward her neighbors, and lifting one of the shades, which had all been religiously

ARMED WITH A CLUB.

pulled down, she looked out. A swirl of snowflakes alone confronted her. She could neither see her neighbors, nor could she be seen by them. A shout from her to them would not be heard. She was as completely isolated as if the house stood in the center of a desolate western plain.

"I have no trust but in God," she murmured as she came from the window. And, nerved to meet her fate, she went back into the kitchen

It was now half past 10. Two hours and a half must elapse before her husband could possibly arrive.

She set her teeth at the thought and walked resolutely back into the kitchen.

"Are you done?" she asked.

"I am, ma'am," he leered. "Do you want me to wash the dishes? I kin, and I will." And he actually carried his plate and cup to the sink, where he turned the water upon them with another loud guffaw, as if enjoying her discomfort.

"If only his fancy would take him into the pantry," she thought, "I could shut and lock the door upon him and hold him prisoner till Ned got back."

But his fancy ended its flight at the sink, and before her hopes had fully subsided he was standing on the threshold of the sitting room door.

"It's pretty here," he exclaimed, allowing his eye to rove again over every hiding place within sight. "I wonder now"— He stopped. His glance had fallen on the cupboard over her husband's desk.

"Well?" she asked, anxious to break the thread of his thought, which was fast calling up a demoniac expression to his gaunt but powerful features.

He started, dropped his eyes, and turning looked at her with a momentary fierceness. But, as she did not let her own glance quail, but continued to look at him with what she meant for a smile on her pale lips, he subdued this outward manifestation of passion, and, chuckling to hide his embarrassment, began backing into the entry, leering at her with what she felt was a most horrible smile. Once in the hall he hesitated, hesitated as it seemed to her for a long time; then he slowly went toward the garment he had dropped on entering and stooping down drew from underneath its folds a wicked looking stick. Giving a kick to the coat, which sent it into a remote corner, he bestowed upon her another smile, and still carrying the stick went slowly and reluctantly away into the kitchen.

"Oh, God Almighty, help me!" thought she.

But there was nothing for her to do but endure, so throwing herself into a chair, she tried to calm the beating of her heart and summon up courage for the struggle which she felt was before her. That he had come to rob and only waited to take her off her guard she now felt certain, and rapidly running over in her mind all the expedients of self defense possible to one in her situation, she suddenly remembered the pistol which Ned kept in his desk. Oh, why had she not thought of it before! Why had she let herself grow mad with terror when here, within reach of her hand, lay such a means of self defense? With a feeling of joy (she had always hated pistols before and scolded Ned when he bought this one) she started to her feet and slid her hand into the drawer. But it came back empty. Ned had taken the weapon away with him.

For a moment a surge of the bitterest feeling she had ever experienced passed over her; then she called reason to her aid and was obliged to acknowledge that the act was but natural, and that from his standpoint he was much more likely to need it than herself. But the disappointment, coming so soon after hope, unnerved her, and she sank back in her chair, giving herself up for lost.

How long she sat there with her eyes on the door, where she momentarily expected her assailant to reappear, she never knew. She was conscious only of a sort of apathy that made movement difficult and even breathing a task. In vain she tried to change her thoughts. In vain she tried to follow her husband in fancy over the snow covered roads and into the gorge of the mountains. But imagination failed her at this point. Do what she would, all was misty in her mind's eye, and she could not see that wandering image. There was blankness between his form and her, and no life or movement anywhere but here in the scene of her terror.

Her eyes were on a strip of rug that covered the entry floor, and so strange was the condition of her mind that she found herself mechanically counting the tassels that finished its edge, growing wroth over one that was worn, till she hated that sixth tassel and mentally determined that if she ever outlived this night she would strip them all off and be done with them.

The wind had lessened, but the air had grown cooler and the snow made a sharp sound where it struck the panes. She felt it falling, though she had cut off all view of it. It seemed to her that a pall was settling over the world and that she would soon be smothered under its folds. Meanwhile no sound came from the kitchen, only that dreadful sense of a doom creeping upon her—a sense that grew in intensity till she found herself watching for the shadow of that lifted stick on the wall of the entry, and almost imagined she saw the tip of it appearing, when, without any premonition, that fatal side door again blew in and admitted another man at once so ominous and so threatening that she succumbed instantly before him and forgot all her former fears in this new terror.

This second intruder was a negro of powerful frame and lowering aspect, and as he came forward and stood in the doorway there was observable in his fierce and desperate countenance no attempt at the insinuation of the other, only a fearful resolution that made her feel like a puppet before him, and drove her, almost without her volition, to her knees.

"Money, is it money you want?" was her desperate greeting. "If so, here's my purse and here are my rings and watch. Take them and go."

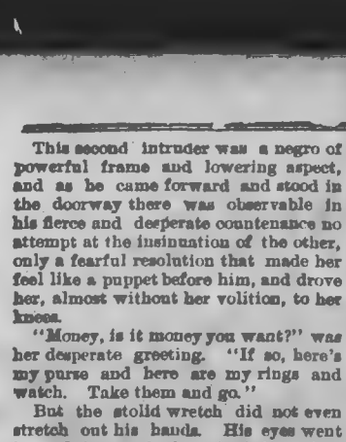
But the stolid wretch did not even stretch out his hands. His eyes went beyond her, and the mingled anxiety and resolve which he displayed would have cowed a stouter heart than that of this poor woman.

"Keep de trash," he growled. "I want de company's money. You've got it—$2,000. Show me where it is, that's all, and I won't trouble you long after I close on it."

"But it's not in the house," she cried. "I swear it is not in the house. Do you think Mr. Chivers would leave me here alone with $2,000 to guard?"

But the negro, swearing that she lied, leaped into the room, and tearing open the cupboard above her husband's desk, seized the bag from the corner where they had put it.

"He brought it in this," he muttered, and tried to force the bag open, but finding this impossible he took out a heavy knife and cut a big hole in its side. Instantly there fell out the pile of



"WHERE'S THE MONEY?" HE HISSED.

old receipts with which they had stuffed it, and seeing these he stamped with rage, and flinging them in one great handful at her rushed to the drawers below, emptied them, and, finding nothing, attacked the bookcase.

"The money is somewhere here. You can't fool me," he yelled. "I saw the spot your eyes lit on when I first came into the room. Is it behind these books?" he growled, pulling them out and throwing them helter skelter over the floor. "Women is smart in the hiding business. Is it behind these books, I say?"

They had been, or rather had been placed between the books, but she had taken them away, as we know, and he soon began to realize that his search was bringing him nothing, for leaving the bookcase he gave the books one kick, and seizing her by the arm, shook her with a murderous glare on his strange and distorted features.

"Where's the money?" he hissed. "Tell me, or you are a goner."

He raised his heavy fist. She crouched and all seemed over, when, with a rush and cry a figure dashed between them and he fell, struck down by the very stick she had so long been expecting to see fall upon her own head. The man who had been her terror for hours had at the moment of need acted as her protector.

She must have fainted, but if so, her unconsciousness was but momentary, for when she again recognized her surroundings she found the tramp still standing over her adversary.

"I hope you don't mind, ma'am," he said with an air of humbleness she certainly had not seen in him before, "but I think the man's dead." And he stirred with his foot the heavy figure before him.

"Oh, no, no, no!" she cried. "That would be too fearful. He's shocked, stunned; you cannot have killed him."

But the tramp was persistent. "I'm 'fraid I have," he said. "I done it before, and it's been the same every time. But I couldn't see a man of that color

"WATER!" SHE CRIED. "BRING WATER!"

frighten a lady like you," he explained deprecatingly. "My supper was too warm in me, ma'am. Shall I throw him outside the house?"

"Yes," she said, and then, "No; let us first be sure there is no life in him." And, hardly knowing what she did, she stooped down and peered into the glassy eyes of the prostrate man.

Suddenly she turned pale—no, not pale, but ghastly, and cowering back shook so that the tramp, over whose features a certain refinement had crept since he acted as her protector, thought that she had discovered life in those set orbs, and was stooping down to make sure that he was right in this surmise, when he saw her suddenly lean forward and impetuously plunge her hand into the negro's throat, tear open the shirt and give one look at his bared breast.

It was white.

"O God! O God!" she moaned, and lifting the head in her two hands she gave the motionless features a long and searching look. "Water!" she cried. "Bring water." But before the now obedient tramp could respond she had torn off the woolly wig disfiguring the dead man's head, and seeing the blond curls beneath had uttered such a shriek that it rose above the gale and was heard by her distant neighbors.

It was the head and hair of her husband.

They found out afterward that he had contemplated this theft for months, that each and every precaution possible to a successful issue to this most daring undertaking had been made use of and that but for the unexpected presence in the house of the tramp he would doubtless have not only extorted the money from his wife, but have so covered up the deed by a plausible alibi as to have retained her confidence and that of his employers.

Whether the tramp killed him out of sympathy for the defenseless woman or in rage at being disappointed in his own plans has never been determined. Mrs. Chivers herself thinks he was actuated by a rude sort of gratitude.

Old World Christmas Proverbs.

Every one in America knows the old world proverb, "A green Christmas makes a fat graveyard," but few others of the old world Christmas saws are current here. Some of these saws are exceedingly interesting and not less instructive as showing the changes that time and location have made in the proverbs of the country people. Here are a few:

"A warm Christams, a cold Easter."

"A light Christmas, a heavy sheaf."

"A green Christmas, a white Easter."

"If there is a wind on Christmas day, trees will bear much fruit."

"If ice will bear a man before Christmas, it will not afterward."

"The shepherd would rather see his wife enter the stable on Christmas day than to see the sun shine in at the stable door."

"If the sun shines through the apple tree on Christmas day, there will be an abundant crop the following year."

The meaning of all these is clear enough, but there is one that is not so clear:

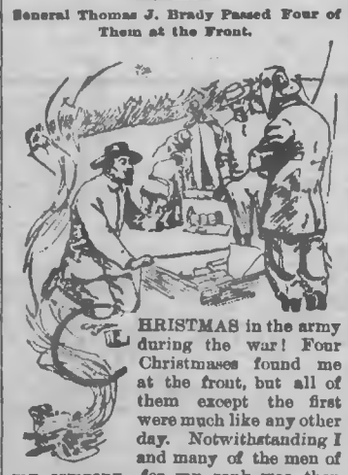
"If Christmas finds a bridge, he'll break it; if he finds none, he'll make one."

From the German Christmas come "Santa Claus" and "Kris Kringle." The latter is a corruption of Christkindlein, or Christ child, of whom they have the beautiful fable that with his own hands he places Christmas toys in the stockings of good children, while in the stockings of the bad ones a birch rod is placed by one "Pelsnichol," literally "Nicholas with the fur"—that is, St. Nicholas dressed in fur. The dread of getting the rod from old Pelsnichol on Christmas keeps many a German child in order the whole year round.

St. Nicholas, as the patron saint of the children, now termed Santa Claus, was canonized, died, according to tradition, at Myra, Italy, and was there buried in the cathedral crypt. Six hundred years later his body was taken to Bari, and there in the eleventh century the great priory of San Nicolo was built. It is at that priory that on May 9 each year the festival of St. Nicholas is held with great rejoicings by pilgrims from all parts of the world.

CHRISTMAS IN THE ARMY.

General Thomas J. Brady Passed Four of Them at the Front.



CHRISTMAS in the army during the war! Four Christmases found me at the front, but all of them except the first were much like any other day. Notwithstanding I and many of the men of my company—for my rank was then only that of captain—had been in the service since the firing on of Fort Sumter, having served out a three months' term in McClellan's West Virginia campaign and then re-enlisted for three years, or "during the war," Dec. 25, 1861, was the first Christmas to find us in camp, with the enemy not far away.

My regiment was a part of Jeff C. Davis' division and had gone into winter quarters at Otterville, Mo. In December it was learned that large bodies of recruits for Price's army were on their way from northern and western Missouri trying to reach him by Christmas, and that Price had sent a force from his army to act as their escort. About the second week in December a concerted movement was begun which had for its object the capture or dispersal of these Confederate bodies. It was successful. I know the command to which I was attached made a forced march of 35 miles one cold December day through freezing and frozen slush and mud. So tired were we that when we finally went into camp that night we made our beds on the bare and frozen ground, without shelter, for we had far outstripped our wagon trains and fell asleep instantly and slept all night as soundly as though we were lying on couches of down. When we awoke at daybreak, we found ourselves covered with snow that had fallen on us in the night without our being aware of it. The snow was really a good thing, for it helped to keep us warm by excluding the air.

We got back to Otterville with our prisoners and captured material of war two or three days before Christmas. The war department at Washington and General Halleck, commander of the department of Missouri, regarded the section we were campaigning in as friendly, and the population really contained a good many Union men. When the men went out in small squads to forage, they carried money with them, and scrupulously paid for all they took. True, in the absence of good money they dealt out "wildcat" bills on broken banks and bank notes that had never been signed, but they were cheerfully, even thankfully, received, and I have no doubt continued to circulate down there till they became worn out.

Soon the men began to show a desire to enjoy themselves more as they had been used to do at home than they had been able to do at any time since they had become soldiers. While discipline was maintained, the relations between officers and men were cordial and friendly, and with the holiday season every liberty compatible with the safety of the command and the performance of necessary duties was permitted. Small foraging parties scoured the country roundabout and gathered up a supply of chickens, turkeys and pigs wherewith to eke out the army hard tack and salt horse. The mails that reached us at

GENERAL THOMAS J. BRADY.

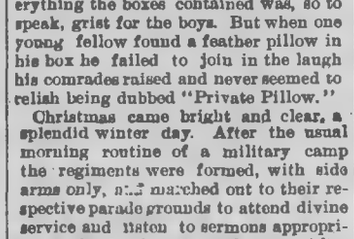
tolerably regular intervals contained many packages from mothers, wives, sisters and sweethearts. And every wagon train that reached us from the nearest railroad terminus brought boxes from home for both officers and men. They were filled with a great array and assortment of articles supposed to be necessary for the welfare and comfort of the men. In the main these articles ran to things to eat, especially cakes, jellies and preserves, all homemade and therefore doubly relished. There were articles of wearing apparel in every box. In those days paper collars, some linen lined, and others nothing but paper, were in high favor throughout the west. Nearly every box contained a supply of them, so that the recipient could present what the boys called a "Sunday go to meeting" appearance.

As our communication with St. Louis was not regular, these boxes did not all arrive at the same time. They began, in fact, to come about a week before Christmas and continued to come at intervals for a month afterward. Pretty much everything the boxes contained was, so to speak, grist for the boys. But when one young fellow found a feather pillow in his box he failed to join in the laugh his comrades raised and never seemed to relish being dubbed "Private Pillow."

Christmas came bright and clear, a splendid winter day. After the usual morning routine of a military camp the regiments were formed, with side arms only, and marched out to their respective parade grounds to attend divine service and listen to sermons appropriate to the day in a time of war. After this the men were dismissed to enjoy themselves in their own way—all, that is, except those engaged in guard and other military duties. They played ball, ran foot races, held jumping matches, pitched horse or mule shoes in lieu of quoits, got up mule races and generally disported themselves like a lot of schoolboys out for a holiday. The more quietly disposed read such books and papers as the camp afforded or wrote letters home. Some just loafed. Others drew their tent flaps tight and played cards, the great American game of draw poker being the favorite, with grains of corn for chips. The officers passed the time in much the same way, only, as a rule, more dignifiedly, as became their rank.

The cooks got up the best dinners they could, the tables being graced with all the dainties and good things that had come from the loved and loving ones at home. Men and officers enjoyed this the first Christmas in the army for all, and the last on earth for many, for these troops, then so merry, were destined within a few weeks to pass through the three days' deadly storm and strife of Pea Ridge, known to the Confederates as Elkhorn Tavern, the first pitched battle of the war after Bull Run and the first considerable victory of Union troops in the field. But for that one day strife and death were far from their thoughts.

Such was my first Christmas in the army and the only one which made much impression on me as Christmas.



The Frenchman's New Year's Dinner.

Turkey and truffles is the great dish for a stylish New Year's dinner. The truffles are steeped in madeira wine, and after being sliced are inserted between the skin and the meat of this luscious fowl. This, however, is a luxury which only the rich can enjoy in France. Among the peasants the new year is pig killing time, and a little pork is the peasant's special relish for the New Year's dinner. But whatever the fare on the table there is always good feeling in the heart and always plenty of good company at the fireside. Not only must the members of the household sit down together on New Year's day, but, if possible, the relatives must be gathered in, even to the most distant cousin, and one of the very happiest of all the New Year's custom is that which seizes upon the day as a suitable time for healing the breaches of friendship and for smoking the pipe of peace over quarrels which have divided families.—Indianapolis Journal.

THE SWEET OLD STORY.

Carol, Carol, Christmas, exultant sing the story
Of Christ, once babe in Bethlehem, now Lord of life and glory.
Over eighteen hundred years have passed since He true flesh became,
Incarnate in the human form, and took to Him sweet name
Of Jesus, to redeem and bring man, fallen, back to glory.
The lapse of time has nothing marred; today 'tis just the same
As when the angels sang "Good Will"—this old, this sweet old story.

Carol, Christian mother, sweet, to babe upon your knee;
For by singing this old story o'er your babe will sweeter be,
Since Jesus on such little ones, when here has often smiled—
He knows their angels see His face, the angel of each child;
And well He loves the innocents—He calls them heirs of glory—
"Let them come unto Me," he said; your babe keep unbeguiled,
And nightly be your lullaby, this old, this sweet old story.

Carol, youth and maiden fair, lend sweetness to the strain,
For Joseph's son, the Nazarene, hath made your pathway plain;
And as ye chant the story o'er, mark well how Jesus grew
In favor with His fellowman—a lesson meant for you;
Then learn of Him in life's sweet spring, that when perchance you're hoary,
The shifting scenes of time nigh past, e'en then you'll nothing rue,
But bless the day you made your theme, this old, this sweet old story.

Carol, man, to care a prey, find here a sure relief,
For Christ of dark Gethsemane, for you was man of grief;
As man he bore the ills of life, its poverty and shame,
And though your burden be a cross, He meekly bore the same,
"They came from tribulations great," is said of those in glory;
The woes of life's decline are yours, bear all in Jesus' name,
And rest your faith upon this staff—this old, this sweet old story.

Carol, youth and maiden fair, men in life's prime, the hoary,
And trace the babe of Bethlehem from manger to His glory.
As babe, was sweet; as child, was good; a patient man and wise;
The babe was Christ, and Christ is God—the Lord of earth and skies;
For you He bore the ills of life; for you He left His glory;
Great God becomes an earth-born babe, and then for man He dies!
Sing praises; Christ is Lord to-day—the babe of this sweet story.

Christmas Eve Fun.

To speak of the sports of Christmas Eve without a mention of snapdragon would be something like the play of Hamlet with "Hamlet" left out. Snapdragon and the mistletoe were specially sacred to Christmas in old English games. An old rhyme tells:

"What sport we shall have when Christmas comes,
And Snap-Dragon burns our fingers and thumbs,
We'll hang mistletoe o'er our dear little cousins,
And pull them beneath it and kiss them by dozens."

The mistletoe kissing needs no description. Snapdragon consists of pouring a half pint of alcohol or brandy into a pan, setting it ablaze, and then throwing in choice nuts, raisins and candies, the sport being to pull them out of the burning fluid. Whether the prizes obtained pay for the burned "fingers and thumbs" is a question.

The game of the "burning fagots" is excellent for a Christmas party. The pile of fagots must lie beside your big open fireplace. The incense tapers to be bought at Japanese bazaars make the finest of fagots for this purpose. Each guest takes a fagot from the pile and lights it at the fire. Now he is to tell a story or sing a song, and his entertainment is to last exactly as long as the taper burns, and no longer. It requires some pains for him to adapt himself to his blazing fagot, throwing it away at the exact moment his song or story is completed. Then the next boy or girl takes a fagot, and an opportunity to amuse the company.

It is a pretty custom to make the whole of the Chrismas Eve party a game or play from the beginning of the festivities. So soon as all the company have arrived, begin by selecting a "Lord of Misrule," whose business it shall be to organize and decide the games and make as much fun and mischief as possible. To further this end all kinds of costumes and funny dressing may be used. Impromptu costumes made out of homely and every-day material are much the best. The "Lord of Misrule" should be furnished with a crown and a scepter, even if they are only represented by an old hat and the kitchen poker, and the rest of the company can be attired to correspond.

Besides the ordinary merry games for large parties, such as "consequences," "proverbs," and "stage-coach," there are "blind man's buff," and the singing games of "oats, peas, beans," and "I put my right foot in," for the little children. The "old bachelor's kitchen" is furnished again and again by every generation. Young and old can "go to Jerusalem" and romp and run to their hearts' content.

The donkey, to whom numberless tails can be pinned, will always be an enjoyable feature for a lively party of mixed young and old folks. For a Christmas Eve party a comically-drawn picture of Santa Claus might be substituted for the donkey. It should be drawn and colored on a large sheet of paper, and this fastened on a sheet against the wall. Various portions of the dear old saint's body, his arms, his legs, his traditional pipe, drawn and cut out of paper, could be trusted to blindfolded boys and girls to pin on in what they judged the proper places. It may not be a very respectful way to treat Santa Claus, but much fun results from seeing the queer spectacle which the dear fellow presents when his members are pinned on where the blindfolded one is "sure they ought to go."

There are other ways of making fun for the babies. Huge thin paper bags may be filled with candies, or small presents of toys tied up in secure paper parcels. These bags are suspended between the folding doors, as being safer than from chandeliers. The children are blindfolded in turn, and each one tries with a stick to hit the bag. When one succeeds there is a wild scramble for the candy or treasures which are scattered over the floor. The hostess is recommended to spread a sheet over her carpet.

Of the same character is the "Scissors Present" game. The coveted present is tied to the chandelier or door by a long string, which brings it near the floor. The blindfolded children are led each in turn to try with a pair of scissors to cut the string. The lucky one who succeeds is allowed to claim the present he has cut down.

A grab-bag, in which little presents are put, each tied up closely in many papers, is a funny style of giving Christmas presents. Very small and cheap articles may be used for these grab-bags. A nominal fee must always be charged for a "grab." Ten kisses or "ten pins" must be demanded and obtained before a "grab" is allowed.

Very elaborately devised plays or games take much time and trouble, but can be made very successful if the right spirit is put into them. Those suggested here can be arranged at short notice.

THE TALK ABOUT WAR

U. S. Senate Passes the Venezuela Commission Bill.

GREAT BRITAIN COOL AND READY

Some Senators Advise Making Haste Slowly—An Englishman Purchases All the Railroads in Nicaragua—A Gladstonian Paper Speaks Out in Plain Language.

Washington, Dec. 20.—In the Senate to-day Mr. Morgan brought up the bill for the Venezuela Commission. He said the Foreign Relations Committee had some amendments to offer, although he was in favor of passing the bill as it came from the House.

These amendments fixed the number of commissioners at three, to be appointed by and with the advice and consent of the Senate(who shall report to the President; no time for their report is fixed.

Mr. Platt (Rep., Conn.), thought the House bill ought not to be amended. It should be passed as it came from the House. The subject matter of the bill was very grave, and it should be treated as such. There was no need of talking about a probable war, although the American people would not shun it if it was forced upon them.

Mr. Sherman (Rep., O.), said he could not for the life of him see the necessity of haste. Congress had already endorsed the President in his declaration of the Monroe edict. England was not engaged in a fresh aggression; on the contrary she was taking very serious consideration of the whole subject; she needed no excitement to cause her to heed the spirit that prevailed here. Mr. Sherman said he had no doubt but that the trouble would be settled by an amicable agreement between Great Britain and Venezuela; he had no idea there would be a drop of American blood spilt over this matter.

Mr. Mills (Dem., Tex.), wanted to know where we were to get the revenues to carry on a war. Let us not commit the great mistake of underestimating our enemy. The representatives of the two Governments, after long diplomatic correspondence have reached a point where they say neither will yield; we are standing on the brink of war and surely we should look to our treasury box and see where our money is to come from.

An amendment to the constitution should be submitted to the country, authorizing Congress to levy taxes on realty and personality; then, said Mr. Mills, we can carr on any conflict with honor to the American people.

Mr. Lodge said he thought there should be no division in the Senate on this subject, and he would not press the amendment of which he gave notice yesterday, fixing a time when the commission should report. He favored the confirmation of the commissioners, for by such act the world would know that the Congress endorsed the President's selection, and were in accord with him.

Mr. Caffery (D., La.) concurred in the opinion of Mr. Sherman, that a conservative policy should be pursued. Should war ensue, upon the two houses of Congress would rest a tremendous responsibility. He agreed with Mr. Sherman that there was no need of haste, we were not molested on any hand. The very appointment of the commission was a warlike step, but even that step, which was a forecast of war, might not lead to war if a temperate and wise conclusions were reached.

After further discussion the Senate passed the bill, without amendment.

Lynchburg, Va., Dec. 20.—General Fitzhugh Lee, the nephew of General Robert E. Lee, was asked to-day if he thought the nIUted States and England would go to war.

"No," he replied, "months and months will pass before the United States commission will report. In the meantime the pugnacious winds will blow themselves out, and the angry waters subside, and a common ground be revealed upon which each of the great English-speaking giants can honorably stand."

DARE NOT INTERFERE.

Mr. Gladstone's Brief But Weighty Reply on the All-Important Question.

New York, Dec. 20.—The Recorder has received the following cablegram from Mr. Gladstone in answer to a request for his comment on the Venezuelan dispute :

Hawarden, Dec. 20, 1895.

To Editor Recorder, New York :

Sole possible reply, dare not interfere. Only common sense required.

GLADSTONE.

Bostonians Dissent

Boston, Dec. 20.—At the banquet of the New England Free Trade League this evening resolutions were adopted questioning the right of the United States to interfere in the dispute between England and Venezuela. All the speakers voiced this sentiment and William L. Garrison warmly defended the course of Ambassador Bayard in England.

An Englishman Picking up the Railroads

Washington, Dec. 20.—Statements have reached Washington that the Nicaraguan Government has concluded with an Englishman named Morgan an arrangement through which he secures control, b actual purchase, of all the railroad lines in that country. These roads run from Geronada to Managua, the capital, and from Momotumbo to Corinto.

The same report has it that all the steamers, certainly three in Lake Managua, are also included in the deal, which, in addition, gives Morgan the right to build railroads from Lake Nicaragua to Rama and to Rio Grande. Rama is the principal fruit shipping centre of the country.

WILL KEEP COOL AND BE READY.

The United States Must be Made to Understand That England Will Not Flinch.

London, Dec. 20.—The Globe says: Signs of subsidence of the war fever in America are neither numerous nor impressive. If the United States have made up their minds to seize this wretched Venezuela question as an excuse for a conflict, they must be made to understand that we will not flinch from the logical results of what we have undertaken. England will keep cool and be ready.

The Globe further says that the holders of American railway stocks here and on the continent are selling indiscriminately, and are in a state of semi-panic, fearing that the present political disturbance will lead to a financial panic in the United States.

The Spectator will to-morrw publish an article which says: "The event and the document are of grave importance. It is difficult for Englishmen to conceive circumstances under which they would willingly go to war with the United States. At the present moment such a war would seem to Englishmen peculiarly horrible owing to the present complications in Europe and the desire, in which the statesmen of the American Union share, to rescue the people of Armenia from blood-thirsty tyranny. It is clear, however, that the dominant party in the United States push forward pretences to which no self-respecting power could possibly submit.

"To submit to it is to confess that we regard our American posessions as no longer independent. Nobody here has the faintest idea of conquering, colonizing or claiming any fresh portion of either of the two Americas, and nobody disputed the right of the United States to defend any state in America which she may think it proper in her interests to defend. All we maintain is that we are entitled to protect against Spanish aggression, frontiers which we believe are unquestionably ours and which the people of the United States, if Guiana were theirs, would similarly defend. We are not even defending them against the United States, whose nearest territory is 1200 miles distant, but against a turbulent little Spanish state which was born after we made our settlement in Guiana and therefore is in no way assailed, menaced or injured by our action.

The Spectator quotes from Salisbury's note to Olney, and concludes: "Are we, therefore, to quarrel, possibly fight, and possibly ruin one another about nothing? We cannot believe that the American people, despite the language of some American politicians, desire such a struggle, as we are absolutely certain that our people regard it with horror and detestation. To Englishmen, war with the United States is a civil war which they will never commence unless they are driven to it by direct menaces to their own territory. Still, British Guiana to the Schomburk line is her own."

The Speaker (Gladstonian) says: "We have no reason to thank Mr. Cleveland that the peace of the world is not disturbed by the incredible crime of war between England and the United States. He has brought the two countries into a position of such extreme danger and difficulty that only the good sense and the good feeling that are at the root of the character of the two peoples can be trusted to avert a fatal collision. Who is responsible for bringing the two countries to the point of contemplating a struggle which would ruin both for a generation? Not England. Has she shown any disposition to trespass upon the rights of the people of the United States? Has she failed in the usages of diplomatic courtesy? No fair-minded American dare answer in the affirmative. If Lord Salisbury had wilfully provoked public feeling in America, it would not have been left to the Americans to rebuke and punish him. We are not among the adherents of Lord Salisbury, but we must affirm that we fail to find in his despatches a single line to which reasonable Americans can object. The trumpery question of Venezuela, which is made the excuse for Mr. Cleveland's shrill challenge, is in itself the merest subterfuge. The manœuvre may succeed as a party stratagem for securing Mr. Cleveland's election for himself or his nominee, but he will have bought his triumph at a price which few men would care to pay. There is no need to discuss the monstrous pretensions contained in President Cleveland's message and Secretary Olney's despatch. If they mean anything they mean that notice to quit the new world is served in the rudest manner upon Great Britain. Surely Mr. Cleveland must know that a great power will not accept such a notice until she has exhausted all of the resources at her command for resisting aggression which if successful would destroy her status before the world."

A Revulsion Probable.

London, Dec. 20.—The Standard predicts that before many days there will be a striking revulsion of popular sentiment in the United States. The American mind, it says, is clear and logical, and Americans fully share with the British in what they both call love of fair play. It adds: "We feel confident that a vast majority of the Americans will soon be profoundly sorry for what Mr. Cleveland has done."

SPECIAL EDITIONS OF OUR CONTEMPORARIES.

Journalistic Recognition of the Christmas Season.

Newspaper men are generally hard-headed and practical, and while not hard-hearted also, they have not much sentiment—that has been rasped pretty thin by contact with the rough side of human nature that daily enters into their experience. Yet they are all influenced by the genial spirit of the Christmas-tide and many give typographical expression to their feelings. THE EXAMINER has been favoured with several copies of special Christmas editions. These received are worthy of mention without praise.

The Kingston British Whig, "the daddy of them all" in respect of age, issues a beautifully printed and illustrated special Christmas edition, well-filled with excellent Christmas reading and pictures, as well as two specially interesting local pages, with fine photogravaeurs of local scenes and local personages, among which the portrait of Geo. H. Allen, a former Peterboroughonian, is conspicuous.

The Port Hope Guide also issues a special Christmas supplement, printed on toned paper, full of good holiday reading, nicely illustrated and well-filled with live advertisements.

The Cornwall Standard also issues a beautifully-printed and illustrated Christmas number, suggestive all over of the festive season, both in its illustrations and letter, press and its neatly-displayed advertisements. It must be a most welcome visitor to the households of its patrons.

The Christmas number of the Orillia Times devotes its principal attention to a description of Orillia's beautiful new $25,000 market building and opera house. The number contains a fine picture of the new building, which is an elegant looking structure; a portrait of Prof. Goldwin Smith, who in 1872 presented to Orillia a site for a market, and also portraits of other gentlemen connected with the erecting of the building.

The Woodstock Sentinel-Review deserves great credit for its really beautiful special illustrated industrial number. In the comprehensive character of its letterpress, descriptive of the chief industries of the town and its exceedingly effective photogravures of the several industries and of the chief business citizens, in excellence of tasteful, clear, clean typography on strong heavy paper, this special number deserves to rank as a model. It is a credit to both the enterprising proprietor and well-equipped establishment that produced it, and to the town whose public spirit warrants so successfully-executed an enterprise.

A POPULAR ACT OF PARLIAMENT.

The Inspection of Electric Light Meters Enforced.

The last session of the Dominion Parliament was fruitful of at least one statute which meets with public approval, the provisions of which are being now put into force. We refer to the Inspection of Electric Light Meters Act. The regulations made under this Act required that electric light companies would have one-third of their meters tested by the 1st of December, 1895, the second third by the 1st of March, 1896, and the last third by the 1st of June, after which they were liable to a fine of not more than $50 or less than $25, for using a meter that was unstamped. That the act is popular with both the company and its customers here is proven by the fact that this morning Mr. Wm. Johnston, of Belleville, the Divisional Inspector, completed the inspection of all the meters owned by the Light and Power Company, the company realizing that it was in their interests to have this done, and because there was a general request from their patrons for it. It will interest the users of these meters to know that they were brought direct from their premises to the Inspector, so that if there were any defects in them he discovered them. Notwithstanding all the talk there has been about the unreliability of these meters, the mode of testing them is such that any error must be apparent, and as two meters are used to test them—a Volt meter and a Watt meter—and these must agree. With few exceptions all the meters here were passed by the Inspector, although a number of them have been three years in use.

Christmas business is rushing, but we are going to have a greater rush still as announced by me yesterday. I shall hold on Friday and Saturday the greatest cigar sale ever known in Peterborough. I have lately imported 22,000 cigars direct from Havana, and you can get them at prices that will paralyze you. Look at our list on first page, second column. CORRESPONDENCE RE WOLFE STREET SHEDS.

THE MATTER UNDER DISCUSSION BETWEEN THE TOWN AND C.P.R.

The Correspondence Submitted — The Question of the Bona Fides of the Town Towards the Railway—Material for Public Judgment.

To the Editor of the Examiner:

DEAR SIR,—Your readers will remember that in order to induce the Edison Company to locate their works in your town, it was necessary to provide that company with independent railway facilities from the lines of both the Grand Trunk and Canadian Pacific by means of independent sidings, leading from the main lines of these railways to the Edison Works. The Canadian Pacific having constructed such a siding, it was found that an independent siding from the Grand Trunk could not be laid into the Edison Works without interference with, or the use of part of the Canadian Pacific siding.

Mr. Stevenson, the then mayor, accordingly took the matter up with Mr. Tait, General Superintendent of the Canadian Pacific, at Toronto, and the following correspondence ensued:—

Under date 7th January, 1891, Mr. Stevenson wrote to Mr. Tait as follows:

PETERBOROUGH, Ont., Jan. 7, 1891.

Thomas Tait, Esq., Superintendent C. P. R., Toronto.

MY DEAR SIR,—I regret that I have been unable to send you a plan of the intended siding sooner, but unfortunately the Edison Company have signified a very decided desire to have the siding from the G. T. R. railway to their works on the line shown you, by which the town is to purchase a right of way and have a junction with the line you put in, and having branches into the company's works. The town has decided it must comply, and we are obtaining options for purchase of the right of way, and having plans prepared. I would like you to let me know what the cost is of laying down the line you put in, that we may pay your company for it and take a transfer to the town.

I need not say that I regret exceedingly the arrangement first proposed with your company cannot be carried out, but as you know, that it was not any fault of the town that it was not and had to be changed, but as above shown, we wish to put the matter as favorably as we can for your company.

Kindly let me hear from you early, as we wish to close a matter with the Edison Company that has given the town a great deal of trouble and anxiety.

Of course your company will be provided with proper facilities to the Edison Company's works. I am, my dear sir,

Yours very truly,
J. STEVENSON.

To which the following reply was made by Mr. Tait:

TORONTO, January 19th, 1891.

James Stevenson Esq., Mayor, Peterborough, Ont.

DEAR SIR,—I duly received your letter of January 7th, but delayed my reply waiting an accurate statement of the cost of the siding we built to the Edison Company's property. I have not even yet obtained this. My understanding of the arrangement you now propose is that the town of Peterborough should take over from this Company this siding built from its transfer track to the Edison Company's property, paying this company the entire cost of the same and maintaining it hereafter, giving this company the right to run its engines and cars over this track. I think I am safe in saying there will be no difficulty in carrying out this arrangement. We wish in every way to help the town of Peterborough out of the unfortunate position it is in in regard to connecting the Edison Company's works with the Grand Trunk and our own line, and we feel disposed to agree to the arrangement above outlined. At the same time we feel that if we do so we should receive some consideration from the town of Peterborough in one or two matters that are outstanding. I refer to the closing of Wolfe and Water streets across our tracks and property. We would like to have the town dispose of these now for all time. It is also understood that the town is to give this company deeds for any land owned by the town or held by the town commissioners which the company may now occupy. Kindly let me know if you can arrange this. It must be thoroughly understood that the Edison Electric Light Company are to give this company the same access and rights on the same terms over the sidings owned or controlled by them as they may give to the Grand Trunk or any other railway company. We would like the Edison Company to be a party to the agreement between the town of Peterborough and the railway companies, which I presume you will have drawn up for execution, and a clause to this effect inserted in that agreement.

Yours truly,
THOMAS TAIT,
Gen. Superintendent.

Mr. Stevenson then wrote to Mr. Tait on the 22nd of January, 1891, with regard to the charge of $2.00 a car which was being paid for the handling of Grand Trunk cars on the siding of the Canadian Pacific, asking for a reduction in this charge, to which Mr. Tait replied on the 26th of January, 1891, declining to do so, and proceeds:

"If the town will officially close up Wolfe street and Water street across our property, deed this company half of lot No. 11 at the corner of Stewart and Rink streets on which our stock yard stands, pay the entire cost of the siding we built from our transfer track to the Edison Company's property and agree to maintain it and give this company the right to run its engines and cars over it for all time free of charge whatever, and further have an agreement drawn up between the Edison Company, the town and this company, under which this company shall have the same rights on the sidings owned and controlled by the Edison Company, as that afforded to any other railway company an arrangement might then be made which the Grand Trunk should be able to shunt its own cars to and from the Edison Company's premises over the siding which this company built to connect with the Edison Company's sidings, pending the completion of direct connection from the Grand Trunk tracks.

If this arrangement was carried out the town would then be relieved from paying any further charges for shunting cars to and from the Edison Company's sidings.

Yours truly,
THOMAS TAIT,
Gen. Superintendent.

Subsequently Mr. Tait was interviewed by a delegation from the town, and the conditions in Mr. Tait's letter of the 26th January last quoted, were modified to the extent mentioned in Mr. Tait's letter of February 5th, 1891, to Mr. Stevenson, which is as follows:—

February 15th, 1891.

Mr. James Stevenson, Esq., Mayor, Peterborough, Ont.

DEAR SIR,—After an interview with your delegation from Peterborough this morning, I have agreed to modify my letter of January 26th as follows:—That we will not insist on the closing of Wolfe and Water streets across our property and tracks. It is understood however that the Town of Peterborough will confirm the location of our freight shed and stand pipe as they now stand on Wolfe street and give us a perpetual lease of so much of the street as they occupy. We will have no objection to a small portion of our property near the upper end of the transfer track being used for the Grand Trunk siding, and we will lease it to the town at a nominal rental. We will agree to maintain the siding from our line into the Edison Company's works up to its junction with that portion of the siding owned by the town.

Yours very truly,
THOS. TAIT,
General Superintendent.

To which Mr. Stevenson signified his assent on the 7th of February, 1891, as follows:

Peterborough, Ont., Feb. 7th, 1891.

RE. EDISON COMPANY SIDING.

Thos. Tait, Esq., General Superintendent C.P.R., Toronto, Ont.

DEAR SIR,—Your letter of the 5th inst. received and I am glad to hear the matter is settled, although at considerable expense to the town which I had hoped could have been avoided.

We will proceed at once to acquire the right of way for the Grand Trunk siding and will send you a plan of the same. Will you, in the meantime, let me know the exact cost of the siding put in by your company and also notify your agent here to allow the Grand Trunk to use the siding and your transfer track in order to serve the Edison Company until the Grand Trunk siding can be built, as offered by your letter of the 26th January last.

Yours truly,
JAS. STEVENSON,
Mayor.

To which Mr. Tait replied on the 2nd of March:

James Stevenson, Esq., Mayor, Peterborough, Ont.

DEAR SIR,—Referring to your letter of the 7th ultimo, I enclose you herewith a statement showing the cost of the siding built to the Edison Company's property from our transfer track at Peterborough, amounting to $1463 81.

Will you please send me a certified copy of the resolution of your council agreeing to the arrangement covered by my letters to you of Jan. 26th and Feb. 5th.

I would like as soon as possible to get a deed of the half of lot 11 at the corner of Stewart and Rink streets referred to. Also an official confirmation of the location of our freight shed and stand pipe as they now stand on Wolfe street and a perpetual lease of so much of the street as they occupy.

I think that the agreement which I referred to in my letters of Jan. 26th under which this company will be guaranteed the same rights on the sidings owned and controlled by either the town or the Edison company as that afforded to any other railway should be drawn up and executed as soon as possible.

If you will let me know how much of our land is required at the upper end of our transfer track in order to build the spur siding from the Grand Trunk I will arrange for a lease of it at a nominal rental in favor of the town.

Yours truly,
THOS. TAIT,
General Superintendent.

The town council, then, on the 6th of April, 1891, passed bylaw No. 641 to authorize the mayor and clerk to execute a lease for ninety nine years at a nominal rental to the company of that part of Wolfe street now occupied by the freight shed of the company and in the second clause of this bylaw it was provided that the bylaw should not come into force until after the company shall have filed with the clerk a bond indemifying the corporation against all suits and costs of whatever kind by reason of the passage of this bylaw.

At the same meeting the following resolution was passed:

"That this council request the commissioners of Peterborough Town Trust to convey for a nominal consideration to the Canadian Pacific Railway Company the north half of lot number eleven, south of Rink street and west of George street in order to carry out the arrangement come to between the town and the railway company as to the Edison Company's siding."

On the 11th of April 1891, a cheque for $1463.81, the cost of this siding, was forwarded by the town clerk to Mr. Tait with the following letter:

OFFICE OF THE MAYOR, PETERBOROUGH, April 11th, 1891.

Thos. Tait, Esq., C.P.R., Toronto:

DEAR SIR,—Enclosed you will please find cheque for $1461.81 being in full of your cost in putting in siding to the grounds of the Edison Company of the Town of Peterborough. The agreement between the G.T.R., the town and the Edison Company cover the points mentioned in your correspondence. I remain,

Yours very truly,
JAS. A. MACDONALD,
Town Clerk.

Mr. Tait then on the 16th of April, wrote to Mr. Stevenson, as follows:

Jas. Stevenson, Esq. Mayor, Peterborough:

DEAR SIR,—I have received from Mr. J A. McDonald, town clerk of Peterborough, a cheque on the Ontario Bank for $1463.81 being the cost of the siding put in from our transfer track to the Edison Company's property, as per my letter to you of March 2nd.

I have also received from him a copy of the bylaw No. 641 passed by your town council, and of a resolution approving the same. This bylaw is not quite satisfactory. It does not confirm the location of our stand pipe on the line of Wolfe street, which, you will remember it was understood should be arranged. It is also unsatisfactory inasmuch as the condition of its coming into force is that we shall give the corporation a bond of indemnity from damages of whatever kind by reason of their passing it.

This is entirely outside of the understanding; and this company cannot give any such bond.

Mr. McDonald has also sent me a copy of the resolution of the council requesting the Commissioners of the Town Trust to convey to this company for a nominal consideration, the north half of lot No. 11 south of Rink street and west of George street. Of course this is satisfactory as far as it goes. But we cannot consider the matter closed until we recieve a deed from the Town Trust to give us a deed at an early date.

Until the above matters are arranged satisfactorily I will not cash the cheque sent me, and if you prefer it, will return it to you.

Yours truly,
THOS. TAIT, General Supt.

To which Mr. Stevenson replied on the 23rd April, 1891, as follows:

Thos. Tait, Esq., Superintendent, C.P.R., Toronto.

DEAR SIR,—Enclosed please find plan of G.T.R. siding into the Edison Works in reply to Mr. Moore's telegram.

The Town Trust Commissioners meet tomorrow (Friday) at 4 o'clock, when they will give the deed of land as requested. We also change the wording of the bylaw in accordance with your wishes.

Yours very truly,
J. STEVENSON,

Kindly return the enclosed plan.

Mr. Tait then on the 5th of May, 1891, wrote Mr. Stevenson, insisting upon the arrangement already made being carried out in its entirety, the portion of his letter dealing with this matter being as follows:

I understand your Council has had a meeting during the last few days. I am waiting to receive a certified copy of the bylaw or resolution, which no doubt was passed as promised, in regard to the occupation of Wolfe street by our freight shed and stand pipe. I have yet also to receive a deed for the north half of lot 11 on which our stock yard stands. It was also understood that the town should undertake to give us access at all times over the siding built from our line to the Edison Company's Works, and agree to obtain from the Edison Company an undertaking to give us at all times the same rights on the siding into their property as any other railway company.

I trust you will see that these matters are attended to as soon as possible, so that this vexatious matter may be disposed of at once and for all.

Yours truly,
THOS. TAIT,
General Superintendent.

To which Mr. Stevenson replied on the 9th May, 1891, as follows:

T. Tait, Esq. Toronto.

MY DEAR TAIT,—I have just returned from Ottawa and find that the Council has under my name, been in correspondence with you this week.

Though the letters were written and signed in my absence I hope that they have been of a satisfactory nature to you.

There has been no Council meeting for some time, but on their first meeting I shall endeavor to have our arrangement carried out.

Yours truly,
J. STEVENSON.

Mr. Tait then wrote the following letters without receiving any reply:

TORONTO, May 29th, 1891.

Jas. Stevenson, Esq., Mayor, Peterborough, Ont.

DEAR SIR,—Will you kindly see that the arrangement between the town of Peterborough and this company in connection with the settlement of the difficulty in regard to the siding to the Edison Company's Works is completed?

We have yet to receive a certified copy of the bylaw or resolution in regard to the occupation of Wolfe street by our freight shed and stand pipe; also a deed for the north half of lot 11 on which our stock yards stands, and the undertaking from the town and the Edison Company to give us at all times the same rights and privileges on the sidings into and on the Edison Company's property as any other railway company.

I think you must be, as I am, sick of this subject, and tired of the endless correspondence which has taken place about it, and I trust, therefore, you will do what you can to get rid of it.

Yours truly,
THOS. TAIT,
General Superintendent.

TORONTO, October 3rd, 1891.

James Stevenson, Esq., Mayor Peterborough, Ont.

DEAR SIR,—I wrote you on May 29th asking you on behalf of the town of Peterborough to carry out the arrangement made with this company in connection with the siding for the Edison Company's works. Will you please advise me whether the town proposes to carry out the promises made by its representatives in this matter.

Yours very truly,
T. TAIT,
General Superintendent.

I leave your readers to judge whether the recent action of your council in instructing their solicitor to enter a suit to compel this company to remove the small portion of their freight shed off Wolfe street is justified, and also whether the representatives of the town of Peterborough have in this matter acted in good faith.

Yours truly,
J. W. LEONARD,
General Superintendent C. P. R.

HON. G. W. ROSS.

His Speech on the Manitoba School Question.

HOW TO REACH A SETTLEMENT

The Ill-Judged Act of the Dominion Government in Issuing the Remedial Order—Careful Consideration of the Rights of the Minority.

Montreal, Dec. 20.—Following will be found a synopsis of the remarks of Hon. G. W. Ross on the Manitoba school question at the Liberal meeting here on Thursday evening.

As the Manitoba Legislature had beyond question the right (and the Privy Council has so decided) to pass the School Act of 1890, I offer no observation with regard to it except this that I believe, under the act by which Manitoba entered the Union, it was understood by all the other provinces that the minority, whether Protestant or Catholic, would have the right to establish denominational schools. It was the merest mockery to empower the Dominion Government to interfere for the protection of denominational schools unless it was assumed that such schools existed and that in the changes incident to the growth of a new country, they might need protection from possible interference some time in the future.

But even if the Roman Catholics had no constitutional rights to denominational schools, had they no vested rights? The Manitoba Legislature itself called them into existence. If they had no standing under the Union Act, which Manitoba was bound to respect, surely the Legislature ought to pay some deference to its own legislation. Had the Catholics numbered 70,000 instead of 20,000, would the Legislature have acted so inconsiderately? Even admitting for the sake of argument that Separate schools are undesirable, yet the right of one-seventh of the whole population to such schools up to 1890 had not been questioned. Their teachers were recognised as duly qualified according to law, the taxpayers had contributed for the erection of school buildings and the purchase of school sites, and held them by a legal title. Was it a reasonable thing, or a kindly thing, or in harmony with British practice to disqualify the teachers of the Separate Schools and turn them all adrift to earn their bread in some other way, and to transfer school property which had been paid for by the Roman Catholic taxpayer and held for him by trustees appointed under a totally changed condition of things? Were not the rights or privileges arising out of the laws which the Legislature of Manitoba had itself passed to be considered at this stage, if the Union Act had no force or effect?

Let us look upon the matter in the light of well-recognized Canadian precedents if you will. In my early days we were very much disturbed in Ontario by an agitation for the secularization of the clergy reserves. The people of my province thought it was unfair that Episcopalians and one section of the Presbyterian church should be specially endowed by the state, whilst all other denominations, Catholics included, had to support their own clergy, and so they began an agitation which finally resulted in the abolition of the clergy reserves. This was in 1854. But what was done with the clergmen who were dependent for their incomes on the endowment provided by the state? Were they cut adrift penniless and homeless? Not at all. Every single clergyman whose income was dependent upon the endowment of the state was protected to the uttermost farthing, the remainder of the endowment being distributed among the people of the province, to whom it originally belonged. That is what I call British justice as interpreted by that great Conservative leader lately passed away, Sir John Macdonld. (Applause.)

One other precedent, the force of which Manitoba must see. When the Dominion of Canada took possession of the Northwest Territories, the rights of the Hudson Bay Company, although they were mere traders in the furs and skins of wild animals, were duly considered. It is difficult at first sight to see how the mere right to trade over millions of acres gave to the Hudson Bay Company any possessory right in the land, and yet the Imperial Government considered the Hudson Bay Company had such right, and the Legislature of Manitoba, when they passed the act of 1890, and deprived denominational schools of the privileges which they had themselves conferred upon them, did so in sight of property conferred by Imperial legislation upon the Hudson Bay Company in recognition of the principle of vested rights. That was in 1869, under the statesmanship of Lord Beaconsfield.

Well, what happened next? The Roman Catholics appealed to the Privy Council, failed on the first appeal, appealed again and succeeded at last so far as to be told that they had a grievance—a grievance sufficiently serious to warrant the Dominion Government in exercising the remedial powers entrusted to it by the British North America Act. And now we enter upon another phase of the question. The storm centre has moved from Winnipeg to Ottawa, from the Local Legislature to the Legislature of the Dominion, and here we are face to face with the question in its most serious aspect.

With a haste, not to say precipitancy, which wanted the calmness of mature deliberation, a remedial order was passed by the Dominion Government, couched in peremptory terms, asking Manitoba practically to restore the denominational schools which had been abolished by the act of 1890. Now, you will allow me to say, and I say it with all respect to the Government at Ottawa, that I believe this remedial order was a mistake, that it was premature, that it was impolitic, and if pressed in the present tone and temper of the country will produce an irritated condition of the public mind which will not subside for many years. (Hear, hear.) If I were a Roman Catholic, as Iam not, and understanding the question as I do, I would not ask for remedial legislation. Why? Suppose the 20,000 Roman Catholics of Manitoba get Separate Schools by the legislation of the Dominion Parliament how will their schools be regarded by the people of Manitoba? If they were considered objectionable when they existd under Provincial legislation, they will be a thousand times more objectionable under Dominion legislation, and they may depend upon it, for it is human nature, that in countless ways they will be subjected to attacks which may in certain respects neutralize the comforts and the anticipated advantages of Separate Schools. (Applause.)

Then in the future, as is most probable, should any change be required in the law respecting Separate Schools, how are these changes to be effected? Th Manitoba Lgislature cannot alter the law in respect to a single jot or tittle. Any alterations deemed necessary must be made by the House of Commons, and its power to mend even its own laws in a matter of this kind is questioned by the best legal authorities. To my mind remedial legislation by the Dominion Government is a poor substitute for legislation by the Province, and if I were a Roman Catholic and had the choice of taking remedial legislation from the Dominion Government now and remedial legislation from the Manitoba Legislature, even if I had to wait some time for it. I would wait, holding my constitutional rights in reserve until public opinion had an opportunity of reconsidering the situation in the light of the judgment of the Privy Council. (Applause.)

But while the Dominion Government had the right to issue a remedial order, the time at which such order should be issued is a matter of judgment and policy. I think they acted hastily. I think a broader statesmanship would have given Manitoba some time to consider the situation, would have given the people of Manitoba, irrespective of creed, time to view the question from every standpoint, and if they then declined it would be time enough for the Dominion Government to enforce the constitutional obligations with which it was entrusted.
